

## AMENDMENTS TO HOUSE BILL NO. 1401

Sponsor: REPRESENTATIVE C. QUINN

Printer's No. 2610

1 Amend Bill, page 36, by inserting between lines 5 and 6

2 Section 2404.1. Air quality permits for unconventional natural  
3 gas well sites.

4 (a) Permits.--As authorized by the act of January 8, 1960  
5 (1959 P.L.2119, No.787), known as the Air Pollution Control Act,  
6 the department shall finalize the proposed General Plan Approval  
7 and/or General Operating Permit for Unconventional Natural Gas  
8 Well Site Operations and Remote Pigging Stations (BAQ-GPA/GP-5A  
9 or GP-5A) published in 47 Pa.B. 733, so long as it permits the  
10 department to accept applications demonstrating compliance with  
11 the permit and plan approval conditions for unconventional well  
12 sites and remote pigging stations not more than 30 calendar days  
13 following the date of first production or first operation.

14 (b) Preproduction activities.--As authorized under the Air  
15 Pollution Control Act, the department shall establish  
16 requirements for preproduction activities, consistent with the  
17 best available technology as determined by the department in GP-  
18 5A, to be included in Air Quality Permit Exemption Category No.  
19 38, which is contained in the department's final guidance on  
20 plan approval and operating permit exemptions.
