FISCAL NOTE

HOUSE BILL: 1531

PRINTER'S NO: 2737

PRIME SPONSOR: George

FISCAL IMPACT SUMMARY	FY 2009/10	FY 2010/11
Expenditure Increase/(Decrease):		
General Fund	See Analysis	See Analysis
Revenue Increase/(Decrease):		
General Fund	\$2,027,277,000	\$1,430,865,000
Local Government Funds	\$3,640,000	\$10,373,000

OVERVIEW:

This bill amends the Tax Reform Code of 1971 by making various changes to the sales and use tax, personal income tax remittance schedule, corporate net income tax, capital stock and franchise tax, gross receipts tax on managed care, cigarette tax, various tax credit programs, and extends sunset dates on various check-off programs. This bill would also impose a new tax on other tobacco products (smokeless tobacco and cigars), table games, severance tax on natural gas extraction, and create a tax amnesty program.

ANALYSIS:

The following table is a summary of each of the changes to the tax code that are contained in this bill, as well as the estimated revenue or expense associated with each item. The Department of Revenue has estimated that the cost of implementing the tax amnesty program will cost approximately \$13 million. Due to the high volume of tax changes which would occur near the same time, the Department could incur additional costs to implement the following tax changes. A total estimate of that cost is not available at this time.

Gross Receipts Tax on Managed Care

In response to a federal change that took effect October 1, 2009, the Governor's Executive Budget proposed a 2 percent statewide assessment on all managed care organizations as new funding source for Medical Assistance managed care, replacing the previous assessment which terminated September 30, 2009 in accordance with federal law. As an alternative to the Governor's proposed statewide assessment, House Bill 1531 would institute a state gross receipts tax on managed care organizations (MCOs) that are under contract with the Department of Public Welfare and enroll Medical Assistance recipients – these are the same managed care organizations that paid the recently terminated assessment. Revenue from the gross receipts tax will be used to draw down additional federal Medicaid matching funds for the Medical Assistance managed care program. The Commonwealth earns the additional federal match by making a supplemental payment to the Medicaid MCOs that is equal to the gross receipts tax paid by the MCOs and then seeking federal reimbursement for the supplemental payment.

The gross receipts tax on managed care organization will generate \$528.548 million in 2009/10 and \$529.459 million in 2010/11. The Commonwealth will, in turn, incur a concomitant expense in the form of the supplemental MCO payments (which are equal to the tax paid). These payments are anticipated to draw additional federal Medicaid matching funds of \$316.118 million in 2009/10 and \$317.060 million in 2010/11. Consequently, the net revenue gain to the Commonwealth is equal to the federal Medicaid match.

If the federal government determines that this tax is not permissible for federal financial participation, the tax will be eliminated and the General Assembly will have 60 days to enact legislation that provides replacement revenue for the lost federal funds. If legislation is not enacted, the Department of Public Welfare may exercise any of the rights under its Medicaid managed care contract to cease payments under or terminate the contract for services due to the lack of funding to cover payments or services.
