SUBJECT: Invitation for Co-Sponsorship
**Resolution calling for the Obama administration to preserve
regulations protecting health care providers' right of conscience**

We will soon be introducing a resolution that will call on President Obama to preserve regulations put in place by President Bush to protect a health care provider's ability to object to providing abortion-related services that they feel violate their conscience. Recent media reports indicate that President Obama intends to impose new regulations that will remove these protections.

If you wish to join me in sponsoring this resolution, please contact at Colleen Kennedy at 717-787-5490 or ckennedy@pasen.gov.
