

COMMONWEALTH OF PENNSYLVANIA

LEGISLATIVE JOURNAL

TUESDAY, MARCH 18, 2014

SESSION OF 2014

198TH OF THE GENERAL ASSEMBLY

No. 16

HOUSE OF REPRESENTATIVES

The House convened at 11 a.m., e.d.t.

THE SPEAKER (SAMUEL H. SMITH) PRESIDING

PRAYER

HON. KAREN BOBACK, member of the House of Representatives, offered the following prayer:

Heavenly Father, smile upon us today as we continue our work in preserving the common good. Give us the strength and courage to make the hard decisions that will ultimately make a positive difference in this great State. May we be respectful of one another as we discuss and debate issues that directly affect our own districts and those of our neighbors. Help us to realize that a diverse State such as ours calls for legislation that shows no favoritism, but is fair and just for all.

Let us remember that we are of the people, by the people, and put here to be for the people. And, dear Lord, may we never forget that we represent You first, and then those who put us in this great House. In Your holy name we say, Amen.

PLEDGE OF ALLEGIANCE

(The Pledge of Allegiance was recited by members and visitors.)

JOURNAL APPROVAL POSTPONED

The SPEAKER. Without objection, the Journal of Monday, March 17, 2014, will be postponed until printed.

LEAVE OF ABSENCE

The SPEAKER. The Speaker returns to leaves of absence and recognizes the majority whip, who requests a leave of absence for the gentleman from Huntingdon County, Mr. FLECK, for the remainder of the day. Without objection, the leave will be granted.

STATEMENT BY MS. HARPER

The SPEAKER. Is the lady from Montgomery County, Ms. Harper, seeking recognition under unanimous consent relative to one of the resolutions just adopted?

The lady is in order and may proceed.

Ms. HARPER. Thank you very much, Mr. Speaker.

And thank you members of the House for unanimously approving HR 712, which designates the week of April 14-18 as "Local Government Week," and April 15 as "Local Government Day" in Pennsylvania. Many of us in the General Assembly have served at one time or another in our local governments. We are familiar with the night meetings, face-to-face interactions, and the idea that if the parking lot is full, it is not going to be a good night for the local government. And that is because we know that people do not fill parking lots or borough halls or township buildings when they are happy. They only fill parking lots and borough halls and township buildings when they are upset or angry or really want to make their point about a subject that is on the agenda. We know this, and for that reason we do appreciate the work that people do in local government every day and on most nights of the week.

Because many of us have served in local government, we know that the mayor and the members of the borough council or the city council, the township supervisors or the township commissioners, and everyone who serves on an authority or recycling commission are on the front lines of our democracy. In night meetings on any night of the week, or maybe on a Saturday morning, they deal with roads and bridges, with libraries, with parks, with recreation, with volunteer firefighters, with ambulance crews, with libraries, and everything in between. And we know that most of them serve not for any kind of pay – and many of them are unpaid – but because they truly believe in their own hearts that they should serve out of a sense of civic duty to their communities.

At the local government level, it is government by the neighbors for the neighbors, and we all know that it is very personal. The Commonwealth of Pennsylvania is blessed with a network of local governments, more than most States, and by thousands of men and women who serve our local government units. More than 4600 Pennsylvania citizens serve their local governments in one capacity or another. They are the backbone of our democracy and the bedrock of our political system. In recognizing Local Government Week and Local Government Day today, we draw attention to the importance of having strong, independent local governments, and we thank the men and women who make our system of local government possible. Thank you all.

STATEMENT BY MR. FREEMAN

The SPEAKER. The Speaker recognizes the gentleman from Northampton County, Mr. Freeman, under unanimous consent relative to one of the resolutions just adopted.

Mr. FREEMAN. Thank you, Mr. Speaker.

Mr. Speaker, I rise to express my thanks to the House for unanimously passing HR 712, and I am pleased to join with Chairman Harper in sponsoring this resolution to recognize the many contributions made by local government here in Pennsylvania. Local government officials put in long hours, as Chairman Harper referenced, often with little compensation for their public service. They do this because of a commitment to making their communities better places in which to live, work, and raise a family. Local officials are charged with meeting the everyday needs of our communities – needs often taken for granted but are truly essential to the well-being of the people who live in our communities across this great Commonwealth. Local officials are often tasked, too, with making tough decisions that greatly affect and shape their communities, not only in the present but for generations to come – very tough decisions that they take that responsibility on for.

With this resolution, we recognize the valuable contribution made by local government in the lives of all Pennsylvania citizens and show our appreciation for their services and good efforts on behalf of the public here in Pennsylvania. So again, my thanks to the House for the unanimous support for HR 712.

The SPEAKER. The Speaker thanks the gentleman.

STATEMENT BY MR. COHEN

The SPEAKER. The Speaker recognizes the gentleman from Philadelphia, Mr. Cohen, under unanimous consent relative to one of the resolutions just adopted.

Mr. COHEN. Thank you, Mr. Speaker.

Mr. Speaker, I deeply appreciate the House's unanimous passage of HR 653, providing for National Small Business Weekend to be recognized by the House of Representatives as a regular holiday. Each year since 1894, the first Monday in September, known as Labor Day, Pennsylvania and the nation have paid tribute to the American worker. With this resolution, it is my hope that we are expanding on that tradition by calling on Pennsylvania to set aside the first weekend of every month as National Small Business Weekend.

This should serve as a reminder that people could help create American jobs and help sustain existing American jobs by shopping locally and buying American. Small businesses, as we all know, are the backbone of Pennsylvania's economy. Sixty million Americans who live and work in our neighborhoods around the State are employed by small businesses. Small businesses create the vast majority of new jobs. It is only by bringing family-sustaining jobs back home that we are going to help the overall economy. This resolution, to whatever degree it works to encourage Pennsylvanians to support their local businesses at least one weekend a month, will help create local jobs and boost the Pennsylvania economy.

This resolution is not unique. It is not unique in Pennsylvania. It is not unique nationally. Senator Michael Stack introduced a similar resolution in the State Senate, which was adopted in January of this year. In December of

2013 Philadelphia City Council also adopted a resolution recognizing "National Small Business Weekend."

Your vote on this resolution has helped immeasurably move the concept of a National Small Business Weekend forward. I deeply appreciate the support of each and every member of the House, and I hope the message we have sent today will resound throughout the Commonwealth for a long time to come.

Thank you, Mr. Speaker.

The SPEAKER. The Speaker thanks the gentleman.

CALENDAR

RESOLUTIONS PURSUANT TO RULE 35

Ms. V. BROWN called up **HR 600, PN 2862**, entitled:

A Resolution designating the month of February 2014 as "Black History Month" in Pennsylvania.

On the question,

Will the House adopt the resolution?

The SPEAKER. On that question, the Speaker recognizes the lady from Philadelphia County, Ms. Brown.

Ms. V. BROWN. Thank you, Mr. Speaker.

Thank you, and thanks to my colleagues for the vote today to recognize February 2014 as "Black History Month" in Pennsylvania. This is the 88th year since Carter G. Woodson initiated what has evolved into an annual observance of the innumerable contributions and achievements of African-Americans.

This year's theme is "Civil Rights Leaders in America." As chairwoman of the Pennsylvania Legislative Black Caucus, I want to take this opportunity to recognize the contributions of those who have led the way for us today. As the first African-American woman elected to my district, I know that it would not be possible if it had not been for those who challenged the status quo. While we often tend to focus on the more well-known national figures, we overlook the fact that there are many influential civil rights leaders who are right here in our own Commonwealth, local attorneys who fought racial discrimination in our Commonwealth's courtrooms. Raymond Pace Alexander was one of those attorneys. Alexander became the first Black graduate of the Wharton School of Business in 1920, and went on to become the first Black judge to be appointed to the Philadelphia Court of Common Pleas in 1959. Voter registration drives were a key part to the civil rights strategy of another local defense attorney and civil rights activist, Cecil B. Moore.

Additionally, there were countless other individuals who worked behind the scenes and served as the driving force behind the fight for social equality. One of the early leaders of the 20th century was Ms. Daisy Lampkin, who in 1915 was elected president of the Lucy Stone Woman Suffrage League, an organization of Black Pittsburgh women. She was also instrumental in forming the National Council of Negro Women, of which I am a member.

Another one of our honorees this year should be a very familiar person to you. The Honorable K. Leroy Irvis served as the first African-American Speaker of any State House in our nation. However, what many of you may not have known is that early in his career, Mr. Irvis played a key role in organizing

large-scale demonstrations in the United States during the late 1940s, most notably protests and boycotts of the Pittsburgh department stores for their discriminatory hiring and sales practices against African-Americans, predating the nonviolent demonstrations that Dr. Martin Luther King led.

Our distinguished honoree for 2014 is none other than Nelson Mandela. After serving 27 years in prison, Mandela led South Africa in democracy as President, and developed a strong international presence as an advocate for peace, reconciliation, and social justice up until his death in 2013 at the age of 95.

In closing, I would like to thank all of my colleagues again for supporting this resolution, and I encourage you to research and learn more about the lives of this year's honorees and the examples that they set and their endeavors to eradicate racism and inequality in Pennsylvania and all around the world.

I would like to also at this time thank all of our constituents who have come from the Philadelphia area to celebrate in this Black History Celebration, and again, I salute all of you for being here. And to our distinguished guest, Chief Methuselah Bradley, the Consul of Sierra Leone, for gracing us with his appearance today, and his delegation. Thank you so much, Mr. Speaker, and to my colleagues of the House.

Mr. FRANKEL called up **HR 683, PN 3074**, entitled:

A Resolution honoring Mark Nordenberg, Chancellor of the University of Pittsburgh, for his many years of service to the university and the Greater Pittsburgh region.

On the question,
Will the House adopt the resolution?

The SPEAKER. On that question, the Speaker recognizes the gentleman from Allegheny County, Mr. Frankel.

Mr. FRANKEL. Thank you, Mr. Speaker.

Mr. Speaker, I offer HR 683 to honor my friend and the friend of many of us on the floor today, University of Pittsburgh Chancellor Mark Nordenberg, for his decades of service to both the university and the entire western Pennsylvania region, and in fact, the entire Commonwealth of Pennsylvania. As many of you know, last year Chancellor Nordenberg announced that he would step down as chief executive of the University of Pittsburgh this summer following 19 years, 19 successful – and that is probably an understatement – years, successful years in that position.

During those years of service, the chancellor transformed a strong regional institution into a nationally recognized powerhouse. Pitt now attracts millions of research dollars annually and supports cutting-edge investigations that transform how we live. Pitt now ranks fifth nationally in the number of Federal research dollars behind only Johns Hopkins, Michigan, Washington, and Penn, and in 1995 when the chancellor began his tenure, Pitt ranked only 24th. During that climb Pitt has surpassed institutions like Harvard, Stanford, MIT (Massachusetts Institute of Technology), and Duke in dollars received.

Pitt's School of Medicine ranks fifth among U.S. medical schools in the National Institutes of Health funding, and the university ranks number one in funding from NIH's National Institute of Mental Health. Pitt's School of Nursing ranks third among U.S. nursing schools in NIH funding. That transformation into a nationally ranked research institution has

helped to transform our community. The \$9 billion in sponsored research support into the Commonwealth and the nearly \$760 million in sponsored research that the university has brought to western Pennsylvania over the past two decades is estimated to create more than 28,000 jobs annually.

Since 1995 Pitt's own employee base has risen by more than 30 percent, from nearly 9700 to more than 13,000. Much of that employment gain is attributable to the university's dramatic growth in research expenditures, from \$240 million in 1995 to more than \$800 million in 2012. Annually, over \$1.3 billion in personal income is generated in the region from over 30,000 Pitt-supported jobs. And this is important: The University of Pittsburgh remains an outstanding school for undergraduate education. For the ninth consecutive year, Kiplinger's Personal Finance ranks Pitt as the top value among public colleges and universities in Pennsylvania. Under Chancellor Nordenberg's tenure, enrollment has increased by over 20 percent. SAT (scholastic aptitude testing) college entrance exam scores have risen by over 180 points, and the university's endowment has increased sixfold.

The fall 2013 freshman class at the Pittsburgh campus was the strongest in the school's history and was drawn from their largest applicant pool ever. Additionally, the school is on pace to receive yet another record number of applications for the fall of 2014. Of course, Chancellor Nordenberg's service to the university began long before his election to chancellor in 1995 when he joined the faculty of the Pitt Law School in 1977. Chancellor Nordenberg would eventually serve the university in a number of different capacities through the years, including the dean of the School of Law, interim provost of the university, and a Distinguished Service Professor.

Mr. Speaker, allow me to list some of the school's recent accolades and accomplishments, all awarded during Chancellor Nordenberg's successful tenure. The university recently surpassed its \$2 billion fundraising campaign goal, with a total of nearly \$2.2 billion being donated by more than 188,000 donors. The school's endowment now stands at \$3 billion. One crucial component of Chancellor Nordenberg's legacy consists of the strong partnership that he helped forge with Carnegie Mellon University. For those of you unfamiliar with western Pennsylvania, these two institutions are part of the core of the region's education, research, and health services sector, which is the largest source of employment in the Pittsburgh metropolitan area, and the only sector that has added jobs every year since 1995. This sector was important in helping western Pennsylvania weather the economic downturn of the past several years.

As mentioned earlier, the university's reach extends far beyond the classroom as well. The University of Pittsburgh has been ranked as the top public university in the publication "Saviors of Our Cities: A Survey of Best College and University Civic Partnerships," which measured schools' economic development impacts on neighboring regions.

Mr. Speaker, Chancellor Nordenberg has led the university during challenging times, including an unprecedented reduction in State funding, while growing the size of the student body and maintaining and enhancing the high quality of a Pitt education. For these reasons he has been the recipient of numerous recognitions, including being named "Pittsburgh's Person of the Year" by Pittsburgh Magazine and a History Maker by the Senator John Heinz Center. There are many other awards and recognitions – I cannot list them all – but it is fitting and proper

that this House recognizes a man that has devoted his entire professional career to higher education in this Commonwealth, and in that process, helped to transform the lives of thousands of students and graduates and the entire western Pennsylvania region.

All the more fitting that this honor is before this House on Pitt Day, an annual event held here at the Capitol where faculty, staff, and students of the university meet with Representatives and Senators to highlight some of the University of Pittsburgh's achievements and overall importance of education to this State.

I ask that all members support this resolution – the chancellor is with us; he is up on the dais today – and to recognize him with this distinct honor.

Thank you, Mr. Speaker.

The SPEAKER. The Speaker thanks the gentleman.

The question is, will the House adopt the resolution?

On that question, the Speaker recognizes the gentleman from Allegheny County, Mr. Turzai.

Mr. TURZAI. Thank you very much, Mr. Speaker.

I am so honored to rise in support of the resolution, and also to be able to speak on behalf of a great friend to the Commonwealth of Pennsylvania, to the greater Pittsburgh area, to the University of Pittsburgh – Chancellor Mark Nordenberg.

I do want to say that Mark is a graduate of North Allegheny High School and was a resident of the 28th District – Mark, I have got to point out that important fact – and I must tell you, Mark, in leading this outstanding university, first founded in 1787, you and Nikki and your team can look back and say, "Did I take an institution and make it better?" It was already a great institution, Mark, and you have taken it to the highest levels.

In addition, what you have done as a leader with your team for our region, the Greater Pittsburgh region and its surrounding counties, we do not have enough thanks to pass on to you.

For many of you, when you have the opportunity to get to the University of Pittsburgh or to Allegheny County and the surrounding counties, much of our steady growth – and we have had steady growth – and economic activity and energy is driven by the presence of the University of Pittsburgh.

Thank you for your stewardship and thank you for your friendship. I stand in support of the resolution, and thanks for coming here today to see us on Pitt Day. All the best.

The SPEAKER. The Speaker thanks the gentleman.

The question is, will the House adopt the resolution?

On that question, the Speaker recognizes the gentleman from Allegheny County, Mr. Maher.

Mr. MAHER. Thank you, Mr. Speaker.

I have had the distinct pleasure to serve on the Board of Trustees at the University of Pittsburgh for nearly a decade, and it particularly has been a pleasure not just because the university is the economic development engine in western Pennsylvania and is the source of so many medical miracles that benefit people across our State and across the world, but because I have had the opportunity to work with Chancellor Mark Nordenberg. He is a transformational leader, there is no doubt. The ascension of the University of Pittsburgh by oh so many measures during his tenure is really unprecedented in the history of higher education in the country – unprecedented.

He leads with a tone from the top that he exhibits integrity, humility, a commitment to excellence, and a commitment to the community, and others at Pitt have followed his lead. He is to be applauded, and truly will never be replaced as chancellor but merely will be succeeded.

I thank you very much for your support of this resolution today, and I would mention that I am rather convinced, had this not been an entire surprise to Chancellor Nordenberg, that we would not be here today because of his great humility and because his dedication to the University of Pittsburgh is foremost, and it has never been about him. It has always been about the university and its community and its students.

So please join me in a resounding unanimous vote to celebrate the accomplishments of Mark Nordenberg.

The SPEAKER. The Speaker thanks the gentleman.

The question is, will the House adopt the resolution?

On that question, the Speaker recognizes the gentleman from Allegheny County, Mr. Wheatley.

Mr. WHEATLEY. Thank you, Mr. Speaker.

Mr. Speaker, I just wanted to rise being that my district, the heart of my district very much abuts and is a part of the University of Pittsburgh's campus, and for the last 12 years I have had the honor and the privilege to represent this district. And every year and throughout the year I have seen the positive impacts that the chancellor has had not only on the university, not only with the students, but with the surrounding neighborhoods and citizens.

So I stand here with honor and respect and a word from those citizens from the Hill District in Oakland that says not only will you be missed as the leader, but we hope that you will stay active and a part of what we are trying to do and continue the positive relationships that we have had with the University of Pittsburgh on into the future.

So I definitely want to ask our colleagues here to support this resolution, but also ask the chancellor to stay committed and continue with his positive influence as we continue to build positive things in the city of Pittsburgh. So thank you, Mr. Speaker.

The SPEAKER. The Speaker thanks the gentleman.

On the question recurring,

Will the House adopt the resolution?

Boyle, B. Fleck Miller, R.

The majority having voted in the affirmative, the question was determined in the affirmative and the resolution was adopted.

STATEMENT BY SPEAKER

The SPEAKER. I would like to formally introduce the chancellor and note that many of the comments and the resolution speak highly of his academic and institutional success, and I would like to put a little bit of an emphasis on the other part of Mark Nordenberg that I think is important to be clearly reflected in the record, and that is the individual, the man. As a gentleman, there is no one greater than this man. He is the most fair and sincere and loving individual that you could ever work with, deal with, or come across in your life, and I think it is important to note for the record that among your many academic and institutional accomplishments, your greatest is that you are just one heck of a good guy, Mark. And please welcome to the floor of the House Mark Nordenberg.

GUEST INTRODUCED

The SPEAKER. I would like to introduce an additional guest that is with us. Located to the left of the rostrum, 2d Lt. Charese R. Baston. She is the 2014 recipient of the Pennsylvania Army National Guard's Major Octavius V. Catto Medal, and she is here today as a guest of Representative Vanessa Brown. Will our guest please rise. Welcome to the hall of the House, and thank you for your service to our country.

BILLS ON SECOND CONSIDERATION

The House proceeded to second consideration of **HB 1702, PN 3132**, entitled:

An Act authorizing the Department of Aging to license and inspect community adult respite services programs; defining "community adult respite service providers"; and imposing additional powers and duties on the Department of Aging.

On the question,
Will the House agree to the bill on second consideration?
Bill was agreed to.

* * *

The House proceeded to second consideration of **HB 1907, PN 3133**, entitled:

An Act requiring a hospital to provide notice to a patient of the patient's outpatient status, billing implications and the impact of the outpatient status on insurance coverage.

On the question,
Will the House agree to the bill on second consideration?

Mr. **FRANKEL** offered the following amendment
No. **A06054**:

Amend Bill, page 1, line 2, by inserting after "implications"
, facility fees

Amend Bill, page 1, line 8, by inserting after "Notification"
and Facility Fees Disclosure

Amend Bill, page 1, by inserting between lines 12 and 13
"Facility fee." Any separate charge or billing by a provider-based clinic in addition to a professional fee for physicians' services that is intended to cover building, electronic medical records systems, billing and other administrative and operational expenses.

Amend Bill, page 1, by inserting after line 16
"Provider-based clinic." The site of an off-campus clinic or health care practitioner office that is located at least 250 yards from the main hospital buildings or, as determined by the Centers for Medicare and Medicaid Services, that is owned by a hospital licensed under the act of July 19, 1979 (P.L.130, No.48), known as the Health Care Facilities Act or by any person that operates one or more hospitals licensed under the Health Care Facilities Act and is primarily engaged in providing diagnostic and therapeutic care, including medical history, physical examinations, assessment of health status and treatment monitoring.

Amend Bill, page 3, by inserting between lines 3 and 4
Section 5. Disclosure of facility fees.

(a) General rule.—A provider-based clinic must prominently display, in locations easily accessible to and visible by patients, including its website, a statement detailing whether or not the provider-based clinic charges a facility fee which may result in a higher out-of-pocket expense for the patient.

(b) Statement.—Prior to the delivery of nonemergency services, a provider-based clinic that charges a facility fee shall provide to a patient a written statement containing the listed facility fee charges and a list of any other provider-based clinics operated by the same provider that does not charge a facility fee.

Section 6. Implementation.

The Department of Health is authorized to promulgate regulations to implement section 5.

(1) Section 2 shall take effect in 90 days.

(2) This section shall take effect immediately.

(3) The remainder of this act shall take effect July 1,
2014, or immediately, whichever is later.

On the question,

Will the House agree to the amendment?

The SPEAKER. On that question, the Speaker recognizes the
lady from Philadelphia County, Ms. DeLissio.

Ms. DeLISSIO. Mr. Speaker, this amendment attempts to
strengthen the bill. The way the bill is currently written and the
way that I have interpreted it is that once a patient is admitted to
the hospital, they are notified after 23 hours as to their status and
the implications of that status. It really would be much more
helpful if the consumer knew upon entering the hospital with
that stack of paperwork they get that there is a possibility they
could be admitted on an observation status or admitted on an
inpatient status, with a brief explanation of what those things
mean, and then subsequently notified of their status and any
time there is a status change. The way the bill is currently
written, it is advising somebody after 23 hours, so after they
have started to incur services, after they have committed
themselves, if you will, to outpatient costs that they may or may
not know they are incurring because they are not going to be
made aware of their status until 24-plus hours into this. This has
some serious implications, particularly for somebody who is
older, covered by Medicare, and may need postsecondary care
in a skilled nursing facility, and if they do not have an
appropriate qualifying stay in the hospital, their subsequent stay
at a skilled facility may not be covered by Medicare.

This is a Federal issue, Mr. Speaker. Only Congress can act
to fix it. I applaud the intent of this bill, which is to alert
consumers. Hospitals actually have the opportunity to alert
consumers now about this, and for a variety of reasons,
sometimes they do, sometimes they do not. This legislation will
ask them to alert consumers within a definitive time period.
I maintain that we can do better than that and we should do
better than that because the legislation even gives the consumer,
advises them in an appeal opportunity but is silent on appealing
to whom. Are they appealing to the hospital? Are they
appealing to their insurance company? And I do not know that
the hospital can provide the majority of the information that it is
hoping the hospital can provide.

So, Mr. Speaker, I offer this amendment. I would like the
thoughtful consideration of all of my colleagues on this. I will
be voting "yes." Thank you.

The SPEAKER. The question is, will the House agree to the
amendment?

On that question, the Speaker recognizes the gentleman from
York County, Mr. Saylor.

Mr. SAYLOR. Thank you, Mr. Speaker.

I rise to oppose the amendment offered by the lady from
Philadelphia. This bill basically says that a patient will be
notified within 23 hours of being in a hospital. Many times we

know patients are taken into the emergency room, and whether
the thought is that they may have a heart attack, they may have
any number of things. Actually, I have experienced it as well
when I was admitted a number of years ago with the thought
that I might have had a heart attack and it was really acid reflux.
They kept me there in the emergency room for a number of
hours to observe me. We see that happen all the time. And to
make a decision, as this amendment does, to require the hospital
to notify somebody within an hour, just I think is unreasonable.
It is not something that I think is in the best interest of the
patient, because simply, some patients, you need to keep them
there long enough to observe them, and it is the decision that
has to be made, but because of medical tests that you may have
had performed or reactions that they had while they are under
the hospital's care.

So I think this is really – I think goes against this being a
consumer-friendly bill that we intend it to be to one that really
in the end may end up hurting patients. So I think the hospital at
the first many hours that they have been admitted needs to stay
focused on the care of the patient, not on a decision whether
they are going to admit that person. As long as the person is
going to have a decision made within 23 hours, I think that is
fairly reasonable.

And I agree with the lady from Philadelphia. This is a
Federal issue. It has been introduced in the Senate as well as the
House in Washington and they have not acted yet. It is my hope
that they will take this issue up, because it is very important and
critical to our senior citizens that they have a reasonable
expectation and that the Congress will address it. But until then
this is a temporary fix that we are offering to help make sure
that our senior citizens are taken care of, and as we move
forward, I mean, many organizations out there from the AARP
to others are very much in support of getting this legislation
done as quickly as possible.

So again, I rise to oppose the lady's amendment from
Philadelphia.

The SPEAKER. The question is, will the House agree to the
amendment?

On that question, the Speaker recognizes the gentleman from
Montgomery County, Mr. McCarter.

Mr. McCARTER. Thank you very much, Mr. Speaker.

It used to be, I think – and this particular amendment is one
in which, hopefully, we all really can agree, and I think even the
maker of the motion and the opposition expressed really do not
disagree with the need – this is one of those issues that when we
look back throughout history, it used to be that medicine we did
not understand. We did not understand the nature of illness.
Now it is a case where, unfortunately, when we go to the
hospital, we do not understand the insurance situation. All of us
have had, probably, the experience of a parent, an in-law, or
someone else going into the hospital and not knowing exactly
what the implications are financially as we move forward with
that. I think this bill is a critical first step in moving in that
direction. We are all in agreement on that.

The only question is whether in fact individuals going into
the hospital, whether as a patient or as the person who is
supporting that person as they go into the hospital, also need to
know as soon as possible what those potential implications are.
People do not think about that, for the most part, when it is an
emergency situation, I think, as Representative Saylor has said,
and we all agree. So what we want to do, simply, is give
notification on that first entry of what those things are. So it is a

piece of paper; it is nothing more. It is not a determination. It is simply the implication as to what are the consequences of coming into the hospital under those two potential statuses, whether observational or inpatient, and that is all it is. If you have the paper, you can read it and then you can make some determination from that, and then by that 23d hour get the full implication as to what that status is. The status is not determined upon entry. It is determined within the 23 hours. So all this is simply another one of those papers that we get when we go into the hospital telling us what the implications are.

I would urge a "yes" vote on this to help clarify the situation. It makes it more consumer-friendly, not less.

Thank you, Mr. Speaker.

The SPEAKER. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the gentleman from Tioga County, Mr. Baker.

Mr. BAKER. Thank you very much, Mr. Speaker.

I rise to respectfully ask the members to oppose this amendment. This amendment is opposed by the Hospital Association of Pennsylvania and your local hospitals. They have, essentially, opined that this amendment is untenable, is not workable, and would respectfully ask that you oppose this amendment.

Thank you, Mr. Speaker.

The SPEAKER. The question is, will the House agree to the amendment?

The Speaker recognizes the gentleman from York County, Mr. Saylor, for the second time.

Mr. SAYLOR. Thank you, Mr. Speaker.

I apologize. Just one more note I wanted to make. It was during the committee's hearings and meetings on this particular bill the hospitals made a particular note that this is not just about the hospitals. This is really a problem that needs to be settled by the Federal government and, in the end, that really is going to be where the determining factor is.

Again, I want to remind everybody, this is only to fill in until, hopefully, the Federal government does their job for our senior citizens and they make the decision whether a patient will be covered under Medicare or not, but for now this is a temporary fix, and I ask again for a "no" vote.

On the question,
Will the House agree to the amendment?

The **SPEAKER**. On that question, the Speaker recognizes the gentleman from Lancaster County, Mr. Cutler.

Mr. **CUTLER**. Thank you, Mr. Speaker.

Very briefly, Mr. Speaker, this amendment would change the definition or the list that was currently contained in the prior

version of the bill. I think it is important, Mr. Speaker, that we draft the language in a way that would be recognizing future technological developments, and my fear is any time that we have a list of services, that we may inadvertently omit one or more items that we wish to include.

Additionally, it excludes general radiographs, or what we would all typically refer to as "traditional X-rays."

And finally, Mr. Speaker, I also think it is important that we recognize other technological advances in regards to the eHealth records that many of us may encounter in our health-care facilities, and we have made a provision that a notification from such a record would also qualify under the act as appropriate notice.

I want to thank the gentlelady, the prime sponsor of the bill, as well as our staff as we work through these many issues, and I just would appreciate an affirmative vote, and I believe it is an agreed-to amendment.

Thank you.

The **SPEAKER**. The question is, will the House agree to the amendment?

Ms. **QUINN**. Thanks, Mr. Speaker.

Mr. Speaker, this is an agreed-to amendment, and I really appreciate the gentleman from Lancaster's help and expertise on this issue. I appreciate an affirmative vote.

EXCUSED—3

Boyle, B. Fleck Miller, R.

The majority having voted in the affirmative, the question was determined in the affirmative and the amendment was agreed to.

On the question,

Will the House agree to the bill on second consideration as amended?

Mr. **CUTLER** offered the following amendment No. **A06046**:

Amend Bill, page 3, by inserting between lines 28 and 29

(e) Opt-out provision.—A patient may opt out of receiving the notice under subsection (a) if the patient opts out in writing at the time the diagnostic imaging service is performed.

On the question,

Will the House agree to the amendment?

The **SPEAKER**. On that question, the Speaker recognizes the gentleman from Lancaster County, Mr. Cutler.

Mr. **CUTLER**. Thank you, Mr. Speaker.

Despite the agreement on the content of the last amendment, we were not able to reach an agreement on this amendment.

And I would just like to simply explain what I believe to be my reasoning as to why I believe we should have a patient opt-out provision in this language. While I believe that we as patients should be involved in our health care – I think that is an integral part of our system – we have to take personal responsibility to those ends.

I also recognize, Mr. Speaker, that sometimes there are situations that we probably cannot anticipate as policymakers, where individuals may not wish to have results go directly to their home through traditional mail services, e-mail accounts, or other areas where other family members might be able to view them. Mr. Speaker, I also recognize that we need to strike that balance between notification to the patients of potentially abnormal results as well as the provisions that they may wish to express some level of privacy in regards to their medical records.

Mr. Speaker, for that reason I believe that an opt-out provision for a patient, that makes it in a very consensual and knowledgeable way at the time of the exam, would be an appropriate addition to this bill, and I would certainly request that there be support for the amendment.

Thank you.

The **SPEAKER**. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the lady from Bucks County, Ms. Quinn.

Ms. **QUINN**. Thank you, Mr. Speaker.

Again, I thank my colleague from Lancaster County.

While I recognize his expertise in this field, I believe that it stops when it comes to understanding the full meaning of what I want in the bill. I believe that this opt-out provision basically undercuts what I would like to accomplish with this bill. Providing a safety net to ensure patient notification in the event of a significant abnormality is what is being sent out here. If that patient, to my colleague's point, if that patient anticipates a problem where he or she does not want those results sent directly to his home or to an e-mail account, that patient has other options for these results to be sent to them. That patient could have it sent to the patient portal, that many of our physicians by law, by Federal law are moving towards. They could have it sent by fax, which I agree would be part of the concern there, but they are the ones that are going to indicate by which means they are going to get this notice.

And quite frankly, I have to ask, if one does not want to see the test results when there is a significant abnormality, why does one even sit through the test to begin with? Okay? If that person does not want to see the test results once they get to them, if they have a personal reason that they do not want to, they do not have to open the e-mail. They do not have to go into the patient portal. They could take the letter and put it into the shredder; the same with the fax.

So respectfully, I disagree, and I ask you to vote with me.

The **SPEAKER**. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the gentleman from Tioga County, Mr. Baker.

Mr. **BAKER**. Thank you very much, Mr. Speaker.

I, too, respectfully request a "no" vote on this legislation. This does in fact undermine the bill in chief and the underlying purpose of the legislation in providing a safety net to ensure patient notification in the event of a significant abnormality in his or her test results, and that these tests can be life-or-death procedures and that the communication of the diagnosis can be as important as the diagnosis itself.

I ask respectfully for a "no" vote on the Cutler amendment.

The **SPEAKER**. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the lady from Philadelphia County, Ms. DeLissio.

Ms. **DeLISSIO**. Thank you, Mr. Speaker.

Mr. Speaker, will the maker of the amendment stand for brief interrogation?

The **SPEAKER**. The gentleman, Mr. Cutler, indicates he will stand for interrogation. You may proceed.

Ms. **DeLISSIO**. Thank you, Mr. Speaker.

I actually support the intent of the amendment because we have the right as individuals to exercise that even in the

situation as serious as our health care. We can make decisions that are not in our best interest. We do it every hour of every day.

However, I do have a technical question. If the patient is not alert at the time of the imaging service that is performed, and maybe there is additional language that is other than in my hand, what happens in that situation? Is a designee able to opt out? If they have a health-care power of attorney, can the designee opt out on a patient's behalf?

Mr. CUTLER. Thank you, Mr. Speaker.

Thank you for the question. In regards to a condition where a patient may not be alert, the prime sponsor and I were just conferring. First of all, it is highly likely that individual would be in the inpatient setting; therefore, they would already be exempt from the disclosure provisions in relation to the reports. However, if there was such a situation, Mr. Speaker, where there would be a situation where an individual was not responsive or perhaps did not contain the mental capacity to make such an election, I believe that the existing health-care power of attorney or other health laws would then kick in and a person would be able to make a decision based on their ability to stand in the same decisionmaking capacity as the original patient. Therefore, an appropriately executed health-care power of attorney would suffice the requirements where the patient would choose to elect because they have already designated their designee through another act of law.

Ms. DeLISSIO. Thank you, Mr. Speaker.

Mr. Speaker, on the amendment?

The SPEAKER. The lady is in order on the amendment.

Ms. DeLISSIO. On the amendment, Mr. Speaker, again, I think if a patient is fully informed as to the ramifications of having opted out from receiving this, there are any number of events and variables in our lives that I think retaining that control as an individual is paramount, paramount to our ability to exercise our freedom.

And I understand what the lady from Bucks County suggested, that if they get them, they could shred it, they do not have to look at it, et cetera. I am not sure why we need to go that far, particularly if the person who has opted out – because it could create a very difficult situation at home, in the workplace, wherever – they always have that opportunity to go back to their provider to ask for a copy. So it is not limited to just that one opportunity.

Thank you, Mr. Speaker.

The SPEAKER. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the gentleman from Erie County, Mr. Fabrizio.

Mr. FABRIZIO. Thank you, Mr. Speaker.

I, too, would stand and ask the members to vote against this amendment. With all due respect to the maker of the amendment, I really believe that this particular amendment would diminish the impact and the intent of the bill, so I urge the members to vote "no."

The SPEAKER. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the lady from Montgomery County, Ms. Harper.

Ms. HARPER. Thank you, Mr. Speaker.

I rise to support the bill, Representative Quinn's bill, without the Cutler amendment.

The way things happen today, one shows up at your doctor's office, they hand you a clipboard, you fill out five or six pages, you sign the bottom of each page, and one could very easily give up the right to get their test results, even if abnormal, in such a setting. As a lawyer myself, I make it a practice not to sign stuff I have not read, but under the pressure of the moment and trying to get quickly through the clipboard process to get in to see the doctor, I am not sure I would catch such a significant change in my rights as a patient.

This bill is personal to me, because the wife of one of my colleagues in Montgomery County died because she did not get adverse results and no one noticed that she should have had treatment.

The bill is so important and the amendment weakens it so significantly that I would urge the members to vote against the amendment and in favor of the bill while given the chance to do so.

Thank you, Mr. Speaker.

The SPEAKER. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the lady, Mrs. Brooks, from Mercer County.

Mrs. BROOKS. Thank you, Mr. Speaker.

I just want to echo what the gentlelady from Montgomery County had said. It is my concern that someone unknowingly signs away their right to receive this information. I do not know of too many people that go to have tests done and then do not want to know the results, or the people at home, that they are concerned that someone is going to open that mail. I know more people that because they did not receive test results had unfortunate consequences.

I rise in favor and support of the bill and against the amendment. Thank you very much.

The SPEAKER. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the gentleman from Butler County, Mr. Metcalfe.

Mr. METCALFE. Thank you, Mr. Speaker.

Mr. Speaker, it is kind of hard to believe that I am standing here listening to the arguments against patient choice in their own health-care decisions. It is like when you sign these documents, you are a responsible adult knowingly allowing or disallowing services that are going to be done to you or performed for you, and for the patient to actually opt out of receiving additional information that they might not want to receive at their home address or their home contact for whatever reason, it should be the patient's choice, Mr. Speaker. It is hard to believe that we are standing up hearing these Big Brother arguments about, well, we have got to look out for patients that knowingly sign away to not receive something.

I mean, it is really kind of an outrageous argument. This is about patient choice. It is some of the same people arguing that this should be kept in the bill who will turn around to argue later on that they are for patient choice.

This amendment is for patient choice and should be supported, Mr. Speaker.

The SPEAKER. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the gentleman, Mr. Cutler, for the second time.

Mr. CUTLER. Thank you, Mr. Speaker.

Mr. Speaker, I believe that some of my colleagues have brought up the very scenarios or situations where this would be of concern.

Mr. Speaker, I wish to clarify something regarding the intent of the amendment. Mr. Speaker, it is my intent that we would have to affirmatively choose to opt out of whatever the notification method might be. Mr. Speaker, if we review the bill as currently drafted, it includes traditional mail services, e-mails, fax, or the notification through the electronic health record. Of those four choices, Mr. Speaker, only the electronic health record does not actually have to or be required to disclose the specific results. It would be a notification that simply says your results are ready.

Mr. Speaker, to opt-out of such an item, I would argue, would actually be a willful or a knowledgeable choice. There are plenty of situations where I believe that you might not want to essentially be forced to pick which of the four methods that you would choose. There is the potential that some health-care systems may not have the electronic health record notification that your test results are ready; therefore, they would be limited to three. They would be limited to a fax, e-mail, or traditional mail. In all three of those examples, I would offer that in certain cases pertaining to domestic violence or divorce situations, you could potentially have a situation where one party does not wish to share those very sensitive and personal test results with other members of the same household.

Could I as the patient choose to shred the letter, delete the e-mail? Absolutely. But the reason for this amendment is to allow those individuals who are concerned about other people seeing their health records and providing them with a specific option where they can then later pursue and obtain their health records on their terms and under the conditions that they wish to choose.

Mr. Speaker, that is the reason for offering this amendment, and I would certainly appreciate your support. Thank you.

LEAVE OF ABSENCE CANCELED

The SPEAKER. The Speaker returns to leaves of absence and recognizes the presence of the gentleman, Mr. Fleck, from Huntingdon County on the floor of the House. His name will be added back to the master roll call, without objection.

The **SPEAKER**. On that question, the Speaker recognizes the lady from Philadelphia County, Ms. DeLissio.

Ms. DeLISSIO. Thank you, Mr. Speaker.

Mr. Speaker, I think it is very important that patients learn more about health care, educate themselves, and they actually have a responsibility to be a part of the health-care team, and a lot of constituents, a lot of citizens are not used to that. They take a very passive role as opposed to an active role.

So this notice, this is just adding language to the bill that states that the notice they get states "The results of your test or tests have been sent to the health care practitioner that ordered the tests. You are always recommended to discuss all test results with your health care practitioner." It is a piece that helps to educate them and helps them not assume because they got the results that they are qualified to interpret them, and encouraging them to get a hold of their health-care practitioner to have a meaningful discussion.

Thank you, Mr. Speaker.

The **SPEAKER**. The question is, will the House agree to the amendment?

On that question, the Speaker recognizes the lady from Bucks County, Ms. Quinn.

Ms. QUINN. Thank you, Mr. Speaker.

This is an agreed-to, agreed-upon amendment.

On the question recurring,
Will the House agree to the amendment?

RESOLUTION

Mr. HARHAI called up **HR 550, PN 3110**, entitled:

A Resolution directing the Joint State Government Commission to establish a bipartisan legislative task force and an advisory committee to conduct a study of the occurrence, effects and trends of homelessness in Pennsylvania and to report its findings and recommendations to the House of Representatives.

On the question,
Will the House adopt the resolution?

The SPEAKER. On that question, the Speaker recognizes the gentleman from Westmoreland County, Mr. Harhai.

Mr. HARHAI. Thank you, Mr. Speaker.

I would just like to add a few comments on HR 550. Shelter is a basic human need.

Could we get—

The SPEAKER. I appreciate if the members would hold the conversations down a little bit. Thank you.

The gentleman, Mr. Harhai, may proceed.

Mr. HARHAI. Thank you, Mr. Speaker.

Shelter is a basic human need. A stable, quality, affordable home promotes family stability, physical and mental health, and enhances both adults' and children's ability to be productive.

In Pennsylvania statistics show that family, veterans, and chronic homelessness have all risen between 2011 and '12. The effects of childhood homelessness do not end with childhood. Homeless children show higher rates of poor mental health, are less likely to graduate from high school, and are more likely to end up incarcerated or use illegal substances.

HR 550 directs the Joint State Government Commission to establish a four-member bipartisan legislative task force and advisory committee to investigate, review, and make recommendations of the causes and impacts of homelessness in the Commonwealth. The advisory committee will be comprised of bipartisan, broad-based, and geographically diverse representation among the business, faith, community, labor, local government, human services communities, and individuals affected by poverty. The commission will be authorized to hold information sessions, take testimony, conduct site visits, and propose new legislation, if necessary. The topics investigated will include health-care costs, education, mental health, incarceration rates, and others. The commission will have 2 years to report findings and recommendations to the House of Representatives.

Finally, I would like to thank Chairman Gillespie and Representative Reed for their interest and support of this resolution. Thank you very much, Mr. Speaker.

On the question recurring,
Will the House adopt the resolution?

SUPPLEMENTAL CALENDAR A

BILLS ON THIRD CONSIDERATION

The House proceeded to third consideration of **HB 2039, PN 3040**, entitled:

An Act amending the act of May 29, 1945 (P.L.1134, No.405), entitled "An act to create a commission to act jointly with commissions appointed for like purpose by the States of West Virginia and Maryland, the Commonwealth of Virginia and the District of Columbia, which, together with three members to be appointed by the President of the United States, shall constitute the Interstate Commission on the Potomac River Basin, with power to cooperate in the abatement of the existing pollution, and in the control of future pollution of the waters of the drainage basin of the Potomac River within the States of Maryland and West Virginia, the Commonwealth of Virginia and the District of Columbia; to authorize the Governor of the State to execute on behalf of this State a compact with representatives of other states for the purpose of forming the above-mentioned commission; and creating a Potomac Valley Conservancy District; providing for the appointment of the Pennsylvania members of

said commission for the Commonwealth of Pennsylvania, and their terms of office; and providing an appropriation," further providing for membership of commission and for appointments.

On the question,
Will the House agree to the bill on third consideration?
Bill was agreed to.

(Bill analysis was read.)

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.

The question is, shall the bill pass finally?

Agreeable to the provisions of the Constitution, the yeas and nays will now be taken.
