Mr. Marsico:

I am not quite sure what is required of me for testimony for the public hearing. When I spoke to Barry Jozwiak he had asked if I would be willing to tell about my Daughter's experience at Addapt, and I said I would be willing to do that - I really fought tooth and nail to keep her from going there, because it did not have a very good reputation and I was told to try to keep her out of there, as you can see by letters that I wrote before she was released from Muncy - to please not send her there - everyone seemed to listen but it went on deaf ears because they would not approve the home plan for her - this was due in part because we had a confrontation with Dave Smith and he insisted she was at my house when he came to pick her up and she was not - which was proven , as I had called the police and they searched my whole house and she was not here - this may be getting off the beaten path, but is part of the reason they would not approve the home plan, because of me. The main things - were the conditions of the area both sleeping and the dining hall - both were not very clean and had mice running around, which was disgusting and she refused to eat there. The staff had certain standards for certain people - some were searched when they returned and others were free to go and come as they please. She was bitten by a spider and ended up with cellulites and had to go to the hospital - upon her return the next morning - she was questioned and had turned in her paper work and for some reason no one seemed to have it - thank goodness she had made copies to prove her whereabouts, because the parole agent Dave Smith who is not very fond of us really gave her a hard time - now mind you I was not there and only know what I was told. I was afraid to make too much of a fuss after she was there, because I did not want to make it worse for her and cause more of a hassle for her. When I would take her back there after she was working - there were almost always police or ambulances there. I don't know if this is what you want and if not please let me know and I will try to give you more information. Like I said I am not quite sure what you want and I hope this sums it up in a nutshell, please keep in mind I could probably go on and on but I really don't think that is what you want. As I explained to Mr. Jozwiak that would be the end result have been the same no matter where she was maybe so, but that is something nobody can answer.

Please let me know if this is not satisfactory and I would be willing to talk to you before the meeting.

Sincerely

Judith A. Wert
