REFERRED TO COMMITTEE ON LABOR RELATIONS, MARCH 11, 1987

AN ACT

1 Amending the act of May 18, 1937 (P.L.665, No.176), entitled "An
2 act relating to the performance of industrial work in homes;
3 regulating, and in certain cases prohibiting, industrial
4 homework; imposing duties, restrictions and liabilities on
5 industrial home-workers and on persons, partnerships,
6 associations and corporations, directly or indirectly
7 furnishing materials and articles to home-workers for
8 manufacture or work thereon; requiring permits and home-
9 workers' certificates and prescribing the fees therefor;
10 conferring powers and imposing duties on the Department of
11 Labor and Industry; and prescribing penalties," changing the
12 purpose of the act; further regulating the performance of
13 industrial work in homes; and making editorial changes.

14 The General Assembly of the Commonwealth of Pennsylvania
15 hereby enacts as follows:

16 Section 1. Section 1 of the act of May 18, 1937 (P.L.665,
17 No.176), known as the Industrial Homework Law, amended November
18 24, 1976 (P.L.1196, No.263), is amended to read:

19 Section 1. Legislative Purpose.--This State has long
20 recognized that employment of men, women and children under
21 conditions detrimental to health and general welfare results in
22 injury, not only to the workers immediately affected, but also

1 to the public interest as a whole. This recognition has produced
2 a broad program of regulatory legislation to conserve the public
3 welfare. The continuance of an unregulated industrial homework
4 system in this State runs counter to that program since it is
5 usually accompanied by excessively low wages, long and irregular
6 hours, and unsanitary or otherwise inadequate working quarters.
7 In enacting this act, the Legislature [stated] states that
8 unregulated industrial homework [was] is harmful to society as a
9 whole, to the industrial homework work force, and to workers in
10 factory industries forced to compete against the lower wages and
11 less salutary working conditions characteristic of industrial
12 homework. The Legislature [concluded] concludes that
13 ["industrial homework must eventually be abolished."] industrial
14 homework must be regulated. It is the aim of this act to achieve
15 that goal, and eliminate the pernicious [influence] effects of
16 industrial homework on the people of this State, by [abolishing]
17 regulating industrial homework [except when it is engaged in by
18 certain types of individuals unable to leave their homes to
19 work, as hereinafter specified].

20 Section 2. Section 5 of the act is amended to read:

21 Section 5. Power to Prohibit.--(a) The department shall have
22 the power, upon its own initiative, to make an investigation of
23 any industry or that portion or branch of any industry which
24 employs home-workers, in order to determine:

25 (1) Whether the [wages and] conditions of employment are
26 injurious to the health and welfare of home-workers in such
27 industry or portion or branch; or

28 (2) Whether the payment of wages [and conditions of
29 employment prevailing] in such industry or portion or branch
30 have the effect of rendering unduly difficult the maintenance of

1 existing labor standards, or the observance and enforcement of
2 labor standards established by law, or regulation [for the
3 industry of which such portion or branch is a part, thus
4 jeopardizing wages or working conditions of the factory workers
5 in such industry].

6 (b) If, on the basis of information in its possession, [with
7 or without an investigation as provided in this section,] the
8 department shall find that industrial homework cannot be
9 continued within any industry or portion or branch of any
10 industry without injuring the health and welfare of the home-
11 workers [within that industry], or without rendering unduly
12 difficult the maintenance of existing labor standards or the
13 observance and enforcement of labor standards established by law
14 for [the protection of the factory workers in] that industry,
15 the department shall, by order, require all employers,
16 representative contractors, or contractors in such industry or
17 portion or branch to discontinue the furnishing within this
18 Commonwealth of articles or materials for industrial homework,
19 and no permit issued under this act shall be deemed thereafter
20 to authorize the furnishing of articles, or materials for
21 industrial homework prohibited by such order.

22 (c) All power machines used in conduct of industrial
23 homework shall be guarded in accordance with the laws and
24 regulations of the Department of Labor and Industry.

3 whose illness an applicant is relying in order to obtain a
4 certificate,] to submit to a medical examination by a physician

6 making a decision on whether or not to issue a certificate.

7 certificate if it finds that the holder is performing industrial
8 homework contrary to the conditions under which the certificate
9 was issued, or to any provision of this act, or has permitted
10 any person not holding a valid home-worker's certificate to
11 assist him in performing his industrial homework or has obtained
