22 conform to the following:

23 (1) Notification of a utilization review determination

2 the name and telephone number of the person to contact in
3 regard to an appeal.

4 (3) The utilization review entity or health care insurer
5 shall maintain and make available a written description of
6 the appeal procedure by which the provider of record may seek
7 review of the determination to deny an admission, service,
8 procedure or extension of stay.

9 (4) The internal appeals process shall be established by
10 the utilization review entity or health care insurer and must
11 include a reasonable time period of not less than 60 days
12 within which an appeal must be filed to be considered.

13 (5) The utilization review entity or health care insurer
14 shall complete the review of appeals of determinations no
15 later than 30 days from the appeal is filed.

16 (6) The utilization review entity or health care insurer

27 indirect, for these persons to make inappropriate review
28 decisions.

29 (9) On appeal, all determinations not to certify an

2 clinical practice in the same or similar general specialty as
3 typically manages or recommends treatment for the medical
4 condition, procedure or treatment. No physician or other
5 reviewer who has been involved in prior reviews of the case
6 under appeal may participate as the sole reviewer of a case
7 under appeal.

8 (10) The utilization review entity or health care
9 insurer shall maintain records of written appeals and their
10 resolution and shall provide reports to their licensing
11 authority as requested by the department.

12 (11) The department may, in response to a written
13 complaint by a patient, review any adverse determination
14 following completion of an internal review process.

15 Section 7. External utilization review appeals.

16 The utilization review plan of utilization review entities or
17 health care insurers must provide for independent external
18 adjudication process beyond the second level of appeal that
19 adheres to the following:

20 (1) The provider of record may initiate the external

22 submitting written notice to the utilization review entity or
23 health care insurer.

24 (2) The utilization review entity or health care insurer
25 and the provider of record shall each select one competent
26 arbitrator within 30 days from the date the appeal is

29 in the county in which the appealing party resides or
30 practices.

1 (3) At least one arbitrator shall be a licensed

5 remaining arbitrators shall also be licensed health care
6 practitioners.

7 (4) The arbitrators shall review the information
8 considered by the health care insurer in reaching its
9 decision and any written submissions of the provider of
10 record provided during the internal appeal process. The
11 decision to hold a hearing or otherwise take evidence shall
12 be within the sole discretion of a majority of the
13 arbitrators.

14 (5) The written decision of any two arbitrators shall be
15 issued no later than 30 days after receipt of all
16 documentation necessary to rule upon the appeal and shall be
17 binding upon each party.

18 (6) The arbitrators fees and costs of the appeal shall
19 be paid by the nonprevailing party.

20 (7) Written contracts between health care insurers and
21 providers may provide for an alternative to the external
22 appeal process. In such cases, a provider may appeal to a
23 physician committee appointed by the governing body of the
24 utilization review entity or health care insurer. No
25 physician serving on the committee to review such appeals may
26 be an employee of the utilization review entity or health
27 care insurer. The provider of record may present information
28 supporting his position either in writing or may appear
29 before the committee in person to do so. The committee shall
30 make a determination within 30 days of receiving written

1 information or holding a hearing. The committee's decision is
2 the utilization review entity's or health care insurer's
3 final determination. If the decision is unfavorable to the
4 provider of record, he may seek additional remedies in
5 Commonwealth Court, as a matter of original jurisdiction
6 pursuant to 42 Pa.C.S. § 761 (relating to original
7 jurisdiction), to the extent such remedies are provided by
8 law.

10 Health care insurers that encourage or require enrollees to
11 obtain all or designated covered services through a provider
12 network shall conform to the following:

13 (1) Health care insurers must ensure that there are
14 sufficient health care practitioners and health care
15 facilities within a provider network to provide enrollees
16 with access to quality patient care in a timely fashion.

17 (2) Health care insurers shall consult with practicing
18 physicians regarding the professional qualifications,
19 specialty and geographic composition of its physician

22 licensing authority every two years or as otherwise required
23 by the licensing authority.

24 (3) A health care insurer shall select the participating
25 health care practitioners and health care facilities for its
26 provider network through a formal credentialling mechanism

28 recredentialling and termination. The health care insurer
29 shall report the credentialling criteria and processes to its
30 licensing authority every two years or as otherwise required

1 by the licensing authority.

2 (4) A health care insurer shall disclose the
3 credentialling criteria and processes to applicants for the
4 provider network.

5 (5) A health care insurer shall not discriminate against
6 patients with expensive medical conditions by excluding from
7 its network health care practitioners with practices that
8 include a substantial number of such patients and consistent
9 with other credentialling criteria.

10 (6) A health care insurer shall not exclude a health
11 care practitioner or health care facility from its provider
12 network because the practitioner or facility advocated on
13 behalf of a patient in a utilization appeal or another
14 dispute with the plan over appropriate medical care.

15 (7) In the event a health care insurer renders an
16 adverse credentialling decision the plan shall provide the
17 affected health care practitioner or health care facility
18 with written notice of the decision that includes a clear
19 explanation of the basis for determination and a summary of
20 the provider's appeal rights.

21 (8) A health care insurer shall provide health care
22 practitioners and health care facilities with a reasonable
23 opportunity for reconsideration of adverse credentialling
24 determinations.

25 (9) The licensing authority of the health care insurer
26 may establish an administrative process to consider
27 complaints by a health care provider for actions which are in
28 violation of this section of the act. Administrative actions
29 initiated pursuant to this section shall be governed by 2
30 Pa.C.S. Chs. 5 Subch. A (relating to practice and procedure

of Commonwealth agencies) and 7 Subch. A (relating to judicial review of Commonwealth agency action). The licensing authority shall require health care providers to exhaust their rights under the provider credentialing system established by the health care insurer pursuant to this act prior to filing an administrative complaint.

Section 9. Uniform disclosure.

The department may impose a fine of not more than \$10,000 for each violation of this act. In addition, the department may deny, suspend, revoke or refuse to renew the certification of a utilization review entity or health care insurer that fails to

1 satisfy the utilization review standards set forth in section 5
2 or that otherwise violates the provisions of this act. The
3 utilization review entity or health care insurer shall be
4 entitled to notice and the right to a hearing pursuant to 2
5 Pa.C.S. (relating to administrative law and procedure).
