AS AMENDED, HOUSE OF REPRESENTATIVES, FEBRUARY 13, 2001

A RESOLUTION

1 Establishing the Keystone Commission on Education for Employment
2 in the 21st Century to examine how best to improve linkages
3 between the Commonwealth's education and business communities
4 in order to enhance the State's economic growth and
5 development.

6 WHEREAS, Competition among states to attract new businesses
7 and high-tech workers is increasing dramatically; and

8 WHEREAS, According to a Coopers and Lybrand survey, the
9 single most important factor that determines where firms locate
10 and expand is the skill of the work force; and

11 WHEREAS, Pennsylvania's ability to provide a pool of
12 employees with the educational tools necessary to meet the
13 future needs of the State's business community is critical to

1 the State's economic growth and its ongoing ability to compete
2 in national and international marketplaces; and

3 WHEREAS, The introduction of new technologies and flexible,
4 high-performance work processes requires that workers filling
5 factory jobs have more skills and more education; and

6 WHEREAS, A report by the Education Commission of the States
7 notes that more than two-thirds of jobs being created in the
8 fastest-growing sectors of the United States economy now require
9 at least some education beyond high school; and

10 WHEREAS, Pennsylvania's secondary and postsecondary schools
11 must therefore graduate students who can immediately enter and
12 benefit the workplace; and

13 WHEREAS, Investing in Pennsylvania through educational reform
14 is a key economic and community development strategy, and how we
15 prepare today's students to successfully compete in tomorrow's
16 global workplace and our ability to retain Pennsylvania's best
17 and brightest students are critical to our future fiscal
18 viability and competitiveness; and

19 WHEREAS, The pace of the conversion from a more traditional
20 to a high-technology manufacturing base is beginning to exceed
21 the supply of American workers qualified for new high-technology
22 positions; and

23 WHEREAS, The Director of the Center for Labor Market Studies
24 at Northeast University in Boston, Massachusetts, recently noted
25 that "in the Mid-Atlantic states there has been a recent growth
26 of 130% in skilled labor coming from outside the U.S. and, in
27 Pennsylvania alone, there will be a shortfall of 177,000 skilled
28 workers by the year 2005"; and

29 WHEREAS, In a recent meeting between President-elect Bush and
30 high-tech business leaders, the president of Cisco Systems

1 noted: "If we don't fix... (the education system), the jobs will
2 move to where the best-educated workforce is in other
3 countries."; and

4 WHEREAS, In Pennsylvania employers are likewise concerned
5 that many of today's graduates are entering the work force
6 marketplace with a skills gap that leaves them unemployable in
7 key industries; and

8 WHEREAS, The Commonwealth has an existing educational system
9 which includes 501 school districts, 14 comprehensive area
10 vocational-technical schools, 66 occupational area vocational-
11 technical schools and 146 colleges and universities consisting
12 of 112 private and 34 public institutions, including the 14
13 universities within the State System of Higher Education and its
14 16 community colleges; and

15 WHEREAS, This educational system is the State's richest
16 resource for training and retraining its future workers, and it
17 is essential that the Commonwealth integrate its educational
18 capacity with the needs of our current and future employers; and

19 WHEREAS, Identifying the best methods to prepare students and
20 workers for jobs within the new economy requires the full
21 cooperation and involvement of the business community,
22 educational institutions and governmental leaders; and

23 WHEREAS, It is vital that Pennsylvania develop a strategic
24 plan that will link educational reform at basic and higher
25 education levels to the needs of the emerging world of work in
26 order to assure that all our students are prepared to succeed;
27 therefore be it

28 RESOLVED, That the House of Representatives establish the
29 Keystone Commission on Education for Employment in the 21st
30 Century to:

1 (1) In cooperation with the Department of Labor and
2 Industry and the Pennsylvania State Workforce Investment
3 Board, identify those careers that are most likely to show
4 growth in the next decade in Pennsylvania.

5 (2) Work with this State's business and labor
6 communities in order to identify the specific job skills
7 required by these growing occupations.

8 (3) Analyze this State's current vocational-technical
9 education system to determine:

10 (i) how well existing curricula are linked to
11 emerging needs of the business community and therefore
12 capable of providing the work force necessary to assure
13 the success of its students in the marketplace;

14 (ii) the methods of funding vocational-technical
15 education programs;

16 (iii) the availability of modern equipment;

17 (iv) how well the integration of core academic and
18 occupational skill standards is taking place in all
19 vocational-technical schools;

20 (v) current accountability measures in place such as
21 placement rates, program enrollment rates, numbers of
22 students pursuing advanced education and other competency
23 measures to assure the quality of programs being offered;

24 (vi) the adequacy of the available pool of quality
25 vocational-technical education teachers and
26 administrators; and

27 (vii) the articulation between secondary and
28 postsecondary institutions and its implications for the
29 delivery of vocational-technical education.

30 (4) Compile data on the number of Pennsylvania graduates

1 who are annually leaving this State for employment elsewhere,
2 attempt to assess the reasons for this out-migration and make
3 recommendations for slowing this "brain drain."

4 (5) Examine this State's higher education system, with
5 particular emphasis on reviewing existing collaboration
6 between basic and higher education and programs that
7 encourage communication and collaboration between higher
8 education and the workplace, and make recommendations for
9 ways to replicate exemplary programs and improve articulation
10 among these communities.

11 (6) Meet with State leaders involved in the
12 implementation of the Workforce Investment Act of 1998
13 (Public Law 105-220, 112 Stat. 936) to review the State's
14 current plan and actions being undertaken to coordinate
15 educational efforts related to this act.

16 (7) Review exemplary vocational-technical programs,
17 business-education partnerships and career development
18 programs currently in place in schools throughout this State
19 and make recommendations on how to best replicate these
20 programs in other parts of this State.

21 (8) Review programs and strategies in place in other
22 states for integrating education and work force development
23 in order to identify the best practices being utilized and
24 their potential applicability to this State.

25 (9) Make recommendations, to include a suggested
26 timetable, for the establishment of a comprehensive strategic
27 plan for better linking education and the workplace in this
28 State;

29 and be it further
