 19 Section 72. Miscellaneous.
 20 (1) (Reserved).
 21 Section 73. Limitation on expenditure of funds.
 22 The following shall apply:
 23 (1) Any moneys derived from the incurring of debt shall
 24 be used solely for effecting the rehabilitation, replacement
 25 or removal of bridges located on State highways. All other
 26 bridge rehabilitation, replacement or removal shall be
 27 financed from current revenue.
 28 (2) Notwithstanding any law to the contrary, the
 29 projects itemized in the act of December 8, 1982 (P.L.848,
 30 No.235), known as the Highway-Railroad and Highway Bridge

Capital Budget Act for 1982-1983, may be financed from
current revenue.

Section 74. Debt authorization.

The Governor, Auditor General and State Treasurer are hereby
authorized and directed to borrow from time to time, in addition
to any authorization heretofore or hereafter enacted, on the
credit of the Commonwealth, subject to the limitations provided
in the current capital budget, money not exceeding in the
aggregate the sum of \$571,471,000 as may be found necessary to
carry out the acquisition and construction of the State projects
specifically itemized in this act.

Section 75. Issue of bonds.

The indebtedness authorized in this act shall be incurred
from time to time and shall be evidenced by one or more series
of general obligation bonds of the Commonwealth in such
aggregate principal amount for each series as the Governor,
Auditor General and State Treasurer shall determine, but the
latest stated maturity date shall not exceed 30 years from the
date of the bond first issued for each series.

Section 76. Estimated useful life of projects.

The General Assembly states the estimated useful life of the
projects itemized in this act as 30 years.

Section 77. Appropriation.

The net proceeds of the sale of the obligations authorized in
this act are hereby appropriated from the Capital Facilities
Fund to the department in the maximum amount of \$571,471,000 to
be used by it exclusively to defray the financial costs of the
State projects specifically itemized in this capital budget.
After reserving or paying the expenses of the sale of the
obligation, the State Treasurer shall pay out to the department

1 the moneys as required and certified by it to be legally due and
2 payable.

3 Section 78. Federal funds.

4 In addition to those funds appropriated in section 77, all
5 moneys received from the Federal Government for the public
6 improvement projects specifically itemized in this act are also
7 hereby appropriated for those projects.

8 Section 79. Allocation of funds.

9 (a) General rule.--Whenever the department or the Department
10 of Conservation and Natural Resources determines that the full
11 estimated financial costs of the projects itemized in this act
12 are not necessary for the proper design, acquisition or
13 construction of such projects, the excess funds no longer
14 required may be allocated by the department or the Department of
15 Conservation and Natural Resources to increase the estimated
16 costs of any one or more of the projects specifically itemized
17 in a capital budget.

18 (b) Reimbursement of municipal expenditures.--Moneys raised
19 or expended by municipalities after the effective date of this
20 act, in anticipation of receipt of funds authorized for projects
21 itemized by this act, may be reimbursable to those
22 municipalities.

23 Section 80. Policy on jobs and materials.

24 (a) Jobs.--It is the declared policy of the Commonwealth
25 that the construction projects authorized in this act be used,
26 to the greatest extent possible, to provide for the creation of
27 jobs and the rehiring of the unemployed in this Commonwealth. In
28 order to reach this goal, firms with Commonwealth-based
29 facilities shall be actively solicited to make bids on contracts
30 to furnish products and materials, including, but not limited

1 to, steel and steel products, to be used in these projects.

2 (b) Materials.--Every contract document entered into to
3 undertake a project contained in this act shall provide that any
4 steel or other products to be used or supplied in the
5 performance of this contract shall be required to be
6 manufactured by plants in the United States unless the secretary
7 determines, on a contract by contract basis, that certain
8 required products are not produced in the United States in
9 sufficient quantities to meet the requirements of the contract.
10 Such a determination and the reasons therefor shall be published
11 in the Pennsylvania Bulletin. Decisions made under this
12 subsection shall not be inconsistent with the general provisions
13 of the act of March 3, 1978 (P.L.6, No.3), known as the Steel
14 Products Procurement Act.

15 (c) Minorities and women.--It is also the declared policy of
16 the Commonwealth to require and encourage substantial
17 participation by minorities and women in the construction
18 projects authorized by this act.

19 Section 81. Payment of capital debt service.

20 The repayment of any debt incurred pursuant to this act shall
21 be made from the account and such repayment shall have first
22 claim on the revenues of the account.

23 Section 82. Authorization and debt cumulation.

24 The additional authorization and debt allowance provided for
25 in this act shall be added to the total authorizations and debt
26 incurred pursuant to the act of December 8, 1982 (P.L.848,
27 No.235), known as the Highway-Railroad and Highway Bridge
28 Capital Budget Act for 1982-1983, as amended and supplemented.

30 In editing and preparing this act for printing following the

1 final enactment, the Legislative Reference Bureau shall insert
2 or revise letters or numbers for projects where the letters or
3 numbers are missing or require revision. The bureau shall also
4 revise the total monetary amounts for the total authorization,
5 debt authorization, appropriations and departmental totals as
6 necessary to agree with the total monetary amounts of the
7 projects.

8 Section 84. Effective date.

9 This act shall take effect immediately.
