22	DEFINITIONS AND IMPOSITION
23	Section 1601-C Definitions

- 1 The following words and phrases when used in this part shall
- 2 have the meanings given to them in this section unless the
- 3 context clearly indicates otherwise:
- 4 "Bare drilling and completion costs." The actual cost to
- 5 prepare a site for drilling and to drill, complete and equip an
- 6 <u>unconventional gas well for production, excluding the costs of</u>
- 7 <u>land acquisition, geophysical and geologic costs, internal</u>
- 8 administrative costs and any costs incurred after production of
- 9 the gas.
- "Date of first production." When used in reference to a
- 11 particular unconventional gas well, the first day in the month
- 12 <u>an unconventional gas well produces natural gas for sale.</u>
- 13 "Department." The Department of Revenue of the Commonwealth.
- 14 <u>"Fund." The Unconventional Natural Gas Severance Tax Fund</u>

- 17 produced by an unconventional gas well equal the bare drilling
- 18 and completion costs for the well.

- 20 company that engages in the business of severing natural gas for
- 21 sale, profit or commercial use from an unconventional gas well

- 26 sells natural gas.
- 27 "Sales meter." A meter to measure natural gas located at the
- 28 point where natural gas is sold or transported to a purchaser or
- 29 market.

- 16 whether the production is separately metered.
- 17 "Unconventional formation." A geological shale formation
- 18 existing below the base of the Elk Sandstone or its geologic
- 19 equivalent stratigraphic interval where natural gas generally
- 20 cannot be produced at economic flow rates or in economic volumes
- 21 except by vertical or horizontal well bores stimulated by
- 22 hydraulic fracture treatments or using multilateral well bores
- 23 or other techniques to expose more of the formation to the well
- 24 bore.
- 25 "Unconventional gas well." A bore hole drilled or being
- 26 drilled for the purpose of or to be used for the production of
- 27 <u>natural gas from an unconventional formation.</u>
