4 (E) The wind power generation company conducts
5 an assessment or survey to determine the presence of
6 endangered or threatened species and the species'
7 critical habitats in the area likely to be affected
8 by the installation and use of the wind power
9 generation system. The study shall further determine
10 whether the installation will adversely affect a
11 threatened or endangered species or a threatened or
12 endangered species' habitat. If there is a
13 determination that the installation or use of the
14 wind power generation system will adversely affect a
15 threatened or endangered species or a threatened or
16 endangered species' habitat, measures shall be
17 implemented to avoid, minimize or mitigate the
18 adverse effects.
