3 (b) Designation of additional dangerous transmissible
4 diseases through regulation.--The department shall have the
5 authority to promulgate regulations that designate other
6 transmissible diseases to be dangerous transmissible diseases
7 under this chapter if such other transmissible diseases present
8 a danger to public health, to domestic animal health, to the
9 safety or quality of the food supply or to the economic well-
10 being of the domestic animal industries. The department shall
11 also have the authority to withdraw the designation of a
12 particular transmissible disease as a dangerous transmissible
13 disease under this chapter if the transmissible disease no
14 longer presents a danger to public health, to domestic animal
15 health, to the safety or quality of the food supply or to the
16 economic well-being of the domestic animal industries.

17 (c) Department of Health; notification and consultation.--
18 The department shall inform the Department of Health of the
19 outbreak of a domestic animal disease which may threaten human
20 health and shall, in consultation with the Department of Health,
21 determine the public health risk associated with the domestic
22 animal disease outbreak and the appropriate action to manage
23 such risk. Additions or deletions of domestic animal diseases of
24 public health significance to or from the list of dangerous
25 transmissible diseases shall be jointly determined by the
26 department and the Department of Health.

27 (d) Designation of additional dangerous transmissible
28 diseases through temporary order.--Upon the determination that a
29 transmissible disease not listed in subsection (a), and not
30 designated a dangerous transmissible disease through regulation

1 under subsection (b), presents a danger to public health, to
2 domestic animal health, to the safety or quality of the food
3 supply or to the economic well-being of the domestic animal
4 industries, the department shall issue a temporary order
5 proclaiming that transmissible disease to be a dangerous
6 transmissible disease within the meaning of this chapter. This
7 chapter shall be applicable to that dangerous transmissible
8 disease as of the date of actual or constructive notice of the
9 order or any later date specified in that order. The department
10 shall publish such an order in the Pennsylvania Bulletin within
11 20 days of its issuance. Publication in the Pennsylvania
12 Bulletin shall effect constructive notice. The temporary order
13 shall remain in effect for a period not to exceed one year,
14 unless reissued, or until the transmissible disease is
15 designated to be a dangerous transmissible disease through
16 regulation under subsection (b), whichever occurs first.

17 (e) Regulations.--The department may establish regulations
18 addressing the specific discovery, prevention, reporting,
19 testing, control and eradication measures which it determines
20 are necessary with respect to any dangerous transmissible
21 disease.

22 § 2322. Neoplastic diseases, metabolic diseases and heritable
23 diseases.

24 If a neoplastic disease, metabolic disease or heritable
25 disease is determined by the department to pose a threat to
26 domestic animal health or to the economic well-being of the
27 domestic animal industries, then the department may establish
28 regulations addressing any discovery, prevention, reporting,
29 testing, control, eradication or other measures as are necessary
30 to lessen or eliminate the threat.

1 § 2323. Health requirements.

2 (a) Interstate and intrastate movement of domestic
3 animals.--The department may establish identification and
4 minimum health standards for the importation or the intrastate
5 movement of domestic animals in this Commonwealth and may
6 establish procedures for certification of the health status of
7 domestic animals imported into or transported within this
8 Commonwealth. If the department shall suspect the genuineness of
9 any health certificate or official disease test report relating
10 to domestic animals or shall question the competency of the
11 person who shall have issued such report or certificate, the
12 department may decline to accept the same and may refuse to
13 permit the importation or intrastate movement of the domestic
14 animals concerned, unless a certificate or report is furnished
15 from the proper inspector of the state or country of origin or
16 USDA-APHIS-VS or unless the department shall otherwise
17 determine.

18 (b) Violations.--

19 (1) It shall be unlawful for any person to knowingly,
20 recklessly or negligently import or bring into this
21 Commonwealth without the written permission of the department
22 any domestic animal that is contaminated with a hazardous
23 substance or that is infected with or that has been exposed
24 to any transmissible disease.

25 (2) It shall be unlawful for any person to knowingly,
26 recklessly or negligently import or bring into this
27 Commonwealth any domestic animal in violation of any of the
28 provisions of this chapter, an order entered under authority
29 of this chapter or any attendant regulation to prevent the
30 introduction of any transmissible disease.

1 (3) It shall be unlawful for any person to knowingly,
2 recklessly or negligently receive or keep or have in his
3 keeping or possession any domestic animal imported, brought
4 into or transported within this Commonwealth in violation of
5 any of the provisions of this chapter or to allow any such
6 domestic animal to come into contact with any other domestic
7 animal.

8 (c) Authority to remove or slaughter.--Whenever any domestic
9 animal is imported into this Commonwealth or transported within
10 this Commonwealth in violation of this chapter, the department
11 shall have authority to cause such domestic animal to be removed
12 from this Commonwealth or the domestic animal removed directly
13 to slaughter or destroyed without indemnity.

14 § 2324. Safety of domestic animal feed.

15 (a) General authority.--The department shall have the
16 authority and the duty to protect the food supply of domestic
17 animals in order to prevent the transmission of diseases and
18 substances hazardous to human health or domestic animal health.

19 (b) Carcasses used for animal feed.--No domestic animal
20 carcass or parts of a domestic animal carcass shall be sold for
21 domestic animal feeding purposes if the meat or meat parts may
22 be hazardous to the health of domestic animals to which such
23 meat or meat parts may be fed.

24 (c) Garbage used for domestic animal feed.--No garbage may
25 be fed to domestic animals except in accordance with Subchapter
26 G (relating to garbage feeding business).

27 (d) Regulations.--The department shall establish regulations
28 and standards to assure the safety of materials that are fed to
29 domestic animals.

30 (e) Licensure.--The department shall provide for the

1 licensure of persons owning or operating facilities, equipment
2 or conveyances utilized in the collection, treatment,
3 preparation and transportation of domestic animal by-products
4 that are used in feed for domestic animals.

5 (f) Content.--The department may establish standards for the
6 composition of feed for domestic animals, including, but not
7 limited to, antibiotics and chemical additives for the purpose
8 of preventing tissue residues and contamination of domestic
9 animal products by substances hazardous to human health or
10 domestic animal health. Such standards shall be established by
11 regulation.

12 (G) PROHIBITION.--NOTWITHSTANDING ANY PROVISION OF THIS <—
13 CHAPTER TO THE CONTRARY, A DOMESTIC ANIMAL OR PART OF A DOMESTIC
14 ANIMAL WHICH IS SUSPECTED OF CARRYING A TRANSMISSIBLE SPONGIFORM
15 ENCEPHALOPATHY SHALL NOT BE MOVED WITHOUT WRITTEN PERMISSION OF
16 THE DEPARTMENT OR USED IN THE MANUFACTURE OR PRODUCTION OF
17 DOMESTIC ANIMAL FEED.

18 § 2325. Use of biologicals, antibiotics, genetic material,
19 chemicals, diagnostic agents and other substances.

20 (a) Authority.--The department shall have the authority to
21 regulate the manufacture, sale or administration of any
22 biological product intended for diagnostic, preventive or
23 therapeutic purposes with domestic animals. The department may
24 establish regulations to control the production, sale,
25 distribution or use of biologicals, antibiotics, genetic
26 material, chemicals and other substances administered to
27 domestic animals.

28 (b) Testing.--The department may prescribe methods of making
29 official tests and may restrict the use of such tests to
30 authorized accredited veterinarians and agents of the department

1 and USDA-APHIS-VS for diagnosis of diseases of domestic animals.
2 It shall be the duty of each person using restricted tests to
3 report in writing the results of restricted tests to the
4 department. Each report shall be signed by the person who
5 conducted the test and shall give the date of the test, the name
6 and address of the owner of the domestic animal tested, the
7 location where such test was conducted, a description and
8 definitive permanent identification of the domestic animal or
9 domestic animals tested and a complete statement of the actual
10 result of such test. It shall be unlawful for any person whose
11 duty it is to make a report to fail or refuse to do so.

12 (c) Vaccines.--The department may, in order to prevent or
13 control the introduction or spread of dangerous transmissible
14 diseases, restrict the use of vaccines in domestic animals or
15 cause domestic animals in this Commonwealth to be vaccinated
16 with biologicals according to regulations promulgated under this
17 chapter.

18 § 2326. Sanitation.

19 The department shall have the authority to establish
20 standards of sanitation for the operation and maintenance of any
21 facility, conveyance, equipment, building or other means of
22 housing, containing or transporting domestic animals. Sanitation
23 standards shall be established to minimize the possible
24 transmission of dangerous transmissible diseases.

25 § 2327. Disease surveillance and detection.

26 (a) General authority.--The department shall have the
27 authority to regularly monitor the domestic animal population of
28 this Commonwealth to determine the prevalence, incidence and
29 location of transmissible diseases or contamination by hazardous
30 substances.

1 (b) Duty to report.--It shall be the duty of every
2 practitioner of veterinary medicine and every diagnostic
3 laboratory in this Commonwealth, immediately upon receiving
4 information thereof, to report to the department each case of
5 any dangerous transmissible disease and each case of potential
6 contamination by substances declared hazardous by the
7 department.

8 (c) Violations.--

9 (1) It shall be unlawful for any person to impede,
10 hinder or interfere with the testing of a domestic animal, or
11 to refuse to confine a domestic animal so as to allow testing
12 without undue burden on the official conducting the test, or
13 to fail to present the person's domestic animals for testing
14 by the department under authority of this chapter after
15 reasonable notice of the proposed testing has been given.

16 (2) It shall be unlawful for any person who has
17 knowledge that a domestic animal is infected with a dangerous
18 transmissible disease, or has been exposed to a dangerous
19 transmissible disease, or has been contaminated by a
20 hazardous substance, to conceal or attempt to conceal such
21 domestic animal or knowledge of such a domestic animal from
22 the department.

23 (d) Wild animals.--The department shall have the authority
24 to solicit assistance from and provide assistance to Federal and
25 other State agencies, local governments and private entities in
26 monitoring wild animals in this Commonwealth to determine the
27 presence of dangerous transmissible disease. This monitoring may
28 be done in cooperation with the Pennsylvania Game Commission,
29 the Pennsylvania Fish and Boat Commission, the United States
30 Fish and Wildlife Service or any other private or governmental

1 entity.

2 § 2328. Entry on premises.

3 In the performance of the duties required by this chapter,
4 the department may at any time enter any premises or stop and
5 detain any vehicle or conveyance. If entry shall be refused or
6 delayed by any person, the department's employee or agent may,
7 upon oath OR AFFIRMATION, declare before a court of competent <—
8 jurisdiction that the employee or agent has reason to believe
9 that domestic animals or articles that are or have been confined
10 or kept in or on such premises carry a dangerous transmissible
11 disease, have been exposed to a dangerous transmissible disease
12 or have been contaminated by a hazardous substance, and shall
13 further declare that permission to enter and to investigate has
14 been refused or delayed to the department. Upon review of such
15 declaration, the court of jurisdiction may issue a search
16 warrant for such premises, directed to the proper officer, agent
17 or employee. The search warrant shall describe the premises
18 which may be searched under authority of the search warrant, but
19 need not describe the domestic animal, domestic animal products
20 or other articles which are alleged to carry a dangerous
21 transmissible disease, to have been exposed to a dangerous
22 transmissible disease or to have been contaminated by a
23 hazardous substance, which are or have been confined or kept on
24 such premises. An officer, agent or employee of the department
25 armed with such a search warrant shall have all the authority of
26 a constable or other peace officer in the execution of the
27 warrant. It shall be unlawful for any person to refuse or delay
28 admission to any premises to any officer, agent or employee of
29 the department provided with a search warrant issued pursuant to
30 this section. The department shall take appropriate biosecurity

1 and safety measures to ensure that it does not allow dangerous
2 transmissible disease or contamination from hazardous substances
3 to spread as the result of its entry upon any premises or
4 conveyance.

5 § 2329. Quarantine.

6 (a) Power to establish and enforce.--Whenever a dangerous
7 transmissible disease or contamination by hazardous substances
8 exists anywhere within or outside of this Commonwealth, or
9 whenever it is deemed advisable to test or treat any domestic
10 animal upon the reasonable suspicion that it has contracted or
11 been exposed to a dangerous transmissible disease or is
12 contaminated with a hazardous substance, or whenever the testing
13 or treatment of a domestic animal indicates that the domestic
14 animal has been exposed to a dangerous transmissible disease or
15 contaminated with a hazardous substance so as to render future
16 accurate testing for recent exposure of that domestic animal to
17 that dangerous transmissible disease or hazardous substance
18 impractical or impossible, the department shall have the power
19 to establish and enforce quarantines of any such infected,
20 exposed, contaminated, suspected or susceptible domestic animal.
21 In addition to the aforescribed domestic animals, a quarantine
22 may apply to any goods, products, facilities, CONTAINERS, <—
23 vehicles or materials that may carry dangerous transmissible
24 disease or that may be contaminated with a hazardous substance
25 and may be applied on or in or against any premises, area or
26 locality as defined in this chapter.

27 (b) Type and duration.--Quarantines shall be of three kinds:

28 (1) interstate and/or international;

29 (2) general; and

30 (3) special;

1 and shall continue in effect for such lengths of time as the
2 department deems necessary or advisable.

3 (c) Interstate and international quarantines.--

4 (1) An interstate or international quarantine may be
5 established and enforced by order of the department against
6 any place or places outside this Commonwealth for any of the
7 reasons set forth in subsection (a) or where dangerous
8 transmissible diseases or hazardous substances are reported
9 to exist. An interstate or international quarantine order may
10 prohibit the bringing of any domestic animals, conveyances,
11 containers, goods, products or materials into this
12 Commonwealth except in accordance with the requirements set
13 forth in the quarantine order. The order may require the
14 quarantine, testing, treatment, killing or other disposition
15 of any domestic animal brought into this Commonwealth in
16 violation of the order and may require the quarantine,
17 disinfection or destruction of goods, products, conveyances,
18 materials or containers brought into this Commonwealth in
19 violation of the order. The order may also require that a
20 person importing domestic animals in violation of the order
21 bear the expenses of postentry requirements of this chapter.

22 (2) An interstate or international quarantine shall be
23 established by order of the department and shall be effective
24 as of the date of actual or constructive notice OF THE order <—
25 or any later date specified in that order.

26 (3) Notices and copies of the order establishing an
27 interstate or international quarantine shall be advertised in
28 the Pennsylvania Bulletin within 20 days of the date of the
29 order, in at least one newspaper of general circulation
30 within this Commonwealth and in at least one newspaper of

1 general circulation in the state(s) or nation(s) against
2 which the quarantine is directed. Publication in the
3 Pennsylvania Bulletin shall effect constructive notice. The
4 department shall, if practicable, mail or deliver notice and
5 a copy of the quarantine order to the governmental agency or
6 agencies overseeing agricultural affairs in the state(s) or
7 nation(s) against which the quarantine is directed. The
8 quarantine order may be enforced prior to such publication or
9 distribution.

10 (d) General quarantines.--

11 (1) A general quarantine may be established and enforced
12 by order of the department against any area or locality
13 within this Commonwealth for any of the reasons set forth in
14 subsection (a) to prevent a dangerous transmissible disease
15 or a domestic animal contaminated by a hazardous substance
16 from being carried into, within, from or out of the area or
17 locality that is subject to the quarantine. A general
18 quarantine order may include any domestic animals,
19 conveyances, containers, goods, products or materials that
20 may carry dangerous transmissible disease or domestic animals
21 that are contaminated with a hazardous substance and may
22 include any area or locality, including all buildings,
23 structures, premises and equipment located therein.

24 (2) A general quarantine shall be established by order
25 of the department and shall be effective as of the date of
26 actual or constructive notice of the order or any later date
27 specified in that order.

28 (3) Notices and copies of the order establishing a
29 general quarantine shall be advertised in the Pennsylvania
30 Bulletin within 20 days of the date of the order and in at

1 least one newspaper of general circulation within the area or
2 locality subject to the quarantine. Publication in the
3 Pennsylvania Bulletin shall effect constructive notice. The
4 quarantine order may be enforced prior to such publication.

5 (e) Special quarantines.--

6 (1) A special quarantine may be established and enforced
7 by order of the department against any premises, domestic
8 animals, conveyances, containers, goods, products or
9 materials situated within this Commonwealth for any of the
10 reasons set forth in subsection (a) or whenever it is deemed
11 necessary or advisable by the department to prevent or
12 control the spread of a dangerous transmissible disease;
13 control a domestic animal contaminated by a hazardous
14 substance; control any domestic animal; examine or disinfect
15 or regulate the use of any premises, materials, conveyances,
16 goods, containers or products; or destroy or dispose of the
17 carcass of any dead domestic animal.

18 (2) A special quarantine shall be established by the
19 posting of a quarantine order describing the domestic animal
20 or domestic animals and any conveyances, containers, goods,
21 materials, products or premises covered by the special
22 quarantine. The quarantine notice shall be conspicuously
23 posted so as to alert any visitor to the quarantined premises
24 of the probable presence of a dangerous transmissible disease
25 or domestic animals contaminated by hazardous substances.

26 (3) If practicable, the department shall serve a copy of
27 the special quarantine order upon the owner or caretaker of
28 the domestic animals, premises or other property subject to
29 the order. The department shall have authority to make
30 available to interested persons the names and locations of

1 premises subject to special quarantine.

2 (f) Violations of quarantine.--

3 (1) It shall be unlawful for any person to sell, offer
4 for sale, lease, lend, exchange, give away, transfer, remove
5 or allow to be removed any animals or animal products, goods,
6 materials, containers, conveyances or other articles that are
7 the subject of A general or special quarantine order under <—
8 this section without first obtaining the written permission
9 of the department to do so.

10 (2) It shall be unlawful for any person to allow a
11 domestic animal that is the subject of a general or special
12 quarantine order under this section to stray beyond the
13 quarantined premises, area or locality.

14 (3) It shall be unlawful for any person to transfer
15 ownership of any animal or animal product that is the subject
16 of a general or special quarantine order under this section
17 without first notifying the prospective or actual transferee
18 of the quarantine order and the reasons for the imposition of
19 quarantine.

20 (4) It shall be unlawful for any person to use or
21 prepare as food for humans or domestic animals any domestic
22 animal or domestic animal product that is the subject of a
23 general or special quarantine order under this section
24 without first obtaining the written permission of the
25 department to do so. Such permission shall be granted in
26 accordance with any applicable guidelines established by the
27 department.

28 (5) It shall be unlawful for any person to tear, deface,
29 destroy, remove, conceal or alter in any way any notice of
30 quarantine posted by the department or to remove or destroy,

1 partially or wholly, any portion of a building, tree, fence
2 or other object to which a notice of quarantine has been
3 posted by the department.

4 (6) It shall be unlawful for any person to bring into
5 this Commonwealth any domestic animals, containers, goods,
6 products, conveyances or materials that are the subject of an
7 interstate or international quarantine order under this
8 section.

9 (7) It shall be unlawful for any person to impede,
10 hinder or interfere with the department entering upon
11 premises or elsewhere in the performance of duties imposed by
12 this subchapter.

13 (8) It shall be unlawful for any person to violate any
14 provision of a quarantine order issued under this section.

15 § 2330. Condemnation.

16 The department shall have the authority to condemn and seize
17 or cause to be destroyed any quarantined domestic animal,
18 domestic animal product, conveyance or other quarantined article
19 that has been determined by the department as having been
20 exposed to a dangerous transmissible disease or a hazardous
21 substance such that destruction of the domestic animal, domestic
22 animal product, conveyance or other article is necessary to
23 prevent the spread of such disease or contamination.

24 § 2331. Indemnification.

25 (a) In general.--Whenever a condemned domestic animal,
26 domestic animal product or other condemned property is
27 slaughtered or destroyed by order of the department to eradicate
28 or prevent the spread of dangerous transmissible disease or
29 contamination by a hazardous substance, the department may
30 compensate the owner of such domestic animal, domestic animal

1 product or other condemned property for a portion of the
2 appraised value of the domestic animal or property, provided
3 that such compensation is made in accordance with this section.
4 Notwithstanding the definition of "owner" set forth in section
5 2303 (relating to definitions), indemnification payments made
6 under this section shall be made only to those persons who have
7 an actual ownership interest in the domestic animal or other
8 property that is the subject of the indemnification payment.

9 (b) Indemnification limits.--

10 (1) The amount of indemnity paid by the department shall
11 not exceed \$2,000 with respect to any individual domestic
12 animal.

13 (2) The amount of indemnity paid by the department with
14 respect to domestic animals condemned under authority of this
15 chapter shall not exceed the sum of \$200,000 for any group of
16 domestic animals, regardless of the number of owners having
17 domestic animals within such group of condemned domestic
18 animals.

19 (3) The maximum amount of indemnity paid by the
20 department shall not exceed 67% of the appraised value of the
21 condemned domestic animal, domestic animal product or other
22 condemned property for which indemnification is sought.

23 (4) The amount of indemnity paid by the department to
24 the owner of domestic animals condemned under authority of
25 this chapter plus the salvage value and the value of
26 indemnity payments received from any other source shall not
27 exceed 90% of the appraised value of such domestic animals.

28 (5) The amount of indemnity which the department may pay
29 under this section shall be limited by the availability of
30 funds for this purpose.

1 (6) Funds for indemnification under this section may not
2 be paid by the department to indemnify owners of condemned
3 cats and dogs.

4 ~~(7) The department may by regulation change the~~ <—
5 ~~indemnification limits prescribed by this section.~~

6 (c) Forfeiture.--A person shall not be eligible for any
7 indemnity payment or depopulation incentive payment under this
8 chapter for any domestic animal, group of domestic animals,
9 domestic animal product or other article if such person has been
10 determined by the department to have committed a violation of
11 any provision of this chapter or order, rule or regulation
12 adopted under authority of this chapter that has resulted in the
13 condemnation for which indemnity would be paid. A person shall
14 not be eligible for any indemnity payment or depopulation
15 incentive payment with respect to any domestic animal or group
16 of domestic animals having a condition of disease or
17 contamination which the department has determined to have been
18 directly caused by the person's willful misuse of a pesticide or
19 a hazardous substance.

20 (d) Appraisal.--Whenever the department condemns domestic
21 animals, domestic animal products or other articles, the value
22 of such animals, products and articles shall be appraised. No
23 domestic animal that is dead shall be appraised and no indemnity
24 shall be payable for such domestic animal, except that a
25 domestic animal that dies after condemnation by the department
26 may be appraised on the basis of its condition at the time of
27 condemnation, and indemnity may be paid with respect to such a
28 domestic animal. The department shall determine the appraised
29 value of the condemned domestic animal, products or articles
30 taking into consideration the current market values, age of the

1 animal, physical condition of the animal, its condition as to
2 disease, nature and extent of disease, breeding value, milk
3 production value, salvage value of the animal and any other
4 factors which may influence value. If the department and the
5 owner of the condemned domestic animals, domestic animal
6 products or other articles are unable to agree on the appraised
7 value of the domestic animals, products or articles, then the
8 department and the owner may appoint a mutually agreeable
9 appraiser to determine the appraised value. Costs of such an
10 appraisal shall be borne by the owner. In the absence of such a
11 mutually agreeable appraiser, the department's determination of
12 the appraised value shall control.

13 (e) Disposal of condemned domestic animal.--A domestic
14 animal that has been condemned by the department and is eligible
15 for indemnity under this chapter shall be disposed of by the
16 owner, under the supervision of the department, in accordance
17 with the laws of this Commonwealth and regulations adopted by
18 the department. When condemned domestic animals are approved by
19 the department for salvage, the salvage value shall be paid
20 directly to the owner by the buyer of the live domestic animal
21 or the buyer of the carcass, hide, offal or other by-product.
22 The buyer shall promptly present an itemized statement of the
23 salvage value to the department to determine the amount, if any,
