24 The General Assembly of the Commonwealth of Pennsylvania  
25 hereby enacts as follows:

26 Section 1. Section 602(a) of the act of May 21, 1943  
27 (P.L.571, No.254), known as The Fourth to Eighth Class County

1 Assessment Law, amended December 13, 1982 (P.L.1173, No.270), is  
2 amended to read:

3 Section 602. Valuation of Persons and Property.--(a) It  
4 shall be the duty of the chief assessor to rate and value all  
5 subjects and objects of local taxation, whether for county,  
6 township, town, school (except in cities), county institution  
7 district, poor or borough purposes, according to the actual  
8 value thereof, and in the case of subjects and objects of local  
9 taxation other than real property at such rates and prices for  
10 which the same would separately bona fide sell. After there has  
11 been established and completed for the entire county the  
12 permanent system of records consisting of tax maps, property  
13 record cards and property owners' index, as required by section  
14 three hundred six of the act herein amended, real property shall  
15 be assessed at a value based upon an established predetermined  
16 ratio, of which proper notice shall be given, not exceeding  
17 [seventy-five per centum (75%)] one hundred per centum (100%) of  
18 actual value. Such ratio shall be established and determined by  
19 the board of county commissioners. In arriving at actual value  
20 the county may utilize the current market value or it may adopt  
21 a base year market value. In arriving at such value, the price  
22 at which any property may actually have been sold either in the  
23 base year or in the current taxable year shall be considered,  
24 but shall not be controlling. Instead, such selling price  
25 estimated or actual shall be subject to revision by increase or  
26 decrease to accomplish equalization with other similar property  
27 within the county. In arriving at the actual value, all three  
28 methods, namely, cost (reproduction or replacement, as  
29 applicable, less depreciation and all forms of obsolescence),  
30 comparable sales and income approaches, must be considered in

1 conjunction with one another. After the completion of the  
2 permanent system of records for the county, when valuing real  
3 property, the chief assessor shall also take into consideration  
4 the actual value of such property as indicated by the use of the  
5 permanent system of records, cost charts and land values applied  
6 on the basis of zones and districts as well as the general  
7 adherence to the established predetermined ratio.
