AN ACT

1 Providing Commonwealth support for a Science and Mathematics  
2 Teacher Loan Forgiveness Program for residents who graduate  
3 from Pennsylvania institutions of higher education with  
4 certification in science and mathematics and who agree to  
5 apply their expertise to public schools in this Commonwealth.

6 The General Assembly of the Commonwealth of Pennsylvania  
7 hereby enacts as follows:

8 Section 1. Short title.

9 This act shall be known and may be cited as the Science and  
10 Mathematics Teacher Loan Forgiveness Program Act.

11 Section 2. Findings and declaration of intent.

12 The General Assembly finds and declares as follows:

13 (1) National surveys indicate that having a qualified  
14 teacher in every classroom is the most significant  
15 contributor to student success.

16 (2) A critical shortage of teachers already exists

1 nationally in the curricular areas of science and  
2 mathematics.

3 (3) The increasing demand of the highly technical global  
4 marketplace necessitates that our graduating high school  
5 students be proficient in mathematics and science.

6 (4) Forgiveness of a portion of student loans for  
7 certified mathematics and science teachers may encourage new  
8 teachers certified in these critical areas to remain in  
9 Pennsylvania public schools for at least four years and thus  
10 help alleviate any current or projected shortages.

### 11 Section 3. Definitions.

12 The following words and phrases when used in this act shall  
13 have the meanings given to them in this section unless the  
14 context clearly indicates otherwise:
