3 processed for the purpose of targeted advertising or the sale
4 of personal information.

6 consumer's personal information for the purpose of any of the
7 following:

8 (i) Targeted advertising.

11 produce legal or similarly significant effects concerning
12 a consumer.

13 (4) Access the consumer's personal information.

14 (5) Correct inaccurate personal information concerning
15 the consumer, taking into account the nature of the personal
16 information and the purpose of the processing of the personal
17 information.

18 (6) Request that a business delete personal information
19 that the business processes about the consumer. The following
20 shall apply to this paragraph:

21 (i) A business that collects personal information
22 about a consumer shall disclose under subsection (1) the
23 consumer's right to request the deletion of the
24 consumer's personal information.

25 (ii) Except as otherwise provided under this act, a
26 business that receives a verifiable request from a
27 consumer to delete the consumer's personal information
28 shall delete the consumer's personal information from its
29 records and direct a service provider who processes the
30 consumer's personal information on the business's behalf

1 to delete the personal information within 45 calendar
2 days.

3 (7) Obtain personal information previously provided by
4 the consumer to the business in a portable and, to the extent
5 technically feasible, readily usable format that allows the
6 consumer to transmit the personal information to another
7 business without hindrance, when the processing of the
8 personal information is carried out by automated means.

9 (b) Disclosure by businesses.--A business shall provide a
10 consumer with a reasonably accessible, clear and meaningful
11 privacy notice, including the following:

12 (1) The categories of personal information the business
13 processes.

14 (2) The categories of sources from which the personal
15 information is collected.

16 (3) The purpose for processing the categories of
17 personal information.

18 (4) The categories of personal information that the
19 business shares with a third party, if applicable.

20 (5) The specific pieces of personal information the
21 business has collected about the consumer.

22 (6) How and where the consumer may exercise the
23 consumers' rights provided under this act.

24 (7) If the business sells personal information to a
25 third party or processes personal information for targeted
26 advertising, the sale or processing and the manner in which a
27 consumer may exercise the consumer's right to opt out of the
28 sale or processing.

29 (c) Request from consumer.--Nothing in this section shall be
30 construed to require a business to:

1 (1) retain any personal information about a consumer
2 collected for a single one-time transaction if, in the
3 ordinary course of business, that information about the
4 consumer is not retained; or

5 (2) reidentify or otherwise link any data that, in the
6 ordinary course of business, is not maintained in a manner
7 that would be considered personal information.

8 (d) Consumers of young age.--A business may not process a
9 consumer's personal information for the purpose of targeted
10 advertising or the sale of personal information if the business
11 has actual knowledge that the consumer is less than 16 years of
12 age, unless the consumer, in the case of a consumer who is
13 between 13 and 16 years of age, or the consumer's parent or
14 guardian, in the case of a consumer who is less than 13 years of
15 age, has consented to the processing. A business that willfully
16 disregards the consumer's age shall be deemed to have had actual
17 knowledge of the consumer's age.

18 (e) Duties of care.--A business or service provider shall
19 implement and maintain reasonable security procedures and
20 practices, including administrative, physical and technical
21 safeguards, appropriate to the nature of the personal
22 information and the purposes for which the personal information
23 will be used, to protect consumers' personal information from
24 unauthorized use, disclosure, access, destruction or
25 modification.

26 (f) Duties of data minimization.--A business's collection of
27 personal information shall be adequate, relevant and limited to
28 what is reasonably necessary regarding the purpose for which the
29 personal information is processed.

30 (g) Duties to avoid secondary use.--Except as provided under

1 this act, a business may not process personal information for a
2 purpose that is not reasonably necessary to, or compatible with,
3 the purpose for which the personal information is processed
4 unless the business obtains the consumer's consent.

5 (h) Duties to avoid unlawful discrimination.--A business may
6 not process personal information in violation of a Federal or
7 State law that prohibits unlawful discrimination against
8 consumers.

9 (i) Discrimination prohibited.--

10 (1) A business shall not discriminate against a consumer
11 because the consumer exercised any of the consumer's rights
12 under this section, including, but not limited to, by:

13 (i) Denying goods or services to the consumer.

14 (ii) Charging different prices or rates for goods or
15 services, including through the use of discounts or other
16 benefits or imposing penalties.

17 (iii) Providing a different level or quality of
18 goods or services to the consumer.

19 (iv) Suggesting that the consumer will receive a
20 different price or rate for goods or services or a
21 different level or quality of goods or services.

22 (2) Nothing in this subsection shall prohibit a business
23 from charging a consumer a different price or rate, or from
24 providing a different level or quality of goods or services
25 to the consumer, if that difference is reasonably related to
26 the value provided to the consumer by the consumer's data.

27 (j) Exercise of rights.--A business shall:

28 (1) In a form that is reasonably accessible to
29 consumers, make available to consumers two or more designated
30 methods for submitting verifiable requests to exercise the

1 rights specified under subsection (a), including, but not
2 limited to, a publicly accessible Internet website.

3 (2) Respond to a consumer's verifiable request under
4 paragraph (1) free of charge within 45 days of receiving the
5 verifiable request from the consumer. The time period to
6 respond to the verifiable request may be extended once by an
7 additional 45 days when reasonably necessary, provided the
8 consumer is provided notice of the extension within the first
9 45-day period. A business shall not be required to provide
10 the information required under subsection (1) to a consumer
11 more than once during a 12-month period.

12 (3) Ensure that all individuals responsible for handling
13 consumer inquiries about the business's privacy practices are
14 informed of the requirements of this section and how to
15 direct consumers to exercise their rights.

16 (4) For a consumer who exercises the consumer's right to
17 opt out of the processing of the consumer's personal
18 information for the purpose of targeted advertising or the
19 sale of personal information, refrain from processing the
20 personal information for the purpose of targeted advertising
21 or the sale of personal information unless the consumer
22 subsequently consents to the processing. This paragraph shall
23 apply to a consumer who communicates or signals the
24 consumer's right to opt out via user-enabled global privacy
25 controls, including browser plug-in or privacy settings,
26 device settings or any other mechanism.

27 (5) For a consumer who exercises the consumer's right to
28 opt out of the processing of the consumer's personal
29 information for the purpose of targeted advertising or the
30 sale of personal information, respect the consumer's decision

1 to opt out for a period of no less than 12 months before
2 requesting the consumer's consent to the processing.

3 (6) Use personal information collected from the consumer
4 in relation to the consumer's verifiable request under
5 paragraph (1) for the sole purpose of complying with the
6 verifiable request.

7 (k) Obligations on business.--

8 (1) The obligations imposed on a business or service
9 provider under this section shall not restrict the ability of
10 a business or service provider to:

11 (i) Comply with Federal, State or local laws.

12 (ii) Comply with a civil, criminal or regulatory
13 inquiry, investigation, subpoena or summons by Federal,
14 State or local authorities.

15 (iii) Cooperate with law enforcement agencies
16 concerning conduct or activity that the business, service
17 provider or third party reasonably and in good faith
18 believes may violate Federal, State or local laws.

19 (iv) Exercise or defend legal claims.

20 (v) Collect, use, retain, sell or disclose consumer
21 information that is deidentified.

22 (vi) Collect or sell a consumer's personal
23 information if every aspect of that commercial conduct
24 takes place wholly outside of this Commonwealth. For
25 purposes of this section, commercial conduct takes place
26 wholly outside of this Commonwealth if the business
27 collected that information while the consumer was outside
28 of this Commonwealth, no part of the sale of the
29 consumer's personal information occurred in this
30 Commonwealth and no personal information collected while

1 the consumer was in this Commonwealth is sold. This
2 subparagraph shall not permit a business to store,
3 including on a device, personal information about a
4 consumer when the consumer is in this Commonwealth and
5 then collecting that personal information when the
6 consumer and stored personal information is outside of
7 this Commonwealth.

8 (vii) Provide a product or service specifically
9 requested by a consumer, perform a contract to which the
10 consumer is a party or take steps at the request of the
11 consumer before entering into the contract or offer a
12 voluntary bona fide loyalty or rewards program.

13 (viii) Take immediate steps to protect an interest
14 that is essential for the life of the consumer or another
15 individual if the processing cannot otherwise be
16 authorized under this act.

17 (ix) Prevent, detect, protect against or respond to
18 a security incident, identity theft, fraud, harassment, a
19 malicious or deceptive activity or an illegal activity to
20 preserve the integrity or security of the system or to
21 investigate, report or prosecute a person responsible for
22 an activity specified under this subparagraph.

23 (x) Engage in public or peer-reviewed scientific,
24 historical or statistical research in the public interest
25 that adheres to applicable Federal and State laws and is
26 approved, monitored and governed by an institutional
27 review board, human subjects research ethics review board
28 or a similar independent oversight entity, which
29 determines all of the following:

30 (A) If the research is likely to provide

1 substantial benefits that do not exclusively accrue
2 to the controller.

3 (B) If the expected benefits of the research
4 outweigh the privacy risks.

5 (C) If the controller has implemented reasonable
6 safeguards to mitigate privacy risks associated with
7 the research, including any risks associated with
8 reidentification.

9 (2) The obligations imposed on a business or service
10 provider under this section shall not restrict the ability of
11 a business or service provider to collect, use or retain
12 information for any of the following purposes:

13 (i) Conducting internal research to improve, repair
14 or develop products, services or technology.

15 (ii) Performing internal operations that are
16 reasonably aligned with the expectations of the consumer
17 based on the consumer's existing relationship with the
18 business.

19 (3) The obligations imposed on a business or service
20 provider under this section shall not do any of the
21 following:

22 (i) Apply when compliance by the business or service
23 provider would violate an evidentiary privilege provided
24 under the laws of this Commonwealth.

25 (ii) Prevent a business or service provider from
26 providing personal information concerning a consumer to
27 an individual covered by an evidentiary privilege
28 provided under the laws of this Commonwealth as part of a
29 privileged communication.

30 (iii) Adversely affect the rights of an individual

1 provided under the United States Constitution or the
2 Constitution of Pennsylvania.

3 (iv) Apply to the processing of personal information
4 by an individual in the course of only a personal or
5 household activity.

6 (4) If a business or service provider processes personal
7 information in accordance with this subsection, the business
8 or service provider shall have the burden of demonstrating
9 that the processing meets the requirements under this
10 subsection.

11 (5) Personal information that is processed by a business
12 or service provider under this act may not be processed for
13 any purpose other than a purpose authorized under this
14 subsection.

15 (6) Personal information that is processed by a business
16 or service provider under this act may be processed only to
17 the extent that the processing:

18 (i) is necessary, reasonable and proportionate for a
19 purpose authorized under this subsection;

20 (ii) is adequate, relevant and limited to a purpose
21 authorized under this subsection; and

22 (iii) to the extent possible, adheres to reasonable
23 administrative, technical and physical measures to
24 protect the confidentiality, integrity and accessibility
25 of the personal information and to reduce reasonably
26 foreseeable risks of harm to the consumer.

27 (1) Duties of businesses and service providers.--

28 (1) A business or service provider shall meet the
29 obligations imposed under this act.

30 (2) A service provider shall adhere to the instructions

1 of a business and assist the business to meet the business's
2 obligations under this act. Based on the nature of the
3 processing and the information available to the service
4 provider, the service provider shall assist the business by
5 engaging in all of the following:

6 (i) To the extent possible, taking appropriate
7 technical and organizational measures to satisfy the
8 business's obligation to respond to a consumer request to
9 exercise the consumer's rights under subsection (a).

10 (ii) Assisting the business in meeting the
11 business's obligations regarding the security of
12 processing personal information and notice of a breach of
13 the security of the system in accordance with the act of
14 December 22, 2005 (P.L.474, No.94), known as the Breach
15 of Personal Information Notification Act.

16 (3) Notwithstanding the instructions of a business, a
17 service provider shall have the following duties:

18 (i) Ensuring each person processing personal
19 information is subject to a duty of confidentiality with
20 respect to the information.

21 (ii) Engaging a subcontractor, after providing the
22 business with an opportunity to object in accordance with
23 a written contract under paragraph (5), that requires the
24 subcontractor to meet the obligations of the service
25 provider regarding the personal information.

26 (4) Based on the context of the processing, a business
27 and a service provider shall implement appropriate technical
28 and organizational measures to ensure a level of security
29 appropriate to the risk and clearly allocate the duties to
30 implement the measures.

1 (5) The processing by a service provider shall be
2 governed by a binding written contract between the business
3 and the service provider that provides for all of the
4 following provisions:

5 (i) The processing instructions for the service,
6 including the nature and purpose of the processing.

7 (ii) The type of personal information subject to the
8 processing and the duration of the processing.

9 (iii) The requirements imposed under this paragraph
10 and paragraphs (3) and (4).

11 (iv) At the request of the business, the service
12 provider shall delete or return the personal information
13 to the business at the end of the provision of services,
14 unless retention of the personal information is required
15 by the laws of this Commonwealth.

16 (v) The service provider shall make available to the
17 business all information necessary to demonstrate
18 compliance with the obligations under this act.

19 (vi) Except as provided under subparagraph (vii),
20 the service provider shall allow for and contribute to
21 reasonable audits and inspections by the business or the
22 business's designated auditor.

23 (vii) In lieu of complying with subparagraph (vi),
24 the service provider may, with the business's consent,
25 arrange for a qualified and independent auditor to
26 conduct, at least annually and at the service provider's
27 expense, an audit of the service provider's policies and
28 technical and organizational measures in support of the
29 obligations under this act. An auditor shall use an
30 appropriate and accepted control standard or framework

1 and audit procedure for an audit under this subparagraph.
2 Upon request by the business, the service provider shall
3 provide a report of an audit under this subparagraph to
4 the business.

5 (viii) The contract may not relieve the business or
6 service provider from the liabilities imposed on the
7 business or service provider regarding processing under
8 this act.

9 (ix) The determination whether a person is acting as
10 the business or service provider regarding processing is
11 a fact-based determination that depends on the context in
12 which personal information is processed. A person who is
13 not limited in the processing of personal information, in
14 accordance with the business's instructions, or who fails
15 to adhere to the business's instructions, shall be
16 considered a business regarding the processing of the
17 personal information. A service provider that continues
18 to adhere to the business's instructions regarding the
19 processing of personal information shall remain the
20 service provider. If a service provider determines, by
21 itself or collaboration with another person, the purpose
22 and means of the processing of personal information, the
23 service provider shall be considered a business regarding
24 the processing.

25 (6) A business or service provider that discloses
26 personal information to another business or service provider
27 in compliance with this act shall not be in violation of this
28 act if all of the following apply:

29 (i) The recipient processes the personal information
30 in violation of this act.

1 (ii) At the time of disclosing the personal
2 information, the business or service provider did not
3 have actual knowledge that the recipient intended to
4 commit a violation of this act.

5 (7) A business or service provider that receives
6 personal information from another business or service
7 provider in compliance with this act as specified under
8 paragraph (6) shall not be in violation of this act if
9 another business or service provider fails to comply with
10 applicable obligations under this act.

11 (m) Violation.--A business shall be in violation of this
12 section if the business fails to cure an alleged violation
13 within 60 days after being notified of alleged noncompliance. A
14 business that fails to cure an alleged violation within 60 days
15 after being notified of alleged noncompliance shall be in
16 violation of the act of December 17, 1968 (P.L.1224, No.387),
17 known as the Unfair Trade Practices and Consumer Protection Law.
18 A business, service provider or any other person that violates
19 this section shall be subject to an injunction and liable for a
20 civil penalty of not more than \$2,500 for each unintentional
21 violation and not more than \$7,500 for each intentional
22 violation. Nothing in this act shall be construed to create or
23 imply a private cause of action.

24 (n) Rules and regulations.--The Attorney General shall
25 promulgate rules and regulations to implement this section and
26 may provide publicly available opinions for the purpose of
27 promoting the effective compliance with this act.

28 Section 4. Effective date.

29 This act shall take effect in one year.
