Alternatively, an insurer, MCO or contractor may satisfy this requirement through the completion of the review by a licensed medical professional in consultation with an appropriately qualified third party medical professional, licensed in the same or similar medical specialty as the requesting health care provider or type of health care provider that typically manages the enrollee's associated condition, provided that any compensation paid to the consulting
professional may not be contingent upon the outcome of the

clinical staff solely to the requesting health care provider.

(f) A peer-to-peer discussion shall be available to a
requesting health care provider from the time of a denial of

(4) Upon receipt of a submission of a prior authorization request, an insurer, MCO or contractor shall notify the health care provider of any missing or other supporting information necessary to make it a complete prior authorization request in accordance with subsection (h).

(1) The health care provider notifies the insurer, MCO or contractor of the performance of the closely related service no later than seventy two (72) hours following completion of the service but prior to the submission of the claim for payment. The submission of the notification shall include the submission of all relevant clinical information necessary for the insurer, MCO or contractor to evaluate the medical necessity and appropriateness of the service.

(2) Nothing in this subsection shall be construed to limit an insurer's, MCO's or contractor's consideration of medical necessity and appropriateness of the closely service, nor limit the need for verification of the enrollee's eligibility for coverage.

months following the effective date of this section, an insurer, MCO or contractor shall establish a provider portal that includes, at minimum, the following features:
