(1) Confirm whether or not a controller is processing or accessing the consumer's personal data.

(2) Correct inaccuracies in the consumer's personal data, taking into account the nature of the personal data and the purposes of the processing of the consumer's personal data.

(3) Delete personal data provided by or obtained about the consumer.

(4) Obtain a copy of the consumer's personal data processed by a controller in a portable and, to the extent technically feasible, readily usable format that allows the consumer to transmit the data to another controller without hindrance, where the processing is carried out by automated means.

(i) Targeted advertising.

(ii) The sale of personal data, except as provided under section 5(b).

(iii) Profiling in furtherance of solely automated decisions that produce legal or similarly significant effects concerning the consumer.

(b) Exercise of rights.--A consumer may exercise the rights under subsection (a) by a secure and reliable means established by a controller and described to the consumer in the controller's privacy notice. A consumer may designate an authorized agent in accordance with section 4 to exercise the consumer's right under subsection (a)(5) to opt out of the processing of the consumer's personal data on behalf of the consumer. For processing personal data of a known child, the parent or legal guardian may exercise the consumer's rights under subsection (a) on the child's behalf. For processing personal data concerning a consumer subject to a guardianship, conservatorship or other protective arrangement, the guardian or the conservator of the consumer may exercise the consumer's rights under subsection (a) on the consumer's behalf.

(c) Compliance.--Except as otherwise provided in this act, a controller shall comply with a request by a consumer to exercise the consumer's rights under subsection (a) as follows:

(1) The controller shall respond to the consumer without undue delay, but no later than 45 days after receipt of the request. The controller may extend the response period under this paragraph by an additional 45 days when reasonably necessary, considering the complexity and number of the consumer's requests, if the controller informs the consumer of the extension within the initial 45-day response period and the reason for the extension.

(2) If the controller declines to take action regarding the consumer's request, the controller shall inform the consumer without undue delay, but no later than 45 days after receipt of the request, of the justification for declining to take action and instructions for how to appeal the decision.

(3) Information provided in response to consumer requests shall be provided by the controller, free of charge, once per consumer during a 12-month period. If a request from a consumer is manifestly unfounded, excessive or repetitive, the controller may charge the consumer a reasonable fee to cover the administrative costs of complying with the request or decline to act on the request. The controller bears the burden of demonstrating the manifestly unfounded, excessive or repetitive nature of the request.

(4) If a controller is unable to authenticate a request to exercise a right afforded under subsection (a)(1), (2), (3) or (4) using commercially reasonable efforts, the controller shall not be required to comply with a request under this subsection and shall provide notice to the consumer that the controller is unable to authenticate the request to exercise the right until the consumer provides additional information reasonably necessary to authenticate the consumer and the consumer's request to exercise the right. A controller shall not be required to authenticate an opt-out request under subsection (a)(5), but the controller may deny an opt-out request if the controller has a good faith, reasonable and documented belief that the request is fraudulent. If a controller denies an opt-out request under subsection (a)(5) because the controller believes the request is fraudulent, the controller shall send a notice to the

person who made the request disclosing that the controller believes the request is fraudulent, why the controller believes the request is fraudulent and that the controller will not comply with the request.

(5) A controller that has obtained personal data about a consumer from a source other than the consumer shall be deemed in compliance with a consumer's request to delete the personal data in accordance with subsection (a)(3) by retaining a record of the deletion request and the minimum data necessary for the purpose of ensuring that the consumer's personal data remains deleted from the controller's records and not using such retained data for any other purpose in accordance with the provisions of this act.

(d) Appeals.--A controller shall establish a process for a consumer to appeal the controller's refusal to take action on a request by a consumer to exercise the consumer's rights under subsection (a) within a reasonable period of time after the consumer's receipt of the decision under subsection (c)(2). The appeal process shall be conspicuously available and similar to the process for submitting requests to initiate an action under subsection (b). No later than 60 days after receipt of an appeal, the controller shall inform the consumer in writing of an action taken or not taken in response to the appeal, including a written explanation of the reason for the decision. If the appeal is denied, the controller shall also provide the consumer with an online mechanism, if available, or other method through which the consumer may contact the Attorney General to submit a complaint.

Section 4. Designation of authorized agent.

A consumer may designate another person to serve as the

consumer's authorized agent and act on the consumer's behalf to opt out of the processing of the consumer's personal data for the purposes specified under section 3(a)(5). A controller shall comply with an opt-out request received from an authorized agent under section 3(a)(5) if the controller is able to verify, with commercially reasonable effort, the identity of the consumer and the authorized agent's authority to act on the consumer's behalf.

Section 5. Duties of controllers.

(a) Duties.--A controller shall have all of the following duties:

(1) Limit the collection of personal data to what is adequate, relevant and reasonably necessary in relation to the purposes for which the data is processed, as disclosed to the consumer.

(2) Except as otherwise provided in this act, refrain from processing personal data for purposes that are neither reasonably necessary to, nor compatible with, the disclosed purposes for which the personal data is processed, as disclosed to the consumer, unless the controller obtains the consumer's consent.

(3) Establish, implement and maintain reasonable administrative, technical and physical data security practices to protect the confidentiality, integrity and accessibility of personal data appropriate to the volume and nature of the personal data at issue.

(4) Refrain from processing sensitive data concerning a consumer without obtaining the consumer's consent or, in the case of the processing of sensitive data concerning a known child, without processing the data, in accordance with 15

U.S.C. Ch. 91 (relating to children's online privacy protection).

(5) Refrain from processing personal data in violation of a Federal or State law that prohibits unlawful discrimination against a consumer.

(6) Provide an effective mechanism for a consumer to revoke the consumer's consent that is at least as easy as the mechanism by which the consumer provided the consumer's consent and, upon revocation of the consent, cease to process the data as soon as practicable, but no later than 15 days after the receipt of the request.

(7) Refrain from processing the personal data of a consumer for the purpose of targeted advertising or selling the consumer's personal data without the consumer's consent under circumstances where the controller has actual knowledge and willfully disregards that the consumer is younger than 16 years of age.

(8) Refrain from discriminating against a consumer for exercising any of the consumer rights under section 3(a), including denying goods or services, charging different prices or rates for goods or services or providing a different level of quality of goods or services to the consumer.

(b) Construction.--Nothing in subsection (a) shall be construed to require a controller to provide a product or service that requires the personal data of a consumer that the controller does not collect or maintain nor prohibit a controller from offering a different price, rate, level, quality or selection of goods or services to a consumer, including offering goods or services for no fee, if the offering is in

connection with a consumer's voluntary participation in a bona fide loyalty, rewards, premium features, discounts or club card program.

(c) Privacy notice.--A controller shall provide a consumer with a reasonably accessible, clear and meaningful privacy notice that includes all of the following:

(1) The categories of personal data processed by the controller.

(2) The purpose for processing personal data.

(3) How the consumer may exercise the consumer's rights, including how the consumer may appeal the controller's decision with regard to the consumer's request under section 3(d).

(4) The categories of personal data that the controller shares with each third party.

(5) The categories of each third party with which the controller shares personal data.

(6) An active email address or other online mechanism that the consumer may use to contact the controller.

(d) Disclosures.--If a controller sells personal data to a third party or processes personal data for targeted advertising, the controller shall clearly and conspicuously disclose the sale or processing and the manner in which a consumer may exercise the right to opt out of the sale or processing.

(e) Means to exercise rights.--

(1) A controller shall establish and describe in the privacy notice under subsection (c) a secure and reliable means for consumers to submit a request to exercise the consumer's rights under section 3(a). The secure and reliable means under this paragraph shall take into account the manner

in which a consumer normally interacts with the controller, the need for secure and reliable communication for the request and the ability of the controller to verify the identity of the consumer making the request. A controller may not require a consumer to create a new account in order to exercise the consumer's rights under section 3(a), but may require the consumer to use an existing account. The secure and reliable means shall include all of the following:

(i) Providing a clear and conspicuous link on the controller's Internet website to an Internet web page that enables a consumer, or an agent of the consumer, to opt out of the targeted advertising or sale of the consumer's personal data under section 3(a)(5).

(ii) No later than January 1, 2026, allowing a consumer to opt out of the processing of the consumer's personal data for the purpose of targeted advertising or the sale of the consumer's personal data under section 3(a)(5) through an opt-out preference signal sent, with the consumer's consent, by a platform, technology or mechanism to the controller indicating the consumer's intent to opt out of the processing or sale. The platform, technology or mechanism shall comply with all of the following criteria:

(A) Not unfairly disadvantage another controller.

(B) Not make use of a default setting, but instead require the consumer to make an affirmative, freely given and unambiguous choice to opt out of the processing or sale of the consumer's personal data.

(C) Be consumer friendly and easy to use by the

average consumer.

(D) Be as consistent as possible with any other similar platform, technology or mechanism required by a Federal or State law or regulation.

(E) Enable the controller to accurately determine whether the consumer is a resident of this Commonwealth and whether the consumer has made a legitimate request to opt out of processing or sale of the consumer's personal data.

(iii) If a consumer's decision to opt out of the processing of the consumer's personal data for the purpose of targeted advertising or the sale of the consumer's personal data under section 3(a)(5) through an opt-out preference signal sent under subparagraph (ii) conflicts with the consumer's existing controller-specific privacy setting or voluntary participation in a controller's bona fide loyalty, rewards, premium features, discounts or club card program, the controller shall comply with the consumer's opt-out preference signal, but may notify the consumer of the conflict and provide to the consumer the choice to confirm the controller-specific privacy setting or participation in the program.

(2) If a controller responds to a consumer's opt-out request under paragraph (1)(i) by informing the consumer of a charge for the use of a product or service, the controller shall present the terms of a bona fide loyalty, rewards, premium features, discounts or club card program for the retention, use, sale or sharing of the consumer's personal data.

Section 6. Duties of processors.

(a) Assistance.--A processor shall adhere to the instructions of a controller and shall assist the controller in complying with the controller's duties under this act. The assistance shall include all of the following:

(1) Taking into account the nature of processing and the information available to the processor, by appropriate technical and organizational measures, insofar as is reasonably practicable, to fulfill the controller's duty to comply with a request by a consumer to exercise the consumer's rights under section 3(a).

(2) Taking into account the nature of processing and the information available to the processor, by assisting the controller in meeting the controller's duties in relation to the security of processing the personal data and in relation to the notification of a breach of security of the system of the processor.

(3) Providing necessary information to enable the controller to conduct and document data protection assessments.

(b) Contracts.--A contract between a controller and a processor shall govern the processor's data processing procedures with respect to processing performed on behalf of the controller. The contract shall be binding and clearly state the instructions for processing data, the nature and purpose of processing, the type of data subject to processing, the duration of processing and the rights and obligations of both parties. The contract shall also require that the processor comply with all of the following:

(1) Ensure that each person processing personal data is

subject to a duty of confidentiality with respect to the data.

(2) At the controller's direction, delete or return all personal data to the controller as requested at the end of the provision of services, unless retention of the personal data is required by Federal or State law.

(3) Upon the reasonable request of the controller, make available to the controller all information in the processor's possession necessary to demonstrate the processor's compliance with the provisions of this act.

(4) After providing the controller with an opportunity to object, engage a subcontractor pursuant to a written contract that requires the subcontractor to meet the obligations of the processor with respect to the personal data.

(5) Allow and cooperate with a reasonable assessment by the controller or the controller's designated assessor, or arrange for a qualified and independent assessor to conduct an assessment of the processor's policies and technical and organizational measures in support of the requirements under this act, using an appropriate and accepted control standard or framework and assessment procedure for the assessment. The processor shall provide a report of the assessment to the controller upon request.

(c) Construction.--Nothing in this section shall be construed to relieve a controller or processor from the liabilities imposed on the controller or processor by virtue of the role of the controller or processor in the processing relationship specified under this act.

(d) Acting as controller or processor.--A determination of

whether a person is acting as a controller or processor with respect to a specific processing of data shall be a fact-based determination that depends upon the context in which personal data is to be processed. The following shall apply:

(1) A person who is not limited in the person's processing of personal data pursuant to a controller's instructions or who fails to adhere to the instructions shall be a controller and not a processor with respect to a specific processing of data.

(2) A processor who continues to adhere to a controller's instructions with respect to a specific processing of personal data shall remain a processor.

(3) If a processor begins, alone or jointly with others, determining the purposes and means of the processing of personal data, the processor shall be a controller with respect to the processing and may be subject to an enforcement action under section 10.

Section 7. Data protection assessment.

(a) Assessment.--A controller shall conduct and document a data protection assessment for each of the controller's processing activities that present a heightened risk of harm to a consumer.

(b) Benefits and risks.--In conducting a data protection assessment under subsection (a), a controller shall identify and weigh the benefits that may flow, directly and indirectly, from the processing to the controller, the consumer, other stakeholders and the public against the potential risks to the consumer's rights under section 3(a) associated with the processing, as mitigated by safeguards that can be employed by the controller to reduce the risks. The controller shall factor

all of the following into the data protection assessment:

(1) The use of de-identified data.

(2) The reasonable expectations of the consumer.

(3) The context of the processing and the relationship between the controller and the consumer whose personal data will be processed.

(c) Availability of assessments.--The Attorney General may require a controller to disclose a data protection assessment under subsection (a) that is relevant to an investigation conducted by the Attorney General, and the controller shall make the data protection assessment available to the Attorney General. The Attorney General may evaluate a data protection assessment for compliance with the provisions of this act. A data protection assessment shall be confidential and exempt from disclosure under 5 U.S.C. § 552 (relating to public information; agency rules, opinions, orders, records, and proceedings) and the act of February 14, 2008 (P.L.6, No.3), known as the Right-to-Know Law. To the extent that information contained in a data protection assessment disclosed to the Attorney General under this subsection includes information subject to attorney-client privilege or work product protection, the disclosure shall not constitute a waiver of the privilege or protection.

(d) Comparison of processing operations.--A single data protection assessment under subsection (a) may address a comparable set of processing operations that include similar activities.

(e) Compliance.--If a controller conducts a data protection assessment for the purpose of complying with another applicable Federal or State law or regulation, the data protection assessment shall be deemed to satisfy the requirements under

this section if the data protection assessment is reasonably similar in scope and effect to the data protection assessment that would otherwise be conducted under this section.

(f) Applicability.--The data protection assessment requirements under this section shall apply to processing activities created or generated after July 1, 2024, and shall not apply retroactively.

Section 8. De-identified and pseudonymous data.

(a) Duties.--A controller in possession of de-identified data shall have the following duties:

(1) Take reasonable measures to ensure that the de-identified data cannot be associated with an individual.

(2) Publicly commit to maintaining and using de-identified data without attempting to re-identify the data.

(3) Contractually obligate a recipient of the de-identified data to comply with the provisions of this act.

(b) Construction.--Nothing in this act shall be construed to require a controller or processor to:

(1) require a controller or processor to re-identify de-identified data or pseudonymous data;

(2) maintain data in identifiable form or collect, obtain, retain or access data or technology in order to be capable of associating an authenticated consumer rights request under section 3(a); or

(3) comply with an authenticated consumer rights request under section 3(a) if the controller:

(i) is not reasonably capable of associating the request with the personal data, or it would be unreasonably burdensome for the controller to associate the request with the consumer's personal data;

(ii) does not use the personal data to recognize or respond to the specific consumer who is the subject of the personal data or does not associate the personal data with other personal data about the same specific consumer; and

(iii) does not sell the personal data to a third party or otherwise voluntarily disclose the personal data to a third party other than a processor, except as authorized under this section.

(c) Pseudonymous data.--The consumer rights specified under section 3(a)(1), (2), (3) or (4) shall not apply to pseudonymous data if a controller is able to demonstrate that any information necessary to identify the consumer is kept separately and is subject to effective technical and organizational controls that prevent the controller from accessing the information.

(d) Oversight.--A controller that discloses pseudonymous data or de-identified data shall exercise reasonable oversight to monitor compliance with a contractual commitment to which the pseudonymous data or de-identified data is subject and shall take appropriate steps to address a breach of the contractual commitment.

Section 9. Exemptions on restrictions for controllers or processors.

(a) Legal compliance.--Nothing in this act shall be construed to restrict the ability of a controller or processor to:

(1) comply with Federal or State laws or local ordinances or regulations;

(2) comply with a civil, criminal or regulatory inquiry, investigation, subpoena or summons by a Federal, State,

municipal or other governmental authority;

(3) cooperate with a law enforcement agency concerning a conduct or activity that the controller or processor reasonably and in good faith believes may violate a Federal or State law or local ordinance or regulation;

(4) investigate, establish, exercise, prepare for or defend legal claims;

(5) provide a product or service specifically requested by a consumer;

(6) perform under a contract to which a consumer is a party, including fulfilling the terms of a written warranty;

(7) take steps at the request of a consumer prior to entering into a contract;

(8) take immediate steps to protect an interest that is essential for the life or physical safety of a consumer or another individual, including when processing cannot be manifestly based on the provisions of this act;

(9) prevent, detect, protect against or respond to a security incident, identity theft, fraud, harassment, malicious or deceptive activity or illegal activity, preserve the integrity or security of a system or investigate, report or prosecute an individual responsible for an incident specified under this paragraph;

(10) engage in public or peer-reviewed scientific or statistical research in the public interest that adheres to all other applicable Federal or State ethics and privacy laws and is approved, monitored and governed by an institutional review board or a similar independent oversight entity that determines whether:

(i) the deletion of information is likely to provide

substantial benefits to the research that do not exclusively accrue to the controller;

(ii) the expected benefits of the research outweigh the privacy risks; and

(iii) the controller has implemented reasonable safeguards to mitigate privacy risks associated with the research, including risks associated with re-identification;

(11) assist another controller, processor or third party with any of the requirements under this act; or

(12) process personal data for reasons of public interest in the area of public health, community health or population health, but solely to the extent that the processing is:

(i) subject to suitable and specific measures to safeguard the rights of the consumer whose personal data is being processed; and

(ii) under the responsibility of a professional subject to confidentiality obligations under Federal or State law or local ordinance.

(b) Data collection.--The requirements imposed on a controller or processor under this act shall not restrict the ability of a controller or processor to collect, use or retain data for internal use for any of the following purposes:

(1) Conducting internal research to develop, improve or repair products, services or technology.

(2) Effectuating a product recall.

(3) Identifying and repairing technical errors that impair existing or intended functionality.
