SUMMARY: House Bill 199, Printer's Number 165, as amended by A03545, amends the Tax Reform Code further providing for classes of income in personal income tax.

ANALYSIS: This legislation adds a new subsection providing that a person may claim a deduction for depletion of a mine, oil and gas well and other natural deposit by utilizing a cost or percentage depletion method in accordance with the provisions of the Internal Revenue Code in effect as of the effective date of this subsection.

The act shall take effect immediately and apply to tax years beginning after December 31, 2020.

FISCAL IMPACT: While a lack of data on the current usage of depletion methods makes it difficult to calculate a precise estimate, the Department of Revenue estimates that enactment of this legislation would result in a small revenue loss.
