DESCRIPTION

Senate Bill 1255 amends the Bituminous Coal Mine Safety Act to make changes to required maintenance of mining equipment.

This bill allows for waivers to be granted by the Department of Environmental Protection for required maintenance of engine oil and oil filter replacement of diesel-powered equipment. The waiver may not allow for maintenance to be extended beyond 200 hours.

FISCAL IMPACT:

Senate Bill 1255 will have no fiscal impact on Commonwealth funds. Private industries that are granted a waiver may recognize savings from not needing to replace oil and oil filters as frequently.
