Re: Former 166 – Term Limits

Citizens of Pennsylvania want a legislature that represents their interests. The 'citizen legislature' is an ideal that we should strive to achieve.

I believe that term limits for legislators will bring us closer to that ideal. That is why I intend to introduce legislation in the near future that will amend the Constitution to prohibit an individual from serving more than a total of 12 consecutive years in the House and 12 consecutive years in the Senate.

My proposal will allow an individual who has reached this limit to return to legislative service after a break. Additionally, the bill would extend the terms of House members to 4 years.

If you would like to cosponsor this proposed constitutional amendment, contact Tierna Tuckey via email, ttuckey@pahousegop.com.
