

## **MEMORANDUM**

**TO:** Members of the House of Representatives

**FROM:** Representative Lawrence H. Curry

**DATE:** March 31, 2011

**SUBJECT:** Co-sponsorship of Resolution  
**Refrain from releasing a disturbing video game into production**

In the near future I will be introducing a resolution outlining the serious disturbing nature of "School Shooter: North American Tour 2012," a videogame whose intent is to murder unarmed students and faculty on a school campus, and requesting that the House of Representatives take a formal stand in asking its distributors to refrain from releasing this video game into production.

The object of this appalling video game is to murder as many defenseless students and school employees as possible, with weapons based on those used by the shooters from the Columbine and Virginia Tech school shooting tragedies. Additionally, a player is given the opportunity to commit suicide once the game is coming to an end.

Though the game has been pulled from its Internet host site, the developer has stated that the game is still planned for release.

Please join me in co-sponsoring this resolution by contacting my Harrisburg Legislative Assistant Nancy Porvaznik via email [nporvazn@pahouse.net](mailto:nporvazn@pahouse.net) or by phone at 783-1079/In-house direct line #6532.
