TO: All Senators

DATE: January 30, 2012

FROM: Senator John Wozniak 

SUBJECT: Cosponsorship: Amendment to Title 75 dealing with Safety Inspection

I plan to introduce legislation that would amend Title 75, Vehicle Code, pertaining to vehicles required to have safety inspection. My legislation would provide an exemption for new vehicles for the first two years after the vehicle is manufactured. After such time, the new vehicle would be required to have a safety inspection.

As we explore increases to transportation revenue, I believe it is important to, also, keep the consumer in mind. The safety inspection program in Pennsylvania provides a safer environment for the motoring public; however, during the first two years a vehicle is unlikely to need safety repairs.

Should you wish to cosponsor this legislation, please contact Cheryl L. Hicks at 772-1591 or by email at chicks@pasenate.com. Thank you.
