Most Loving and Ever Gracious Lord, it is with the assurance of Thy precious nearness, the compelling of Thy all-inclusive companionship, and the expansion of Thy compassionate guidance that we look to Thee in this day's session. The question was determined in the affirmative, and the amendments were agreed to.

On the question,

Will the House agree to the bill on third consideration as amended?

Bill as amended was agreed to.

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.

The question is, shall the bill pass finally?

On final passage, the Chair recognizes the gentleman from Perry, Mr. Noye.

Mr. NOYE. Mr. Speaker, HB 370 sets up a program by which we can recognize those people who experience an emergency situation and a financial loss through a line item in the budget. Although I am sympathetic to the efforts in this bill, I have great reservations about what we are about to do, and I think it is going to affect every member in this House who experiences an emergency in their district and who is attempting to help his citizens recover from that disaster. The reason I say that is that the bill mandates that the only people who are eligible to apply for losses incurred are those people who experience a disaster that is a federally declared disaster.

Now, I do not know how many of you are familiar with the situation, but there are a number of events that have occurred in the past year that affect at least a dozen of us in here on both sides of the aisle and have affected people in years past who did get some help. The group in 1987 did not, but the ones in previous years did get some help, but they were not a federally declared disaster.

The requirements set forth under the Federal formula are not always done on a basis of common sense. It is very possible for a small segment of your community to experience a disaster and still not qualify under the Federal guidelines. Now, when I attempted to seek relief for the citizens in my district, I ran into a stone wall with PEMA (Pennsylvania Emergency Management Agency), who objected to trying to do anything, and they kept telling me that we were going to try to do something with HB 370, but HB 370 does not solve the problem. HB 370 takes care of the problems if it is a federally declared disaster, but it does not solve those other problems.

I am just telling you now, be forewarned, because it is their intention, it is their intention that if it is not a federally declared disaster, we are not going to move to take care of those individuals. So if you are unfortunate enough to experience something like this like I experienced and do not quite meet the formula, your people are going to be on their own; they are not going to get the help that we have always given from this chamber; they are not going to get the help from the Commonwealth that we have always reached out to do.

For that reason, Mr. Speaker, I do not care what the other people do—you are on your own—but I am voting “no” on this bill.

The SPEAKER. On final passage, the Chair recognizes the gentleman from Warren, Mr. Bowley.

Mr. BOWLEY. Thank you, Mr. Speaker.

Mr. Speaker, I agree with some of the concerns of the former, previous speaker. However, I would like to remind him that when I first introduced HB 370, it did contain language for not only a federally declared disaster but for a disaster that would be declared by our Governor. However, that language was omitted by the House Appropriations Committee.

On the return of this chamber from the recess, I will be reintroducing that legislation to set up criteria for a Commonwealth-declared disaster which shall address some of the concerns of the previous speaker, and I would hope that that piece of legislation will also come to the floor of this House and receive its approval. Thank you.

The SPEAKER. The Chair recognizes the gentleman from Perry, Mr. Noye.

Mr. NOYE. Mr. Speaker, would the gentleman stand for interrogation?

The SPEAKER. Mr. Bowley indicates he will so stand. You may proceed, Mr. Noye.

Mr. NOYE. Mr. Speaker, in my attempt to negotiate this problem with the Lieutenant Governor and his people at PEMA, I called their attention to your original proposal, and they told me flatout at that time that they would not support your proposal but they wanted an amended version, and they had drafted the language which I think we see here today. That is where it stood as far as I was concerned in my last conversation with them. Have they given you any indication that they will now consider such a thing or are we going to have to battle this out, you and I and the other members of this House, taking on the administration and PEMA to get what I think we should be doing to begin with and what you are proposing in the additional legislation?

Mr. BOWLEY. Mr. Speaker, I have not spoken with officials of PEMA recently. However, I can assure you that I will join with you in attempting to pass legislation that will set up a disaster assistance program for those disasters that are not of great enough magnitude to be declared a Federal disaster but only those disasters that meet the Governor's declaration, and I am hopeful that we can work together to put together a piece of legislation. I would hope that this administration would support that, because not only in your instances but communities in my district in 1986 suffered flood damage and it was not of great enough magnitude to be a federally declared disaster, so they are without assistance, too. So I am hoping that we can put together this legislation to address those problems in the future.

The SPEAKER. The Chair recognizes Mr. Noye.

Mr. NOYE. Mr. Speaker, I thank the gentleman, and I will be most happy to work with him on that.

I have been shifted from agency to agency and through the bureaucracy for the last 3 months. The only thing I really have left to do to protest the whole situation is a negative vote on this bill. I do not want it to be misconstrued, but I have a feeling that our joint efforts later are going to meet with the same frustration that I have been meeting with for the last 3 months. I have every encouragement that we will be able to get the votes in this chamber. I have yet to receive the assurance from the administration that they will support such a thing.

So with that situation staring me in the face, I intend to vote “no” on the bill, but I hope that this chamber will, as we have always done, respond to those people who in a time of crisis need us the most. Thank you, Mr. Speaker.

On the question recurring,  
Shall the bill pass finally?

The SPEAKER. Agreeable to the provisions of the Constitution, the yeas and nays will now be taken.

Will the House adopt the resolution?

The SPEAKER. Members will stand and visitors will stand and remain in place.

(Members and all visitors stood.)

The SPEAKER. The resolution has been unanimously adopted.

**ANNOUNCEMENT BY SPEAKER**

The SPEAKER. The Chair recognizes what an impact the death of a family member—for that is what we become on this floor—has on the members on this floor, and we have been hard hit recently with the deaths of Ben Wilson and Chuck Laughlin. But the Lord Almighty has ways of sending messages to us, and the Chair understands that a particularly beautiful message was conveyed to grandfather Paul Wass recently. His daughter had a daughter. Paul is a grandfather. A new life has entered our community. She is Jillian Rae Steinhauer. Mother and daughter are fine, father is fine, and we trust that grandfather will survive. Paul, congratulations.

The doors of the House may now be opened.

**BILLS ON THIRD CONSIDERATION CONTINUED**

The House proceeded to third consideration of **HB 1789, PN 2735**, entitled:

An Act amending Title 75 (Vehicles) of the Pennsylvania Consolidated Statutes, further providing for restrictions on alcoholic beverages.

On the question,  
Will the House agree to the bill on third consideration?  
Mr. FEE offered the following amendment No. A0591:

Amend Sec. 1 (Sec. 3715), page 2, line 2, by inserting after “BUS”  
, livery limousine service

On the question,  
Will the House agree to the amendment?

The SPEAKER. On the amendment, the Chair recognizes the gentleman from Lawrence, Mr. Fee.

Mr. FEE. Mr. Speaker, this amendment simply adds “limousine service” to the bill. That is regulated by the PUC (Public Utility Commission).

On the question recurring,  
Will the House agree to the amendment?

The question was determined in the affirmative, and the amendments were agreed to.

On the question recurring,

Will the House agree to the bill on third consideration as amended?

The SPEAKER. We have just been informed that Kevin Blaum has an amendment we knew *nothing* about. Is it being printed? It is being duplicated. It will take a few minutes, so we will wait for Mr. Blaum's amendment.

BILL PASSED OVER TEMPORARILY

The SPEAKER. We will come back to HB 1789 and, hopefully, to HB 1208. Meanwhile, let us see what we can clear from the calendar.

WELCOME

The SPEAKER. The Chair welcomes a group of senior citizens from Philadelphia. They are called the Happy Hearts Club. They are at the rear of the hall of the House. They are the guests of David Richardson. We are delighted to have you here. Welcome to the hall of the House.

BILLS ON CONCURRENCE  
IN SENATE AMENDMENTS

The clerk of the Senate, being introduced, returned the following **HB 167, PN 3029**, with information that the Senate has passed the same with amendment in which the concurrence of the House of Representatives is requested:

An Act amending Title 34 (Game) of the Pennsylvania Consolidated Statutes, safeguarding the public from attack by exotic wildlife.

On the question,

Will the House concur in Senate amendments?

The SPEAKER. On that question, the Chair recognizes the gentleman from Somerset, Mr. Lloyd.

Mr. LLOYD. Thank you, Mr. Speaker.

Mr. Speaker, the Senate made one amendment to this bill. It has to do with exempting people who raise foxes for commercial purposes from having to file an annual report with the Game Commission. There is a reporting requirement on wildlife propagation for commercial purposes in order to assure that the commercial dealers are not stealing the animals out of the wild. This amendment which the Senate added exempts from the report those people who are raising foxes which are not indigenous to the Commonwealth. They are mutants; they are blue and other strange colors, and therefore, the reason for the annual report does not exist.

For that reason, Mr. Speaker, I urge that the Senate amendment be concurred in by the House and that we vote "yes" on the bill.

The SPEAKER. On the question, shall the House concur in the Senate amendments, the Chair recognizes the gentleman from Centre, Mr. Letterman.

Mr. LETTERMAN. Mr. Speaker, I agree with the previous speaker and ask for concurrence in the amendment.

The SPEAKER. Those who wish to concur in the Senate amendments, as recommended by Mr. Lloyd and Mr. Letterman, will vote "aye"; those who do not wish to concur will vote "no."

On the question recurring,

Will the House concur in Senate amendments?

The SPEAKER. Agreeable to the provisions of the Constitution, the yeas and nays will now be taken.

The clerk of the Senate, being introduced, returned the following **HB 418, PN 3069**, with information that the Senate has passed the same with amendment in which the concurrence of the House of Representatives is requested:

An Act amending the act of October 7, 1976 (P. L. 1090, No. 218), known as the "Protection From Abuse Act," adding and amending definitions; further providing for practice and procedure, relief and remedies; providing additional professional assistance for parties; providing for confidentiality; further providing for contempt orders; and requiring that the training of local law enforcement officers include instruction concerning protection from abuse.

On the question,  
Will the House concur in Senate amendments?

The SPEAKER. On that question, the Chair recognizes the gentleman from Montgomery, Mr. Lashinger.

Mr. LASHINGER. Thank you, Mr. Speaker.

Mr. Speaker, very briefly, the Senate inserted four amendments in the form of one agreed-to amendment on the Senate side. It is important for the membership to understand that the major share of that amendment was something that we took care of here on the House side before we adjourned during our latest recess, and that was to provide the \$10 funding or checkoff for criminal defendants, that money being attributed to the funding of domestic violence centers in the Commonwealth. That later became Act 157. The Senate was kind enough to put that into HB 418. There subsequently was no need to keep it in HB 418. It was then taken out late in the Senate debate.

Additionally, the last two amendments are merely clarifying language, and they carry out what was the intent of this House regarding the payment of attorney's fees by defendants where there are costs incurred, where they might not be out-of-pocket costs. It makes it clear that those attorney's fees not necessarily come out of the plaintiff's pocket. Even if they do not, they still can be borne by the defendant.

Mr. Speaker, because it is virtually the same bill that left the House overwhelmingly, I would urge concurrence. Thank you, Mr. Speaker.

The SPEAKER. On the question of concurrence in Senate amendments, those who believe we should concur will vote "aye," as Mr. Lashinger has recommended. Those who believe we should not concur will vote "no."

The clerk of the Senate, being introduced, returned the following **HB 1652, PN 2968**, with information that the Senate has passed the same with amendment in which the concurrence of the House of Representatives is requested:

*An Act amending Title 34 (Game) of the Pennsylvania Consolidated Statutes, further defining "safety zone" to include playground areas; further providing for residency of members of the armed forces of the United States and of the United States Coast Guard and for the issuance of licenses to such persons; further providing for the cost and duration of a disabled person's permit; and requiring the Game Commission to make certain refunds.*

On the question,  
Will the House concur in Senate amendments?

The SPEAKER. The Chair recognizes the gentleman from Lehigh, Mr. Semmel. What is your recommendation, Mr. Semmel?

Mr. SEMMEL. Mr. Speaker, I realize what Mr. Letterman's concerns may be; however, if it be the wish of this House to accede to his wishes, I will not object as long as the content of this bill will be addressed shortly.

The SPEAKER. The Chair did not understand your comment. Are you suggesting that Mr. Letterman differs from your recommendation?

Mr. SEMMEL. I believe that is my understanding.

The SPEAKER. Very well.

Mr. SEMMEL. It could be that I am in error.  
The SPEAKER. We will check with Mr. Letterman.  
The Chair recognizes the gentleman from Centre, Mr. Letterman.

Mr. LETTERMAN. Mr. Speaker, I am asking for nonconcurrency in this legislation.

The reason for me asking for nonconcurrency is the Senate omitted a provision which would allow the Budget and Finance Committee to do an audit on segments of the Game Commission, which we feel was a "may" bill. It passed this House 197 to nothing. They have omitted that, and I feel that without this type of audit, we may as well not have any audit at all. And this whole audit, all it said is they "may." If they find in their regular audit a segment in that audit that needs a performance audit done, they should be able to do that.

I know the Game Commission will tell you they have five audits. I want to tell you, they are only segment audits, because the Federal Government comes in and all they do is audit the part that is federally involved. They do not do a complete audit.

So what we are trying to find out is, for an example, we gave them \$2 for deer habitat improvement in the doe license. We do not know that they are spending that, and if the Budget and Finance audit determines that they are not doing that, they should be able to do that performance audit to tell you and me whether or not the Game Commission is abiding by our wishes. That is all I am asking, and I think they should do that part of those audits and we should require the performance audit.

I would ask for nonconcurrency. Let it go to conference committee, and let me argue this point out and see how we can make out. Thank you.

**WELCOME**

The SPEAKER. You will notice that the Chair was shaking hands with a familiar person on the floor of this House; familiar, but he is now distancing himself from us. He has joined the third group - the judicial group. I want you to welcome Judge Baldwin. Welcome.

He has promised not to petition us for an increase in salary until about March.

**CONSIDERATION OF HB 1652 CONTINUED**

The SPEAKER. The Chair recognizes the gentleman from Berks, Mr. Davies, on the recommendation of Mr. Letterman.

Mr. DAVIES. Thank you, Mr. Speaker.

I join the former speaker in asking for nonconcurrency on the bill.

The SPEAKER. On the question, those who wish to concur in the Senate amendments will vote "aye"; those who wish to nonconcur, as urged by the gentleman, Mr. Letterman, and the gentleman, Mr. Davies, will vote "no."

On the question recurring,

Will the House concur in Senate amendments?

The SPEAKER. Agreeable to the provisions of the Constitution, the yeas and nays will now be taken.

CONSIDERATION OF HB 1789 CONTINUED

On the question recurring,

Will the House agree to the bill on third consideration as amended?

Mr. BLAUM offered the following amendments No. A1421:

Amend Title, page 1, line 2, by inserting after "Statutes," further providing for the restoration of operating privileges; and

Amend Sec. 1, page 1, line 6, by striking out "Section" where it appears the second time and inserting Sections 1545 and

Amend Sec. 1, page 1, line 7, by striking out "is" and inserting

are

Amend Sec. 1, page 1, by inserting between lines 7 and 8 § 1545. Restoration of operating privilege.

Upon the restoration of any person's operating privilege which has been suspended or revoked pursuant to this subchapter, such person's record shall show five points, except that any additional points assessed against the person since the date of the last violation resulting in the suspension or revocation shall be added to such five points unless the person has served an additional period of suspension or revocation pursuant to section 1544(a) (relating to additional period of revocation or suspension). This section shall not apply to section 1533 (relating to suspension of operating privilege for failure to respond to citation) nor to 18 Pa.C.S. § 6310.4 (relating to restriction of operating privileges).

On the question,

Will the House agree to the amendments?

The SPEAKER. On the Blaum amendment, the Chair recognizes the gentleman from Luzerne, Mr. Blaum.

Mr. BLAUM. Thank you, Mr. Speaker.

Mr. Speaker, you will remember a couple of weeks ago we passed HB 668, which was a bill designed to curb underage drinking in the Commonwealth of Pennsylvania. The Department of Transportation has asked us to include this amendment in various transportation bills, because for some moving violations—it does not pertain to what we have done in suspending the drivers' licenses of underage drinkers—but for some moving violations, when a license is suspended, when that suspended license is returned, the person gets five points. The Department of Transportation has asked us to make it very clear that this does not apply to our suspension for underage drinking. They do not believe that it does, but they do not want anybody demanding that they also give kids five points. We do not want kids to get five points. We want to say that this section does not apply to our bill under Title 18. So we ask for an affirmative vote on the amendment.

On the question recurring,

Will the House agree to the amendments?

The question was determined in the affirmative, and the amendments were agreed to.

*On the question recurring,*

Will the House agree to the bill on third consideration as amended?

Bill as amended was agreed to.

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.

The question is, shall the bill pass finally?

On final passage, the Chair recognizes the gentleman from Crawford, Mr. Merry.

Mr. MERRY. Mr. Speaker, I would like to comment on this bill, but before I do, I would like to draw to the members' attention that I, as many of the members in here, am very much against the use of alcohol in the operation of an automobile. The act that we are amending already provides for

that. This bill goes beyond that to state that it is unlawful for any person in any vehicle to have an open alcoholic beverage in the vehicle. This could be a can, this could be a glass, or whatever.

Now, at first blush, that even seems to be fine. You know, it just really is repulsive to know that a driver or his passenger would have an open container of alcohol. But I would like to draw the attention of the members to the many different types of vehicles that are in operation in this Commonwealth today.

It was just very recently that I was a party in a sort of mobile home. It was not much more than a passenger car, but it was laid out in such a way that it had a passenger and a living compartment, and in the back of that compartment was a table. It was convenient to play bridge or 500 or to open a can of soft drink or an alcoholic beverage. It seemed to be quite normal and it seemed to be quite remote from the operation of that vehicle.

There are also a good many buses where charter groups get on a bus that is not necessarily in the definition that is in this bill here, where it says "...operated by a carrier subject to regulation by the Pennsylvania Public Utility Commission...." This means that many groups that go out and get a nonchartered bus to take a group to a convention or whatever would be subject to this law.

I am just wondering how much comment or ridicule we can take from our voters back home when they find out that some of their freedoms will again be taken away from them. It has nothing to do with the operation of a motor vehicle; it has to do with their recreation on a bus that is not a motor carrier, a mobile home, or, in another circumstance that I want to draw to your attention, in the original act when it says, "...in the vehicle while the vehicle is in operation...." I visualize a situation where you pull off to a road stop, and if someone wanted you to undergo harassment, as long as the keys were in the ignition of that vehicle, even though it be at rest in a rest area, you could be subject to the penalties of this law if you were caught in the act of having an open container, which again, I suggest, is a glass or a can or a bottle.

I really feel that this bill goes beyond the intent of the maker of the bill and also some of the amendments. I comment on the controlled-substance amendment we just put in here. It is already illegal to have controlled substances everywhere, no matter whether it be in a house or a motor vehicle or wherever - on the street. I regretted that amendment being put into this, because it sort of clouds the issue.

We are all against the use of controlled substances, and it is not to that portion of the amendment that I offer my comments. I really feel that we are taking away freedoms from constituents, which was not intended in this bill. For that reason, Mr. Speaker, I urge the members to consider rejecting this bill.

The SPEAKER. On the amendment, the Chair recognizes the gentleman from Luzerne, Mr. Tigue.

Mr. TIGUE. Thank you, Mr. Speaker.

Mr. Speaker, I stand to oppose HB 1789. I understand the problems we have, or we may think we have, with alcoholism

and drunk driving, et cetera, but once again we are throwing common sense and reason to the wind.

I do not see, personally—and I am sure most of my constituents do not see—anything wrong with someone attending a Penn State football game or going fishing in a van or a vehicle where someone is sitting, who is not driving, and having a drink - a can of beer or something of that nature. This goes far beyond that, and it says that no passenger can consume or have an open container.

To me, we are just taking another step forward and making it ridiculous on the constituents and giving law enforcement officers another reason to put more and more vehicles under surveillance. It is unnecessary. There are penalties. There are laws we continually pass on DUI (driving under the influence). That should be sufficient. Let us defeat HB 1789. Thank you.

The SPEAKER. On the amendment, the Chair recognizes the gentleman from Montgomery, Mr. Reber.

Mr. REBER. Thank you, Mr. Speaker.

Mr. Speaker, as I read this bill for the first time, I had some questions, and every time I continue to read the bill, I have some more questions. I am not so sure that anybody seriously objects to the conceptual intent of the legislation, but I do think the legislation, as is currently drafted currently before the House, is very ambiguous at best.

I think there are a number of problems with the bill. I think it allows an unsuspecting person who is an occupant of a car to subject himself, simply by being an occupant of that vehicle, to being in jeopardy of citation under the vehicle. I also think there is a problem in that it does not necessarily define what an opened alcoholic beverage is for purposes of violation of the act and, more importantly, for purposes of violation by a nonknowing passenger of the vehicle of the possibility of there being stored in an out-of-sight, out-of-plain-view area of the vehicle an opened alcoholic beverage, which is obviously capped but the seal is broken.

### BILL RECOMMITTED

Mr. REBER. Mr. Speaker, I would respectfully ask that the cosponsor possibly make some consideration for tabling this bill, at least on a temporary basis, to address some of the concerns that I have just raised—and I know some other concerns that I have heard from some other members today. If it would take a motion to return the bill, to recommit to the Committee on Liquor Control, I would so make that motion, Mr. Speaker.

The SPEAKER. Moved by the gentleman, Mr. Reber, that HB 1789 be recommitted to the Committee on Liquor Control.

The question is on that motion and only on that motion.

On the question,

Will the House agree to the motion?

The SPEAKER. The Chair recognizes the gentleman from Lawrence, Mr. Fee.

Mr. FEE. Mr. Speaker, I oppose the motion. I think everybody knows what the problem is here. I think we have had plenty of time to study this bill. It has been on the calendar for a long time, and I think we should vote it up or down.

The SPEAKER. On the motion, the Chair recognizes the gentleman from Delaware, Mr. Gannon.

Mr. GANNON. Mr. Speaker, I want to support the motion to recommit.

I just want to bring to the members' attention that the State of Florida not too long ago passed similar legislation to this, and it has caused a great deal of controversy.

I think that this bill should go back to the committee so that they can take another look at it and see if it can be worked on to make it more acceptable. Thank you, Mr. Speaker.

On the question recurring,

Will the House agree to the motion?

BILLS ON THIRD CONSIDERATION

The House proceeded to third consideration of HB 1278, PN 1920, entitled:

An Act amending the act of April 9, 1929 (P. L. 177, No. 175), known as "The Administrative Code of 1929," changing the Department of Public Welfare to the Department of Human Services; establishing the State Board of Human Services; and making related editorial changes.

On the question,

Will the House agree to the bill on third consideration?

Mr. ITKIN offered the following amendment No. A1606:

Amend Sec. 6 (Sec. 448), page 10, line 8, by striking out "SIX (6)" and inserting five (5)

On the question,

Will the House agree to the amendment?

The SPEAKER. On the amendment, the Chair recognizes the gentleman from Allegheny, Mr. Itkin.

Mr. ITKIN. Mr. Speaker, this is just a technical amendment. When the bill was drafted, it referenced six advisory committees, and there are only five. So this amendment just changes the number of advisory committees from six to five to more accurately reflect what the department has these days.

The SPEAKER. The Chair thanks the gentleman.

On the question,

Will the House agree to the amendments?

The SPEAKER. On the Taylor amendment, the Chair recognizes the lady from Chester, Mrs. Taylor.

Mrs. TAYLOR. Mr. Speaker, this amendment would strike out the establishment of the State Board of Human Services.

I would like to quote from the sunset performance audit of the State Board of Public Welfare, June 1985. On page 7 it states that "The State Board of Public Welfare does not appear to be effectively performing mandated advisory and other functions provided for in law." And it does set forth two or three examples of where they are not performing the mandated advisory functions. Further down on the page it reads: "A review by the auditors of Board activities and official actions taken between 1981 and 1985 also appears to indicate that the Board is not actively involved in the welfare policy development process. During the period, the Board...met regularly, but...experienced serious member attendance problems."

Mr. Speaker, I would suggest that it might be appropriate for the Secretary to appoint a—what do we have these days—task force or advisory committee, which certainly would be

performing the same duties and actions as had the State Board of Human Services.

I would urge the adoption of this amendment, Mr. Speaker.

The SPEAKER. On the amendment, the Chair recognizes the gentleman from Westmoreland, Mr. Kukovich.

Mr. KUKOVICH. Mr. Speaker, I just saw the amendment, and my understanding is that it is leaving the name change in but simply scrapping the advisory council. Is that correct, and could I put this in the form of interrogation?

The SPEAKER. The lady, Mrs. Taylor, agrees to interrogation. You may now proceed.

Mrs. TAYLOR. Yes, Mr. Speaker.

Mr. KUKOVICH. Thank you.

Well, she answered the question, Mr. Speaker. That is all I really want to know.

I remember a few years ago when the Health and Welfare Committee during the sunset process had a hearing that dealt with this advisory committee, and the committee report that the maker of the amendment talked about was accurate. I was somewhat critical of the work that that group was doing also, not necessarily because of the nature of the organization but because of some of the personalities involved, and I agree that they did not do a good job. However, in the interests of trying to maintain consumer involvement in all the departments of State Government, I think it would be a good idea to maintain in this bill an advisory committee that will provide consumer oversight of the Department of Welfare, and although I agree that there were problems in the past, I think we should make an effort to try to again provide that consumer oversight, that consumer input. If it does not work, we can always use the sunset procedure again.

I would suggest that we vote "no" on this amendment.

The SPEAKER. The Chair recognizes the gentleman from York, Mr. Dorr, on the amendment.

Mr. DORR. Mr. Speaker, I in some ways agree with both of the prior speakers. I think that it is important to have citizen input into the decisions of the department. I think that is a given around here. The fact is, though, as the members will read and vote the amendment and the bill, the law calls for a number of advisory committees that may be established by the Secretary. The point of Mrs. Taylor's amendment is that we will not provide a statutory base in law that requires the Secretary to set up a certain board. I do not think there is a need for that. This General Assembly last year agreed that in fact there was no need for that to be in the law. There is nothing in this amendment, however, that says that Secretary White, if he wants to, or any future Secretary may not establish this board or a similar advisory board on his own behalf. It just states that it will not be in law and we will not need to go through the sunset process in order to get it out of the law if there is a Secretary who does not want to have such a board.

Mr. Speaker, I think the amendment is a good one. It goes along with what the General Assembly decided last year, and I believe we should adopt the amendment.

The SPEAKER. On the amendment, the Chair recognizes the gentleman from Philadelphia, Mr. Richardson.

Mr. RICHARDSON. Thank you very much, Mr. Speaker.

Mr. Speaker, I rise to oppose this amendment. I was going over the bill and I want to say that I think that the speakers who have already spoken on this issue understand the importance of this.

One of the reasons why we felt that there was a need to mandate as opposed to not mandating a department with respect to this human services advisory committee is because we want to make sure that people who are citizens in this Commonwealth feel that they can have an interest. I think that under the past Secretary, there was some confusion concerning that, and I think that a number of individual persons did not recognize that there was a role for them to play. Under the new Secretary— And I have discussed with the Department of Public Welfare my concerns and interests in making sure that we do have a particular advisory committee that is in fact mandated so in fact we do not wind up losing the kind of what I feel is major input coming from those individual citizens who need to be speaking to us concerning how there are some problems that do exist with the Department of Public Welfare and within the human services field itself.

The SPEAKER. On the amendment for the second time, the Chair recognizes the lady from Chester, Mrs. Taylor.

Mrs. TAYLOR. Thank you very much, Mr. Speaker.

I want to just be sure that the members understand that by removing this from the law, the statutory base, we are not going to endanger effective input to the Secretary. I think the Secretary has proven in the past and probably will continue to seek public input in the best interests of the people. I do not believe that by removing this from the law, we would endanger public health, safety, or welfare, and again, in the best interest of these areas, I seek an affirmative vote. Thank you.

On the question recurring,  
Will the House agree to the amendments?

- (2) The remainder of this act shall take effect in 60 days.

On the question,

Will the House agree to the amendments?

The SPEAKER. On the Lashinger amendment, the Chair recognizes the gentleman from Montgomery, Mr. Lashinger.

Mr. LASHINGER. Thank you, Mr. Speaker.

Mr. Speaker, for the membership's edification, there are three amendments that have been circulated. One prior amendment was A1069. That amendment is identical to A1702. Both amendments are the same, but I will be offering A1702.

Very simply, those of us who saw this bill in the Health and Welfare Committee agreed with its intent, Mr. Speaker, and thought it was admirable to charge physicians with the responsibility of informing clients that they treat, the patients that they treat, prior to a referral to any facility that they maintain a financial interest in, to inform those clients as part of a consumer protection idea that they maintained an interest in the facility to which they were making a referral.

We all in the committee applauded the concept promoted by our former colleague, Senator Afflerbach. My problem became in the committee that, number one, this was a free-standing statute that most likely would end up in the Administrative Code, which concerned me as a matter of drafting; second, there was no means of enforcing the criminal sanctions that were inserted in the bill by Senator Afflerbach; third, there was no information provided to the providers as to what they would be responsible to do under the legislation; and fourth, there was no requirement to disclose generally to patients across the Commonwealth, initially, the facts of this new piece of legislation.

What I have decided to do— Senator Afflerbach saw fit to create a misdemeanor of the third degree. I thought that was extremely harsh. If you think about misdemeanors of the third degree, you start then to talk about sections of the Crimes Code that include theft and simple assault. We probably all agree with the intent, but I do not think any of us would agree that a failure to disclose to a patient, under the heading of consumer protection, rises to the level of a criminal violation and, more importantly, to the level of a third-degree misdemeanor.

A third-degree misdemeanor would carry with it, again for the membership, up to a 1-year maximum sentence and a \$2,500 fine.

I have decided to do what we have done in so many cases like this; that is, to offer the enforcement to the licensing body, and it is the respective licensing body of each practitioner of the healing arts. If it is a medical doctor, it would be the medical licensure board. If it is a physical therapist, it would be the commensurate board. I think it is important that we divide up the labor among the responsible boards. At the same time, I provide for a \$1,000 maximum penalty. Mr. Speaker, in addition, we impose a requirement that the licensing boards publish in the Pennsylvania Bulletin the new requirement that practitioners of the healing arts will have under this legislation.

It is my belief that this amendment makes for much easier enforcement, surely more streamlined administration, and really carries out the same intent that Senator Afflerbach wanted to carry out and does not give district attorneys new responsibilities that will probably remain very low on their list of priorities when it comes to enforcement, so I suspect that enforcement will actually be greater administratively than it would be criminally. I would ask for the support of the membership, therefore, Mr. Speaker. Thank you.

The SPEAKER. On the amendment, the Chair recognizes the gentleman from Lehigh, Mr. Pressmann.

Mr. PRESSMANN. Mr. Speaker, with the agreement of myself and Mr. Lashinger, we would like to hold this bill over till tomorrow. There are some amendment language problems we have that we would like to straighten out.

BILL PASSED OVER

The SPEAKER. SB 803 will be passed over, without objection. The Chair hears no objection.

On the question,

Will the House agree to the amendments?

The SPEAKER. The Chair recognizes the minority leader.

Mr. RYAN. Mr. Speaker, if the members will recall, Mr. Morris and I some months ago, when this bill was first before us, had a rather lengthy debate. The amendments that I am offering now are cosponsored by the gentleman, Mr. Morris, as recognition of our difficulties and our proposed solution.

I would be pleased to answer any questions regarding them, but in short what they do is they take away the suspension period for some of this trespass, if you will, by automobile on people's property. There are three instances of change. In two of them, the suspension period is removed. In the third, the suspension period is kept. The fine is reduced in two of those three cases.

I believe the amendments are acceptable and certainly better than what we had, and I believe the gentleman, Mr. Morris, will agree with that. Thank you, Mr. Speaker.

The SPEAKER. The Chair recognizes the gentleman from Chester, Mr. Morris.

Mr. MORRIS. Thank you, Mr. Speaker.

**BILL REPORTED FROM COMMITTEE, CONSIDERED FIRST TIME, AND TABLED**

**HB 2264, PN 3006** By Rep. TRELLO

An Act amending the act of December 31, 1965 (P. L. 1257, No. 511), known as "The Local Tax Enabling Act," further providing for the imposition of earned income tax by certain school districts.

FINANCE.

**BILLS ON THIRD CONSIDERATION CONTINUED**

The House proceeded to third consideration of **HB 2035, PN 3076**, entitled:

An Act itemizing water and sewer projects eligible for funding through the Pennsylvania Infrastructure Investment Authority for fiscal year 1987-1988 together with their estimated financial costs; authorizing the incurring of debt without the approval of the electors for the purpose of providing funds for the itemized projects; stating the estimated useful life of the projects; and making an appropriation.

On the question,

Will the House agree to the bill on third consideration?

Mr. RYBAK offered the following amendment No. A1660:

Amend Sec. 3, page 83, by inserting between lines 13 and 14	
( ) Bethlehem City, water project, Water Treatment and Filtration Plant	30,000,000
( ) Bethlehem City, water project, parallel water transmission lines	12,500,000
( ) Bethlehem City, water project, Northeast Water Reservoir	1,500,000
( ) Bethlehem City, sewer project, digester repair and rehabilitation program	1,940,000

On the question,

Will the House agree to the amendment?

The SPEAKER. On the Rybak amendment, the Chair recognizes the gentleman from Northampton, Mr. Rybak.

Mr. RYBAK. Thank you, Mr. Speaker.

Mr. Speaker, on March 22, 1988, I submitted, on behalf of the city of Bethlehem, four projects totaling \$46 million that are needed concerning our water and our waste plants

throughout the city of Bethlehem. Inadvertently, they were overlooked and not placed into the bill, and therefore, I propose it at this time.

I ask the House to vote the amendment in the affirmative.

REMARKS SUBMITTED FOR THE RECORD

Mr. RYBAK. I submit for the record my remarks. Thank you, Mr. Speaker.

Mr. RYBAK submitted the following remarks for the Legislative Journal:

Thank you, Mr. Speaker.

My proposed amendment to HB 2035 contains four projects in the city of Bethlehem that qualify for funding through PENNVEST.

The Lehigh Valley is among the areas of the Commonwealth that are now experiencing tremendous expansion and development. Many factors, including the impending completion of Interstate 78, are attracting new commercial enterprises to the valley and are encouraging the expansion of those that already exist. Along with this economic progress is an influx of new residents into the valley and, specifically, in and around the city of Bethlehem.

This combined commercial and residential expansion has placed Bethlehem's water and sewer systems under enormous stress. The infrastructure of the city, already weakened by years of use and repair, must now meet the demands of a growing service area. The existing water and sewer facilities are rapidly approaching their operating capacity. Without much-needed rehabilitation and repair to its physical plant, the city faces serious and potentially devastating consequences.

The necessary projects for the city of Bethlehem include constructing a water filtration facility, adding parallel water transmission mains, building a reservoir for the northeast section of the city's water service area, and rehabilitating the city's sludge digestion system. The total price tag for these projects is \$45.9 million.

It is my understanding that these projects were inadvertently excluded from the PENNVEST bill. Each proposal does meet eligibility requirements for funding through PENNVEST.

I respectfully ask that my colleagues in the House support this amendment with an affirmative vote.

Thank you, Mr. Speaker.

The SPEAKER. The Chair begs your attention. Please, you better listen.

The machine probably at this moment cannot be repaired here. Under our rules, we, of course, may take a person-to-person vote. The Chair has been informed by both leaders that the only amendment to be offered which may be controversial is the Murphy amendment. Those who have other amendments on this list will present those amendments to Mr. Pievsky or to Mr. McClatchy, either one of the two. When we finish the decision on the Murphy amendment, no matter what the decision is, then we will recommit this bill to the Appropriations Committee, together with all the amendments. We foresee no problem in each amendment which is noncontroversial being added to the bill in the Appropriations Committee.

Well, if they think they can repair it, fine.

VOTE RETAKEN ON AMENDMENT A1699

The SPEAKER. We are going to try the machine again. Read again the McCall amendment A1699.

The clerk read the following amendment No. A1699:

Amend Sec. 3, page 30, by inserting between lines 2 and 3

- ( ) Palmerton Borough, sewer project, sanitary sewer relief line for Lafayette Avenue, inflow reductions, Lehigh Avenue flooding, East District storm sewer and West District sewer flooding 1,655,000

On the question recurring,  
Will the House agree to the amendment?

On the question,

Will the House agree to the amendments?

The SPEAKER. The Chair has been advised that this may be the only controversial amendment offered. The Chair would alert the members, this amendment may be controversial; it will be debated.

The Chair recognizes the gentleman from Allegheny, Mr. Murphy.

Mr. MURPHY. Mr. Speaker, I would hope that this is not a controversial amendment. Let me briefly explain what it does.

It directs the board of directors of PENNVEST to appropriate moneys under certain priorities. The first one would be water and sewer systems that cause an immediate threat to public health and safety. The second priority would be the rehabilitation of existing systems. The third priority would direct the board of PENNVEST not to provide funding for property that is eligible for the \$100 million under the agricultural conservation easement legislation that we passed late last year in the bond issue in the November election. The fourth priority would give power to the Department of Environmental Resources to indicate areas such as wetlands, parks, and other natural resources that ought to be protected from development. The fifth priority would encourage the promotion of job creation and economic development.

My concern simply is that as we put in more and more projects during the day, while there are priorities in the PENNVEST bill, they do not deal with the issues of which ought to come first, rehabilitation or new construction; what ought to come first, rehabilitation or farmland preservation or new construction. This at least puts in language that gives the PENNVEST board some indication of what the General Assembly believes to be the important issues in this Commonwealth.

For those reasons I would hope that the members would support this amendment.

The SPEAKER. The Chair recognizes the gentleman from Montgomery, Mr. Lashinger.

Mr. LASHINGER. Thank you, Mr. Speaker.

Mr. Speaker, I rise to reluctantly oppose the Murphy amendment. I think it is important to oppose the amendment for a number of reasons.

First, we put—and it is important for the membership to know this—in the enabling legislation very clearly, with much debate, financing priorities, and there are eight of them in the enabling legislation. So first, I am confused, given those eight priorities, why Mr. Murphy would choose to create a new menu that the authority would have to look at. I am not sure, quite honestly, which menu the authority membership, when we examine the capital budget authorization, would have to look at. I am sure it will be Mr. Murphy's contention that this new menu in the amendment only applies to the \$150-million authorization through this capital budget process. I am not sure that that is a correct opinion, because in the enabling legislation it is clear that it applies wholesale to all PENNVEST projects.

Second, and no more or less important, the members of the authority have only met once. The authority has not had an—And as a member of that authority, I can tell you that that meeting was only a procedural meeting. We have no reason to believe that the priorities that are listed in the original PENNVEST bill are inappropriate or will not work.

Third, Mr. Murphy creates some priorities—and I warn you members especially who have inserted amendments into the bill today—that might threaten the projects that you inserted into the PENNVEST capital budget bill today, because the new criteria might cause those projects not to qualify. And for those of you who offered amendments and had them examined against the original PENNVEST enabling legislation, I caution you to look once again, because there are two provisions especially that could be damaging to your amendments being realized through funding under PENNVEST.

Finally and most importantly, the two new criteria create great concerns, and the lack of one of the criteria that we put in the original PENNVEST enabling legislation concerns me. One is, Mr. Murphy says that where we have committed funds through that \$100-million bond issue for the purchase of agricultural easements, you cannot apply PENNVEST money. I agree with that, except for the way it is drafted in Mr. Murphy's amendment and it says that those projects where

farmland is eligible. It is my belief and my interpretation would be that, broadly applied, anywhere that farmland was eligible for that \$100 million, you could not have a PENNVEST project.

In subsection (4), it says, "No funds shall be expended that encourage development in areas that threaten wetlands, parks and other natural resources...." It sounds good, but for anyone who works in the area or has any knowledge of the area, you would know that the definition of "wetlands" has probably been the most difficult thing to develop in the law in recent history. Clearly, the department could subjectively say that a project threatens a State park or a wetlands area and would cause the project to fail under PENNVEST. I understand Mr. Murphy's intention, but I am concerned that there are projects that we, as legislators, might want to qualify that we are now ruling off.

Finally—and I am concerned about this—Mr. Murphy fails to insert one of the criteria—and I am curious as to why—that talks about the cost effectiveness of the project. It was important to this membership that we not get involved in funding one, two, or three projects that might eat up the lion's share of the funds available under the capital budget authorization. Without having cost effectiveness as one of the additional criteria, I am concerned that we might do that if we are forced to operate under the Murphy agenda or the Murphy menu.

For those reasons, Mr. Speaker—And the most important reason is, let us give it a chance and let us see how it works, and I would be the first person to come back with Mr. Murphy and join—As you know, the Republicans on this side of the aisle had a whole different notion about how PENNVEST should be formulated. We are interested in working on amendments into the future, and I think that would be a more appropriate time, when we give it a chance and see if it does function properly.

I would ask for opposition to the amendment, Mr. Speaker. Thank you.

The SPEAKER. The Chair recognizes the majority leader.

Mr. MANDERINO. Mr. Speaker, I rise in opposition to the amendment being offered. Mr. Speaker, the amendment being offered ought to be not reluctantly opposed but vehemently opposed. Mr. Lashinger is too kind to the amendment.

The amendment speaks to Act 54 of 1987 and eligible lands for a program of farm preservation. Act 54 of 1987 made no land eligible for preservation. It was simply an authorization of a referendum to the people of Pennsylvania. The enabling legislation has yet to be developed by this General Assembly which will make land eligible, but it would seem to me even if that legislation had been developed—and what Mr. Murphy wanted to point to was enabling legislation that made certain land eligible—we certainly would not want to stop development of every piece of farmland in Pennsylvania. We would want to stop spending money for infrastructure development if in fact that farmland was in the program, either in the program by application of the landowner or in the program by acquisition of the rights by any county that wanted to acquire the development rights to preserve that land.

It seems to me that in the haste to continue opposition to PENNVEST, the author of this amendment has not thought through very thoroughly the amendment that is before us. In the area of the priority numbered (4) in the amendment, we are speaking of anything that would encourage development in areas that threaten wetlands, parks, or other natural resources that were identified by the Department of Environmental Resources. Well, I would not want to bet on it, but I guess the Department of Environmental Resources would very easily designate coal as a natural resource, limestone as a natural resource, any of our mineral elements under the ground as natural resources, and anything that would threaten those things would also be caught by this amendment that I say appears to be drafted in the greatest of haste.

Aside from those specific objections to these priorities, I concur with Mr. Lashinger that we have already set a good set of priorities in the PENNVEST bill 1100, which has been passed and made law, and this being a later set of priorities, which is not so inclusive, would not only confuse the board on what they are to use as priorities but would probably get us into a legal entanglement on which has priority, these priorities or the original priorities.

Mr. Speaker, for all those reasons, I would ask a negative vote on the amendment now before us. I would ask all members who have been on automatic pilot for the previous amendments to disengage and vote in the negative.

The SPEAKER. That means, remove those paper clips.

The Chair recognizes the minority whip on the amendment.

Mr. HAYES. Thank you, Mr. Speaker.

I completely concur with the majority leader and also the gentleman from Montgomery, Mr. Lashinger, that this amendment, no matter how well intended it might be, is certainly deficient if we want to address some of the environmental water and sewer problems of this Commonwealth.

In addition to what the previous two speakers have mentioned, I would call the members' attention to item No. (2) in the Murphy amendment with regard to the rehabilitation of existing systems. For sure, there is no problem with recognizing the importance of rehabilitating existing systems, but there are a whole host of nonsystems, nonsystems across the Commonwealth of Pennsylvania. And what do I mean by a nonsystem?

I realize the gentleman, Mr. Murphy, comes from Allegheny County, where in the city of Pittsburgh and surrounding communities you have existing water systems and sewer systems, but across the great expanse of Pennsylvania, you have many communities, including towns, not just farms but towns, where they depend upon individual septic systems and individual wellspring cisterns, what have you, with regard to water supply. If you skew the eligibility criteria, if you skew the priority list, as the gentleman, Mr. Murphy, is doing, you maybe not intentionally but in fact still will not encourage the development of modern 20th-century water and sewer systems in those communities where they have been depending on onlot sewage and have been doing so since they were a town and water systems that are nothing more than wells and are

now being encroached upon by things that we have now identified as pollutants, which were not that years ago, were not identified as water pollutants but now are, and viewed as something that should not be allowed into these water systems.

You are going to deny literally dozens and, yes, hundreds of communities from being able to compete against projects that would be referred to as "rehabilitation projects," and I just do not believe that we ought to be setting that kind of policy, particularly if you represent districts outside of places like Pittsburgh and Philadelphia. The rest of us should be voting against this amendment just for that particular reason alone, and I would urge rejection of the gentleman's amendment. Thank you, Mr. Speaker.

The SPEAKER. The Chair recognizes the gentleman from Chester, Mr. Morris.

Mr. MORRIS. Mr. Speaker, apparently Mr. Murphy and I are going to end up as being a minority of two on this vote, as far as I can see. I do not like to disagree with my majority leader or any of the other gentlemen who have spoken so far. I do, however, feel it is my duty, as one of the people who has been so greatly and intimately involved in the farmland preservation movement, to speak on behalf of this amendment.

All I am going to say is that item number (3) is not quite as broad as Mr. Manderino believes, because the only lands that will be involved are those which are in agricultural security areas as established under Act 43 of 1981, and I think that sewerage those lands is a grave error. It is going to make it extremely difficult in many areas in southeast Pennsylvania to effectively use the bond issue money. Thank you very much.

The SPEAKER. The Chair recognizes the gentleman from Clearfield, Mr. George.

Mr. GEORGE. Mr. Speaker, I must echo what the gentleman, Mr. Lashinger, and the majority leader and the minority leader, Mr. Hayes, have said. It will be very difficult being able to assign and assess which promulgated rule, whether that language in HB 1100 or the language now that Mr. Murphy wants to place into this bill here, will take precedence. I am afraid that some of those people who have already had projects in this legislation and those today who have attempted to put in their projects back home might find that because of this amendment their realization of the project will never come forth.

I would believe at this time we would be better if we were to deny this amendment and vote against it.

The SPEAKER. The Chair recognizes the gentleman from Franklin, Mr. Coy, on the amendment.

Mr. COY. Thank you, Mr. Speaker.

I rise to oppose the amendment also, particularly in light of some of the things that Mr. Hayes indicated about the rural areas. I think it is important to note that many of the rural areas of Pennsylvania have done without adequate sewage and water systems, and this PENNVEST bill is the first bright hope for some of those areas to obtain systems. The tax base in some of those rural townships and municipalities is such that they could never begin to afford to install a new sewage

or water system, and this bill is the first hope that they have had to do that, and to prioritize them in a lower category than some of the less rural areas of the State, I think, is a disservice to them.

One of the original priorities in the legislation was that the PENNVEST board should give attention to governmental units that are served by a sewer treatment system which is subject to construction or connection limitations issued by the department. There are townships in my legislative district for which the Department of Environmental Resources at this time refuses to issue building permits, because in the whole township, there is no land in the whole township that will perk, according to their environmental standards. You deny these whole areas an opportunity to construct a new sewer system after others can simply rebuild the already existing systems. It goes without saying that the amendment, I think, would provide for a very discriminatory basis against rural areas and against areas that have waited for a long time for help like this PENNVEST bill will give.

I do not do it reluctantly, I do it because I think it is the responsible thing to do, and that is oppose this amendment, and I ask the members to join me in that regard. Thank you, Mr. Speaker.

The SPEAKER. The Chair recognizes the gentleman from Allegheny, Mr. Markosek, on the amendment.

Mr. MARKOSEK. Thank you, Mr. Speaker.

Mr. Speaker, most of what I had planned to say has been said perhaps more eloquently than how I could have in fact said it.

I, too, rise in opposition to this amendment. I believe it is somewhat flawed in the way the criteria are presented and in the order in which they are presented, and with that I will just say that I rise in opposition and would encourage all the members to vote "no" on the Murphy amendment. Thank you, Mr. Speaker.

On the question recurring,  
Will the House agree to the amendments?

The SPEAKER. We now have, I think, finished all of the amendments. Is that correct? Are there any amendments?

Before we leave the floor, the Chair wants to congratulate the technical staff up here and the youngsters who ran all over the place with these thousands of amendments. They did a marvelous job.

I know they must be tired, because they had to go running all over the place. I want them to know that we appreciate that.

The Chair is informed there are no further amendments.

On the question recurring,

Will the House agree to the bill on third consideration as amended?

Bill as amended was agreed to.

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.

The question is, shall the bill pass finally?

Agreeable to the provisions of the Constitution, the yeas and nays will now be taken.
