The majority required by the Constitution having voted in the affirmative, the question was determined in the affirmative and the bill passed finally.

Ordered, That the clerk return the same to the Senate with the information that the House has passed the same without amendment.

**BILL ON SECOND CONSIDERATION**

The House proceeded to second consideration of **SB 646, PN 1052**, entitled:

An Act amending the act of July 28, 1988 (P.L.556, No.101), known as the Municipal Waste Planning, Recycling and Waste Reduction Act, in recycling fee, further providing for recycling fee for municipal waste landfills and resource recovery facilities and for Recycling Fund.

On the question,  
Will the House agree to the bill on second consideration?

Mr. **CARROLL** offered the following amendment No. **A02586**:

Amend Bill, page 2, line 3, by striking out "2021" and inserting 2023

On the question,  
Will the House agree to the amendment?

The **SPEAKER**. On the amendment, Representative Carroll, you may proceed, sir.

Mr. **CARROLL**. Thank you, Mr. Speaker.

Mr. Speaker, this bill extends the fee that is collected at landfills for our Act 101 recycling grant program and the bill as amended in the committee extends the sunset provision by 1 year.

Mr. Speaker, my amendment, instead of the 1-year extension, would provide for a 3-year extension. And the reason why I think that that 3-year extension is critical, Mr. Speaker, is that our counties and many municipalities in this State take advantage of the grant program, and that grant program, in many cases, is a 3-year grant provided to the communities or the counties.

A 1-year extension, as currently provided in the bill, does not provide the length of time necessary for the grants to continue to be made by the department. Mr. Speaker, the department has serious concerns with its ability to continue with the grant program with a single year, and, Mr. Speaker, the County Commissioners Association is equally concerned with respect to a 1-year extension of the grant program of the fee, Mr. Speaker.

So as a result, the 3-year extension I think is the best policy for our counties and our communities to take advantage of the recycling grants to ensure that there is not an interruption in those grant distributions as may occur or likely will occur with a single, 1-year extension.

Thank you, Mr. Speaker.

The **SPEAKER**. Representative Maher, on the amendment, sir.

Mr. **MAHER**. Thank you, Mr. Speaker.

And I certainly appreciate the spirit of the gentleman's amendment.

This bill is a solid waste bill. The statute deals with everything from recycling to electronic recycling to landfills – all fairly unpalatable subjects, and therefore, it has been resistant to substantial overhaul since its inception in 1988. We are almost 30 years later. Technology is different. The nature of the goods that we purchase are different. Our law needs to be updated to reflect those things.

The sunset date associated with this grant program – and by the way, the grant program is not expiring now. The fee would be expiring in 2 years, so this would make it 2021 when the fee is done.

And the reason I would oppose the gentleman's amendment is perhaps best summed up with a poem I learned when I was a kid – and apologies to Ogden Nash, who was the author, because I am sure I am going to fracture it. But it went something like this: A child need not be very old or even very clever to understand that the words "later, dear" mean "never." Please join me in opposing this amendment so that it will not be "later, dear."

The **SPEAKER**. Representative Chris Quinn, on the amendment, sir.

Mr. **QUINN**. Mr. Speaker, I rise in support of the amendment.

Mr. Speaker, currently today the DEP (Department of Environmental Protection) is in the process – they require a 3-year minimum, and without this amendment, with only 1 year, the bill just does not work.

So I rise supporting the maker of the bill, who is also in support of the amendment. Thank you, Mr. Speaker.

The SPEAKER. Does anybody else wish to speak on the amendment before Representative Carroll?

Representative Carroll, you may proceed.

Mr. CARROLL. Thank you, Mr. Speaker.

Mr. Speaker, I appreciate the gentleman's commentary and the declaration that the sponsor of the bill is in support of this amendment. That is good to know.

Mr. Speaker, again I will just remind folks that your communities that take advantage of these Act 101 grants, my suspicion is is that there is no other way for many of those communities to provide the funds necessary to do those recycling grants, and so if you are prepared to risk having your communities not get those grant dollars, then feel free. But, Mr. Speaker, this amendment insulates your communities from the potential loss of those grant dollars.

The SPEAKER. Representative Maher.

He requested. Each member is allowed two times.

Mr. MAHER. Just for the good comfort of the members, there are no grants at risk here. This fee already has 2 more years to go. As the bill stands, it would have 3 more years to go, and if in 2 or 3 years we find that we have not solved the underlying problems, we can certainly extend it again.

But as Sir Walter Raleigh said, nothing focuses a man's mind like the gallows, and on this subject we need to get focused, get moving, and deal with the environmental issues now, not keep pushing them into the future.

So I would ask you to oppose the gentleman's amendment.

The SPEAKER. Representative Ed Neilson.

Mr. NEILSON. Thank you, Mr. Speaker.

Will the maker of the amendment please stand for brief interrogation?

The SPEAKER. He has indicated he will so stand.

Mr. NEILSON. Mr. Speaker, as we just heard the gentleman talk about, is there anything in your amendment preventing him from moving forward and fixing this tomorrow?

Mr. CARROLL. Of course not.

Mr. NEILSON. Okay. Thank you, Mr. Speaker.

I have nothing further. I stand for support of the amendment.

The SPEAKER. Thank you, sir.

On the question recurring,

Will the House agree to the amendment?

Section 7. This act shall take effect immediately.

On the question,

Will the House agree to the amendment?

## AMENDMENT WITHDRAWN

The SPEAKER. On the amendment, Representative Hanna.

Mr. HANNA. Thank you, Mr. Speaker.

Mr. Speaker, the goal of my amendment is to level the playing field between municipal landfills and private commercial landfills. Currently there are fees that are paid by municipal landfills that are not applicable to the private commercial landfills. My amendment would level that playing field to make those fees applicable to both, and it also increases the fee and would raise additional money.

Mr. Speaker, I feel strongly about this, but the second part of my amendment actually repeals the sunset date, and in light of the last vote, where the members were reluctant to just extend the sunset date, since mine would repeal it, I am going to withdraw this amendment at this time.

Thank you, Mr. Speaker.

The SPEAKER. I see no further amendments.

On the question recurring,

Will the House agree to the bill on second consideration?

Bill was agreed to.

## SUPPLEMENTAL CALENDAR B

### BILL ON THIRD CONSIDERATION

The House proceeded to third consideration of **SB 527, PN 1081**, entitled:

An Act amending the act of April 9, 1929 (P.L.177, No.175), known as The Administrative Code of 1929, establishing the Office of State Inspector General.

On the question,

Will the House agree to the bill on third consideration?

Bill was agreed to.

(Bill analysis was read.)

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.

The question is, shall the bill pass finally?

Representative Vitali, you may proceed.

Mr. VITALI. Could we just have a brief explanation of how this changes existing law?

The SPEAKER. They are looking for Senator Aument.

Mr. VITALI. No; actually, maybe the chairman of the appropriate committee—

The SPEAKER. Representative Cutler has indicated, the majority whip has indicated he will so stand.

Mr. CUTLER. Thank you, Mr. Speaker.

Mr. Speaker, very briefly, this takes the current Office of Inspector General and puts it into statute. It currently exists under an executive order, and by creating it independently, it will both enhance its independence as well as its ability, through other law enforcement mechanisms such as subpoenas, to root out fraud, waste, and abuse in our current system.

Mr. VITALI. And before you sit down, how does this change the current power of the Governor?

The SPEAKER. Representative Cutler, we will proceed.

Mr. CUTLER. Respectfully, Mr. Speaker, the main difference is, it currently exists under an Executive order, so in theory it could be undone at any time, but by putting it in statute, it would require it to be statutorily filled with every administration.

Additionally, the terms, if I remember correctly, Mr. Speaker, run concurrently with the Governor's terms, and it allows for the removal for reasons such as cause.

Mr. VITALI. Okay. Do you know the position of the administration on this particular bill?

Mr. CUTLER. Thank you, Mr. Speaker.

Mr. Speaker, my understanding is, since the amendment that I had offered to this body previously on second consideration was worked with with the Governor, I am assuming that addressed his concerns as well as that of the prime sponsor; however, I have not directly heard that from him and would encourage you to contact him.

Mr. VITALI. Okay. Thank you.

**REMARKS SUBMITTED FOR THE RECORD**

Mrs. FEE submitted the following remarks for the Legislative Journal:

Thank you, Mr. Speaker.

I offer remarks today on an important – and necessary – bill that will help modernize and positively transform the important work of the Office of Inspector General.

As we know, Pennsylvania's Office of Inspector General was created in 1987 by Democrat Governor Bob Casey. The main duty of the office is to find and eliminate waste, fraud, and abuse in State government programs and services.

Governor Casey's great idea has produced substantial benefits for the people of Pennsylvania, especially taxpayers, who expect that we will value their contributions to State government and prevent cheaters from ever winning.

However, our Office of Inspector General lacks some consequential tools to be able to effectively discharge these important tasks.

In fact, because Pennsylvania is one of only a very small minority of States without a law creating this office and directing its work, the ability of the Inspector General to fully achieve the goals of eliminating waste, fraud, and abuse are constrained.

Last session I introduced legislation, along with Senator Aument, to build on Governor Casey's Executive order.

Based on national best practices, and with the input of former Inspector Generals and others, my legislation would have created an independent office of Inspector General.

It provided for a fair process of selecting Pennsylvania's top fraud watchdog, enhanced the powers of the office by giving it additional authority, and promoted other strong components that enhanced the ability of the Inspector General to be successful.

While we worked hard to find consensus on that legislation, unfortunately Governor Wolf believed that there was a better way to accomplish these goals, and he vetoed my legislation.

Too many times in the legislative process, lawmakers and other policymakers get so stuck on their ideas that they lose sight of the real goal, and I am pleased that today we are finally passing another version of this important legislation.

Certainly, my preferred approach was different. But SB 527, through the hard work of Senator Aument and committed House members, represents a genuine compromise that still achieves the underlying goals that I sought to accomplish last session.

First, after 30 years, our Commonwealth's Office of Inspector General will now exist by law instead of Executive order. This has both symbolic and positive legal ramifications.

Second, because the Inspector General Office will exist by statute, we can give it more power and authority to succeed.

SB 527 does just that. Under this legislation, the Inspector General will be given subpoena powers and limited law enforcement authority, something the office currently does not have.

Finally, Pennsylvania's Inspector General will be able to do his work in a manner that is fitting for an investigator – free of direct undue influence.

The legislation includes many provisions which promote independence.

For example, for the first time, there will be enumerated qualifications which an Inspector General must meet in order to be appointed.

An Inspector General cannot be hired based on political affiliation, must be a person of integrity, have a capacity for strong leadership, and have professional experience in key areas such as fraud prevention, accounting, investigations, etc.

An Inspector General cannot seek elective office during their term, and just as importantly, cannot be dismissed from their job without a really good reason, including for cause.

The legislation also gives the Inspector General his own line item in our State budget and places those moneys under his jurisdiction, an important component of making sure his budget is not interfered with by other State government leaders.

Another key component of this legislation is that it begins a new – and crucial – regular conversation between the Inspector General and the General Assembly.

Until now, the Office of Inspector General has entirely resided within the confines of the executive branch.

SB 527 requires that the Inspector General directly engage the members of the House and Senate by submitting an annual report that details the work of the office, the monetary value of fraud prevention, and the actual recovery of moneys from cheaters. It also invites the Inspector General to tell lawmakers if there are problems in State government that need to be addressed in our laws, such as loopholes or other issues.

Taken together, and in the spirit of cooperation and good government, SB 527 is a strong, bipartisan bill that I have been told Governor Wolf is willing to sign into law.

As a prime sponsor of this initiative in the House, I am honored to stand with Senator Aument and help support passage of SB 527.

To me, this legislation represents what people expect of their lawmakers: to actively work to enact meaningful reform in how we structure State government, to promote accountability in how we value scarce taxpayer money, and to find ways to pass quality legislation despite differences.

On the question recurring,  
Shall the bill pass finally?

The SPEAKER. Agreeable to the provisions of the Constitution, the yeas and nays will now be taken.
