Good afternoon.

Please bow your heads in prayer:

God, send us into our work this day with new resolve. Help us to solve the problems that have perplexed us and to serve the people we meet. May we see our work as part of Your great plan and find significance in what we do. We do not know what any day will bring us, but we do know that the hour for serving You is always present.

As we dedicate our hearts, minds, and wills to Your glory today, may we remember our dear friend and colleague, Bud George, and welcome his loving wife, Edna. May God bless you and your family.

In Your name we pray. Amen.

Representative Tom Sankey, the floor is yours, sir.

I apologize. We are going to read the resolution first and then I will turn it over to Representative Sankey.

CONDOLENCE RESOLUTION

The SPEAKER. Members, we are about to take up the condolence resolution on the death of our former member, Representative Bud George.

At this time the clerk is going to read the resolution, and before we actually take the formal vote on the resolution, I am going to ask Representative Sankey and Representative Conklin to speak. Then we will take the vote.

So our Chief Clerk, Dave Reddecliff, will read the condolence resolution for us.

The following resolution was read:

COMMONWEALTH OF PENNSYLVANIA
THE HOUSE OF REPRESENTATIVES

CONDOLENCE RESOLUTION

WHEREAS, The House of Representatives of Pennsylvania wishes to honor the memory of the Honorable Camille George, a former member of the House of Representatives of Pennsylvania who served this 74th Legislative District and passed away at the age of eighty-nine on September 1, 2017; and

WHEREAS, Born in Houtzdale on December 23, 1927, Mr. George was the son of the late Jacob and Emily Sahlaney George and the beloved husband of Edna Mae Brobeck George, with whom he celebrated his sixty-fifth wedding anniversary on August 29, 2017. A veteran of World War II, he served this country with honor and distinction as a member of the United States Navy. Mr. George began his career as a heavy equipment operator and was a lifetime member of Operating Engineers Local No. 66. He later helped run the family business, Jacob George Ford Sales in Houtzdale, before serving as the Department of Transportation District 2-0 Administrative Officer. Mr. George began his political career as a member of the Houtzdale Borough Council and was elected as Mayor in 1965, a position to which he was reelected in 2011. He was elected to the House of Representatives of Pennsylvania in 1974 and was reelected for nineteen

consecutive terms until his retirement in 2012. To his great credit, Mr. George held the distinction of being one of the longest-serving legislators in this Commonwealth and the longest in Clearfield County. During his tenure, he was a member of the Pennsylvania Environmental Quality Board, the Wildlife Conservation Board and PENNVEST, and he served as Chairman of the House Conservation Committee and the Environmental Resources and Energy Committee. Mr. George further served his community as a member of American Legion Post No. 591 in Houtzdale and Veterans of Foreign Wars Post No. 6321 in Janesville; now therefore be it

RESOLVED, That the House of Representatives of the Commonwealth of Pennsylvania proclaim with enduring sorrow the passing of the Honorable Camille George; and extend heartfelt condolences to his wife, Edna Mae Brobeck George; son, Edmond; daughters, Nina Booth, Candace Lane, Kim Scott and Susan; nine grandchildren; and many other family members and friends; and be it further

RESOLVED, That a copy of this resolution, sponsored by the Honorable Thomas R. Sankey III on September 5, 2017, be transmitted to Edna Mae Brobeck George.

Thomas R. Sankey III, Sponsor
Mike Turzai, Speaker of the House

ATTEST:

David Reddecliff, Chief Clerk of the House

On the question,
Will the House adopt the resolution?

The SPEAKER. Representative Sankey, on the resolution, please.

Mr. SANKEY. Thank you, Mr. Speaker.

Mr. Speaker, if it is prudent, should I introduce the guests?

The SPEAKER. Yes, you may, please.

Mr. SANKEY. Okay. We do have some staff here, but we definitely have a lot of the George family. In the back, I believe, we have Jordan Lane, we have Brooklyn Scott, we have Dave Wulderk; and to the Speaker's left we have Susan George, we have Edmond and Danya George, Kim and Andrew Scott, Candace George Lane, Edwina and Thomas Booth, and last but certainly not least, Mrs. Edna George.

The SPEAKER. Please rise. All the family members, please rise.

Representative Sankey, you may continue.

Mr. SANKEY. Thank you, Mr. Speaker.

Mr. Speaker, growing up in Clearfield County, the name Bud George was synonymous with everything in politics. It was a household name. You could not not know it. Representative George served this body longer than I have been alive. And when I was first elected, I did not tell people I was necessarily from Clearfield County or at the time the 74th District, I just said two words, "Bud George," and everybody knew what that meant and 9 out of 10 people usually said that they had a great story to go along with that.

Bud was one of those people that you could disagree with but you could not help but like. He was funny, he had the personality, he made you laugh, and he knew everybody. He was the last serving member of this body to serve in World War II, our last veteran. And I can honestly say that he is somebody who fought for his constituents. You were allowed to disagree with him, but he is somebody who generally cared about the people he represented, living in a small town in Houtzdale, Pennsylvania, but he had a big voice and a big heart, always making you laugh. And when I say it was a household name, it

was literally a household name. That is all you knew in politics growing up, was Bud George was our Representative. If you needed something fixed, you called Bud George; you went to Houtzdale.

But, Mr. Speaker, I would be remiss if I did not take the time to talk about the family. Now, we all know what our spouses and our families go through in this job; they go through it with us. Every 2 years we are back to election cycle all over again. And yet Mrs. George, for nearly four decades, is the glue that held it all together for that family. She was a grandmother to people who did not have one. She was the one who remembered everybody's name if Bud forgot. She was the one who remembered everyone's birthday, and she kept it all going. That entire family knows what it is like for an election cycle. I think everybody there has worked a poll or had to be involved somehow, somehow, and there are many more that have helped out.

But if we are going to honor the legacy of Bud, I think we should just as much so honor Edna George for the time that she took, the effort that she took in living this life which – and when I got here, I did not have gray hair and it did not take long to get it – but she kept it together and she did that for year after year, and I think it is a testament to holding together a good marriage, raising your kids, and doing everything right, that it is extremely difficult to do that. And she serviced our district as he did. And I just want to say thank you for the service. Thank you for coming here, and for the entire family, and it is an honor to have you in this building. Thank you.

The SPEAKER. Representative Conklin.

Mr. CONKLIN. I want to thank you, Mr. Speaker.

And I want to thank the George family. I grew up with Bud George as my State Representative. For those of you that have ever heard of the butterfly effect – basically, that is that if a butterfly flaps his wings in South America, a hurricane can happen in Houston, Texas – Bud George was the butterfly effect. I can tell you without a doubt, I truly loved the man.

I grew up with a mother and a father and a family that when you walked into the houses where I came from, they had taken down – and many of you understand when I am going to say this. There were three pictures on the wall. There was Jesus Christ himself, there was Roosevelt, and there was Kennedy. I grew up in an era that there were three people that we knew: Jesus Christ, Joe Paterno, and Bud George. Now, you laugh, but I can tell you it was not until his passing that I ever thought there would be a day without Bud George. He was like the institution of life. He was a father. I knew him as someone who was a father figure.

I would not be here today if it was not for Bud George. I know there are many people back home who will cringe when I say that. But Bud George is the reason I stand before you today. See, I saw a different side of Bud George. When I came to this House, I was put immediately on his committee. He made sure that I was taken care of and he told me whom to be near and whom to stay away from. In fact, I asked Bud George on my very first meeting, I said, "Bud, I don't know about the issue. How am I supposed to vote?" He told me as only Bud George could, "Shut up and vote like I do." Now, folks back home may not understand that, but that is the way it was. But I trusted him because I knew he would never allow me to make a vote that would either jeopardize myself or the people that lived back home.

I can remember sitting there while he is on the phone – and many folks who are older remember those phone calls where he would sit and you had no rear end left when he was done speaking to you because he chewed off every bit that was left. But he did it to make you understand that the next time you try to sit down and not do something, you are going to feel the pain because of what just happened before.

I want to thank the George family. I want to thank them for allowing me to be part of their family. I want to thank each and every one of them. But most of all, I want to thank you all, because if it was not for you all, there would not be me, and if it was not for that, maybe some people would be happy. But I could not tell you the mentorship he gave me, the pride I have with calling him my friend, and the fact that I can openly admit that I truly loved a man who worked for this institution his whole life. God bless you and God bless the George family.

The SPEAKER. The minority leader, Representative Frank Dermody.

Mr. DERMODY. Thank you, Mr. Speaker.

Edna and the family, I want to join this whole House in extending our deepest sympathies on the passing of Bud.

There are very few of us left who had the opportunity to serve with Bud, and I had that opportunity. And I think I missed the class that Representative Conklin just spoke about because I had the opportunity to be on Bud's committee. Right out of the gate, I believe it was the first or second meeting here, I voted the wrong way. So it was, "Der Moody, that's it." And I did not know what "it" was but it was bad. And then somebody in the back of the room says, "It's Dermody," and it was not me because I was scared to death. And it was "Der Moody ever since. He said that was how you pronounced it in Syria – which is true, he is right.

But I then had the opportunity to become friends with Bud George, and we got together over the years. I had the opportunity to visit Bud and Edna at their home in Houtzdale. He invited me to speak at Bud George Day a couple of times. Now, I do not know, for those of you and maybe not many Republicans were ever at Bud George Day, but if you ever want to go to a political rally, if you ever want to go to an event, show up at Bud George Day. I had no idea what I was getting into. So I drove up to where they were having this event and there were fields all over – I mean, people parking cars in these fields. You had to hike in to get there, and there were hundreds if not thousands of people. He let me speak at Bud George Day, and what I realized after that is whether you were running for school board or President, you showed up for Bud George Day. And there is a reason all of those folks were there and we have heard some of those reasons already. Bud George spent his life looking out for working families. Bud George spent his career here fighting every day to make Pennsylvania a better place to live, to work, and to raise our families.

And, Edna, I can only say thank you for sharing him with us all those years.

Thank you, Mr. Speaker.

The SPEAKER. Thank you, Leader Dermody.

On the question recurring,
Will the House adopt the resolution?

The SPEAKER. Those in favor of the resolution will rise and remain standing as a mark of respect for our deceased former member, Representative Bud George. Guests, at this time I would also ask that you please rise.

(Whereupon, the members of the House and all visitors stood in a moment of silence in solemn respect to the memory of the Honorable Camille George.)

The SPEAKER. Thank you. You may be seated.

To Edna, his wife – and, members, think about this, think that his family members would take the time to come and be with us today. I know Representative Sankey introduced them, but I would like to introduce them one more time individually because the good Representative has four of his daughters here and his son. This is the order I have on our list, but Edwina Booth – please stand and just remain standing – Candace Lane; Kim Scott; Susan George; son, Edmond George; and I know that a number of you have your spouses with you. Thank you for also being here. And then of course Bud's lovely wife, Edna George. Thank you so much for being with us here today.

The other members have said so much about your fine husband and father. I will just tell you that he certainly was a positive figure and a dedicated public servant. He was passionate, smart, humorous because – and he loved to use that humor to bring people together and to move issues forward. He was a class individual. I did have the honor of serving with him. I did not serve on his committee, but I did have the honor of serving with him and I will tell you that he was without a doubt a beloved and respected figure. But the key thing that I know and I have talked to so many is how much he loved his family. May God bless.

Thank you, everybody.

The Sergeants at Arms will open the doors of the House.

I know many individuals want to say hello to the family. We are going to invite the family, if Edna is up for it, to come up for a photo. Representative Dermody, I would invite you to please join us up at the front rostrum here along with Representative Sankey and Representative Conklin. If you would like to join us up here, please, we would certainly appreciate it. I am going to ask the family, if they want to come up for a photo with Representatives Dermody, Sankey, Conklin, and myself.

This young woman, again only a sophomore, is a running phenom. She won the District III title with a time of 17:25. She won the 25th Annual Carlisle Invitational Girls Challenge division with a time of 16:50, making her the fastest female high school cross-country athlete in the country at that time. Marlee earned further distinction by placing 13th in her first appearance in the Northeast Regional Foot Locker Girls Cross Country National Championship, where she competed against the best in the nation. She placed third in the New Balance junior girls mile event during the 111th New York Road Runners Millrose Games. She ran a 4:44 mile, the fastest prep time in Pennsylvania's history. She was named as the 2017-18 Gatorade Pennsylvania Girls Cross Country Runner of the Year. In Northern York School District she is the first to have received that recognition.

She is her own toughest competitor, and with that I am anxious to see what she will do in her 2018 season as a junior. Clearly Marlee is blessed with great coaches and an amazing family. So kudos to coach Al Houser and all of her family.

Congratulations, Marlee. You are truly an exceptional young woman. Keep setting the bar high and continue to shatter those records.

The SPEAKER. Members, this is a very special retirement that we are going to be honoring today, so I am asking all members to please be on the House floor, particularly when we are honoring those that have served us and the citizens of Pennsylvania so well. So I am going to ask all members to please come to the floor and take a seat. All members in the anterooms, if you could come to the floor. We are going to be honoring one of our fine individuals who has served us for such a long period of time with such distinction. So I am asking members to please come to the floor. The Sergeants at Arms will close the doors of the House. Members, please take your seats.

MISSY CROMAN PRESENTED

The SPEAKER. Members, today we have the distinct honor to recognize someone who has devoted so much to the House Republican Caucus, to the Pennsylvania House of Representatives, and to the citizens of Pennsylvania – Missy Croman. Missy, would you please stand.

Missy, as you know, is retiring as the Human Resources Director for the House Republican Caucus after concluding an exemplary career – yes, as young as she looks – spanning nearly 35 years. Missy graduated from Central Penn Business School and began working for the House on May 16, 1983. She served as an administrative assistant and then was assigned to Human Resources in March of 1986. She performed in that capacity, really with outstanding, outstanding acumen, so much so that she took on the title of the Human Resources Director in August of 2009. She has served our caucus, this chamber, and the citizens of Pennsylvania ably, loyally, always making it in no matter what the weather was; taking responsibility, as you know, for thousands that work in this Capitol and did so always with a smile and with professionalism.

None of us, Missy, can thank you enough for the many hours, and not just hours, but really the thought, the management, the professionalism. It is what you did with those hours – and yes, they were long hours – devoted to leading and guiding this department and working with every member and employee with respect to our caucus. You have built relationships with so many members of the staff and have always led by great example. Patience, thoughtful demeanor, have all contributed to that success.

Now, Missy, I understand your son, Hunter's senior year is coming and he is getting ready for the fall, and that is going to take up a good bit of time, and we know that you have many things that you wish to pursue as well.

Now, your husband, Steve, please stand. Steve, it is great to have you here with us today. Thank you so much. And Hunter is here. Hunter, please stand. And I am going to ask them to come down here shortly, but I understand Missy's parents – are Carl and Pam Haga here? Please stand. It is so great that you would take the time to come. Missy's sister and her husband, Jim and Mindy Groninger. And if you each could just walk down the aisle and be here with Missy right now, we would certainly appreciate it. Just come right down the side of the aisle. We want you to be up here with her. Jim and Mindy as well.

And then we have some great friends here as well, Missy. I know you have your colleagues and friends-in-arms down in the HR Department – Teresa Hart-Kepner, please stand. Teresa. Shellie Sauerwine, please stand. Paula Beaston, Kathy Blikle, Ann Hicks.

Now, Missy, I am going to ask you and Steve to remain standing at this time with the others taking their seats. Parents, there are some seats right behind here, if you could, because my good friend and colleague, Representative Lynda Culver, has some remarks as well.

Representative Lynda Culver.

Ms. CULVER. Thank you, Mr. Speaker.

Today we have been given the opportunity to honor Melissa Haga Croman for dedicating 35 years of her life in service to the Commonwealth of Pennsylvania. She began her career in May of 1983 and then went to the Pennsylvania House of Representatives. She learned the ins and outs of Human

Resources and she rose through the ranks and in August 2009 she became the Director of Human Resources.

Missy, as most of us know her, dedicated more than three decades of her life to the Commonwealth and served with dignity, grace, and a very steady hand. For 5 days a week, almost 35 years, Missy carpooled to Harrisburg for about an hour drive here and an hour drive home regardless of the weather, the construction, or delays due to accidents.

I have had the pleasure of working with Missy for many years, but when I saw she was retiring, I was given the honor of presenting her with a citation from the House of Representatives and to make remarks to celebrate her time here in the House, and I began to ask myself and many, many others, who is Missy Croman? Well, we know she is a wife; she is a mother, a daughter, a sister, and a really great friend to many people here in the House. We know that she is always present as our HR Director. Words people used to describe her are calm, patient, informative, dependable, soft-spoken, good listener, and supportive. She leads us with a quiet strength and methodically handles the day-to-day operations. She does this so well that many of us sitting here do not often think about the fine details, legal paperwork, or the ever-changing policies she has to maintain. She makes the job look easy and effortless when in reality we all know that being the Director of HR comes with many challenges, not to mention the turnover and all of the contracts that need to be renewed every other year dictated by our election cycles and the outcomes.

She has built a solid team in HR that are available, ready and waiting for us, regardless of the issue. Missy is so professional and dedicated to leading by example that it was virtually impossible to come up with a colorful story about her, although she does work with many, many colorful characters that we will not mention at this time.

Now that Missy has conquered the HR world here in Harrisburg, I would love to tell you she is going to go off into the sunset and relax, but anybody who knows Missy knows that that is not in her nature and that is probably not what is going to be happening. I know she is looking forward to spending the rest of her son's senior year with him and getting him ready to go off to college, and I know that as a dedicated mother, if you did not catch the Speaker say it, she will probably be taking over his lawn mowing business while he is at college. I have heard she has had many requests from his clients that she keep on mowing for him.

So whether it be spending time with her husband and family, becoming more involved in her church, or some other new adventure, I am sure that the 108th Legislative District and the entire Central Susquehanna Valley will be the beneficiary of her new endeavors. I congratulate her, and I know I will greatly miss you as I am sure many people on the floor will, but we wish her the best of luck with this new chapter in her life.

Missy Croman, with all sincerity, I personally want to thank you for your time, your expertise, and for touching the lives of so many Pennsylvanians over the last 35 years. I ask you to remain standing and ask the House to rise and recognize her and give her the credit that she deserves upon her retirement.

The SPEAKER. The Sergeants at Arms will open the doors of the House.

Missy, Steve, Hunter, and Representative Lynda Culver, if you could please join us up here at the rostrum for a photo. Thank you so much. And then we will have Missy's parents join us as well, and sister.

Okay. Other guests.

LaToya Johnson-Rainey, please stand. If you can, come right up to the front. Just come down the side and come up to the front. All the guests, come right down with Representative Wheatley. Just come straight down and stand behind Representative Wheatley. LaToya Johnson-Rainey is

with A Hair Boutique Shadyside, Karen Denton is with KSC Commercial Cleaning Services, Sharise Nance is with HandinHand Counseling Services, and Simone Quinerly is with the Quinerly Financial Group.

STATEMENT BY MR. WHEATLEY

The SPEAKER. Representative Wheatley, the floor is yours with respect to these minority female business owners.

Mr. WHEATLEY. Thank you, Mr. Speaker.

Mr. Speaker, if I can, we do a lot of—

The SPEAKER. Please just suspend for a second.

Members, if you could please take your seats. These will be our last guests until we come back to the floor. I do have some guests with respect to resolutions, but we are going to be voting on resolutions when we come back from caucus. So all members, please take your seats. Members, please take your seats. Actually, I think I do have Representative—

Representative Wheatley, you may proceed, sir.

Mr. WHEATLEY. Thank you, Mr. Speaker.

Mr. Speaker, today I have the great honor and privilege to stand before my colleagues and recognize the Minority, Women and Disadvantaged Business Enterprise advocacy lobby day. We have done this for a couple of years now where we try to make sure we have our entrepreneurs come here, and instead of us discussing letters, put faces to the letters. There are a lot of great programs, there are a lot of great things we do in this Commonwealth, but there is no greater thing that we can ever do than to provide a level playing field for entrepreneurs to compete and to do well. And no matter what area you represent, there is a woman-owned business, there is a veteran-owned business, there is a disabled-owned business, or disadvantage business, a minority business, somewhere in your neighborhood, and they are our friends, our neighbors, our family members, but they are the backbone of our economy.

And so today standing with me are four entrepreneurs that I wanted to especially recognize for their work, and I want to make sure that members on our break, there are several busloads of entrepreneurs all around this building that I want to make sure you get a chance to talk with and meet so that you know some of those faces of hardworking Pennsylvanians who are making and driving and keeping our economy alive.

So today I want to recognize Ms. Karen Denton, the owner of KSC Commercial Cleaning Services of the Greater Pittsburgh area; LaToya Johnson-Rainey, owner of A Hair Boutique Shadyside, a private wig salon in Pittsburgh; Sharise Nance, founder of HandinHand Counseling Services in Pittsburgh, whose mission is to promote hope, health, and healing to individuals and families facing obstacles; and lastly but not least, Simone Quinerly, founder of Quinerly Financial Group in Pittsburgh that focuses on building financial structures for small businesses, nonprofits, and individuals and actually shares an office space with me back in my district.

So I want to thank them for being here, but more importantly, I want the members to get a chance to meet some of our entrepreneurs who, again, whenever we talk about our program, our Minority, Women and Disadvantaged Business Enterprise program, this is not a program where we are asking for someone to hand out anything. It is a program that allows for small- and medium-size and some large-size businesses to compete fairly. And so I would really encourage members to

meet some of the business owners who are here walking the Capitol and really experience or get to know what they are experiencing each and every day in our Commonwealth.

So thank you for being here.

Thank you, Mr. Speaker, for allowing me to recognize these four women on our House floor. Thank you.

The SPEAKER. Thank you, Representative Wheatley. Thank you, sir.

GUESTS INTRODUCED

The SPEAKER. The Chair welcomes guest pages Demi Keller and Vittoria Christie-Campolongo. They are the guests of Representative Rothman. Thanks for being with us today.

Members, we are going to be doing the resolutions as I said when we come back from caucus, but Representative Donatucci does have a guest here with respect to one of her resolutions. It is HR 644. I do want to introduce her now if she is still on the House floor. Dr. Marianne Ritchie is a gastroenterologist from Philadelphia, and I believe she is here at the left. Yes. Please, everybody, this is Dr. Marianne Ritchie, who is a gastroenterologist from Philadelphia.

And we are going to be doing HR 644 when we come back to the floor, but, Representative Donatucci, would you like to speak on it now though? We will be voting on it later this afternoon.

Yes, please come on up.

STATEMENT BY MS. DONATUCCI

The SPEAKER. Representative Donatucci.

Ms. DONATUCCI. Thank you, Mr. Speaker.

And I want to thank all of you today because we are going to be voting on making March National Colorectal Cancer Awareness Month in Pennsylvania.

Colon cancer has touched numerous families throughout the Commonwealth, including my own, making it a very personal issue for me. Colon cancer is the number two cause of cancer death, yet less than 65 percent of age-appropriate Americans are getting screened. Making people aware of the benefits of being screened for colon cancer could save countless lives. In an effort to raise awareness of the dangers of colon cancer and the benefits of screening for it, we are spreading the word that blue is the color of colon cancer awareness.

One of the people pushing for increased screenings for colon cancer is my dear friend, Dr. Marianne Ritchie, who had just stood up, and if you notice, she is in blue today. She is an associate professor of medicine. Following training at Memorial Sloan Kettering Cancer Center in New York, she has spent over 30 years practicing gastroenterology in the Philadelphia area with a special focus on prevention and early detection of colon cancer.

For the past several years, she has organized a blue lights campaign to raise awareness for colon cancer. The campaign continues to grow in Philadelphia and beyond. The blue message is that colon cancer is common and preventable. More people die from colon cancer than from breast cancer. I am going to repeat that. More people die from colon cancer than

from breast cancer. The blue lights campaign is in its fifth year and over 25 buildings took part, including the Wells Fargo Arena, the Franklin Institute, PECO Building, and Boathouse Row. With the support of Lieutenant Governor Stack, the Pennsylvania State Capitol shone in blue from March 5 to 11 and we will finish it tonight.

I would ask that my colleagues go back to their districts and look for buildings that could be lit in blue to help raise awareness of the importance of screening for colon cancer. If each of the 67 counties in the Commonwealth light at least one building in blue for colon cancer awareness, we can make Pennsylvania the first State in the United States to be completely covered in blue lights. Together we can make Pennsylvania the Keystone State in a national campaign leading the fight against colon cancer, which needlessly takes the lives of so many Americans.

So before closing, I would like to mention that my father died of colon cancer 20 years ago before preventive screening was available. Instead, you were scoped after symptoms first manifested, which more times than not is too late. So please, if you or a loved one are age 50 or have a family history of colon cancer, get screened. It does save lives.

Thank you, Mr. Speaker.

The SPEAKER. Thank you very much, Representative Donatucci. Thank you.

The SPEAKER. There were 186 members voting on the master roll, so we have a quorum.

ANNOUNCEMENT BY SPEAKER

The SPEAKER. Members, we are going to do the uncontested resolutions at the end of the voting day, and if members wish to speak on those uncontested resolutions, you will be given that opportunity at the end of the day, at the end of the voting session. We are going to – the applause was so – we are going to be doing that as a matter of course except under the circumstances when somebody has a guest with them for the resolution. If they have guests on the House floor, that will be our exception. Otherwise, we are going to be doing the resolutions towards the end of the voting session day.

CALENDAR**BILL ON THIRD CONSIDERATION**

The House proceeded to third consideration of **HB 153, PN 2993**, entitled:

A Joint Resolution proposing an amendment to the Constitution of the Commonwealth of Pennsylvania, reducing the size of the General Assembly.

On the question,
Will the House agree to the bill on third consideration?
Bill was agreed to.

(Bill analysis was read.)

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.
The question is, shall the bill pass finally?

Representative Jerry Knowles, on HB 153, PN 2993. This is on third consideration, and as members may remember, the bill was amended on second. Representative Knowles, the floor is yours.

Mr. KNOWLES. Thank you, Mr. Speaker.

Mr. Speaker, the vote that you are about to make will be one of the most important votes that you will make on this floor of the House of the Representatives. It is a big deal. It is always a big deal when you are talking about legislation that deals with amending the Constitution of Pennsylvania. But, Mr. Speaker, it is a very simple bill. It is very simple. If you vote "yes," you will be providing an opportunity for your voters, for your constituents, for the people of Pennsylvania to decide if this body should consist of 203 or 151 members. It is that simple. During the debate on amendments there was much discussion that took place about why it is good, why it is bad. Quite frankly, Mr. Speaker, I am hoping that we can continue those conversations between now and November 6, because there is no doubt in my mind, Mr. Speaker, that there will be campaigns that will be run on this issue. There will be people who will be talking to constituents telling them why they think it is a good idea, why they think it is a bad idea, and quite frankly, Mr. Speaker, I believe that that is the way it should be. The people of Pennsylvania should make that decision and we should enable them. We should provide them with that opportunity to make that decision.

Mr. Speaker, a "no" vote will kill the bill. The bill will be done and it is very, very unlikely that it ever will come up again, because bear in mind, we are more than halfway there. We are more than halfway there. Remember that last session there were 139 of us that voted for this bill. That is a pretty comfortable margin. One hundred and thirty-nine Representatives voted to provide the opportunity for the people of Pennsylvania to decide how big this body should be.

Mr. Speaker, as many of you know, I put a lot of effort into this as have a number of other members. I have traveled the State. I have been interviewed by large media outlets from throughout the State, and quite frankly, Mr. Speaker, some of them are questioning as to whether we really mean it. Some of them think that we have been playing games. They think that when push comes to shove that this will not happen. They are questioning our motives. They are questioning whether we genuinely believe, whether we genuinely believe that the people of Pennsylvania should have this opportunity.

Mr. Speaker, I would tell all of my colleagues, the people of Pennsylvania are watching. Make no mistake about it. The people of Pennsylvania want this, I believe that they are entitled to this, and let us continue the debate on what is good, bad, and ugly – if you think there is ugly – let us continue that debate. Let us continue that debate up till November 6, but let us do what is right. Let us stand up for your constituents, my constituents, and the voters of Pennsylvania and let us provide them with that opportunity.

Mr. Speaker, I ask for a "yes" vote on HB 153. Thank you, Mr. Speaker.

The SPEAKER. Representative DeLuca, I believe you want to speak on this. Representative DeLuca will be followed by Representative Diamond, who will be followed by Representative Freeman. I only have three speakers on this other than the prime sponsor. So Representative DeLuca, Representative Diamond, Representative Freeman, and then Representative Dush.

You may begin, sir.

Mr. DeLUCA. Thank you, Mr. Speaker.

Will the gentleman stand for brief interrogation, please?

The SPEAKER. The good gentleman has asked the sponsor to stand for interrogation and he will so stand.

Mr. DeLUCA. As I remember this bill, it was amended to include the Senate. Am I correct? Is that correct or am I wrong?

Mr. KNOWLES. That is correct, Mr. Speaker.

Mr. DeLUCA. Do you have any guarantees that the Senate will not strip their part out and send this back here where we cannot put any amendments on?

Mr. KNOWLES. I have no such guarantee. My feeling is that I want to continue to move forward because I believe that the people of Pennsylvania deserve to vote on this particular issue.

Mr. DeLUCA. When you talk about the people of Pennsylvania, are you talking about the agriculture community? Are you talking about Common Cause that fights for the people? Are you talking about these groups that are going to lose some of their representation? Are you talking for them too?

Mr. KNOWLES. Mr. Speaker, I disagree with you that anyone will lose representation, and quite frankly, Mr. Speaker, I do not represent special interests, I do not represent unions. I do not represent any special interests. I represent the people that I serve in the 124th District.

Mr. DeLUCA. I think we all represent the whole State as a— Not our district, but once we get elected, we represent the whole State. Am I correct? Not just our districts. We have to worry about this State. Am I correct on that? Not just our districts.

Mr. KNOWLES. Well, you are correct that you are here representing what is best – doing what is best—

The SPEAKER. Please suspend, gentlemen. I am sorry.

Folks, remember, interrogation is just to find out—

Mr. DeLUCA. Well, I am trying to find out, Mr. Speaker.

The SPEAKER. —something about the bill, but I cannot have this— It is not debate.

Mr. DeLUCA. I thought this is a day to speak on final passage, Mr. Speaker.

The SPEAKER. It is. You may. What I meant by that is, it is not debate between two members. You can speak on the bill.

Mr. DeLUCA. I want to find out if all the constituents out there – I mean, the farmers are constituents, Common Cause has constituents, the minorities have constituents.

The SPEAKER. The good gentleman can answer questions about the bill.

Mr. KNOWLES. I will be glad to answer that, Mr. Speaker.

Mr. DeLUCA. Thank you, sir.

Mr. KNOWLES. What I will say to you is that I have talked to media outlets from throughout the Commonwealth, and I will tell you, judging on the feedback that I have gotten from people across the entire Commonwealth, is they want the opportunity to make that decision, and to answer your question, Mr. Speaker, that is exactly what will happen. The people that you and I represent will get the opportunity to make that decision.

Mr. DeLUCA. Mr. Speaker, I agree with you there, but the only thing is, I do not want to sell the people of Pennsylvania on an idea where we are saying this is going to save them money.

The SPEAKER. Representative DeLuca, I apologize. You are absolutely given the permission, as your right as a member, to speak on the bill.

Mr. DeLUCA. All right. I will speak on the bill.

The SPEAKER. If you are ready to speak on the bill, let us end interrogation and then give you the opportunity to speak. Okay. So that ends interrogation. And, Representative DeLuca, on the bill, sir.

Mr. DeLUCA. Thank you, Mr. Speaker.

My problem with this bill is the fact that it probably is a good bill if we had the Senate and the House together shrinking the members, but I know how this body works. We will send it over to the Senate and they will strip it out there and they will send it over here and we cannot amend it.

Secondly, I do not want to see us sell the people a bill of goods where they are going to save money and they are not going to save money. We are going to have to have more staff. I see nothing in this bill that says we are going to eliminate staff. I see nothing in the bill to stop any more offices who are not there because they have a bigger district. So I just do not want to sell— You know, it sounds good. A lot of things we say sound good, but let us see the facts, Mr. Speaker.

We want to have good government. Now, I do not know if we bring it down to where the gentleman wants to bring it down if that gives us better government. I have seen worse government in local municipalities that only have seven members or nine members and school boards, so that does not give you better government. What gives you better government is the fact you have good candidates who are interested in the people out there, not the special interest groups, and once we learn that, Pennsylvania and all over this country the people will benefit by it. There are too many times we put our votes up here because of this group and that group. That is wrong. There is only one special interest group out there, Mr. Speaker, and that is the 60-some thousand people we represent.

So therefore, even though I think it is a good bill, I will be voting "no" on this bill because I think it is going to cost the citizens more money, and nobody has mentioned the fact that it guarantees the citizens, not us, the citizens, what is going to be saved in this Commonwealth for the years to come, for our next generation.

Thank you, Mr. Speaker.

The SPEAKER. Representative Diamond is next. Representative Diamond followed by Representative Freeman, Representative Dush, and Representative Rapp, and then Representative Samuelson and Representative Roae. Representative Samuelson, Representative Roae, Representative Causer. There is an avalanche going on here.

Representative Diamond, the floor is yours, sir.

Mr. DIAMOND. Thank you, Mr. Speaker.

Mr. Speaker, I rise in opposition to HB 153, and to help illustrate my opposition, I would like to delineate the top 10 reasons to oppose reducing the size of the General Assembly. Top 10 reasons:

Number 10, there is nothing magic about the numbers 151 and 38. Granted, there is nothing magic about the numbers 203 and 50 either. In fact, 253 was a mapping mistake. But why not 175 and 45? Or 101 and 21? Or for that matter, 7 and 3? But, Mr. Speaker, 203 and 50 is what we have had for years and there is no compelling reason to change it.

Number 9, reducing the size of the General Assembly will enable future legislative leaders who wish to strong-arm rank-and-file members into going along to get along. We are fortunate that such tactics have subsided in the last decade, but

nothing prevents them from returning. HB 153 ensures that if strong-arm tactics ever return to this building, they will do so with a vengeance.

Number 8, HB 153 will make it more difficult for rural citizens to meet with their Representatives. I have heard supporters of this bill tout telephone calls, e-mail, and Facebook contact among their reasons for supporting this legislation, but we all know there is no substitute for a face-to-face meeting with a constituent. Urban citizens will not suffer this consequence. Pennsylvania's rural population and its viewpoints on public policy should not be disadvantaged in this manner.

Number 7, making the General Assembly more efficient and manageable, as I have heard claimed, is not necessarily a good thing. The most notable examples of things which have gotten done efficiently in this building over the years – massive pension grabs, last-minute gut-and-run gaming bills, and midnight pay raises – are not shining examples of laudable legislative goals.

Number 6, smaller counties will lose their voice in Harrisburg. While larger counties would maintain multiple members of this body, many of Pennsylvania's smaller counties will be relegated to having only one, or less than one, voice in this hall.

Number 5, reducing the size of the General Assembly will empower special interests and lobbyists, not regular citizens. With 25 percent fewer members, special interests and lobbyists would enjoy a 25-percent discount on the efforts they take to sway this body.

Reason number 4, this legislation is essentially an incumbent protection plan. We already know how difficult it is for a regular citizen to challenge a sitting incumbent legislator. If this constitutional amendment is approved, the cost of mounting a challenge to an incumbent legislator will increase by 25 percent, and Pennsylvania will have fewer citizen legislators and more career politicians.

Number 3, this is not real reform. HB 153 is a measure that looks good at first blush, but its beauty pales the longer you look at it. We do not operate in a vacuum here. Reducing the size of the General Assembly, absent other changes to how this institution operates, only paves the way for negative unintended consequences.

Reason number 2, reducing the size of the General Assembly does not guarantee reduced spending. Remaining members will likely seek to establish additional district offices, hire additional staff, and spend more money on constituent outreach, negating any savings realized by eliminating 64 legislators.

And the number 1 reason to not vote to reduce the size of the General Assembly, Mr. Speaker, is because HB 153 does not promise better government. It does not ensure individual liberty or equality, and it does not secure superior policies or fairer laws. These objectives, above all else, should always be our top priorities.

Mr. Speaker, I cut my political teeth a dozen or so years ago standing outside this building, shaking my fist and complaining about the General Assembly. I did not believe then that all by itself reducing the size of the General Assembly was a good idea, and I certainly do not believe it now.

Perhaps changing the number of legislators here in Harrisburg could be part of a more comprehensive government reform package or a constitutional convention where citizens can address other related issues, ideas that I wholeheartedly support, but that is not what we have before us.

Mr. Speaker, I urge a "no" vote on HB 153. Thank you, Mr. Speaker.

LEAVE OF ABSENCE

The SPEAKER. Representative Tim HENNESSEY needs to be placed on leave, without objection.

LEAVE OF ABSENCE CANCELED

The SPEAKER. Representative Curt Sonney is on the House floor and should be placed back on the master roll.

CONSIDERATION OF HB 153 CONTINUED

The SPEAKER. Representative Freeman is recognized.

Mr. FREEMAN. Thank you, Mr. Speaker.

Mr. Speaker, I rise to oppose HB 153. The idea of reducing the size of the Pennsylvania House of Representatives from 203 members to 151 is a misguided proposal masquerading as government reform. Common Cause Pennsylvania, the leading good-government organization here in our Commonwealth, is opposed to HB 153 and has stated that, and I quote, "true reform must improve the way our government works by making it more responsive and more representative. Change for the sake of change is not reform. Changes to the size of the legislature without changing the back-room process for drawing districts, is not true reform." Common Cause Pennsylvania further notes that, quote, "reducing the number of legislators would not automatically result in an equal reduction in either direct or indirect costs." And Common Cause goes on to note that, quote, "as proposed in this bill, the reduction in representation will likely produce a reduction in citizen input and participation." All negative consequences to be realized by this legislation.

By far the biggest drawback of reducing the size of the House will be the reduction of face-to-face contact between Representatives and their constituents. A smaller House means bigger districts with a substantial increase in population and geographic size. The current size of House districts are conducive to direct contact between a Representative and their constituents. We are far more accessible than our counterparts in the State Senate because of the smaller size of our districts. That means that constituents have a greater opportunity to meet with us face-to-face, express their viewpoint on an issue, and have the chance, hopefully, to persuade us of the merits of their viewpoint. Citizens can have a direct impact on the course of our public policy thinking process through the direct contact that they get by meeting with us. I am sure my interaction with my constituents is similar to that of almost all the members in this chamber. We are constantly out and about in our districts at community events and functions. We have people walk into our offices off the street who wish to speak directly with us on a matter of concern to them and they do because we are accessible, and I, like I am sure many members do, will even pick up the phone in their district office when it is ringing and talk directly with constituents to help them with whatever problem or concern they happen to have. All of that direct contact will diminish with larger districts and a smaller House.

The proponents of this proposal feel that eliminating 52 seats in our chamber will save tax dollars, but the reality is that whatever savings could be realized by a smaller House will not

be realized as members will require more staff to service their larger districts with their increased population.

With a smaller House we lose different perspectives as well, perspectives that are important to assist this House in fashioning good public policy and we would negatively impact certain populations that currently have a voice here in Harrisburg, here in this chamber. Rural areas would suffer as their already larger geographic districts would get even larger, making it substantially harder for constituents to travel longer distances to meet with their legislator.

Our smaller urban communities that are cities of the third class or are larger boroughs would see their representation diminished in a smaller House as well. Currently there are a significant number of districts where a small city or a large borough constitutes the majority population of a district, thereby ensuring that those issues that affect our small-town communities will have a Representative to address their particular needs and their particular concerns. Under this proposal, our small cities and larger boroughs will be swallowed up in larger districts where their community will have less of an impact on the election of a member as they will no longer constitute a majority of the population of a legislative district. That poses the very real possibility that they will have less of a voice in policy matters that directly impact on their communities.

A smaller House with larger districts means more expensive campaigns as well as candidates will be required to raise more money to be effective in reaching voters. More costly campaigns means more special-interest money will be driven into the election process which will have a direct effect on the policymaking process here in Harrisburg, reducing the influence of the general public overall on policy matters.

One of the great benefits of the current size of our House districts is that a candidate does not need to raise a huge amount of money to win a seat in the House if they are willing to run a true grass-roots campaign, go door-to-door campaigning in their district where they meet voters face-to-face. That retail style of campaigning will change if our districts are larger as campaigns for the House will rely more and more on the wholesale approach of campaigning through advertising and mailers over the direct voter contact that currently exists. Our campaigns will become more and more like campaigns for the State Senate or for Congress as a result, and that means the direct voter contact that we experience will go down, will diminish.

By reducing the number of members in this House by 25 percent we reduce representation. What is needed in our society today is to ensure more representation of the people in government, not less. They have a much better chance of having their voice heard in a smaller legislative district than they would in a larger one.

For those who voted for this proposal last time and may feel compelled to vote for it again out of a misguided notion of consistency, I would only note that the authors of our State Constitution designed the amendment process in such a way as to require a proposed amendment to pass the legislature in two consecutive sessions. They did that in order to allow for a period of thoughtful reflection on any constitutional change. They recognized that an intervening time period would permit a member to reconsider their initial vote and to have the time to think through all of the aspects to a proposed change that an initial vote may not have provided them. A change of mind is

what was envisioned in order to prevent constitutional amendments with unforeseen consequences becoming a part of our State Constitution.

The Pennsylvania House of Representatives with its 203 members and small districts is closer to the people than that State Senate and its larger districts, closer to the people than the executive branch of our government. That is why we call this place the people's House. We need to have at least one component of State government that is closer to the people. With 203 members and our 2-year terms of office, that is us. Do not eliminate that from our system of State government. Do not take that away from the people of Pennsylvania. Vote "no" on HB 153.

THE SPEAKER PRO TEMPORE (SHERYL DELOZIER) PRESIDING

The SPEAKER pro tempore. The Chair thanks the gentleman and recognizes Representative Dush.

Mr. DUSH. Thank you, Madam Speaker.

I look at this body, I look at this room in the people's House. It was designed for even more people than we have in here now at a time when there were fewer people in the Commonwealth of Pennsylvania than we have now. Our founders wanted us to have that intimate, personal contact with our constituents. That is why this is such a large body. We have a large State. We have more miles of highway in Pennsylvania than I think any other State in the United States. Think about that for a minute. My district right now is 900 square miles. I have children in 9 different school districts, 55 municipal governments.

A woman that was on one of the school boards tried to actually challenge me on my stance on this at the beginning of the school board meeting. The school board president cut her off, and then at the end of the meeting I had come and I do what I do when I go to municipal government meetings, I sit through the whole thing. She was praising me for having sat through the whole meeting, left myself available for questions and answers. I said you just made my point. It is that intimate one-on-one or even within a group setting the ability of people to talk back and forth. You look at what is happening on social media. People say, "Oh, you can use texts and e-mails." The misunderstandings that happen every single day just within family groups with Facebook posts or text messages. The context, the expressions that people have when they are trying to communicate a point, that does not come through on text messages. It does not come through on e-mails. It does not come through on social media. A lot of misunderstanding happens with just text messages and e-mails.

We were meant in this body to be the people's House. We were meant in this body to be the body that has that intimate personal relationship with the people we represent. When they are trying to communicate that information back to us, it is not as effective. You do not get the depth of what your constituents are feeling in a text message. You do not get the pain in a mother's eyes in a text message. How are we going to be responsive to the real needs? How are we going to sense what cannot be expressed in a text message or a voice mail? Look at what has happened here over the last year when we uncovered 218 special funds. There were – a lot of people knew about a lot of the special funds – but 218, nobody knew about those in this House, and now we have just discovered two – one the

Governor just created and another one that even the Appropriations team was not aware of. That is more special funds than there are members in this House. When I first ran, I was telling people I know I am going down there trying to eat an elephant a bite at a time. Now I go back and I tell them it is more like a pod of blue whales.

We are uncovering stuff every single day, and what we need is for this body to start taking on the executive branch's fraud, waste, and abuse that goes back over not just this administration, but far back even to when I first started working in State government. But it is going to take a team of us. It is going to take us all working together. It is going to take us actually being in communication with our constituents.

I have people in departments that come to me and tell me stuff, that I have to keep their information private because of the repercussions, because we do not use the subpoena power. There is no protection for our civil servants that want to do the right thing. This body— The thing that will change State government, the things that will get every dollar that we take from somebody into the hands of somebody that actually needs it, has to occur by us as individuals being out there, working with our constituents, hearing their stories, and coming back here and working together and holding the executive accountable as we are supposed to be doing as a system of checks and balances that is a representative republic.

This bill will further isolate every single person that sits in this room from their constituents. This room was built for more than 203 people at a time when there were less than 12 million people. It was designed that way on purpose. We need to honor that. The people who did that had good reason for doing it, and those reasons are still valid today.

Thank you, Madam Speaker.

The SPEAKER pro tempore. The Chair thanks the gentleman and recognizes Representative Samuelson. Mr. SAMUELSON. Thank you, Madam Chair.

I rise to urge a "no" vote on HB 153. This is the bill that empowers the party leaders to reduce the size of the legislature. Check the bill. This bill reduces the number of House seats by 51 and reduces the number of Senate seats by 12, but it leaves in place the current redistricting process that is prescribed in our State Constitution, and this is a process controlled by the party leaders. Check Article II, section 17, of our Constitution. When you consider this bill to reduce the size of the House and the Senate, you have to think about who is going to be in charge of doing that reduction. According to Article II, section 17, it is the four party leaders: the Republican leader in the Senate, the Democratic leader in the Senate, the Republican leader in the House, the Democratic leader in the House, and a fifth person chosen, handpicked by those party leaders. If the four party leaders cannot agree, that fifth person is chosen by the Supreme Court of Pennsylvania. So that small group of five people dominated by the party leaders, that is who is going to be in charge of reducing the size of the House and the Senate should this bill pass.

Back on February 5 I tried to amend this bill. I tried to offer an amendment to add the language of HB 722 to provide for an independent redistricting commission. That effort was blocked on a procedural vote. So the bill before us concentrates a lot of new power in the hands of the party leaders, and with that additional power the potential and opportunity for political mischief is immense. Just think about it, if this bill would come to pass and it is a process controlled by the four party leaders,

which 52 seats would they eliminate in the House? Which 12 seats would they eliminate in the Senate? The party leaders would eliminate the seat of anybody who has been independent – anybody who has voted against the party line, anybody who has spoken up or spoken out, any legislator who has dared to challenge the status quo. HB 153 concentrates immense power in the hands of the party leaders, and they could keep a list for years and come the next redistricting in 2021, the chance for political payback is immense. We would have political payback like the State has never seen.

The gentleman from Lebanon County talked about potential strong-arm tactics of the party leaders as they try to enforce discipline in advance of this new round of gerrymandering. But when you think about it, if the legislative leaders are given the power to eliminate 64 seats and decide which ones, we would see the biggest gerrymander in 300 years in the State of Pennsylvania. HB 153 on the surface might sound like reform until you consider how the bill would be implemented. Concentrating more power in the hands of the party leaders is not a wise idea. Enhancing the power of legislative leaders is not reform. Without true redistricting reform, this bill will make gerrymandering worse in Pennsylvania and I urge a "no" vote on HB 153.

THE SPEAKER (MIKE TURZAI) PRESIDING

The SPEAKER. Okay. I have three remaining speakers: Representative Brad Roae, Representative Marty Causer, Representative Kathy Rapp. Representative Rapp is first. Oh, I did not see Representative Sturla; my apologies. Oh, Representative Roae is going to go first. Representative Brad Roae.

Mr. ROAE. Thank you, Mr. Speaker.

I stand in support of HB 153. Mr. Speaker, I am completely confident that every member of this chamber is capable of representing a larger district than they are representing now. Right now we all represent around 64,000 people. That would go up to about 84,000. I believe everyone in this chamber is fully capable of doing that.

It was mentioned earlier that there is nothing in the bill that mentions the size of our staff or the costs, the number of staffers, you know, office locations. Well, Mr. Speaker, that would not be in a bill that deals with a constitutional amendment. This legislation would amend the Constitution if the voters approve that, so those things would not even be in the legislation. So it is not that it is missing in the legislation; it would have no place in the legislation.

And, Mr. Speaker, it is hard to imagine that it would not save money. When you look at having, you know, 50 fewer members, that saves a lot of money when you look at all the expenses, and I think it would certainly save taxpayers a lot of money, and most other States are doing – are getting by with much smaller houses than we have. In California they have an 80-member State House; Texas, they have 150; Florida is 120; New York is 150; in Pennsylvania we would go to 151. We would still have the largest one of all the major large States.

Mr. Speaker, in California, our colleagues there each represent almost 262,000 people. This legislation would have us represent 84,000 people. In Texas, our colleagues there represent 189,000 people; in Florida, it is 175,000; in New

York, it is 132,000. Many people in this chamber are questioning, are we capable of representing 84,000 people? I think we can. If our colleagues in California are representing three times as many people each, I think we can handle it.

Mr. Speaker, a lot of members over the last several years we have been working on this, I have heard members say, "This would hurt the rural areas. We should not do it." I hear other members say, "This would hurt the urban areas. We should not do it." The truth is, Mr. Speaker, this hurts no areas at all. All House districts are drawn based on population, so if you divide the State into 203 sections or 151 sections, every area of the State is represented. Yes, there would be fewer urban legislators, but there would also be fewer urban – or excuse me, rural legislators, as well as fewer suburban legislators. It is all proportional, Mr. Speaker. Nobody is losing representation.

Now, if you look at the size that we would be going to, if we wanted to be comparable to what New York is doing, we would have to drop down to about 97 members. This would take us to 151 members, so we are still going to have the largest legislature in the country even if we do this. We should actually be doing more than this legislation actually does, but this seems to be a good number for the time being.

But, Mr. Speaker, I would urge everyone to vote "yes" on this, that there is no reason why we need 203 people. Everybody in this chamber talks a lot about cutting costs, reducing the size of the government, doing things more efficiently. We need to look at ourselves when we are doing that, Mr. Speaker, and we need to cut our own ranks to 151. So I urge the members to vote "yes." Thank you, Mr. Speaker.

The SPEAKER. Representative Kathy Rapp.

Ms. RAPP. Thank you, Mr. Speaker.

I have consistently opposed this legislation from when a former Speaker was here. I opposed it then and I oppose it now. I do believe that this legislation would be detrimental to rural Pennsylvania and it would severely curtail the voice of rural Pennsylvania in this House. It will consolidate power in the urban areas, and it will not save money because, as former speakers have spoken, it will require more staff for the House across this State for district offices.

This bill will cost more money, not less, and I would like to remind many people here that one of the reasons this bill was originally brought to us was to manage the members – not cost savings, but to manage the members.

I represent three counties, Mr. Speaker, approximately 1500 square miles, whereas someone from Philly or the urban area of Pittsburgh may represent three city blocks or less. This bill takes away the voice and the representation from rural Pennsylvania.

Our Founding Fathers put in the Constitution that our terms would be 2 years. The reason for that, Mr. Speaker, and to the members and people of Pennsylvania, was so – and in the hopes – that the House members would stay close to the people, so that we could truly be the voice of the people in this body.

Mr. Speaker, while urban legislators will see minimal impact on the districts they serve, rural legislators will see a severe impact. It will be even more difficult to meet constituents face-to-face. I have constituents who right now do not have access to the Internet, they do not have smartphones, some of them do not even have long distance on their phones.

I ask my colleagues, please do not vote to take away the voice of rural Pennsylvania. Please vote "no" on this bill so that rural legislators can continue to be the voice of the people in rural Pennsylvania.

Thank you, Mr. Speaker.

BILL PASSED OVER TEMPORARILY

The SPEAKER. Members, we keep getting additional speakers to this bill. I am going to go over it for a few minutes. I want to get to some items that we can get through, and then I will return if we still have time.

VOTE STRICKEN

The SPEAKER. Members, actually, strike the vote. Strike the vote.

It is my mistake, not the maker of the motion's. It is actually a motion to suspend. That is my fault. So it is a motion to suspend that the maker is making, and Representative Driscoll has indicated, as the prime sponsor, he supports the motion to suspend. So strike the motion to proceed. What we have in front of us is a motion to suspend the rules to get to the amendment, and that is my error and I apologize.

On the question recurring,

Will the House agree to the motion?

A majority of the members required by the rules having voted in the affirmative, the question was determined in the affirmative and the motion was agreed to.

On the question recurring,
Will the House agree to the amendment?

The SPEAKER. Representative Barrar, on the underlying amendment, sir.

Mr. BARRAR. Thank you, Mr. Speaker.

Mr. Speaker, the amendment removes a provision that permits a consumer credit reporting security freeze to expire after 7 years. Under this amendment, a security freeze will remain in effect until the credit reporting agency receives a request from the consumer to have the freeze removed.

The bill also provides for a security freeze for unprotected persons defined as those under 16 years of age, an incapacitated person, and those under adult guardianship. The bill requires a consumer reporting agency to place a security freeze on a protected person's account, if the agency receives certain information from the guardian to place that freeze. If no credit report is found on that person, the agency shall create a credit report and then place the freeze.

Thank you, Mr. Speaker.

On the question recurring,
Will the House agree to the amendment?

(Members proceeded to vote.)

LEAVE OF ABSENCE CANCELED

The SPEAKER. Representative Hennessey is on the House floor and should be placed back on the master roll for this vote and the remaining votes for the day.
