### HOUSE OF REPRESENTATIVES

The House convened at 9:30 a.m., e.d.t.

#### THE SPEAKER (MIKE TURZAI) PRESIDING

#### MOMENT OF SILENCE FOR HON. SID MICHAELS KAVULICH

The SPEAKER. We were so deeply saddened to learn of the passing of our friend and colleague, Representative Sid Kavulich. We will of course be having a memorial service on the House floor at a later time, but at this time if you could all please stand as able for a moment of silence as we reflect upon the life and legacy of our friend, Representative Sid Kavulich.

(Whereupon, the members of the House and all visitors stood in a moment of silence in solemn respect to the memory of the Honorable Sid Michaels Kavulich.)

#### PRAYER

HON. JOHN A. LAWRENCE, member of the House of Representatives, offered the following prayer:

Let us pray.

Father, our hearts are heavy this morning. We thank You for the life of Your servant, Sid Kavulich, and I ask You, Father, this day to comfort his family in their hour of need. We also remember the O'Brien family and the Fabrizio family, and we ask that You would comfort and sustain them as well.

Father, You are the author of life, and certainly we are reminded this day of the brevity and precious nature of life. As we come to the waning days of this session, I humbly ask You to give us Your hand of wisdom here in the House, as well as our colleagues in the Senate and the Governor, that we would do that which is good and right. I pray this in Jesus' name. Amen.

In the well of the House, we welcome guest pages Carrie Rutledge and Kai Hujer. Am I saying that right, Kai? How do you say the last name? Hujer. My fault. Thank you. Carrie is from Red Lion and is the current Pennsylvania Angus Princess, which is great. And Kai is a foreign exchange student from Berlin, Germany. And they are guests of Representative Stan Saylor. We really appreciate your being here. Thanks for coming.

Representative Paul Schemel has a special guest for us. To the left of the rostrum, we welcome a member of the West Virginia House of Delegates. He represents the 62d District, John

Overington, and John is with Representative Paul Schemel. He serves as a Speaker pro tem and on the Agriculture and Rural Affairs, Industry and Labor, and Judiciary Committees. And we are so glad to recognize a delegate, John Overington. John, what part of West Virginia are you from? The Eastern Panhandle. Well, welcome here. I am from the Pittsburgh area and not far from the West Virginia border myself, so welcome. We are so honored to have you here. Thank you.

Representative Snyder, will you please approach the rostrum. We are going to close the doors of the House. If my good friend, the majority leader, is knocking on the door, however, please let him in. Yesterday, unfortunately, he had stepped out for a meeting and we need to let him back on the floor.

### **CARMICHAELS AREA HIGH SCHOOL ENVIROTHON TEAM PRESENTED**

The SPEAKER. Can everybody please take their seats. This team has traveled probably 4 1/2 hours, maybe 5 hours to be here with us.

Representative Pam Snyder, please proceed.

Mrs. SNYDER. Thank you, Mr. Speaker.

Amidst this day of sadness, it is my pleasure to bring a little joy to welcome to the House floor these members of the Carmichaels Area High School Envirothon Team: Christina Adams, Jacob Hair, Joey Kurincak, Ryan Swartz, and Stephen Zacoi.

Under the expert guidance of adviser Kevin Willis, the Carmichaels Envirothon Team prevailed in competition at the Greene County level, then won again at the State level in competition held at Susquehanna University. At the State level, the Envirothon is sponsored by Pennsylvania's 66 county conservation districts, the State Conservation Commission, and the Pennsylvania Association of Conservation Districts.

The five-member teams participate in a series of field station tests that focus on five topic areas: soils and land use, aquatic ecology, forestry, wildlife, and environmental issues. The teams also prepare and deliver oral presentations to panels of judges. They evaluate each team on its problem-solving capabilities, oral presentation skills, and recommendations to help solve the specific environmental challenge which relates to the current environmental issue.

The Carmichaels Envirothon Team is truly among the best and the brightest of the thousands of high school teens who participate in these competitions.

Please join me in congratulating them on an impressive string of successes, and in offering them best wishes for a bright and prosperous future as I present them this citation.

And I would just like to add, I have watched Mr. Willis bring teams to the county Envirothon for many years, and every year Carmichaels wins. And this year, for this team to take States and go to the nationals was an opportunity of a lifetime. So please join me in congratulating these wonderful youth and their teacher and adviser behind me. Let us give them a big Harrisburg welcome, please.

### **GUESTS INTRODUCED**

Representative Kinsey, are all your guests here? Representative Kinsey, you can bring them all down to the floor. We will bring them into the well of the House. Okay. So just come on down now, and I will just do some business while we are waiting for your guests to come down here.

### **REMARKS SUBMITTED FOR THE RECORD**

The SPEAKER. Representative Murt, on unanimous consent. Mr. MURT. Thank you, Mr. Speaker.

Mr. Speaker, I would like to submit some remarks relative to HR 1120, which was passed unanimously yesterday. Thank you, Mr. Speaker.

The SPEAKER. Yes, sir. Thank you very much.

Mr. MURT submitted the following remarks for the Legislative Journal:

I want to thank my colleagues for their support of HR 1120, which establishes October as "Lifesharing Awareness Month" in our Commonwealth.

Lifesharing is when a family and a person with an intellectual or developmental disability choose to share a home and life experiences together. This is intended to become a long-term and trusting relationship in which the supported person becomes an extension of the family. Lifesharing provides an individual with a disability choice and true community integration.

Mentors in the Lifesharing Program open their hearts, their families, and their homes to those with developmental disabilities. When a mentor takes in and cares for an adult with special needs, they give something money cannot buy – a helping hand, a home, and a family. Through their actions, these mentors show that every Pennsylvanian deserves to live life to the fullest. These families are more than home providers – they are teachers, advocates, friends, and a family unit.

For the person being mentored, Lifesharing offers the opportunity to live in the community of their choice. By sharing their mentor's home, individuals are able to take part in everyday, but critically important, activities of family life, while still receiving the supports they need. They can socialize with family and friends, manage household chores, discover new hobbies, and learn new skills to the best of their abilities. Lifesharing helps individuals with special needs lead fuller, more independent lives in the communities in which they live.

While there are many programs that offer mentoring services, Lifesharing is an example of how to do it more efficiently and with greater success. And as the need for these services increases, it is critical that Lifesharing continues to stand as an example of how to improve the lives of those who cannot help themselves. In that way, the Lifesharing Program is an invaluable resource to our community, and that is why it is so important that we recognize the achievements of Lifesharing and mark October as "Lifesharing Awareness Month."

The SPEAKER. And at this time we will proceed to the master roll call vote. Okay, we are going to hold off on the master roll.

We are going to do Representative Kinsey's, he is going to advocate for a resolution. We are going to come right down to the well of the House. We are not taking the vote at this time. We will be taking the vote a little later this morning, but he will be advocating for the resolution and he has some guests with respect to that. Then we are going to proceed to two farewell remarks. Representative Curtis Thomas I think has all of his guests here, and I think Representative Marguerite Quinn has all of her guests here, so we are going to proceed with those two farewell remarks here shortly.

Members, please take your seats. These individuals have traveled very far to be with us today. We are closing the doors of the House at this time. Again, if a member needs to get on the floor, particularly any of the leaders, just let them in, but we are going to close the doors at this time.

Representative Kinsey is called upon to advocate for HR 1111, which we will be voting on shortly, but we are going to be voting on those resolutions a little bit later today. And Representative Harry Lewis as well.

#### STATEMENT BY MR. LEWIS

The SPEAKER. Representative Harry Lewis is recognized to speak on HR 1111. He will be followed by Representative Kinsey. We are very honored to have many guests with us today from Kappa Alpha Psi, and we will begin at this time.

Mr. LEWIS. Thank you, Mr. Speaker.

Today Representative Kinsey and I have the pleasure of recognizing our brothers of Kappa Alpha Psi Fraternity. Since the fraternity was founded on the campus of Indiana University in Bloomington, Indiana, in 1911, more than 125,000 undergraduate and graduate international members have come together with the shared ideas of dedication, leadership, maturity, and wisdom. Kappa Alpha Psi's motto of achievement in every field of human behavior is brought to life through a multitude of programs ranging from youth mentoring and college preparation to senior support services. In keeping with the spirit of this motto, Kappa Alpha Psi has worked consistently to advance the ideals of its 10 founding members, with noted achievements in the fields of science, arts, education, sports, entertainment, and politics.

Please join Representative Kinsey and me in honoring our brothers and their contributions to so many communities across the country. Today, October 16, is named "Kappa Alpha Psi Day" in the Commonwealth. Thank you, Mr. Speaker.

Representative Kinsey.

#### STATEMENT BY MR. KINSEY

The SPEAKER. Representative Kinsey.

Mr. KINSEY. Thank you, Mr. Speaker.

Mr. Speaker, I want to thank my colleagues in advance for their support in recognizing HR 1111, which recognizes October 16, 2018, as "Kappa Alpha Psi Day" here in Pennsylvania.

Since it was founded at Indiana University in 1911 by Elder Watson Diggs, John Milton Lee, Byron K. Armstrong, Guy L. Grant, Ezra D. Alexander, Henry T. Asher, Marcus P. Blakemore, Paul W. Caine, Edward G. Irvin, and George W. Edmonds, Kappa Alpha Psi Fraternity, Inc., has worked consistently to advance the ideas of its founding members through service, leadership, and achievement.

There are currently over 125,000 members worldwide who are involved in programs such as the Kappa Alpha Psi Achievement Academy, the Kappa Alpha Psi Guide Right Program, the Kappa Alpha Psi Undergraduate Affairs, and the Kappa Alpha Psi Senior Affairs, just to name a few.

Kappa Alpha Psi's international headquarters is located in the city of Philadelphia, and with over 600 active graduate and undergraduate chapters across the world, I am happy to announce that the Kappas will ascend on the city of the first class for our 84th Annual Grand Chapter Meeting in 2019.

But today, Mr. Speaker, I am proud to recognize our special guests who have traveled to the Capitol today to share in this special occasion. And, Mr. Speaker, I would like to just recognize a few of our distinguished gentlemen that are standing here with Representative Lewis and I. We have Mr. Greg Burris, who is the past assistant executive director of Kappa Alpha Psi. We have Mr. Junious Stanton, who is the chair of the seniors affairs for the Philadelphia alumni chapter of the Kappa Alpha Psi. I have Mr. Damian Jackson, the first vice polemarch of the Philadelphia alumni chapter of Kappa Alpha Psi; Mr. Lou Williams, past polemarch of the Philadelphia alumni chapter of Kappa Alpha Psi; Mr. Darryl Stephens, past polemarch of the Philadelphia alumni chapter of Kappa Alpha Psi; and Mr. Doug Harrell, the current polemarch of the Philadelphia alumni chapter of Kappa Alpha Psi.

And in closing, Mr. Speaker, I would like to recognize my good friend, my fraternity brother, and our colleague, Representative Harry Lewis, of the 74th Legislative District. You see, Mr. Speaker, Representative Lewis has been a member of Kappa Alpha Psi for over 58 years. Representative Lewis, did I say that right? Fifty-eight years?

Mr. LEWIS. Going on 59.

Mr. KINSEY. I know he does not look a day over 40, but that is the truth. But Representative Lewis exemplifies the achievement for which the fraternity stands – an educator, a coach, an administrator, and a representative of the people.

I ask my colleagues to join me as I welcome the men of Kappa Alpha Psi Fraternity, Inc., to the Pennsylvania House of Representatives, while at the same time we say goodbye to a great Kappa man, Representative Harry Lewis. Please join me in welcoming them and saying goodbye.

The SPEAKER. We will take some photos and we are going to move to farewell remarks.

## LEAVE OF ABSENCE CANCELED

The SPEAKER. Michael Corr is on the House floor.

Representative Curtis Thomas is welcomed to the rostrum to give his farewell remarks. Representative Thomas, we are going to get this group in and then we will begin. Please, if we could get all these guests seated, we would appreciate it. We have a lot of guests here from Representative Curtis Thomas' family and friends. I would ask all members to please take their seats at this time. We are going to close the doors of the House.

## FAREWELL ADDRESS BY MR. THOMAS

The SPEAKER. Representative Thomas was elected in 1988 to represent the 181st Legislative District in the city of Philadelphia. He is currently serving in his 15th term in the House of Representatives.

He is the chairman for the Commerce Committee. As you know, Representative Thomas, Chairman Thomas obtained a bachelor of science degree in secondary education from Temple University, and also enrolled in the school's graduate program, majoring in education administration. He then attended and received his law degree from the David A. Clarke School of Law in Washington, DC, and served, I believe, as a law clerk for the Commonwealth Court. Representative Thomas, you were a law clerk as well, right? And this good gentleman is the proud parent of two sons and the guardian of two nieces. We are so proud of him. As you know, he has been active in the civil rights movement from early, early in his tenure, and is without a doubt one of the most outspoken advocates for civil rights; yes, beginning with those for Black citizens in our country, but it extends well beyond. He is a person who is deeply committed and I think has given some of the most passionate speeches I have ever seen on the issue, and we have been blessed to actually hear them on the House floor in this august body.

So it is with my honor at this time to introduce Representative Curtis Thomas for his farewell remarks as a legislator. Thank you, sir.

Mr. THOMAS. Hear ye, hear ye. I want to thank our esteemed Speaker of the House, my Democratic leader, the Republican leader, and to each and every one of you, my colleagues, my friends, my other family for the last 30 years.

At this particular time I would like to just take a minute and introduce some friends and family that have joined me this morning. I have to start with, 30 years ago one of my twin boys stood here in the Speaker's box at 10 years old, and he will be turning 40 years old on November 23 – my son, Kareem Thomas. And to make sure that retirement does not end up in nothingness, he and his wife have now given me a beautiful grandson who is 3 years of age, Kayden Thomas. And some of you know that when I started out, I started out with seven sisters, my momma, my daddy, when I started this journey. I now have one sister left, Theresa Johnson, from Virginia, who has traveled to be with us here this day. And we have with us my great niece, who is working on her master's in health care, and that is Kadeah Burhannon.

To my friends in the back and also family: Annette Jennings; Jeanne Porter Arp; Lillian Hentz – and as I call out your name, please stand up – Maria Beamer; Marc Weinstein; Patricia

Russell; Rev. Mary and Samuel Moore; Rev. Willie R. Graves; Rosa Woods; Steve Pina; Lillian Thornton, Esq., who traveled from Louisiana – she is an attorney in the State of Louisiana but was trained in Pennsylvania – Stephen Zhu; Linda Fields; and Malcolm Kenyatta.

And when I tell you that you could not have a better, a better group of friends, because I remember 30 years ago, one of our past Speakers, Jim Manderino, came to Philadelphia to join in a tribute to the late Alphonso Deal. Some of you remember State Representative Alphonso Deal, and the Speaker, Manderino, the service was in my district, and I guess before the service was over there were some people back there who decided that I was to succeed Alphonso Deal for State Representative, and I will tell you, they went to work and did not let up and have not let up to give me the support that I have needed to be here this morning, and so I thank each and every one of you.

And then for my staff. I cannot say enough about Jeanne Porter Arp. Jeanne, are you in the back? Jeanne retired from our office here in Harrisburg, and I have never heard anybody – Representative or non-Representative – that has had a bad word to say about Jeanne Porter Arp. A very beautiful person. And Beth Beachy. Where is Beth? Beth started out as my research analyst for the Commerce Committee and then went on to become the executive director of the Commerce Committee. And I can say to each and every one of you, if you are looking for some quality staff – somebody who if I had to give Beth Beachy another name, I would call her, "making it happen," because she will put the hours in, day and night, weekends, to make sure that she gets the work done – and so for those of you who are looking for some good people, Beth Beachy is a stellar employee. Beth, Thank you. Thank you.

I have a district office staff to complement what goes on here, and on Thursday evening I will be receiving a tribute in Philadelphia and my district office staff will be there. And I do want to mention, especially to my Masonic brothers here in the House, we have with us the Past Most Worshipful Grand Master of the Commonwealth of Pennsylvania, the Honorable Leonard Heard. He is not only the Past Grand Master, but also Illustrious Potentate of Pyramid Temple No. 1, the shrine. And probably the thing that people talk about most when they mention the name Leonard Heard, and that is the fact that is he probably one of the, used to be one of the best principals in the Philadelphia school system, because he was a principal at Martin Luther King and later at William Penn High School, and he still has young people calling him. He is retired now, but they are still calling him for support and for direction because he was a stellar principal. And so, Dr. Heard, thank you for being here this morning. Pat Russell, Steve Pina, Lillian Hentz, Maria Beamer, thank you.

Ladies and gentlemen, I am here this morning not because I want to be here. I am here because my health has reached a point where I have to be here. I have always made a commitment to the people in my district in the city of Philadelphia, and that is that under no circumstances will Curt Thomas fake it to make it. If I cannot give you all of what I have, then I am not going to continue on it. And so I am here this morning because it is time to step off, and as I look back and I think about these 30 years, I have had an opportunity to serve under 6 Governors, 9 Speakers, 2,788 session days over the last 30 years, and you could not have a better experience. And I guess the two people that kind of stand out for me and helped me – along with all of you – one was Speaker K. Leroy Irvis, and Speaker Matt Ryan. And I use that

paradigm because Speaker Irvis is known for his legislative victories. The number of bills, over 30 bills carry his name, but there are very few bills that carry the name of Speaker Matt Ryan. But there was never during Speaker Ryan's tenure, there was never a difficult issue that involved either the House, parties, or the Senate that Matt Ryan could not put you in a room and get it worked out. So it could not happen without his leadership and his fingerprints, and so to that end, you have to appreciate them along with all of the other Speakers and Governors.

And I know that you come here, the job says that you are a lawmaker and that you are going to transform or change things through legislation. Well, legislation is not the only vehicle for bringing about transformative change. There are regulatory changes and there are also agreements. It was by agreements that I was able to turn community corrections centers into centers where residents had to put in X amount of hours in their community, that you could not live in a community without contributing to the well-being of that community. Community corrections centers are no longer community corrections centers; they are community education centers and have created an environment where folks can get a myriad of support.

Regulatorily, I remember Secretary Snyder and Secretary John White, Jr., it was through them that Representative Babette Josephs and myself decentralized the subsidized child-care program in Philadelphia County, and moved from a single agency to community-based management operations, and thankfully in my district, Parent Child Center is the last of the community-based management operations for subsidized child care. All other management is handled by CCIS (Child Care Information Services). But it was through that regulatory change, and it resulted in over 300 jobs and more than a million dollars in revenue to that community and to that organization. We did not need to pass a bill to get it done.

Legislatively, I am proud of what happened with all of us with the Pennsylvania check cashing licensing law. The law itself was important, but what became transformative was that last line of the check cashing licensing law which says that it is illegal to use State-chartered banks to do payday lending in the Commonwealth of Pennsylvania. Nowhere along the northeastern corridor do you have that prohibition, and it has proven to be a real blessing for people in the Commonwealth of Pennsylvania.

The Philadelphia housing trust fund. We kept talking about getting housing dollars in the Commonwealth of Pennsylvania and especially in Philadelphia County. Well, it was Bebko-Jones and Representative John Taylor that we finally were able to get the Philadelphia housing trust fund to the Governor's desk. Last year Philadelphia generated over \$30 million dollars for new housing development, renovated housing, and housing assistance for folks that were facing foreclosure and folks who needed emergency help. And it was kind of strange why Philadelphia had not been a part of the housing trust fund, but because of that foundation, because of the foundation that you laid, we now have a statewide housing trust fund which is working every day to improve the housing conditions of seniors throughout Pennsylvania – not just in Philadelphia, but throughout the Commonwealth of Pennsylvania.

And so I can go on and on. I can talk about my time with Speaker Bobby O'Donnell, and we came up with the drug nuisance abatement law, which is probably one of the most provocative, pervasive nuisance abatement tools that is available

in the Commonwealth of Pennsylvania, because we took the emphasis off of the dealer and put it on the person who owned the house and put some responsibility on them for what was going on at the house. So we can do that and talk about it.

But let me just kind of leave you with a couple things. Number one, it is through you that I have been able to learn about that thing called courage. I knew it when I came in. I came in running my mouth, jumping up and down, and thankfully, the person who will be succeeding me will not be coming in here jumping up and down, but coming in here to work more cooperatively with each of you. But on the question of courage, courage is what it takes to stand up and speak. Courage is also what it takes to sit down and listen, and that is how I have matured. These last 2-plus years, I have not sought the need to jump up and down on every issue, and I have learned that it is sometimes necessary to just sit back and listen and through the listening be able to take some positive steps. So I thank you for that.

And I leave you with this last message from one of our greatest leaders: capitalism does not work, does not permit an even flow of economic resources. With this system, a small privileged few are rich beyond conscience and almost all of us are doomed to be poor at some level. That is the way the system works. And since we know that the system will not change the rules, we are going to have to change the system. And so in other words, the change that we desire is change that we must bring about ourselves. Whether you come from Erie or come from Philadelphia, we can make Pennsylvania and make this legislative body the last best hope of opportunities for people in Pennsylvania than any other place in the United States of America. This body has the capacity to do that.

And so in closing, let me thank you, each and every one of you. I love you. If I had an opportunity to do something else these last 30 years, it would not have been something other than this. This is what I have enjoyed. Even when the days were ups and downs, I knew, I knew that there was love, support, and regardless of where you come from in Pennsylvania, that you were passionate about the people you were representing and were committed to wanting to do what was best for the people that you represent.

And so, ladies and gentlemen, and to staff and to my family and to my friends, I love you. Thank you, and God bless.

### REMARKS BY SPEAKER

The SPEAKER. Chairman Thomas over the years has provided me, I thought, with well-thought-out advice in terms of both the role as majority leader and the role of Speaker, and was kind enough at that beginning of this session, as we came into the first day of the session, to suggest and ask to give one of my nominating speeches to be Speaker, and I have never been so honored that somebody would actually make a call and approach me, and I was very, very honored.

Representative Thomas, you are going to be very much missed here. You provided insight on many pieces of legislation that other folks might not have actually thought about, and always worried about the impact as to how it affected each and every individual in the Commonwealth of Pennsylvania. Thank you very much for your service to the Commonwealth of Pennsylvania and to your particular district in Philadelphia. May God bless you and your family.

It is so great of Kareem Thomas to be here. Many of us know Kareem and his grandson, Curtis Thomas' grandson, Kayden. And to think that Theresa traveled all the way from Virginia. We are very, very appreciative. Thank you so much, honored to have you.

(Commemorative gavel was presented.)

### GUESTS INTRODUCED

The SPEAKER. In the rear of the House, we have constituents from Representative Eric Nelson's district, I believe from Westmoreland County – please raise your hands – and they are here to tour the Capitol today. Thank you so much for joining us and traveling all that distance. I would just offer to the Sergeants at Arms, if the group wants to exit at this time – you can stay, but we do have two more farewell remarks. If you need to conduct more of the tour, it is probably a good time to be able to just move off the House floor. I would just defer to the Sergeants at Arms and to Representative Nelson.

I would ask all members to please come to the House floor. To the Sergeants at Arms, will you make sure that all the members in the anterooms are, please, coming onto the House floor. We are going to be moving to other farewell remarks. If any of the guests at this time want to exit, this would be a good time because we are going to be closing the doors of the House.

### ANNOUNCEMENT BY MR. THOMAS

The SPEAKER. Representative Thomas, on unanimous consent.

Mr. THOMAS. Thank you, Mr. Speaker.

Just very quickly, I want to acknowledge chairmen from the general chamber of commerce, Montoursville, Pennsylvania. They came down to join us and I want to just give them a good round of applause.

The SPEAKER. Oh yes, thank you.

Mr. THOMAS. And we have Marc Weinstein, who used to work with the House and went on and completed his legal education in Pittsburgh and is now a very successful lawyer in Pennsylvania. Marc Weinstein. And last but not least, Charles Rainey. Is Charles Rainey still back there? Charles Rainey is one of Pennsylvania's finest administrative law judges. I have to tell him to stop telling people, he tells people that I taught constitutional law to him in law school, but we were in law school together. But you have one of the stellar administrative law judges in Pennsylvania in Judge Charles Rainey, and so I want to acknowledge his presence today.

Thank you, Mr. Speaker.

The SPEAKER. Thank you.

Members, we do need to proceed to additional farewell remarks, and I am going to ask all guests if you could step off at this time. Thank you very much. All members, please report to the House floor.

The majority leader's group of guests, there are a few more seats down here to my left of the rostrum if you want to just come down. Thank you. I appreciate all the guests at this time stepping off. All members should please report to the House floor, and we are going to close the doors of the House. Is Mr. Brysiak back there? Todd, come on up. Pam, come on. I am calling you down.

### FAREWELL ADDRESS BY MR. REED

The SPEAKER. Members, it is with real sadness in some respects and joy in other respects that I get to call the next individual up to speak to this august body. It is hard to believe this young man – I am not even sure if he is 40 years of age. He may be; he may have hit it – has been our majority leader for the past 4 years and has done just an outstanding job in leading the Commonwealth forward on so many fronts. Yes, he is leaving at this time, but of course, you are going to be hearing a lot more from our good friend, the majority leader, Dave Reed, from Indiana County.

He is serving his eighth term representing the 62d Legislative District in Indiana County. And Dave was first elected to be the majority leader in '15-'16 and then again here for '17-'18. He began his service in leadership in November of 2010 as the chairman of the House Majority Policy Committee, where much of the legislation that has been at the forefront over the last two sessions first found their genesis.

In 2016 Dave was among 24 of the country's rising political stars selected for the Aspen Institute's Rodel Fellowships in Public Leadership program – quite an honor. As you know, he hails from Homer-Center High School and went on and got a bachelor's degree in the Robert E. Cook Honors College at Indiana University of Pennsylvania, and then went on to receive his master's degree in governmental administration from the University of Pennsylvania. He served as an intern for Gov. Tom Ridge in the Policy Office for Community and Economic Development. Dave has been nothing short of outstanding in taking charge, getting people together, forging direction, and getting legislation accomplished. To think that he became majority leader by the age of 36. That does not just happen: that takes talent, that takes perseverance, that takes a vision, that takes dedication, and that takes a lot of work, and he did it while raising a beautiful family. His wife, Heather; their son, Joshua; and their two daughters, Gracie and Ellie, live in White Township in Indiana County.

And I am so honored at this time to bring up the majority leader, Representative Dave Reed.

Mr. REED. Thank you very much, Mr. Speaker, Leader Dermody and your Democratic leadership team, majority whip Cutler and our Republican leadership team. To all the members of this body, Republican and Democrat, and especially to the people of 62d Legislative District in Indiana County, I just want to say thank you. Thank you for allowing me to serve you. Thank you for allowing me to lead you.

I came to this building for the first time as an eighth grader at Homer-Center Junior High School on our class trip, and I do not remember a ton about that trip, but I remember just being in awe of the beauty and the majestic nature of this building. And I remember seeing for the first time the plaque that, when you walk into the Capitol Rotunda, marks where Teddy Roosevelt stood when he dedicated this building in October of 1906. Many of you know that is still my favorite place in the Capitol today. But I remember just thinking of the history and all the people that had served in this building over the years and how such a wonderful testament it was to our great Republic.

I would come back a number of years later, as a junior at IUP and an intern for the Ridge administration, and I would take the bus each day 3 miles down Third Street to the bottom of the

Capitol steps, walk out of the bus and up those steps, and would always pause and take note of the flag flying above the rotunda and Lady Commonwealth looking down upon the city. It is something I still do every morning when I walk into this building. And then I would come back a couple years later after beginning my first campaign at the age of 22, knocking on 11,000 doors, defeating a 12-year incumbent in a district that was only 37 percent Republican. I would come into the hall of this house for the first time as a 24-year-old kid – as a legislator well before I was prepared to be a legislator.

There are so many folks who have given me such a grand opportunity, an opportunity of a lifetime to participate in our democratic process, to debate the policy issues of our times, and to meet so many fascinating and wonderful individuals.

As I look back to the journey and the opportunities I have been given, they all start with my parents. My mother, Connie, and my father, Don, could not be here today, but they set the path for my sister and me very early in life. They are a testament to what the pursuit of the American dream looks like. Every time they got knocked down, they got back up. They raised my sister and me right, to believe that with hard work and if you actually do play by the rules, you respect one another, have a little bit of common sense, and do not expect anything to be given to you, that dream can be yours. They worked hard and sent my sister and me to be the first in our family to go to college.

To my staff – and I am going to name them all. I would just appreciate it if they would wait until the end and we can recognize them at the end – but we all know that we put our names on a ballot, but it is they that make us the elected official. They serve our communities just as much, if not more, than we do. I have had a tremendous staff both here in Harrisburg and back in the district. From Taylor Stehle, who is that bright, shining, optimistic face you see when you walk into the majority leader's office. To Cheryl Griffith, who may be one of the most kind and caring individuals, who I think she believes I may be her other son that she must take care of every day. To Steve Miskin, my communications director, and Steve served our caucus as communications director before me and probably will do so after me. But the unique part about Steve is that he does not just look for talking points and sound bites; he actually cares about the policy behind them. You just do not find that in PR folks in today's worlds. To Marcia Lampman. Marcia, most folks know Marcia in one form or another and they know she is tough as nails – she is a bulldog – but she is the most loyal person I have ever met. To Matt Hilliard. Matt is an attorney on my staff in the majority leader's office, but I have known Matt since I was in elementary school. We grew up together in Homer City, went to Homer City United Methodist Church together. He was the first intern on my first campaign when he was a senior at Homer-Center High School. He came back to intern in the legislative offices while attending Washington and Jefferson, and then the University of Pittsburgh Law School, and came to work for me when I was Policy chairman. I have never met a brighter, more meticulous individual than Matt Hilliard. To Tony Aliano. Tony and I first met when I first came to this Capitol as a 24-year-old legislator and he was chief of staff to then majority whip Sam Smith, and both Sam and Tony always looked out for me all of these years. They would always try to steer me in the right direction, pull me back when I had gone just a bit too far, and try to make sure my life – professionally and personally – was headed in the right direction. And I think if it is one thing most of us in this Capitol can agree upon – Republican, Democrat,

House, Senate, the whole way up to the Governor's Office – Tony is the one person in this building that knows how to get things done. He makes the possible possible, even when we thought it was impossible.

To my district staff: Jen Varrato has been with me from the very beginning. In fact, she came over from former Representative Jeff Coleman's staff. She has been the one in the district to always make sure that my priorities were right, that I was focused on God, family, and then work, and that my family was doing just as well as I was doing professionally. To Shannon Lawer. Shannon has been with us for a number of years, and Shannon is best described as the funny one, the scrappy one, the one who works her tail off, and the one who just makes the office a pleasure to come to every single morning. And Adriene Smochek, who could not be with us today – somebody had to actually man the district offices – but Adriene has been in charge of all my event scheduling and making sure everybody is in the right place at the right time, while raising two young children of her own. And Jonathan Longwill. Jon has been my chief of staff, my district director, my policy adviser for 14 years. I was 26 when I hired Jon and he was 25. Jon has been the one who has served Indiana County just as much as I have, and over the years, folks have realized they do not always need to talk to me. Talking to Jon is just as good as talking to me. Jon, you have done a tremendous job. I am proud to see how you have grown professionally, and even more proud to call you my friend.

I also have several former staffers with me today, because, as I am told, there is life outside this building. Jesica Blair, who still work works in the House, served with me in the majority leader's office, and Todd Brysiak, who was my executive director of the Policy Committee and then chief of staff as majority leader. I do not think I have ever met anybody who works as hard as Todd, and as anybody could tell you, chief of staff to the majority leader is not the easiest job, but to see him do it while going home every night and helping his young daughter fight childhood cancer was an amazing testament to his strength and fortitude.

And finally, from a staff perspective, Pam Albert. Pam has been my gatekeeper. She has been my secretary for 14 years in Harrisburg. She has been my protector. She has always looked out for me, and sometimes nobody else. Many of you know Pam's struggles over the years, losing two young sons well before their time to childhood disease. I have never seen a more courageous, faith-based woman in my life than Pam Albert. Every time she could have gotten knocked down, she got back up, and she continues to lead her life, in spite of her family's tragedy, to try to ensure that other families do not experience that same tragedy. She is the reason I believe, or came to believe that we should legalize medical marijuana in this State. You all made it happen.

And my family. A lot of folks enter this sort of profession and your family is thrown for a tailspin because your life changes dramatically. This is all my family has ever known. I met my wife, Heather, after I was already in this position. Our three children were born into a life in the public view. As I exit this building, it will not just be a change in profession, but it will be change in life for the five of us. My wife has been an amazing partner in every aspect of the word, professionally and personally. She makes me better every day. And for those of you who know her, you can attest: she is the extrovert; I am the introvert in the family. She works full-time, raises three children, keeps me focused, volunteers to coach our kids' swim team and softball teams, and serves a number of community organizations. She is our very own Wonder Woman.

And our three children. Joshua. I still remember when Joshua was born just over 10 years ago and I came to this floor of the House the week after, and I remember walking down the middle aisle to my seat and realizing just how big the magnitude of the decisions we were making were, because up until that point in my life, I knew they would affect me, myself, and I in our lifetime, but once I held him in my arms for the very first time, I knew we were making decisions for his lifetime as well. Buddy, it has been amazing to watch you grow into such a strong, kind, bright, athletic young man. Your mom and I could not be prouder of you.

Our middle daughter, Gracie. Gracie is always the smiling face and the blonde, curly, beautiful hair. She is one of the most kind and caring young ladies I have ever met. She is also the fiercest competitor in the family. She will smile at you right until you walk between the lines, and once the competition starts, she is going to seek to destroy you. Gracie is also the reason I have chosen to go in the direction that I am going to go in the next chapter of my life. I came to the Capitol I think the third week of June, and found on my desk a handwritten letter that had been mailed to me from her. It simply said, "Dear Dad, I miss you very much. I love you. I hope to see you soon. Love, Grace." At that point, I knew whatever I did next, I needed to be able to tuck them into bed at night more often and wake up with them in the morning every day, and I think you will see that reflected when it is announced tomorrow what I am going to do next. They are going to be my next priority.

And then finally, Ellie. Elliana Jane is our youngest, tiniest, beautiful little girl. She is also one of the toughest children I think I have ever met. She is so full of personality and spunk. She makes you want to laugh and cry and hug her and run the other way all at the same time. But she completes our family and she fills our hearts every day.

You know, the last year, the last year has been a bit of a roller coaster ride for our family. I woke up on January 1 running for reelection to the House of Representatives. On January 2 Congressman Shuster announced his retirement. A couple weeks later I would enter the race for Congress. By mid-March I was exiting politics completely. Now, I had a little bit of help from the United States Supreme Court, but from the very day I entered this body to the very day I exit, I firmly believe in my heart of hearts, as much as we want to dictate the life and the path before each of us, it is not ours to dictate. There is a plan; it is not ours, but the Lord above holds that plan for us, and I am so thankful for the path He has given our family.

Now, when you know you are about to leave this body, particularly when you have 6 months to think about it and you are about to leave on your own terms, you have plenty of time for reflection, and I have had plenty from a personal, from a professional, and a political perspective, and a lot of people like to ask me questions. One of the top questions has been what do I think of today's political climate, what do I think of that climate and where do I think our political environment is going next? Look, I do not think it is any mystery that a person like myself, who tends to be more pragmatic than ideological, I am perhaps not of the right mindset to be a partisan legislative leader during these very partisan, political times, because you see, I think today's political environment is very, very personal. I think it is very, very negative. I think it is very, very aggressive. And as personal as it is, I do not think it is very personable. I do not think folks take enough time to get to know each other individually. As the saying goes, far too often in politics today we choose to judge

a book by its cover, and always fail to read its contents. I think if folks spent more time learning about the individual and less time fighting over differences, we would actually find that there is more that unites us than actually divides us.

And I also do not think it has to be that way. Folks, particularly on the cable news networks, are prone to say, look, these are the leaders we have chosen. The voters have made the decision. They get the government, the elected officials, and the political environment they choose and they deserve. I do not believe it and I do not think you should either. You see, I think that is a backwards way of looking at leadership. It is actually incumbent upon each of us, whether being in a formal elected position, a community, a business leader, a Little League coach, a dance instructor, a teacher, young and old, it is incumbent upon each of us to set the example, to set the standard of conduct. It is through our tactics, it is through our actions, it is through our leadership, or lack thereof, that the tone of our political environment will be set. That political environment should be reflective of our leadership; our leadership should not be reflective of the political environment. You see, it is actually okay; it is okay to disagree. It is okay to have different views on an issue. It is okay to still appreciate another's perspective, that you do not agree with it, and actually still like that person. Folks do not have to demonize one another to make their points on policy.

One of the other questions I am often asked is, what do I believe, after 16 years in this body, what is the accomplishment I am most proud of? How do I wish to be remembered? Now, it is an odd question to be asked when you are 40 years old, how you wish to be remembered, but it is food for thought. And as I think through that question, the first thing that dawns upon me – and you know, I think a couple of you will understand this more than others – when you exit this body in one of the upper-echelon positions, you do not get to get judged on your entire tenure here; you really are only judged on your time with the ball in your hands. So it is really 16 years condensed into 4. And as I think back to my time and what I am most proud of, we have accomplished a lot – sometimes in spite of ourselves. But if you look at the last 4 years, a lot of things have actually happened – a Republican House, Republican Senate, a Democratic Governor. If you look at the actual policies that were implemented, I think it is fair to say that the last 4 years have been the most aggressive 4 years in the last quarter century. Unfortunately, a lot of it is overshadowed by the petty bickering and divisiveness of the national political environment, but you should each know, you helped make those things happen.

And of course, there are things I am very proud of back home: just in the last 6 months, luring Urban Outfitters and a 900,000-square-foot facility to our community, the single biggest economic development project in over five decades to hit Indiana County; finally rehabilitating Yellow Creek State Park; and acquiring the funding to rebuild the domestic violence shelter at the Alice Paul House.

But really what I am most proud of, and how I wish to be remembered, is how I conducted myself in this job. I always tried to remain true to the people who sent me here, whether they voted for me or not, because we are actually entrusted to represent 64,000 people, not just 50 percent plus 1 that actually voted for us. I held over 100 town hall meetings, knocked on doors in election years and nonelection years alike, and more than anything else, I always sought to conduct myself – whether it be as a 24-year-old rank-and-file member or a 40-year-old majority

leader – with honesty and integrity, and if I gave you my word, I would do everything in my power to see it through to the end, whether it was painful for me or not.

I truly believe that each of us approaches this job with good intentions. I do not think there is a bad person in this place who comes to Harrisburg that does not seek to represent their 64,000 people. It just so happens it is a pretty diverse State. Your 64,000 people are different than my 64,000 people. We have different perspectives, different priorities, but I think each of you, like me, wake up each and every morning and you are bound and determined to do the right thing for the right reasons, to the benefit of this entire State. Now, that does not mean the stars always align. It also does not mean that I am right and you are wrong, or you are right and I am wrong. More often, what it actually means is we just have different perspectives on a set of goals that we all actually share at the end of the day.

You know, we each entered the political arena wanting to live out our Founders' vision for this country, for this Republic, and it is an amazing vision that came to light a couple hundred years ago a couple hundred miles from here. You know, the Founders of this country wanted a nation, wanted a government, wanted our citizens to have the very basic freedom to stand and scream at the top of their lungs that of which they believe, to fight for their policies to their dying breath – something a lot of people take advantage of in today's world. But I think all too often we forget, our nation forgets those same Founders had a second component to that vision. You see, when they were done yelling and screaming, when they got off their soapboxes, when they were done fighting and debating, they actually sat around a table, put some differences aside – compromised – and they formed a country. And when you think about it, if they can fight the British, fight each other, and then form a nation, it sure seems there is a lot of hope that if our elected leaders take from that example and do the same, a lot of the issues that folks have talked about for years can actually find solutions. You see, compromise is not actually a bad thing; in fact, it is the only way to move a State like Pennsylvania forward – by working together for the betterment of all.

When I first started my tenure as majority leader in January of 2015, I started with a quote from Jimmy Stewart. Jimmy Stewart was born and raised in Indiana County and is probably most famous for his role as George Bailey in "It's a Wonderful Life." But I took a quote from Senator Jefferson Smith in "Mr. Smith Goes to Washington," and that quote on that day was, "I wouldn't give you two cents for all your fancy rules if, behind them, they didn't have a little bit of plain, ordinary, everyday kindness and a little looking out for the other fella, too." Well, as I am about to end my tenure as your majority leader, I want to borrow another quote from the same movie, and it is a discussion between Senator Smith and Senator Paine. Senator Paine was the senior Senator from their State. Senator Paine had come to Washington, DC, as a young, idealistic Senator, only to be corrupted by the city and the political machine. But they had a conversation about lost causes, and in that conversation, Jefferson Smith said to Senator Paine, "I guess this is just another lost cause, Mr. Paine. All you people don't know about lost causes. Mr. Paine does. He said once they were the only causes worth fighting for. And he fought for them once, for the only reason any man ever fights for..." lost causes, "because of just one plain simple rule: Love thy neighbor. And in this world today of great hatred, a man who knows that one rule has a great trust" from all.

Lord knows during my time in this body I have fought for my share of lost causes; some have even been successful. Others are going to be left to you all to pursue. But as the pages turn from one chapter in my life to the next, I just want to encourage each of you: seek out and find your own lost cause. Give your time here purpose. Accept the challenge of pursuing something greater than yourself to the very, very end of your tenure. Be worthy of that distinction you now hold in the history books of this Commonwealth, and as you do so, live every day with the kindness of George Bailey in your heart, and the courage of Senator Jefferson Smith in your soul.

Good luck, and may God bless each and every one of you, your families, our great State, and this wonderful nation of ours. Thank you.

The SPEAKER. Majority Leader Reed, thank you for your leadership to the Commonwealth of Pennsylvania. We are so appreciative. We have another day to go – and maybe a few more – but I must say, as a great friend, Dave has just been remarkable in his ability to move legislation forward with a vision and to bring people together, sometimes having to be tough, sometimes having to use the carrot, but always moving forward. Pennsylvania is so much better off for having you serve here in the House for the past 16 years – for all 16 years, by the way – but certainly with respect to the 4 years as majority leader. You will be greatly missed.

Stay in touch, my good friend, and to you and your family, God bless on the next journey – there are going to be a lot more journeys – but God bless to you, Heather, and the children.

Thanks very much, Dave.

(Commemorative gavel was presented.)

## GUESTS INTRODUCED

The SPEAKER. In the rear of the House, Representative Paul Costa brings a group of students and teachers from the Western Pennsylvania School for the Deaf, and if they could please stand and we all could just wave and give them our round of applause this way, that would be great. Thank you so much for joining us. Thank you so much for being here today.

We are going to be at ease here for 5 minutes and then we are going to go into farewell remarks for Representative Marguerite Quinn. We are going to be at ease for 5 minutes to just give people a chance to take a slight break, and then we are going to begin in 5 minutes with farewell remarks from Representative Marguerite Quinn.

The House will come to order.

## REMARKS SUBMITTED FOR THE RECORD

The SPEAKER. Representative Mackenzie, go ahead. Mr. MACKENZIE. Thank you, Mr. Speaker.

I would just like to submit some remarks for the record on a resolution about International Central Service Week.

The SPEAKER. Thank you, Representative Mackenzie.

Mr. MACKENZIE submitted the following remarks for the Legislative Journal:

Thank you, Mr. Speaker.

Today I am calling on my colleagues to vote in favor of HR 1118, which designates October 14 through 20, 2018, as "International Central Service Week."

International Central Service Week is celebrated annually in October to recognize the technicians that demonstrate an ongoing diligence to meet the growing needs of the medical community. The central service department at a health-care facility is responsible for cleaning, assembling, sterilizing, storing, and distributing the medical devices and supplies needed for patient care. Central service technicians ensure medical staff in operating rooms, ICUs (intensive care units), endoscopy suites, birth centers, and other patient care areas receive sterile surgical instruments, supplies, and equipment integral in providing the best possible patient care. Cleanliness is critical at all health-care facilities across our State and central service technicians' commitment to maintaining high standards of sanitation is crucial in keeping Pennsylvanians safe.

Please vote "yes" on HR 1118 to designate October 14 through 20, 2018, as "International Central Service Week" in Pennsylvania to recognize the important role central service departments play in providing the best care to all Pennsylvanians.

Thank you, Mr. Speaker.

The SPEAKER. At this time I am going to ask all members to please take their seats. Members, please come onto the House floor and take your seats. The Sergeants at Arms will close the doors of the House. Thank you.

### FAREWELL ADDRESS BY MS. QUINN

The SPEAKER. Representative Marguerite Quinn was elected in 2006 to represent the people of the 143d Legislative District. She is presently a candidate for the State Senate – Marguerite, what district?

Ms. QUINN. Tenth.

The SPEAKER. The 10th State Senate District, and as you know, Marguerite serves as vice chairman of the Insurance Committee and is a member of the House Appropriations, Professional Licensure, and Transportation Committees. She also serves as the chair of the Subcommittee on Public Transportation, coming from the suburbs of the city of Philadelphia. She has represented the Republican Caucus on the advisory board for the Children's Health Insurance Program, better known as CHIP, founding chair of the Multiple Sclerosis Caucus, and chair of the Delaware Canal Caucus. She spent time as a volunteer teacher and a marketing professional, earned a real estate license – a small businesswoman – and enjoyed a career as a realtor until she was sworn into office here. She is a graduate of Archbishop Wood High School and of St. Joseph's University.

Marguerite has made, really, her friends and family proud – her husband, John, the proud mother of two daughters, Maggie and Carolyn, and three stepchildren, and now a granddaughter. She balances so much and always does it with such grace and with such class.

Representative Marguerite Quinn.

Ms. QUINN. Thank you, Mr. Speaker.

You have got a pretty good view up here, huh? No wonder you are sticking around.

Mr. Speaker, I appreciate your kind words of introduction. I look over to the majority leader and the leadership team, the Democratic leadership team, and I appreciate your indulgence of having me here. I brought with me something that I keep on my desk. I do not know how many of you have one of these – well, you get the point. But over the years that I have had this, and I would like to think that, like me, you get many questions now and then, "Do you just have a minute?" I am able to tell them, "I'm going to give you 3 minutes and then you're done." I suggest that you will save very many minutes in your tenure here in the House to be able to get something like this and be very generous – give them triple the time they want – and save you some time.

The Speaker is right, I came in here on January 2, I was sworn in on January 2, 2007. It was an historic day here. Lots of crazy stuff happening right where I stand. It happened to be the day that it was my 18th wedding anniversary. I realized, as I was swearing to the Constitution, that I have already sworn my love to my husband, and it was all appropriate. It is always going to be a special day for me.

I came into this body not with a long, strategic path to get here, as some of you have. I came into this body because a couple of months before, I had received a phone call from my brother saying, "Do you know Chuck is running for Conti's seat?" and I really did not care, and he said, "You'd be great at this." And but for a snowstorm that canceled the dance and show practice that I was in for that night, but for the constant urging of my brother believing in me, I would have blown off going to that meeting, because when he asked me to run, I had to screen that night. And when he finally got me to do it, he said, "You know, you could get out of this tomorrow, but you can't get back into it tomorrow." I made the decision to run not really knowing what this job was all about; not really knowing about the honor and the privilege and the work and the frustration, but ultimately, the great sense of satisfaction that this job brings in being able to serve with so many fine people and those who sat in your seats prior to you, but to serve the people of Pennsylvania, specifically to serve the wonderful people in the 143d Legislative District. Those people who come from 11 different municipalities, 2 of which are cute boroughs, a number of river towns, Philadelphia suburbs that get serviced by SEPTA (Southeastern Pennsylvania Transportation Authority), if they are up for the hour-and-a-half train ride into the city – good, hardworking people who sent me here by a very slim margin 12 years ago to be their voice. I swore to them in the beginning, and I leave this body right here keeping my promises to them of hard work and integrity.

My first 4 years I served in the minority here. At the beginning, that did not mean too much to me other than those four God-awful flights of stairs, but I realized the big difference – and that big difference helped to shape me as a legislator – that big difference of being made to feel irrelevant, when darn it all, I have got the same 64,000 constituents as anyone else does. Let me get that voice out. And it made me realize just how important it is to work across the aisle. I will never forget when I got all my guts up to go tell then minority leader Sam Smith, "I just can't be with you on this vote, Sam," and he looked at me in true Sam fashion and he answered, "So what? Even if you stayed with us, we'd lose. We're in the minority." I was like, "Oh, yeah." Well, he was right.

And I will never forget when Tony DeLuca, the majority chairman of the Insurance Committee, actually came to my district with Eddie Day Pashinski to have a hearing; a freshman

in the minority having a hearing. I was too naive to realize that that just does not typically happen. And I appreciated it then, and I have learned from that and I have learned being the last 8 years in the majority that it is in fact important to work across the aisle, not just with our colleagues, but with the Democrat staff and leadership, as we try to work for bills that are good for the majority of the people we serve. It has been a privilege.

We have heard a lot of people standing here talking about how important it is to work across the aisles. During my 12 years we have had some census data that has shown that while the population of Pennsylvania, the numbers have shifted from the west to the east— picking up House and Senate seats more in the eastern side of the State – we have seen our leadership in both chambers switch from the east more towards the west. The majority, minority, leadership positions, all of that, those things are going to be going back and forth, we know it. History shows it. But what I think is as important as working across the aisle in a bipartisan fashion is working across the Commonwealth in different regional factions. I have had the privilege of having my best friends here being not just from my backyard in Bucks County – I have had wonderful support from my Bucks County colleagues – but getting to know, for example, Donna Oberlander, in the 10 years that we have shared living space together. It has been wonderful. Yeah, we cancel each other's votes out sometimes; yeah, we do not try and take that home. But what is important is when we talk about where I come from and where she comes from, we realize that we are doing what we were sent here to do: to represent the people of either the 63d or the 143d, and we have good conversations, just like Majority Leader Reed was just saying.

I think it is really important that we make sure, and I challenge you as you come back next session, that you find someone in different parts of the State, be it in your caucus or the other caucus, and you try to get to know what goes on there, just so that, as sometimes our regional divides seem deep, you know that you are having conversations, and whether you agree or disagree or you are going to cancel out the vote, you know where they are coming from, because we are all coming here with the right reason in our hearts to do what is right for the people of Pennsylvania.

I mentioned my husband, John. John, our 18th wedding anniversary, we were all here. My kids at that point were in 6th and 9th grades. It was pointed out to me yesterday by Carolyn that she has basically spent half of her life with this as her life. And for all of you, you know what this life is. It is like saying, "I'm gonna be home real soon," and you are not. You know, we now take two cars to church, because they know I am going to be stopped to talk. Nobody wants to food shop with me, because just tack another 40 minutes onto that. My family has been with me and patient. They have taught me, and even most recently gave me a special message that when you stand up to do what is right, it is right, even if you feel you are standing alone. Girls, I am proud of you. My Carolyn, my daughter, Maggie, they both ran for and became presidents of their high schools, respectively. I will never forget when I was first elected, and you know, was given some stuff, including my name stamp, and when I needed it, it was gone. Well, Carolyn thought, in 6th grade, that that is what she got when you have a mom who is in Harrisburg for her test. That name stamp was made just for you – remember that, Car? I still have not gotten that back. The girls have been, from the time they were working the polls with the bright signs of

"Vote for My Mom" to the level of maturity that they have come in and they actually help me now with policy, with regard to what I do here, but what I aspire to do in the new year, I thank you. I know this job has not always been easy on all three of you as my family. Thank you for encouraging me, thank you for kicking me out the door, thank you for having dinners at home ready for me, the fridge filled, the laundry done, and all of those things. I love you. You inspire me. I promised them that I would not be calling them out and giving their resumes and all of that. Just know I am really proud of them, and I wish for all of you to have the same relationships as I do with my kids.

We talked about our district staffs and the thank-yous that we want to give there, and our Harrisburg staffs. My district office staff is not here with me today. We run a really lean office with two people and we do a lot of work in there, as you know. People come to that office not because they have nothing to do, but because they need help. Really, have any of you ever called your State Rep's office just to complain? Well, some of you may have. But I have a district office staff that, like your staff, make me look good. When I go door-to-door, I hear about the wonderful things that I have done, and I know that I did not do it alone. I did it with Diane and with Kyra. I did it with Ashley in the beginning. All of these people who helped form this office and helped make the brand of "Marguerite Quinn" a constituent service, friendly, effective, caring brand. I thank you all for that. And I will put M.B., Mary Beth Morey, right in there for being with me all these 12 years.

Our Harrisburg staff, I have heard them called gatekeepers, friends, family, and I could say all of that. The level of professionalism, for caring, the institutional knowledge that I have been fortunate to have with me in Cathy Waddington, who refused, when she retired a year ago, to come out here and have a speech said about her; she refused. But when I had a secretary leave in August to go join another agency, Cathy actually came out of retirement to help me out in these last few months. Cathy is somewhat of a family legacy here. Her mother worked for Speaker Matt Ryan. Her daughter works for Chairman Tina Pickett. This is a family that has been dedicated to making all of us look good, to make the trains run on time. Cathy, I thank you for this.

I would be remiss if I did not say to Jenn Haines sitting next to her – Jenn has never really been my secretary; she is Sheryl Delozier's. But she has always looked out for me. She is my radar and she is not even my secretary. She hears what I am saying and she knows what I like in my coffee. She has just been a wonderful friend, covering all the way. Thank you.

There are so many staff around here that make us look good, that make us smart, that help us take our ideas and make them law. I am looking straight back at Karen Dalton, who just did a yeoman's job. For this tiny, little, petite thing she is, she is a fierce, fierce attorney looking out for the underdog. Helping with that HB 2060, to get that across the line, was no easy task, yet it was only the most recent task that Karen has done with the rest of the Judiciary staff. Chairman Marsico, thank you for lending that expertise and putting your weight behind that bill.

Serving on the Appropriations Committee has been among the high honors that I have had here, and that staff, on both sides of the aisle, is just absolutely fantastic. Thank you all, especially when you had to spoon-feed me some of the numbers again and again until those lights went off. Thank you for allowing me to be the pragmatic legislator and boosting me with good facts.

I look back at my cousin, Michael Corr; it made this last term so special having Mike here with us. You are going to be losing three sets of cousins this year, do you know that? You have got the Costas, you have got the Keller/O'Briens and the Corr/Quinns. Michael, it has been a pleasure having you here with me, and I know you made our grandparents proud. Thank you.

I come from the 143d Legislative District. That happens to be the home to the Moravian Tile Works. All those tiles that I probably curse now on days when I am on high heels, but I do not, because I know they are from my district. They are tiles that come from the clay in Bucks County, the same clay from the Quakertown Swamp that has been producing those tiles for well over 100 years. I do not know if you realize this, but back when Henry Mercer came out to pitch to the architect the idea of having those clay tiles line this Capitol, he had a very interesting sales pitch. As you know, we are lined by marble; white marble is down in that rotunda, beautiful, beautiful quality products, expensive products, products that were actually part of thoughts about corruption and such from when this beautiful building was built. But what was interesting about utilizing the tiles, the Moravian tiles for this Capitol, it was the thought that it is clay, clay representing the common man. It was the clay, the rough textures. They are not smooth, as we know, they are irregular in shape, they are irregular in size. The stark color of red is a contrast to the beauty that we have lining the walls. The mosaics, over 400 of those mosaics represent Pennsylvania, from the Indians, the Native American Indians, through the farming communities, through the progression of Pennsylvania in its different industries of farming, of locomotive, of coal, of oil. It would be interesting to see if we could update some of them. But they are a living, breathing remembrance that we are here and grounded by common clay, representing the people of Pennsylvania and in all of their works of life.

And I look at those and I am reminded of the metaphor, the metaphor that here we have the common clay, this common foundation, worthless, worthless clay that has been such a strong ground for all of us. And as I walk those halls and I look around at the beauty of the walls, and as we keep going up and we look at the gold, the stained glass, the carved crystal, the paintings, most of which were done by European immigrants that were brought in here to decorate this beautiful building, I ask you to share with me that this metaphor is what the people of Pennsylvania actually want when they think of government, that they want us to remember that we are here for the common person, and through government, we aspire to greatness and beauty. I would like you to take that and think of it now and then.

And thank you for allowing me to share it, thank you for allowing me to share laughs, memories, hard work, and the pleasure of being your colleague for the last 12 years. I will see you on the other side.

The SPEAKER. Representative Quinn, may God bless you in your next endeavor.

I know this: I know you will make an outstanding State Senator, and please know that your leadership on such important pieces of legislation – as you said, HB 2060 recently – but also workers' comp reform, on budgetary issues, you do not let go. You make sure that you work with folks and get it over the goal line. You are going to have a lot more opportunity and we are going to be looking forward to working with you on the other side of the Capitol, but please know, we are so appreciative of the tenure that you have had here in the House of Representatives.

I also just want to say to you and your great family: Marguerite, Representative Quinn often talks about her great husband and her two great daughters at Penn State – both at Penn State; is one still there?

Ms. QUINN. They are both out.

The SPEAKER. Both graduates now and out working. God bless each of you. Thank you so much for such wonderful remarks.

(Commemorative gavel was presented.)

The majority having voted in the affirmative, the question was determined in the affirmative and the resolutions were adopted.

The SPEAKER. Members, could you please take your seats. The Sergeants at Arms will close the doors of the House at this time. We have just voted on resolutions and one of those resolutions that we passed was HR 1149, sponsored by Representative Jeff Wheeland, recognizing the positive economic relationship between Taiwan and Pennsylvania.

At this time I would ask everybody to be seated. Representative Wheeland is recognized to come up to the rostrum, to my left, and he is going to be introducing to you the Ambassador and Director General. She will also say a few words to the body here. So I would ask everybody to please be seated. Our other guests from Taiwan are coming up to the front.

**STATEMENT BY MR. WHEELAND**

The SPEAKER. Representative Wheeland, you may proceed, sir.

Mr. WHEELAND. Thank you, Mr. Speaker.

The Commonwealth of Pennsylvania has a long history of friendship with Taiwan. Many Taiwanese people came to America and settled in Philadelphia in the 20th century. They did so to escape their homeland's oppressive one-party rule and martial law. Their story is the same story of millions of other immigrants who settled in Pennsylvania since our founding. They came here in search of freedom to work and to worship how they wished.

In addition to being a refuge for the downtrodden of Taiwan, we are also home to a growing number of Taiwanese companies that create thousands of jobs. In fact, Life Sciences Pennsylvania is now partnering with Taiwan Bio Industry to foster new business opportunities and research collaboration.

Taiwan is the 11th largest trading partner of the United States, with bilateral trade totaling \$68.2 billion in 2017. Our Commonwealth established a trade and investment office in Taiwan in 2005 because of the obvious need to bring the fruits of this investment to Pennsylvania. Taiwan is the Commonwealth of Pennsylvania's seventh largest export market in Asia. The contributions of Taiwanese-Americans and Taiwanese businesses are priceless to us. In order to commemorate the important role of our relationship, I have offered this resolution celebrating the friendship between the Commonwealth of Pennsylvania and Taiwan.

Here today in Harrisburg to be recognized for their service to their country of Taiwan and friendship with Pennsylvania, we have many Taiwanese foreign dignitaries. Please at this time recognize Ambassador Lily Hsu and her colleagues of Taiwan's diplomatic delegation. Ambassador.

Her delegation consists of Director Ronnie Lu, Ronnie; Deputy Consul Haowei Wei; and from my district, Dr. Jason Shu, U.S. Public Health Service Adviser; and Dr. Grace Shu, Chair of Asian American Voters Coalition. Thank you all so much for joining us.

Ambassador.

**AMBASSADOR LILY HSU PRESENTED**

The SPEAKER. Ambassador Hsu, we are so honored for you to address us, and Representative Wheeland, thank you for bringing this distinguished guest to us.

AMBASSADOR HSU. Thank you, Mr. Speaker.

Members of this august body, it is such an honor to say a few words here. I want to thank you, first of all, wholeheartedly, for passing this resolution to show your friendship and your support to my country, the Republic of China and Taiwan.

Taiwan and the United States enjoy a very special, strong, and comprehensive bilateral relationship. This relationship is based on our common values: the values of democracy, freedom of expression, human rights, and rule of law that are so strong and bind our two countries together. We also share a mutual interest. Taiwan has always been the very strong supporter and the partner in the West Pacific of the United States. So today this resolution being passed by this august body means that the people-to-people relationship between our two countries is ever stronger and stronger, and I really want to take this opportunity to express my heartfelt gratitude to you all.

Now, the very special relationship also shows for the past decades that Taiwan enjoyed a bipartisan support, not just on Capitol Hill, but also at a State level. We have strong economic ties that give us the opportunity to have more to support the jobs here. But this is a mutually beneficial economic and trade relationship. We also have a vibrant, a very vibrant community, Taiwanese community, that always serves the community, always gives back to this adopted home, and we work with them, these communities, that they serve as a bridge between our two countries.

Pennsylvania, this Commonwealth, has a very special relationship with Taiwan in the sense that you mention a trade office in Taiwan that works very closely also with my office, that we forged to build up this constructive partnership. We also have thousands of students studying in the State. So that is why I say that the people-to-people relationships that we enjoy really provide a foundation for this kind of deep friendship.

So I really appreciate this opportunity. The resolution means a lot to us, and it has been passed in the past, but for a while, I think this is the first in maybe the last couple of years already.

So thank you very much. I really appreciate this opportunity to say a few words here, and I really hope that through your help that our relationship will grow stronger and stronger. Thank you all.

The SPEAKER. Ambassador, we are well aware that your nation, the Republic of China and Taiwan, is a thriving democracy with a strong market economy and freedoms for its citizens, and we are honored, both as a State and I would say the country, to have such a strong relationship with Taiwan, and for you to take the time with Representative Wheeland to come visit us and speak to us. We are so honored. Thank you very much.

I think we are going to be doing committee and caucus announcements at this time, if I am not mistaken.

The SPEAKER. At this time we are going to call upon – and I know we have a lot of business to do and they will not be long, but I am going to ask everybody to please take their seats. Members, please take your seats.

Resolution 1145 was passed earlier today. It honors the life of a former caucus staff member. I am going to ask you to please take your seats. Yes, we have three members who are going to speak, but they will certainly be timely, although they are honoring the life of a deceased caucus staff member.

Representative Diamond, HR 1145, or Representative Hennessey or Representative Helm.

### LEAVE OF ABSENCE

The SPEAKER. Representative GAINNEY has requested to be placed on leave. Without objection, that will be granted.

### STATEMENT BY MR. HENNESSEY

Mr. HENNESSEY. Thank you, Mr. Speaker.

Ladies and gentlemen, these are somber times in the Pennsylvania House of Representatives. We have heard a number of farewell speeches, but beyond that, today we received the sad news that Representative Sid Kavulich passed away this morning. That news was replicated a couple of days ago with Representative Michael O'Brien passing away over the weekend. Earlier last month we had Representative Flo Fabrizio pass away, and earlier in the spring, I guess, it was Representative Dan McNeill. God bless them all.

And God bless Ray Smith, a member of the Pennsylvania House of Representatives Republican Communications Department, who passed away in early September. Ray was a friend of mine and he was a friend to many of us here in the House. But he was more than just a friend. Ray cast a long shadow in central Pennsylvania, drawing on his days as a news anchor for WGIL and WAAG Radio in Illinois, where he also hosted a daily morning radio show and did sports broadcasting and play-by-play.

He honed his skills in the Midwest. Ray learned about all facets of small-market radio and won many statewide awards from the Illinois Broadcasters Association. His success out there did not go unnoticed. Here in our Commonwealth, Radio PA, the Radio PA network saw what he was doing and brought him here. Ray moved to Harrisburg 20 years ago to be a news anchor, to deliver hourly newscasts, and to do field reporting for WITF Radio and for Radio PA.

But Ray always had a fondness for politics and the legislative process. He studied our State budget and built a broad expertise, which had him frequently appearing on Radio PA special broadcasts explaining the nuances of Pennsylvania politics and the budget wrangling that led to finally resolving our budget problems, and he did that to a very attentive Pennsylvania audience.

Ray won several best newscast awards from the National Association of State Radio Networks, the Pennsylvania Association of Broadcasters, and many others. And he was also a frequent guest on PCN (Pennsylvania Cable Network) TV, sharing his thoughts and insights on the political process and teaching people how laws were really made.

In 2006 Ray joined the Pennsylvania House of Representatives Republican Communications Office where he used his professional skills to explain the politics and legislative actions of House members. I admired his grasp of the daily workings of the Capitol and asked years ago that he work with me, not so much to write for me, because I tend to do that myself, but so that I could learn from his experience and his perspective. Ray understood government and how it worked, and he delighted in teaching the public what was behind many legislative actions. He was very good at what he did.

I will remember Ray Smith as a good man and a good friend. I will remember him, especially his deep baritone voice and his hearty laugh and his ability to make and keep friends. And I commend especially his coworkers, Donna Pinkham and Dan Massing, who were wonderful friends to him, who spent countless hours at the hospital visiting Ray even when they were not sure if Ray really knew that they were there. And Theresa Wagner, whose nursing skills and calm demeanor made his passing calm and serene.

Ray Smith is gone now, but his memory will remain here in the Capitol, in the Ryan Building where he set up shop, and in the thoughts and prayers of so many of us whose lives were enriched by and with his own.

Thank you, Mr. Speaker.

### STATEMENT BY MS. HELM

The SPEAKER. Representative Helm.

Ms. HELM. Thank you, Mr. Speaker.

It is with much sadness that I stand here today to honor our friend, Ray Smith. I so much miss seeing his smiling face as he would greet me many a morning when I would arrive on the House floor. Ray was not my communications coordinator, but he was my constituent, and he became a friend. He would be on the House floor waiting for the Representatives he served to arrive to make sure they were prepared for the day. If they had not yet arrived and I would walk to the floor, Ray would always come over with a happy greeting and ask me how things were going, and we would talk about events in our community or

discuss one of those patriotic ties he wore so proudly until one of his members arrived, and then he would be off to offer assistance to them.

Thank you, Ray. You will always be one of my happy memories from my time here in the House of Representatives. May you rest in peace.

Thank you, Mr. Speaker.

#### STATEMENT BY MR. DIAMOND

Mr. DIAMOND. Thank you, Mr. Speaker, and thank you, colleagues, for supporting this resolution to honor the life of Ray Smith and to send condolences to his friends and family.

On behalf of his family, who could not be with us here today – his sister, Judy, and his brother, Bob – I would like to just relate to you some things that they remember about Ray. Ray had the audacity to be born on his sister's birthday, October 21, when she was 17. Every year he would call her, and his birthday greeting was always, "This is your darling little baby brother calling." She will miss those calls dearly.

When Ray was 4, he actually liked to chase cement trucks around his neighborhood.

Ray's love of hockey goes back to when he was a kid and he would slap tennis balls through the legs of a table that acted like a net, and to enhance the process, he would spread some of that old dance floor resin on the floor to make it slicker. Ray always wanted to be a play-by-play guy, and he would watch the games, pencil in hand, practicing his craft. Later on he was thrilled to travel to San Francisco to broadcast an Eastern Illinois University championship game.

His impersonations were greatly loved by all. He could go from Groucho Marx to Jack Buck calling Kirk Gibson's home run in the World Series to Tigger with ease. Ray had a matter-of-fact Midwestern style.

My relationship with Ray goes way back before I was in the House of Representatives, when he was one of the first people in the media to take me seriously as a citizen activist. Later on when I was a truck driver and he learned that the company I drove for had a terminal in his hometown of Streator, Illinois, he would regale me with tales of his boyhood, and Streator is the quintessential Midwest town, where the land is flat, the streets are straight, and there is a church on every corner.

I was thrilled when Ray became my communications coordinator at the beginning of this session. Ray often used to come up to me when I was standing out front on the Capitol steps and he would sidle up and he would say something in a flat, monotone, Midwestern voice, and I imagine that when he went up the steps, saw St. Peter at the gates of heaven, he sidled right up to him and probably said the same thing he always said to me: "Can you believe this BS?"

Mr. Speaker, it seems like we are losing a lot of people lately, and I find it feting to repeat here one of my favorite movie lines, and I hope that Ray can appreciate it, because it was delivered in the same kind of deadpan Midwestern accent that he had. "We are all travelers in this world. From the sweet grass to the packing house, birth till death, we travel between the eternities."

God bless you, Ray Smith.

Thank you, Mr. Speaker.

The SPEAKER. Thank you, Representatives.

Ray Smith was just a truly gracious individual and a real talent. Certainly, our caucus, the General Assembly, and the Commonwealth of Pennsylvania will miss him. May God bless.

#### STATEMENT BY MR. COSTA

The SPEAKER. Representative Paul Costa.

Mr. P. COSTA. Thank you, Mr. Speaker.

I am not sure many of you knew this, but Ray was a frequent attendee to our karaoke caucuses, and Ray was always one of the first people to jump up and start the evening off. And not surprisingly, he had a very good voice. We became friends because of that, and every morning I would see him in the back: "When are we going to do it again?" Ray, I am sorry we did not get to do it for you one last time, but hopefully, you are singing in heaven. And God bless you and rest in peace.

Thank you, Mr. Speaker.

The SPEAKER. Thank you.

On the question,  
 Will the House agree to the amendment?

The SPEAKER. On that question, the Chair recognizes  
 Representative Causer. We just need a summary of the  
 amendment and your perspective.  
 Mr. CAUSER. Thank you, Mr. Speaker.  
 Mr. Speaker, this amendment makes technical corrections to  
 the bill. The amendment ensures that the DEP's (Department of  
 Environmental Protection) Agricultural Advisory Board  
 continues to have the power to review departmental policy and  
 has more guaranteed consultation on the formulation of proposed  
 regulations, general permits, and technical guidance documents  
 that affect the agriculture in the Commonwealth. The amendment  
 is the collaboration of working with the administration and with  
 my colleague, the minority chairman, and this is supported by the  
 Pennsylvania Farm Bureau and agriculture interests.  
 So I would ask for support for the amendment.

On the question recurring,  
 Will the House agree to the amendment?

The majority having voted in the affirmative, the question was

On the question,  
Will the House agree to the bill on second consideration as amended?

Bill as amended was agreed to.

The SPEAKER. The bill as amended will be reprinted.

The House proceeded to second consideration of **HB 1097, PN 3743**, entitled:

An Act amending the act of March 10, 1949 (P.L.30, No.14), known as the Public School Code of 1949, in terms and courses of study, providing for CPR instruction.

On the question,  
Will the House agree to the bill on second consideration?

Mr. **JAMES** offered the following amendment No. **A07827**:

Amend Bill, page 1, line 18; page 2, line 1; by striking out "have the same meaning given to it under section" in line 18 on page 1 and all of line 1 on page 2 and inserting mean a school district, charter school, regional charter school, intermediate unit or area vocational-technical school.

On the question,  
Will the House agree to the amendment?

The SPEAKER. On the amendment, the Chair recognizes Representative Lee James, and if you could explain the amendment and your perspective on the amendment. Thank you, sir.

Mr. **JAMES**. Thank you, Mr. Speaker.

In the drafting of the original wording, we inadvertently left off charter schools and regional charters. We would like to have them included.

I would encourage everyone to vote "yes" on this amendment.

On the question,  
Will the House agree to the bill on second consideration as amended?

MOTION TO SUSPEND RULES

The SPEAKER. There is another amendment. It is a late-filed amendment. Representative McCarter, you have amendment 10342. We will need a motion to suspend, so that will be your motion. Please proceed.

Mr. McCARTER. Thank you very much, Mr. Speaker.

I rise to move for a suspension of the rules to consider amendment A10342, which is substantially, it is exactly the same as the original amendment posted in the pre-session report that was 10374 by Representative Barrar.

On the question,  
Will the House agree to the motion?

The SPEAKER. On the motion, Representative Lee James, on that motion, sir.

Mr. JAMES. Thank you, Mr. Speaker.

I would ask the members for a "no" vote on this. We are running out of days, clearly, and I think it is very important to move the underlying bill and give our high school students an opportunity to learn this very valuable service.

So a "no" vote would help me. Thank you.

The SPEAKER. Representative McCarter, for the second time on the motion.

Mr. McCARTER. Thank you, Mr. Speaker.

Again, I would ask the members to in fact suspend the rules to allow this consideration. The underlying, or the amendment that we are proffering here is the language that was passed in the Senate unanimously, and was actually language that was put together by all of the stakeholders as a compromise on this particular bill. I think all of us are in support of, obviously, doing CPR (cardiopulmonary resuscitation). The issue is one I do not want to – I will talk about if we get this passed, but I think it is one in which we all should have the opportunity to talk about the underlying measure here and moving away from unfunded mandates that many of us have objections to, and at the same time allowing for that CPR to go forward in all of our schools.

Thank you, Mr. Speaker.

The SPEAKER. Representative Dermody, sir, on the motion.

Mr. DERMODY. Thank you, Mr. Speaker.

Mr. Speaker, I would urge the members to support the motion to suspend the rules.

The SPEAKER. Representative Reed, sir, on the motion.

Mr. REED. Thank you very much, Mr. Speaker.

I would urge the members to oppose the motion to suspend the rules. Thank you.

The SPEAKER. Okay. Let us see how this one finishes.

**BILL REVERTED TO  
PRIOR PRINTER'S NUMBER**

The SPEAKER. The Chair calls upon Representative Martina White.

Ms. WHITE. Thank you, Mr. Speaker.

The SPEAKER. Members, please, if you could take your seats. We need to hear the gentledady from Philadelphia County.

Please proceed, Representative White.

Ms. WHITE. Thank you, Mr. Speaker.

I would like to make a motion to revert SB 676 to a prior printer's number, PN 1289.

The SPEAKER. Representative White, the motion is to revert to a prior printer's number.

On the question,  
Will the House agree to the motion?

The SPEAKER. On that motion, you may speak.

Ms. WHITE. Thank you, Mr. Speaker.

Right now this piece of legislation we would like to revert to a prior printer's number in order to make sure that this bill gets straight to the Governor's desk. What we have seen is that the viability of the UEGF, which is the Uninsured Employers Guaranty Fund, is really not viable at this point in time and we need to make sure that there are changes put in place, and that is exactly what this motion would address. It would actually make sure that the prior printer's number, which makes sure that there is an increase in some of the assessments to help make the fund more viable, would also help to reduce some of the costs and crack down on some of the bad actors that are out there.

So I really encourage the members to vote in favor of the motion. Thank you.

The SPEAKER. Thank you.

Representative Rob Kauffman, on the motion to revert to a prior printer's number, sir.

Mr. KAUFFMAN. Thank you, Mr. Speaker.

I thank the gentledady from Philadelphia for her motion, and it is with some reluctance that I am going to support that motion this afternoon.

The amendments made in the House Labor and Industry Committee, which are being stripped out by this motion, dealt with some very important issues. There are too many people who are working in the underground economy in Pennsylvania that end up receiving a wage loss benefit from UEGF. The committee amendment required claimants to corroborate their testimony about the amount of wages with at least one other form of evidence. Before someone gets a wage loss benefit from this fund, they should be able to prove how much money they made.

Another committee amendment would have required UEGF to report anyone to tax authorities, claimants or employers, whom they suspected of cheating the IRS (Internal Revenue Service) or Department of Revenue. This would have made tax authorities aware of those who UEGF officials believe were working under the table in the underground economy. Finally, the amendments would have allowed L&I to contact other Commonwealth agencies to suspend licenses or certifications held by uninsured employers in cases where L&I has issued a stop-work order.

The proof-of-wages issue must be dealt with during the next session. Between 30 and 50 percent of UEGF claimants who are getting weekly wage loss benefits cannot prove their wages. It is highly likely that these claimants were working in the underground economy – many may have even been complicit with their employer's violation of the law. Let us be clear: these claimants should not be getting a wage loss benefit, and the language adopted by the committee would have generated significant savings.

Despite all of this, there is still a lot of good in the bill passed by the Senate. Most importantly, the Governor has been making legally questionable administrative loans from the Workers' Compensation Administration Fund. There are \$16.5 million in outstanding loans, and the bill passed by the Senate clearly prohibits future loans.

Over 10 percent of the people getting UEGF benefits did not even work for Pennsylvania employers. The bill will require that out-of-State employees provide documentation that they are not covered in another State before they see one dime of UEGF money. The bill will provide that UEGF does not have to pay interest if payments are delayed in the future. And the bill will provide L&I with the ability to crack down on uninsured employers through administrative penalties, which will generate revenue for UEGF, and by issuing stop-work orders to employers who refuse to comply with the law. It is vitally important that the department makes full use of these new tools in this legislation.

Finally, as reluctant as I am to strip out my committee's amendments, I will note that this bill is unfortunately tied up with other far more important legislation that will represent a huge savings that amounts to a few hundred million dollars in annual workers' compensation costs to all types of employers across Pennsylvania. Given the paramount importance of that legislation, which the Governor has already agreed to sign into law, additional reforms to UEGF will unfortunately have to wait until next session.

And with that, I would encourage you to support the gentledady's motion to revert to the prior printer's number. Thank you very much.

The SPEAKER. Representative Frank Dermody, the minority leader.

Mr. DERMODY. Thank you, Mr. Speaker.

Mr. Speaker, I would also urge the members to support the motion to revert to the prior printer's number.

The SPEAKER. The majority leader, on the motion.

Mr. REED. Thank you very much, Mr. Speaker.

I would also urge the members to support the reversion to the prior printer's number. Thank you.

On the question,  
Will the House agree to the bill on second consideration as amended?

The SPEAKER. So SB 676 is now going to revert to the original printer's number, which is 1289. It is 1289.

Now, that obviates any amendments – I think maybe the amendments were withdrawn; I am not sure – but it obviates any of those amendments.

On the question,  
Will the House agree to the amendment?

The SPEAKER. Representative DeLissio, on the amendment. Ms. DeLISSIO. Thank you, Mr. Speaker.

Mr. Speaker, it is my privilege and honor to offer the name of Brig. Gen. Anna Mae V. McCabe Hays, with a bridge to be designated on State Route 4001 in the 194th Legislative District.

Mr. Speaker, we often honor military veterans with this honor; it is rare, Mr. Speaker, that we have the opportunity to do this for a woman.

Anna Mae passed away earlier this year at 97 years of age. She had a long and storied career in the military, starting with World War II and going through the Korean and Vietnam wars. She was the 13th chief of the Army Nurse Corps, and in 1970 she was promoted to the rank of brigadier general. She was the first woman in the United States Armed Forces to achieve the rank of general, so it is with great pride that I offer this and thank my colleagues for their support.

The majority having voted in the affirmative, the question was determined in the affirmative and the amendment was agreed to.

On the question recurring,

Will the House agree to the bill on second consideration as amended?

Mr. SACCONI offered the following amendment No. A1011:

Amend Bill, page 1, line 16, by striking out "and"

Amend Bill, page 1, line 18, by striking out the period after "Highway" and inserting

; and designating the bridge to be constructed on that portion of Pennsylvania Route 88 over Peters Creek, Finleyville Borough, Washington County, as the John Emerick Memorial Bridge.

Amend Bill, page 7, by inserting between lines 9 and 10 Section 7. John Emerick Memorial Bridge.

(a) Findings.—The General Assembly finds and declares as follows:

(1) Sergeant John Emerick, a native of Mount Pleasant, Westmoreland County, enlisted in the Army Air Corps in 1940.

(2) Following the 1941 attack on Pearl Harbor, Sergeant Emerick was deployed to the Bataan Peninsula, Philippines, initially serving in the 19th Air Base Squadron and later transferring to the 31st infantry unit in an attempt to halt the Japanese advance in the region.

(3) With limited food, water and supplies, and following the order of his commander, Sergeant Emerick, along with approximately 12,000 Americans and 63,000 Filipinos,

surrendered to Japanese forces as prisoners of war and were forced to march 65 miles through the jungle with no food or water. This march would later be known as the Bataan Death March.

(4) Sergeant Emerick survived the death march and 42 months of capture and was rescued on September 12, 1945, when United States Forces liberated the prisoners of war.

(5) Sergeant Emerick was awarded the Bronze Star with "V" for valor for heroism during combat operations on April 6, 1942, on Bataan. His medals included three Bronze Stars, a Purple Heart, three Presidential Unit Citations and a Prisoner of War medal.

(6) Following his return to the United States, Sergeant Emerick became a commander in the American Defenders of Bataan and Corregidor, where he was able to assist former prisoners of war in any way he could, including work that led to a study resulting in legislation that would become the former Prisoners of War Benefits Act of 1981.

(7) Sergeant Emerick was a 50-year member of the American Legion Post in Finleyville and member of the St. Francis Assisi Church until his death on September 22, 2009.

(b) Designation.—The bridge to be constructed on Pennsylvania Route 88 over Peters Creek in Finleyville Borough, Washington County, is designated the John Emerick Memorial Bridge.

On the question,

Will the House agree to the amendment?

The SPEAKER. On the amendment, Representative Saccone. Mr. SACCONI. Thank you, Mr. Speaker.

Mr. Speaker, I am so proud to— It seems like a small thing that we do, naming a bridge or a road, but Sergeant Emerick is a true American hero. He was one of two survivors of the what became known as the Bataan Death March.

Thousands of people died as they would march those 63 miles in the Philippines. After that he endured almost 4 years of captivity in four different prison camps before he was finally liberated. He is a true American hero, and this little bridge in my community means so much to the people there that we will name that bridge after him.

And I am just proud to speak his name on this floor again, because I believe the old saying that says that as long as we live and speak the names of these veterans, they still live.

So, Mr. Speaker, I thank you, and I ask for a positive vote.

The majority having voted in the affirmative, the question was determined in the affirmative and the amendment was agreed to.

On the question recurring,

Will the House agree to the bill on second consideration as amended?

Bill as amended was agreed to.

The SPEAKER. The bill as amended will be reprinted.

**VOTE CORRECTION**

The SPEAKER. Representative Chris Rabb, on unanimous consent.

Mr. RABB. Mr. Speaker, I would like to correct the record. On October 9, I voted in opposition to HB 2476. My button malfunctioned and I would like to be a "no" vote on that.

The SPEAKER. Thank you.

Mr. RABB. Thank you.

**REMARKS BY SPEAKER**

The SPEAKER. Members, Representative Bernie O'Neill is one of our retiring legislators, and I would ask everybody to please take their seats at this time.

Representative O'Neill was first elected to serve the 29th Legislative District in Bucks County in 2002. He is serving his seventh term in the Pennsylvania House of Representatives. He has, this session, been chairman of the House Finance Committee. As many of you know, before his election to the House, Bernie was a special education teacher at William Tennent High School in the Centennial School District for more than 25 years. He was also a migrant program consultant, a counselor for the Bucks County Intermediate Unit, served 5 years on the board of supervisors in Warminster Township and was its chair for 3 years. He was a deputy State constable in that township and also served as a volunteer fireman.

Bernie resides in Warminster with his lovely wife, Linda, and much of his life, he has been helping others: educator, coach, adviser, supervisor, volunteer, and now legislator and chair. I might say to you that amongst other very important pieces of legislation, it was his legislation that created the commission to look at a school funding formula – I believe it was HB 2 back in '11-'12 – and that legislation, of course, led to the commission and then the report and then ultimately our adoption of legislation that did change the funding formula moving forward. He has also crafted legislation that has come into law that tightened the screening process for foster or adoptive parents, made sure that insurance companies did not discriminate against military reservists, and provided immunity when a minor seeks medical attention for another person who has consumed too much alcohol.

One of our toughest, toughest laws, and an effective law, gave law enforcement a stronger tool to prosecute drug dealers, and that includes physicians who are found fraudulently pushing medicines, by classifying "drug delivery resulting in death" as a first-degree felony. Also, he established a bipartisan task force to look at the costs and feasibility associated with a State-operated, Internet-based Pennsylvania virtual high school.

He himself is a graduate of William Tennent High School, Bucks County Community College, Penn State University, and then a master's degree in education from Temple University.

**COMMEMORATIVE GAVEL PRESENTED**

The SPEAKER. I know Bernie has indicated he is not going to avail himself to giving any remarks, although if he does want to just say a few words, he is more than welcome. But I will tell you that I do want to present this gavel to him for his outstanding service to his constituents back in the 29th Legislative District, and to the citizens of Pennsylvania for his great work on legislation that impacted every district in the Commonwealth of Pennsylvania. Thank you, Chair. We are so sad to see you go. But I do know, as many of you know, that Bernie and his lovely wife care for his special-needs sister, whom many have had the opportunity to meet, and he is just a dedicated individual, and we understand that there is a lot pulling on his time and we are going to miss him.

Thank you so much, Chairman O'Neill.

Mr. O'NEILL. I do not want to be ruled out of order, but I just want to say thank you and may God bless each of you.

The SPEAKER. There are no further votes, but we do have some announcements.
