HON. JOHN A. LAWRENCE, member of the House of Representatives, offered the following prayer:

Let us pray:

Father, we are grateful this day for the opportunity to serve in this chamber. We humbly ask You for Your strength and guidance as we debate the matters before the House this day.

Father, we remember our colleague, Matt Dowling. We ask You to strengthen and heal him. Please be with his wife, Becky, and their children during this time, and help us to be an encouragement to them.

I ask Your hand upon our colleagues in the Senate, the Governor, and especially those who have been recently elected this past Tuesday to school boards, municipal boards, as mayors, and as judges in the courts of this Commonwealth. Guide each of them in the roles in which they have been elected to serve. We think of our colleagues, Representatives Gainey and Toohil, who will be moving on to serve in new ways. Be with them, Father, I pray, and guide our steps in service to You this day.

In Jesus' name. Amen.

## RESOLUTION

Ms. WHITE called up **HR 148, PN 2259**, entitled:

A Resolution urging the United States Environmental Protection Agency (EPA) to exercise its authority under section 211 (o) (7) (A) (i) of the Clean Air Act to revise the nationwide Renewable Fuel Standard ("RFS") updating volume mandates to provide relief to refiners in Pennsylvania, the East Coast and elsewhere, and to implement additional reforms going forward which will allow for the blending of renewable fuels consistent with the original intention of the RFS program, while containing costs for independent refiners.

On the question,  
Will the House adopt the resolution?

The SPEAKER. On that question, the Chair recognizes the prime sponsor, Representative White.

Ms. WHITE. Thank you, Mr. Speaker.

High gas prices are only one challenge facing our energy markets. If the Environmental Protection Agency's requirements for biofuel usage are not changed, prices will continue surging and our refiners could be forced to shut down. The market prices for biodiesels are surpassing all-time high levels.

In May of 2020, the price of the Renewable Identification Numbers – the credit that is generated each time a gallon of renewable fuel is produced – was 36 cents. One year later it reached an all-time high of \$1.98. And while the Renewable Fuel Standard began with just 4 billion gallons in 2006—

The SPEAKER. The gentlelady will please suspend.

Members, please take your seats. We are debating the resolution that is currently before us. Please move any and all conversations off the back of the House. She deserves to be heard. Members, please move any conversations off the back of the House. The Chair thanks the members.

Representative White, you are in order and may proceed.

Ms. WHITE. Thank you, Mr. Speaker.

And while the Renewable Fuel Standard began just with 4 billion gallons in 2006, it is scheduled to ascend to 36 billion gallons in 2022. Biofuel prices have spiked to such high levels that it is extraordinarily challenging for refiners to engage in midterm economic planning and budgeting, nor can they attract capital to make the kind of long-term major investments needed to create new high-quality jobs. At these prices, the cost for our region's refineries to comply with the Renewable Fuel Standard eclipses the refineries' total costs of salaries, benefits, and capital improvements combined.

The Renewable Fuel Standard is no longer functioning as Congress intended, and independent refiners, including those in our region, need reasonable solutions to ensure the continued use of domestic biofuels without putting refiners at risk of closing. HR 148 urges the United States Environmental Protection Agency to implement meaningful reforms to the Renewable Fuel Standard. We are asking the EPA to immediately grant the petitions of our Governor, Tom Wolf, and the Governors of five other States to waive the Renewable Fuel Standard requirements to help prices return to reasonable levels for our constituents. We are also demanding the EPA to implement cost containment and stability measures to help our refiners.

The stakes for our Commonwealth are enormous, as each refining job in southeastern Pennsylvania supports an estimated 18.3 other jobs and 22 jobs statewide. Inaction could also create a national security threat. If U.S. refineries close, Pennsylvania and the country would be more reliant on foreign petroleum and cybersecurity threats on pipelines.

Our independent refineries want to be part of the green energy future and are well-positioned to make historic contributions towards that effort. But they will never have this opportunity without reform to the Renewable Fuel Standard. The compliance costs are just too high to make the necessary capital investments to convert to greener technologies.

Thank you so much, Mr. Speaker, and I urge a "yes" vote.

The SPEAKER. The Chair thanks the lady.

The question is, will the House adopt the resolution?

And on that question, the Chair recognizes the gentlewoman, Representative Krueger.

Ms. KRUEGER. Thank you, Mr. Speaker.

I rise today in support of HR 148. While the Renewable Fuel Standard Program was well-intentioned, the current market for Renewable Identification Numbers, or RINs, credits has changed dramatically over the past few years. This market volatility has disadvantaged smaller, independent producers and only benefited large businesses.

I support this bipartisan resolution and urge the Environmental Protection Agency to use its authority to take a stronger hand in the stabilization of RINs prices.

Thank you, Mr. Speaker.

The SPEAKER. The Chair thanks the lady.

On the question recurring,

Will the House adopt the resolution?

(Members proceeded to vote.)

The SPEAKER. On that question, the Chair recognizes the gentlewoman, Representative Oberlander.

Ms. OBERLANDER. Thank you, Mr. Speaker.

The electronic board is accurate.

The SPEAKER. The Chair thanks the lady and recognizes the gentleman, Representative Harris.

Mr. HARRIS. Thank you, Mr. Speaker.

SUPPLEMENTAL CALENDAR A

BILLS ON THIRD CONSIDERATION

The House proceeded to third consideration of **HB 1041, PN 1452**, entitled:

An Act amending the act of March 10, 1949 (P.L.30, No.14), known as the Public School Code of 1949, in pupils and attendance, further providing for home education program.

On the question,

Will the House agree to the bill on third consideration?

Bill was agreed to.

(Bill analysis was read.)

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.

The question is, shall the bill pass finally?

On that question, the Chair recognizes the gentleman, Representative Topper.

Mr. TOPPER. Thank you, Mr. Speaker.

We all come to this job from different walks of life – different backgrounds in terms of our education, where we have lived, where we have worked – and we can speak to issues that have affected us personally over the years, and this is one.

As a home-educated student, I had the opportunity to also supplement my coursework with what was offered at Bedford Area School District. From a course standpoint, an academic standpoint, from a cocurricular standpoint, and an extracurricular activity standpoint, it greatly benefited me. I would like to think the school district felt the same way. And I think this is an opportunity that we can continue to allow school districts all over the Commonwealth and parents all over the Commonwealth to customize individual education for their kids, especially home-educated students, which make up less than 2 percent of the population of students across the Commonwealth. But it is an opportunity that we have to make sure that no matter what school district these families reside in, they are afforded this opportunity.

I would like to thank my friend, the gentleman from Montgomery, Mr. Ciresi, for his work in this legislation as well, and I would ask for an affirmative vote on HB 1041.

Thank you, Mr. Speaker.

The SPEAKER. The Chair thanks the gentleman.

On the question recurring,  
Shall the bill pass finally?

The SPEAKER. Agreeable to the provisions of the Constitution, the yeas and nays will now be taken.

(Members proceeded to vote.)

The House proceeded to third consideration of **HB 1736, PN 2330**, entitled:

An Act amending Title 18 (Crimes and Offenses) of the Pennsylvania Consolidated Statutes, in other offenses, providing for prohibition against publishing or disseminating booking photographs for commercial use.

On the question,  
Will the House agree to the bill on third consideration?  
Bill was agreed to.

(Bill analysis was read.)

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.

The question is, shall the bill pass finally?

On that question, the Chair recognizes the gentleman, Representative Ryan Mackenzie.

Mr. MACKENZIE. Thank you, Mr. Speaker.

HB 1736 would stop a practice that is nothing more than extortion from occurring here in Pennsylvania. In most criminal cases when an individual is arrested, charged with the commission of a criminal offense, or is reasonably believed to be a fugitive of justice, a law enforcement agency will take their fingerprints and photograph. This photograph is often referred to as a "booking photograph" or a "mug shot."

These images then appear on public Web sites. When a person then sees this image online, oftentimes it is reoccurring and appearing on Web sites where they are charging between \$30 and \$400 to have this image removed from the site or multiple sites. This is done regardless of whether there is a guilty conviction, but the Web sites fail to display that information. Because of the harm this information can do to a person's employment prospects, personal relationships, and reputation, many feel compelled to pay these various sites to remove the content.

The new offense in this bill would be triggered any time a person who "is engaged in publishing or...disseminating a booking photograph...solicits or accepts...a fee or other consideration to remove..." or modify the photograph. The legislation has criminal components to it but also was amended

on the floor to add a civil penalty, as well as an option for the Attorney General.

I would like to ask for an affirmative vote on 1736 to end this practice of extortion here in Pennsylvania and join over 15 other States that have already passed similar legislation.

Thank you, Mr. Speaker.

The SPEAKER. The Chair thanks the gentleman.

The question is, shall the bill pass finally?

The gentleman, Representative Rabb, is seeking recognition.

You are in order and may proceed.

Mr. RABB. Thank you, Mr. Speaker.

While regretfully I am going to be a "no" on this bill, I really want to point out something that does not get addressed nearly enough, and that is recognition of people working across the aisle. This is an important issue. And I just want to commend the Representative from Lehigh County on putting up an important bill, a good bill – not quite good enough for me at this time, but outstanding work coming across the aisle, listening to stakeholders, and working in good faith.

This is just something that I really thought I should mention on the House floor when we are always talking about things that are always so divisive, cutting people down, and this is a particular moment where I am really proud to have worked with the Representative and others to make sure that we improve the legislation that we vote on and it is definitely an improvement, and I just wanted to publicly affirm his efforts.

Thank you, Mr. Speaker.

The SPEAKER. The Chair thanks the gentleman for those kind words.

On the question recurring,

The majority required by the Constitution having voted in the affirmative, the question was determined in the affirmative and the bill passed finally.

Ordered, That the clerk present the same to the Senate for concurrence.

The House proceeded to third consideration of **HB 1443, PN 1900**, entitled:

An Act amending the act of September 26, 1951 (P.L.1539, No.389), known as The Clinical Laboratory Act, providing for advertisements for laboratory tests.

On the question,  
Will the House agree to the bill on third consideration?  
Bill was agreed to.

(Bill analysis was read.)

The SPEAKER. This bill has been considered on three different days and agreed to and is now on final passage.

The question is, shall the bill pass finally?

On that question, the Chair recognizes the gentleman, Representative Hershey.

Mr. HERSHEY. Thank you, Mr. Speaker.

I rise today to ask my colleagues to support HB 1443. Mr. Speaker, this important piece of legislation amends the Clinical Laboratory Act of 1951 to permit clinical laboratories to advertise the diagnostic testing services they have to consumers.

Now, I want my colleagues to know that this bill does have safeguards. The test must be ordered by a health-care practitioner, it must comply with all HIPAA (Health Insurance Portability and Accountability Act) regulations, and the clinical lab cannot make a claim about the reliability of the test that does not comply with the Federal Public Health Service Act.

The interesting thing about this legislation, and the original regulations that came with it, was when these regulations were promulgated, we lived in an age where many households did not have television, and we certainly did not have cell phones that had Internet in our pockets, and John Hershey was not even a thought to put his feet on God's green earth. So of course, this was a long time ago, and one of the things that we did not have access to was consumer information and consumer choice, and this bill seeks to rectify that issue.

This body has voted in favor of patient access and affordability in recent months. We have voted to extend regulatory waivers in the face of an unprecedented virus, dealing with access to care and certain telehealth services, and just 2 weeks ago this body voted to expand the list of seniors who have access to vital prescription drug medication.

This bill was critical to my district. In a time when people are ordered to get COVID tests and the Federal government continues to crack down on employers and employees, this bill would expand access to those services, to COVID tests – because our clinical laboratory communities cannot currently advertise that they have take-home COVID tests that are in such short supply.

Mr. Speaker, in short, this bill offers consumers information and choices, all while keeping their health-care provider a part of the process. In an age where we have increasingly worked to make that the case as this body, I believe that this is all the more important today.

This bill has already been amended to clarify and strengthen the role of our health-care providers, and it has also been amended to ensure that it is based on science. A "no" vote on HB 1443 is the equivalent of denying Pennsylvania consumers the access to critical diagnostic testing – including COVID, antigen, and serology testing – and I ask that my colleagues support this bill.

Thank you, Mr. Speaker, for considering my bill.

The SPEAKER. The Chair thanks the gentleman and recognizes the gentleman, Representative Frankel, on final passage.

Mr. FRANKEL. Thank you, Mr. Speaker.

Mr. Speaker, this bill is about advertising for clinical laboratory services, which may seem like a minor change, but the potential impact is large. We know this because we have already seen what happens when you advertise for health-care services directly when it comes to pharmaceuticals. And we know that, for better or for worse, the ads are directly correlated with an

increase in demand for certain kinds of drugs. And this is also about patients getting their health information outside of the traditional structures by which we understand medical care.

Instead of a doctor suggesting a test for a patient because they think they need it, they are choosing it for themselves. Instead of insurance paying for necessary care, patients must pay for everything out of pocket. These kinds of clinical lab services, selected by patients for themselves, is a relatively new business model, and I would have liked to have seen more consumer protections built into it.

I would like to know that the providers ordering tests are not paid via the labs themselves. I would like patients that already pay for insurance to be able to request that their insurers cover the costs for necessary tests. But I am grateful that genomic testing has been excluded, and that a PA-licensed doctor will be accountable for reviewing tests.

I will be voting "yes" but paying close attention to how advertising directly to consumers impacts care, cost, and quality, and I will be asking my Senate colleagues to consider adding additional consumer protections.

Thank you, Mr. Speaker.

The SPEAKER. The Chair thanks the gentleman.
