§ 504. Powers and duties of commission.

The commission shall have the following powers and duties:

(1) Before July 19, 1995, and periodically thereafter, to promulgate regulations, in consultation with the department, the Department of Environmental Protection and the board, establishing minimum criteria for nutrient management plans developed in accordance with section 506 (relating to nutrient management plans) and other regulatory requirements to implement this chapter. (ii) The establishment of procedures to determine proper application rates of nutrients to be applied to land based on conditions of soil and levels of existing nutrients in the soil and the type of agricultural, horticultural or floricultural production to be conducted on the land.

(iii) An identification of best management practices to be utilized for proper nutrient management.

(iv) The establishment of recordkeeping requirements related to land application and distribution of nutrients.

(vii) The establishment of special criteria which may be utilized for manure handling in emergency situations where there is an outbreak of a contagious disease.

(viii) The establishment of conditions under which changes due to unforeseen circumstances render the plan amendment process set forth in section 506(e) impracticable. Where such conditions exist, the owner or operator of an agricultural operation shall follow the procedures set forth in section 506(f).

(1.1) Within two years following the effective date of this section and periodically thereafter, to promulgate regulations, in consultation with the department, the Department of Environmental Protection and the board, establishing practices, technologies, standards, strategies and other requirements for odor management plans developed in accordance with section 509 (relating to odor management plans). The commission shall consider the following in promulgating the regulations under this paragraph:

(i) Site-specific factors such as proximity to adjoining landowners, land use of the surrounding area, type of structures proposed, species of animals, local topography and direction of the prevailing winds.

(ii) Reasonably available technology, practices, standards and strategies to manage odor impacts, considering both the practical and economic feasibility of installation and operation and the potential impacts from the facilities. Only those technologies, practices, standards and strategies that are necessary to address the offsite impacts of odors associated with these new facilities will be required to be included in the odor management plans.

(2) Prior to the adoption of regulations under paragraph (1.1), to establish interim guidelines for the operations identified in section 509.

(3) To continually evaluate emerging practices, methods and technology for utilization as best management practices and to so identify the practices, where appropriate, pursuant to paragraph (1)(iii).

§ 505. Powers and duties of Department of Environmental Protection.

The Department of Environmental Protection shall have the following powers and duties:

(1) Before July 19, 1994, to make an assessment of and report to the Environmental Quality Board and the General Assembly on the extent to which malfunctioning on-lot sewage systems contribute to the pollution of waters of this Commonwealth and to identify what regulatory or legislative initiatives, if any, the Department of Environmental Protection deems necessary to abate that pollution.

(2) Before July 19, 1994, to make an assessment of and report to the Environmental Quality Board and the General Assembly on the extent to which improper water well construction contributes to groundwater pollution due to the intrusion of nutrients from the surface and to identify what regulatory or legislative initiatives, if any, the Department of Environmental Protection deems necessary to abate that pollution.

(3) Before July 19, 1995, to make an assessment of and report to the Environmental Quality Board and the General Assembly on the extent to which the application of chemical fertilizers and other plant nutrients for nonagricultural purposes contributes to the pollution of the waters of this Commonwealth and to identify what regulatory or legislative initiatives, if any, the Department of Environmental Protection deems necessary to abate that pollution.

(4) Before July 19, 1995, to make an assessment of and report to the Environmental Quality Board and the General Assembly on the extent to which nutrients from storm water runoff contribute to the pollution of waters of this Commonwealth and to identify what regulatory or legislative initiatives, if any, the Department of Environmental Protection deems necessary to abate that pollution.

(5) Before July 19, 1995, to make an assessment of and report to the Environmental Quality Board and the General Assembly on the extent to which atmospheric deposition of nutrients contribute to the pollution of the waters of this Commonwealth and to identify what regulatory or legislative initiatives, if any, the Department of Environmental Protection deems necessary to abate that pollution.

(6) To include, in the assessments in paragraphs (1) through (5), recommendations to the General Assembly for budgetary and legislative initiatives where program resources or statutory authority is not adequate to address pollution sources identified in those assessments.

(7) To provide technical and administrative assistance to the commission in carrying out its responsibilities under this chapter.

§ 506. Nutrient management plans.

(a) Concentrated animal operations.--Concentrated animal operations are those agricultural operations where the animal density exceeds two AEUs per acre on an annualized basis. Beginning October 1, 2002, the commission, in consultation with the department, the board, the Department of Environmental Protection and the Cooperative Extension Service, shall review the criteria used to identify concentrated animal operations and make appropriate changes to the definition of concentrated animal operations by regulation.

(b) Development of nutrient management plans.--The operator of any concentrated animal operation shall develop and implement a nutrient management plan consistent with the requirements of this section.

(c) Certification of plans.--All plans and plan amendments shall be developed by nutrient management specialists who shall certify that the plans are in accordance with the requirements of this chapter and the regulations promulgated under this chapter.

(d) Review procedure.--Nutrient management plans required by this section shall be submitted for review in accordance with the following schedule:

(1) For a concentrated animal operation in existence on October 1, 1997, by October 1, 1998.

(2) For a concentrated animal operation which comes into existence after October 1, 1997, by the later of:

(i) January 1, 1998; or

(ii) commencement of operations.

(3) For an agricultural operation which, because of expansion, meets the criteria for a concentrated animal operation, within three months after the date of expansion.

(e) Plan review and approval.--Plans or plan amendments required under this chapter shall be submitted to local conservation districts for review and approval or alternatively to the commission for agricultural operations located in counties not delegated administrative authority under section 504 (relating to powers and duties of commission). Any person performing the plan review must be certified in accordance with section 508 (relating to nutrient management certification program and odor management certification program). Within 90 days of receipt of a nutrient management plan or plan amendment, the reviewing agency shall either approve, modify or disapprove the plan or plan amendment. Approvals shall only be granted for those plans or plan amendments which satisfy the requirements of this chapter and the regulations promulgated under this chapter. Notice of determination to approve, modify or disapprove a plan or plan amendment shall be provided in writing to the person submitting same. Notice of a determination to modify or disapprove shall include an explanation specifically stating the reasons for modification or disapproval. If a plan or plan amendment is disapproved, the person submitting a plan or plan amendment for the first time shall have 90 days after receipt of notice of disapproval to resubmit a revised plan or plan amendment. An agricultural operation that submits a complete plan or plan amendment is authorized to implement the same if the reviewing agency fails to act within 90 days of submittal. Where the reviewing agency fails to so act and the plan or plan amendment is resubmitted and the reviewing agency again fails to act within 90 days of resubmittal, it shall be deemed approved.

(f) Amendments due to unforeseen circumstances.--Amendments to plans or to implementation of plans made after initial

development or filing which satisfy the criteria established under section 504(1)(vii) shall be certified by a nutrient management specialist prior to implementation and submitted to the district within 30 days of implementation.

(g) Implementation.--A person required to develop a nutrient management plan pursuant to subsection (b) shall fully implement such plan within three years of the date such plan is approved or is deemed approved or for which implementation is otherwise authorized pursuant to subsection (e), unless extended for cause shown or by a plan amendment. The three-year implementation schedule shall be extended an additional two years for individual substantial capital improvements required under an approved plan for an operation required to submit a plan under subsection (d)(1) if:

(1) the owner or operator demonstrates that the cost of all or part of the individual improvements for which the extension is applicable cannot be financed through available funding mechanisms; and

(2) a sum of \$2,000,000 or more has not been appropriated for grants and loans to the Nutrient Management Fund created under section 512 (relating to Nutrient Management Fund), above and beyond any Chesapeake Bay nonpoint source pollution abatement moneys that may be appropriated to the fund, before October 1, 1998.

(h) Voluntary plans.--Any agricultural operation which is not a concentrated animal operation may voluntarily develop a nutrient management plan and have it reviewed pursuant to this section. To the extent possible, the commission, the Cooperative Extension Service, the department, the Department of Environmental Protection and conservation districts shall assist and promote the development of voluntary plans.

(i) Financial assistance.--Any agricultural operation receiving financial assistance under the Chesapeake Bay Nonpoint Source Pollution Abatement Program or otherwise receiving financial assistance under this chapter for the development of a nutrient management plan shall agree to develop and implement a nutrient management plan as a condition for receiving this financial assistance.

(j) Compliance plans.--Any agricultural operation found to be in violation of the act of June 22, 1937 (P.L.1987, No.394), known as The Clean Streams Law, may be required to submit a nutrient management plan within three months of notification thereof and implement the plan in order to prevent or abate such pollution.

(k) Transferability of plans.--A plan approved under this section shall be transferable to a subsequent owner of an agricultural operation upon notification thereof to the district unless the transfer results in operational changes requiring plan modification pursuant to the criteria established under section 504(1)(vi).

(l) Construction of section.--The density criteria for concentrated animal operations as identified in subsection (a) or as it may be subsequently modified by the commission shall only be utilized to identify those agricultural operations for which the planning requirements of this section shall apply and shall not be construed to prohibit the development or expansion of agricultural operations meeting or exceeding such criteria.

Cross References. Section 506 is referred to in sections 503, 504 of this title.

§ 507. Manure application setbacks and buffers.

(a) General rule.--Unless the commission establishes a stricter requirement by regulation, no concentrated animal operation or other agricultural operation receiving manure from a concentrated animal operation directly or indirectly through a broker or other person may mechanically land apply manure within 100 feet of surface water unless a vegetated buffer no less than 35 feet in width and meeting standards established by the Natural Resources Conservation Service is used to prevent manure runoff into the surface water.

(b) Definition.--As used in this section, the term "surface water" means a perennial or intermittent stream with a defined bed and bank, a lake or a pond.

Effective Date. Section 5(1) of Act 38 of 2005 provided that section 507 shall take effect in 180 days.

(a) Requirement.--The department shall establish, in consultation with the commission, a nutrient management certification program for the purpose of certifying individuals who have demonstrated the competency necessary to develop nutrient management plans and an odor management certification program for the purpose of certifying individuals who have demonstrated the competency necessary to develop odor management plans. The department or its designee shall develop such written testing procedures, educational requirements and examinations as it deems appropriate to carry out its responsibilities under this section. The department shall by regulation establish such fees and terms and conditions of certification as it deems appropriate. The department shall establish individual, commercial and public certification categories, including a certification category for farmers to develop and certify nutrient management plans and odor management plans for their own agricultural operations.

(a) Requirement.--

(1) The following operations shall develop and implement an odor management plan as described in this chapter:

(i) Existing concentrated animal operations and existing concentrated animal feeding operations, when doing any of the following:

(A) Erecting or constructing a new animal housing facility or a new manure management facility. The odor management plan required by this paragraph shall be developed and implemented only with respect to the new facility.

(B) Erecting or constructing an expansion of an animal housing facility or a manure management facility. The odor management plan required by this paragraph shall be developed and implemented only with respect to the newly erected or newly constructed portion of the facility.

(ii) Existing agricultural operations which, because of an increase, resulting from expansion or construction, in the number of animals maintained at the operation, will become regulated as either a concentrated animal operation or a concentrated animal feeding operation. The odor management plan required by this paragraph shall be developed and implemented only with respect to the newly expanded or newly constructed portion of the operation.

(iii) New agricultural operations which will be regulated as either a concentrated animal operation or a concentrated animal feeding operation.

(2) The operations described in paragraph (1)(i) and (ii) shall obtain approval of their odor management plan prior to the earlier of erection or construction of new or expanded animal housing facilities or the construction of new or expanded manure management facilities.

Notice of determination to approve or disapprove a plan or plan amendment shall be provided in writing to the person submitting same. Notice of a determination to disapprove shall include an explanation specifically stating the reasons for disapproval. If a plan or plan amendment is disapproved, the person submitting a plan or plan amendment for the first time shall have 90 days after receipt of notice of disapproval to resubmit a revised plan or plan amendment. An existing or proposed concentrated animal

operation or concentrated animal feeding operation that submits a complete plan or plan amendment is authorized to implement the same if the reviewing agency fails to act within 90 days of submittal.

(e) Implementation.--A person required to have an odor management plan under this section shall fully implement the plan prior to commencing use of the new animal housing facility or animal manure facility.

(f) Voluntary plans.--Any agricultural operation which is not required to comply with subsection (a) may voluntarily develop an odor management plan and have it reviewed pursuant to this section. To the extent possible, the commission, the Cooperative Extension Service, the department, the Department of Environmental Protection and conservation districts shall assist and promote the development of voluntary plans.

(g) Transferability of plans.--A plan approved under this section shall be transferable to a subsequent owner of an agricultural operation upon notification thereof to the district unless the transfer results in operational changes requiring plan modification pursuant to the criteria established in this section.

§ 511. Financial assistance.

(a) Loans, grants, etc.--The commission shall, to the extent funds are available, provide financial assistance in the form of loans, loan guarantees and grants for the implementation of nutrient management plans and of odor management plans for existing agricultural operations.

(b) Criteria for eligibility.--In reviewing applications for financial assistance, the commission shall consider the following:

(1) Whether the project will improve the health, safety or environment of the people of this Commonwealth and otherwise satisfy the purposes of this chapter.

(2) The cost-effectiveness of the proposed practices in comparison with other alternatives.

(3) The applicant's ability to operate or maintain the practices in a proper manner.

(c) Issuance and terms.--Subject to this section, the commission shall issue loans and set terms applicable thereto in any manner it deems appropriate. The commission may consider such factors as it deems relevant, including current market interest rates, the financial ability of the applicant to repay and the necessity to maintain the funds created hereunder in a financially sound manner. Loans may be based on the ability to repay from future revenue to be derived from the applicant's agricultural operation, by a mortgage or other security interest or by any other fiscal manner which the commission deems appropriate. The board shall have the power to defer principal on loans for up to 12 months. The minimum rate of interest to be paid on any loan made pursuant to this section shall be 1%.

(d) Grants.--Grants shall be made available as follows:

(1) Where funds have been made available to the commission, subject to any conditions that may have accompanied the receipt of such funds.

(2) Where the commission, in its sole discretion, determines that the financial condition of the recipient is such that repayment of a loan is unlikely and that the recipient will be financially distressed by the implementation of practices without a grant.

(e) Grants and loans.--The commission shall, where it deems appropriate and to the extent financial circumstances permit, mix grant funds with loan funds.

§ 512. Nutrient Management Fund.

(a) Establishment of fund.--There is established a special nonlapsing fund in the State Treasury to be known as the Nutrient Management Fund. All fees, fines, judgments and interest collected by the commission under this chapter shall be paid into the fund. All money placed in the fund and the interest it accrues are hereby appropriated to the commission on a continuing basis for any activities necessary to meet the requirements of this chapter.

(b) Supplements to fund.--The Nutrient Management Fund may be supplemented by moneys received from the following sources:

- (1) State funds appropriated to the commission.
- (2) Federal funds appropriated to the commission.
- (3) Proceeds from the sale of any bonds made available to the commission.

(d) Status of fund.--The Nutrient Management Fund shall not be subject to 42 Pa.C.S. Ch. 37 Subch. C (relating to judicial computer system).

(e) Deposit and use of funds.--No administrative action shall prevent the deposit of moneys into the fund in the fiscal year in which they are received. The funds shall only be used for the purposes authorized by this chapter and shall not be transferred or diverted to any other purpose by administrative action.

Cross References. Section 512 is referred to in sections 506, 605 of this title.

§ 513. Unlawful conduct.

It shall be unlawful to fail to comply with or to cause or assist in the violation of any order or any of the provisions of this chapter or the rules and regulations adopted under this chapter or to fail to comply with a nutrient management plan or an odor management plan.

§ 514. Civil penalties and remedies.

(a) Civil penalty.--In addition to proceeding under any other remedy available at law or in equity for a violation of a provision of this chapter or a rule or regulation adopted, order issued or odor management plan or nutrient management plan approved under this chapter, the commission may assess a civil penalty of not more than \$500 for the first day of each offense and \$100 for each additional day of continuing

violation. The factors for consideration in determining the amount of the penalty are:

- (1) The gravity of the violation.
- (2) The potential harm to the public.
- (3) The potential effect on the environment.
- (4) The willfulness of the violation.
- (5) Previous violations.
- (6) The economic benefit to the violator for failing to comply with this chapter.

Whenever the commission finds that a violation did not cause harm to human health or an adverse effect on the environment, the commission may issue a warning in lieu of assessing a penalty where the owner or operator, upon notice, takes immediate action to resolve the violation and come into compliance. If the commission finds the nutrient pollution or the danger of nutrient pollution or the negative impacts from odor associated with new or expanded facilities results from conditions, activities or practices which are being or have been implemented in accordance with a nutrient management plan or odor management plan developed and approved pursuant to and consistent with this chapter and the regulations developed under this chapter and which is being or has been fully implemented and maintained, the owner or operator of the agricultural operation shall be exempt from the imposition of penalties under this chapter.

(b) Collection.--In cases of inability to collect the civil penalty or failure of any person to pay all or a portion of the penalty, the commission may refer the matter to the Office of General Counsel or the Office of Attorney General which shall institute an action in the appropriate court to recover the penalty. Any penalty assessed shall act as a lien on the property of the person against whom the penalty has been assessed.

(c) Civil remedies.--In addition to any other remedies provided for in this chapter, any violation of this chapter, the rules and regulations promulgated under this chapter or any order or nutrient management plan or odor management plan approved under this chapter shall be abatable in the manner provided by law or equity for the abatement of public nuisances. In addition, in order to restrain or prevent any violation of this chapter or the rules and regulations promulgated under this chapter or any order or nutrient management plan or odor management plan approved under this chapter, suits may be instituted in equity or at law in the name of the Commonwealth upon relation of the Attorney General, the General Counsel, the district attorney of any county, the solicitor of any municipality affected or the solicitor of any conservation district, provided that the General Counsel, district attorney or solicitor shall first serve notice upon the Attorney General of the intention to so proceed. These proceedings may be prosecuted in the Commonwealth Court or in the court of common pleas of the county where the activity has taken place, the condition exists or the public is affected, and, to that end, jurisdiction is hereby conferred in law and equity upon these courts. Except in cases of emergency where, in the opinion of the court, the exigencies of the case require immediate abatement of the nuisance, the court may in its decree fix a reasonable time during which the person responsible for the nuisance may make provision for the abatement of same.

(d) Equitable relief.--In cases where the circumstances require it or the public health is endangered, a mandatory preliminary injunction, special injunction or temporary

restraining order may be issued upon the terms prescribed by the court, provided that notice of the application has been given to the defendant in accordance with the rules of equity practice. In any such proceeding the Attorney General, the General Counsel, the district attorney or the solicitor of any municipality or conservation district shall not be required to give bond. In any such proceeding, the court shall issue a prohibitory or mandatory preliminary injunction if it finds that the defendant is engaging in unlawful conduct as defined by this chapter or is engaged in conduct which is causing immediate and irreparable harm to the public. In addition to an injunction, the court in such equity proceeding may assess civil penalties in accordance with this section.

§ 515. Limitation of liability.

If a person is fully and properly implementing a nutrient management plan or an odor management plan approved by the local conservation district or the commission and maintained under this chapter for an agricultural operation, the implementation shall be given appropriate consideration as a mitigating factor in any civil action for penalties or damages alleged to have been caused by the management or utilization of nutrients or the abatement of odor impacts pursuant to the implementation.

§ 516. Enforcement authority; enforcement orders.

(a) **Right of access.**--A duly authorized agent of the commission or a conservation district shall have authority to enter any agricultural operation at reasonable times to conduct such investigations and to take such actions as are necessary to enforce the provisions of this chapter or any order, rule or regulation issued hereunder.

(b) **Duty to grant access.**--Any person owning or operating an agricultural operation shall grant access to any duly authorized agent of the commission or a conservation district pursuant to subsection (a) and shall not hinder, obstruct, prevent or interfere with such agents in the performance of their duties, provided, however, that agents shall perform such reasonable measures and actions as directed by the owner or operator of an agricultural operation as will reasonably and substantially prevent the spread or outbreak of contagious diseases.

(c) **Orders.**--The commission or any conservation district delegated enforcement authority may issue such orders as are necessary to aid in the enforcement of the provisions of this chapter. Any order issued under this section shall take effect upon notice unless the order specifies otherwise. An appeal of the order to the Environmental Hearing Board shall not act as a supersedeas, provided that, upon application for and cause shown, the hearing board may issue such a supersedeas under the rules established by the hearing board.

§ 517. Appealable actions.

Any person aggrieved by an order or other administrative action of the commission issued pursuant to this chapter shall have the right, within 30 days from actual or constructive notice of the action, to appeal the action to the Environmental Hearing Board.

§ 518. Powers reserved under existing laws.

Nothing in this chapter shall limit in any way whatever the powers conferred upon the commission, the department, the Department of Environmental Protection or a conservation district under laws other than this chapter, including, but not limited to, the act of June 22, 1937 (P.L.1987, No.394), known as The Clean Streams Law, and the act of July 7, 1980 (P.L.380, No.97), known as the Solid Waste Management Act, and common

law. All such powers are preserved and may be freely exercised. A court exercising general equitable jurisdiction shall not be deprived of such jurisdiction even though a nuisance or condition detrimental to health is subject to regulation or other action by the board under this chapter.

§ 519. Preemption of local ordinances.

(a) **General.**--This chapter and its provisions are of Statewide concern and occupy the whole field of regulation regarding nutrient management and odor management, to the exclusion of all local regulations.

(b) **Nutrient management.**--No ordinance or regulation of any political subdivision or home rule municipality may prohibit or in any way regulate practices related to the storage, handling or land application of animal manure or nutrients or to the construction, location or operation of facilities used for storage of animal manure or nutrients or practices otherwise regulated by this chapter if the municipal ordinance or regulation is in conflict with this chapter and the regulations or guidelines promulgated under it.

(c) **Odor management.**--No ordinance or regulation of a political subdivision or home rule municipality may regulate the management of odors generated from animal housing or manure management facilities regulated by this chapter if the municipal ordinance or regulation is in conflict with this chapter and the regulations or guidelines promulgated under it.

(d) **Stricter requirements.**--Nothing in this chapter shall prevent a political subdivision or home rule municipality from adopting and enforcing ordinances or regulations which are consistent with and no more stringent than the requirements of this chapter and the regulations or guidelines promulgated under this chapter. No penalty shall be assessed under any such local ordinance or regulation under this subsection for any violation for which a penalty has been assessed under this chapter.

2005 Amendment. Section 5(2) of Act 38 provided that subsection (c) shall take effect on the earlier of the effective date of regulations promulgated under section 504(1.1) or the publication in the Pennsylvania Bulletin of interim guidelines under section 504(2).

§ 520. Repeals.

All acts and parts of acts are repealed insofar as they are inconsistent with this chapter.

§ 521. Other statutes not affected.

This chapter shall not be construed as modifying, rescinding or superseding any other statute or as regulating biosolids and shall be read in pari materia with other statutes. Nothing in this chapter shall limit in any way whatever the powers conferred upon the department, the Department of Environmental Protection and the State Conservation Commission under statutes other than this chapter. All such powers are preserved and may be freely exercised.

§ 522. Regulations.

The Department of Environmental Protection is authorized to adopt such regulations as it deems necessary to its administration and enforcement of this chapter. This includes the authority to establish, by regulation, such fees as are reasonably necessary to fund the implementation and enforcement of this chapter.

(2) The commission may vote to expand the list of best management practices to assure new technological, environmental and scientific advances and discoveries. The commission may consider and make available practices established in statute or regulation to further the purposes of this chapter. Upon establishing a new best management practice, the commission shall submit a notice to the Legislative Reference Bureau for publication in the

Pennsylvania Bulletin. A new best management practice shall take effect upon publication in the Pennsylvania Bulletin.

§ 605. Agriculture-Linked Investment Program.

(a) Eligibility.--An operator who desires to receive an Agriculture-Linked Investment Loan shall submit a loan application to a lending institution. The application shall contain information demonstrating all of the following:

- (1) The applicant is an eligible borrower.
- (2) The best management practice for which the applicant is seeking a loan under this chapter has been approved by the commission or the commission's delegated agent for implementation.

- (1) A lending institution wishing to participate in this program shall enter into an investment agreement with the Commonwealth.
- (2) A lending institution shall accept and review applications for loans from eligible borrowers.
- (3) A lending institution shall apply all usual lending standards, practices and forms to determine the creditworthiness of each eligible borrower.
- (4) Upon the lending institution's approval of an eligible borrower's loan application, the lending institution shall submit to the State Treasurer a request for the transfer of Agriculture-Linked Investment Loan money in an amount equivalent to the amount of the loan approved, along with the application and any supporting documents filed in accordance with subsection (a).
- (5) The State Treasurer shall review the submitted request for the transfer of money and any supporting documentation for completeness prior to the transfer of Agriculture-Linked Investment Loan money to the lending institution.
- (6) Upon determination of the completeness of the request for money and supporting documentation, the State Treasurer shall transfer to the lending institution money equivalent to the amount of the loan approved as follows:
 - (i) if the lending institution is a State depository, the State Treasurer shall deposit the money in a collateralized certificate of deposit in the name of the Commonwealth which, except as provided in this chapter, conforms to the legal requirements for deposits in State depositories; or
 - (ii) if the lending institution is an agricultural credit association affiliated with the Farm Credit Bank, the State Treasurer shall invest the money in bonds, notes, debentures or other obligations or securities issued by the Farm Credit Bank.
- (7) The interest rate payable by lending institutions with respect to Agriculture-Linked Investment Loan money shall be the interest rate on deposits in State depositories as established by the Board of Finance and Revenue from time to time, as otherwise provided by law, reduced by any subsidy that the commission may agree to pay under this chapter.
- (8) Principal balances of Agriculture-Linked Investment Loan money with each lending institution shall be adjusted periodically as follows:

(i) If the lending institution is a State depository, the principal amount of the certificate of deposit shall be adjusted not less than semiannually to reflect the reduction of the principal outstanding on the loan. The interest earned plus an amount equal to the principal repaid by the borrower shall be remitted not less than semiannually by the lending institution to the State Treasurer.

(ii) If the lending institution is an agricultural credit association in conjunction with the Farm Credit Bank, the face value of the bonds, notes, debentures or other obligations or securities outstanding shall, at the option of the State Treasurer, be periodically reduced by payment or redemption to match as nearly as possible the amount of principal outstanding on program loans, and the interest earned shall be payable to the State Treasurer as due in accordance with the terms of the bonds, notes, debentures or other obligations or securities.

(c) Terms of loan for borrowers.--The terms of the loans for borrowers shall be:

(5) The interest rate charged by a lending institution to an eligible borrower may be either a fixed rate for the entire term of the loan or a variable rate which shall be adjusted semiannually to reflect changes in the interest rate established by the Board of Finance and Revenue for deposits in State depositories as otherwise provided by law.

(6) Except as modified by the requirements of this chapter, a lending institution may apply its usual policies and practices with respect to the administration, collection and enforcement of loans issued under this chapter.

(2) Under the agreement, the commission may designate from time to time a block of loans of a certain aggregate dollar amount which the commission wishes to subsidize and shall deposit in advance into a restricted escrow account in the State Treasury an amount estimated by the State Treasurer to be sufficient to make the yield over a 12-year term on the Agriculture-Linked Investment Loan money to be transferred to lending institutions in connection with each designated block of subsidized loans equivalent to the yield

the money otherwise would have earned at interest rates established from time to time by the Board of Finance and Revenue for deposits in State depositories as otherwise provided by law. Withdrawals from the restricted escrow account shall be made by the State Treasurer at the times when interest becomes due and payable from lending institutions on Agriculture-Linked Investment Loan money associated with subsidized loans.

(3) Among its terms, the agreement shall contain provisions:

(i) To require the deposit of additional money into the restricted escrow account when the parties agree that the account balance has become insufficient to fully fund the subsidy.

The department shall authorize and record the adoption and exclusive use of unique identification marks, numbers or devices, including distinctive branding marks, tattoos, microchips and other forms of identification that are affixed upon domestic animals, and shall maintain a registry of such forms of identification. The department may establish through regulations fees for the assignment, registry and exclusive use of forms of identification registered under this subchapter. Any regulations developed under this section shall not conflict with Federal regulations regarding the identification of domestic animals.

§ 2312. Adoption of form of identification.

(a) General authority.--A domestic animal owner may adopt a brand, tattoo or other form of identification with which to identify domestic animals owned by such person through the procedure set forth in this subchapter. A form of identification recorded in compliance with this subchapter shall be considered the personal property of the person who records it. Such person shall have the exclusive right to use this form of identification within this Commonwealth.

(b) Application, facsimile and fee.--A person desiring to adopt a form of identification shall submit an application form, a facsimile of the form of identification and a recording fee of \$25 to the department. Following receipt of the required application, facsimile and fee, the department shall, as promptly as possible, determine whether the form of identification is of record as that of some other person and whether the form of identification conflicts with or closely

resembles that of another person. If neither of these conditions exist, the department shall record the form of identification. If either or both of these conditions exist, the department shall not record the form of identification, but shall instead return the recording fee and facsimile to the applicant.

§ 2313. Certified copies.

(a) **Issuance.**--If a form of identification is recorded, the department shall furnish its owner with two certified copies of the record of the form of identification. Upon receipt of written evidence of the sale, assignment or transfer of a form of identification, the department shall furnish the new owner with two certified copies of the record of the form of identification. Additional copies may be obtained by the payment of \$15 for each copy. This fee may be changed by the department through regulations.

(b) **Filing.**--Within ten days of receiving the two certified copies of the record of the form of identification, the owner of the recorded form of identification shall file one of the certified copies in the office of the county recorder of the county where the owner's principal place of business is located and one copy in each county where domestic animals bearing the recorded form of identification are to be kept. If the form of identification had a prior owner and the prior owner filed a certified copy in any other county, the subsequent owner shall file a certified copy in each county in which the previous owner had filed.

Cross References. Section 2313 is referred to in section 2314 of this title.

§ 2314. Brand, tattoo or other form of identification as proof of ownership.

In all suits at law or in equity or in any criminal proceedings in which the title to domestic animals is an issue, the certified copies recorded pursuant to section 2313 (relating to certified copies) shall be prima facie evidence of the ownership of the domestic animal by the person in whose name the brand, tattoo or other form of identification is recorded.

§ 2315. Disputes in custody or ownership.

Disputes in custody or ownership of domestic animals that bear brands, tattoos or other forms of identification shall be investigated on request by the sheriff of the county where the domestic animals are located. The sheriff may call upon the services of a licensed veterinarian in reading the brands, tattoos or other forms of identification on domestic animals. The cost of the veterinarian's services shall be borne by the person requesting the investigation. The results of the sheriff's investigation shall be a public record and shall be admissible in evidence.

§ 2316. Sale or assignment of form of identification.

Any form of identification recorded pursuant to this subchapter shall be the property of the person causing such record to be made and shall be subject to sale, assignment, transfer, devise and descent as personal property. Instruments of writing evidencing the sale, assignment or transfer of such form of identification shall be recorded by the department. The fee for recording such sale, assignment or transfer shall be \$5. This fee may be changed by the department through regulations.

§ 2317. Violations and penalty.

(e) Other false identification.--It shall be unlawful for any person to place, attach or use on a domestic animal, or to cause to be placed, attached or used on a domestic animal, or to attempt to place, attach or use on a domestic animal, any form of identification such as a brand, tattoo, tag, emblem, marking, microchip or other identifying mark, number or device that such person knows misrepresents the identity or health of the domestic animal, with intent to interfere or deceive in the identification, testing, vaccinating, selling, transfer or slaughter of the domestic animal.

(f) Penalty.--Any person who is convicted of violating any provision of this subchapter shall be guilty of a misdemeanor of the second degree and may be imprisoned for not more than two years and be fined not more than \$5,000.

Additions or deletions

of domestic animal diseases of public health significance to or from the list of dangerous transmissible diseases shall be jointly determined by the department and the Department of Health.

(d) Designation of additional dangerous transmissible diseases through temporary order.--Upon the determination that a transmissible disease not listed in subsection (a) and not designated a dangerous transmissible disease through regulation under subsection (b) presents a danger to public health, to domestic animal health, to the safety or quality of the food supply or to the economic well-being of the domestic animal industries, the department shall issue a temporary order proclaiming that transmissible disease to be a dangerous transmissible disease within the meaning of this chapter. This chapter shall be applicable to that dangerous transmissible disease as of the date of actual or constructive notice of the order or any later date specified in that order. The department shall publish such an order in the Pennsylvania Bulletin within 20 days of its issuance. Publication in the Pennsylvania Bulletin shall effect constructive notice. The temporary order shall remain in effect for a period not to exceed one year, unless reissued, or until the transmissible disease is designated to be a dangerous transmissible disease through regulation under subsection (b), whichever occurs first.

(e) Regulations.--The department may establish regulations addressing the specific discovery, prevention, reporting, testing, control and eradication measures which it determines are necessary with respect to any dangerous transmissible disease.

§ 2322. Neoplastic diseases, metabolic diseases and heritable diseases.

If a neoplastic disease, metabolic disease or heritable disease is determined by the department to pose a threat to domestic animal health or to the economic well-being of the domestic animal industries, then the department may establish regulations addressing any discovery, prevention, reporting, testing, control, eradication or other measures as are necessary to lessen or eliminate the threat.

§ 2323. Health requirements.

(a) Interstate and intrastate movement of domestic animals.--The department may establish identification and minimum health standards for the importation or the intrastate movement of domestic animals in this Commonwealth and may establish procedures for certification of the health status of domestic animals imported into or transported within this Commonwealth. If the department shall suspect the genuineness of any health certificate or official disease test report relating to domestic animals or shall question the competency of the person who shall have issued such report or certificate, the department may decline to accept the same and may refuse to permit the importation or intrastate movement of the domestic animals concerned unless a certificate or report is furnished from the proper inspector of the state or country of origin or USDA-APHIS-VS or unless the department shall otherwise determine.

(b) Violations.--

(1) It shall be unlawful for any person to knowingly, recklessly or negligently import or bring into this Commonwealth without the written permission of the department any domestic animal that is contaminated with a hazardous substance or that is infected with or that has been exposed to any transmissible disease.

(2) It shall be unlawful for any person to knowingly, recklessly or negligently import or bring into this Commonwealth any domestic animal in violation of any of the provisions of this chapter, an order entered under authority of this chapter or any attendant regulation to prevent the introduction of any transmissible disease.

(3) It shall be unlawful for any person to knowingly, recklessly or negligently receive or keep or have in his keeping or possession any domestic animal imported, brought into or transported within this Commonwealth in violation of any of the provisions of this chapter or to allow any such domestic animal to come into contact with any other domestic animal.

(c) Authority to remove or slaughter.--Whenever any domestic animal is imported into this Commonwealth or transported within this Commonwealth in violation of this chapter, the department shall have authority to cause such domestic animal to be removed from this Commonwealth or the domestic animal removed directly to slaughter or destroyed without indemnity.

§ 2324. Safety of domestic animal feed.

(a) General authority.--The department shall have the authority and the duty to protect the food supply of domestic animals in order to prevent the transmission of diseases and substances hazardous to human health or domestic animal health.

(b) Carcasses used for animal feed.--No domestic animal carcass or parts of a domestic animal carcass shall be sold for domestic animal feeding purposes if the meat or meat parts may be hazardous to the health of domestic animals to which such meat or meat parts may be fed.

(c) Garbage used for domestic animal feed.--No garbage may be fed to domestic animals except in accordance with Subchapter G (relating to garbage feeding business).

(d) Regulations.--The department shall establish regulations and standards to assure the safety of materials that are fed to domestic animals.

(e) Licensure.--The department shall provide for the licensure of persons owning or operating facilities, equipment or conveyances utilized in the collection, treatment, preparation and transportation of domestic animal by-products that are used in feed for domestic animals.

(f) Content.--The department may establish standards for the composition of feed for domestic animals, including, but not limited to, antibiotics and chemical additives for the purpose of preventing tissue residues and contamination of domestic animal products by substances hazardous to human health or domestic animal health. Such standards shall be established by regulation.

(g) Prohibition.--Notwithstanding any provision of this chapter to the contrary, a domestic animal or part of a domestic animal which is suspected of carrying a transmissible spongiform encephalopathy shall not be moved without written permission of the department or used in the manufacture or production of domestic animal feed.

§ 2325. Use of biologicals, antibiotics, genetic material, chemicals, diagnostic agents and other substances.

(a) Authority.--The department shall have the authority to regulate the manufacture, sale or administration of any biological product intended for diagnostic, preventive or therapeutic purposes with domestic animals. The department may establish regulations to control the production, sale, distribution or use of biologicals, antibiotics, genetic

material, chemicals and other substances administered to domestic animals.

(b) Testing.--The department may prescribe methods of making official tests and may restrict the use of such tests to authorized accredited veterinarians and agents of the department and USDA-APHIS-VS for diagnosis of diseases of domestic animals. It shall be the duty of each person using restricted tests to report in writing the results of restricted tests to the department. Each report shall be signed by the person who conducted the test and shall give the date of the test, the name and address of the owner of the domestic animal tested, the location where such test was conducted, a description and definitive permanent identification of the domestic animal or domestic animals tested and a complete statement of the actual result of such test. It shall be unlawful for any person whose duty it is to make a report to fail or refuse to do so.

(c) Vaccines.--The department may, in order to prevent or control the introduction or spread of dangerous transmissible diseases, restrict the use of vaccines in domestic animals or cause domestic animals in this Commonwealth to be vaccinated with biologicals according to regulations promulgated under this chapter.

§ 2326. Sanitation.

The department shall have the authority to establish standards of sanitation for the operation and maintenance of any facility, conveyance, equipment, building or other means of housing, containing or transporting domestic animals. Sanitation standards shall be established to minimize the possible transmission of dangerous transmissible diseases.

§ 2327. Disease surveillance and detection.

(a) General authority.--The department shall have the authority to regularly monitor the domestic animal population of this Commonwealth to determine the prevalence, incidence and location of transmissible diseases or contamination by hazardous substances.

(b) Duty to report.--It shall be the duty of every practitioner of veterinary medicine and every diagnostic laboratory in this Commonwealth, immediately upon receiving information thereof, to report to the department each case of any dangerous transmissible disease and each case of potential contamination by substances declared hazardous by the department.

(c) Violations.--

(1) It shall be unlawful for any person to impede, hinder or interfere with the testing of a domestic animal or to refuse to confine a domestic animal so as to allow testing without undue burden on the official conducting the test or to fail to present the person's domestic animals for testing by the department under authority of this chapter after reasonable notice of the proposed testing has been given.

(2) It shall be unlawful for any person who has knowledge that a domestic animal is infected with a dangerous transmissible disease or has been exposed to a dangerous transmissible disease or has been contaminated by a hazardous substance to conceal or attempt to conceal such domestic animal or knowledge of such a domestic animal from the department.

(d) Wild animals.--The department shall have the authority to solicit assistance from and provide assistance to Federal and other State agencies, local governments and private entities in monitoring wild animals in this Commonwealth to determine

the presence of dangerous transmissible disease. This monitoring may be done in cooperation with the Pennsylvania Game Commission, the Pennsylvania Fish and Boat Commission, the United States Fish and Wildlife Service or any other private or governmental entity.

§ 2328. Entry on premises.

In the performance of the duties required by this chapter, the department may at any time enter any premises or stop and detain any vehicle or conveyance. If entry shall be refused or delayed by any person, the department's employee or agent may, upon oath or affirmation, declare before a court of competent jurisdiction that the employee or agent has reason to believe that domestic animals or articles that are or have been confined or kept in or on such premises carry a dangerous transmissible disease, have been exposed to a dangerous transmissible disease or have been contaminated by a hazardous substance and shall further declare that permission to enter and to investigate has been refused or delayed to the department. Upon review of such declaration, the court of jurisdiction may issue a search warrant for such premises, directed to the proper officer, agent or employee. The search warrant shall describe the premises which may be searched under authority of the search warrant, but need not describe the domestic animal, domestic animal products or other articles which are alleged to carry a dangerous transmissible disease, to have been exposed to a dangerous transmissible disease or to have been contaminated by a hazardous substance, which are or have been confined or kept on such premises. An officer, agent or employee of the department armed with such a search warrant shall have all the authority of a constable or other peace officer in the execution of the warrant. It shall be unlawful for any person to refuse or delay admission to any premises to any officer, agent or employee of the department provided with a search warrant issued pursuant to this section. The department shall take appropriate biosecurity and safety measures to ensure that it does not allow dangerous transmissible disease or contamination from hazardous substances to spread as the result of its entry upon any premises or conveyance.

§ 2329. Quarantine.

(a) Power to establish and enforce.--Whenever a dangerous transmissible disease or contamination by hazardous substances exists anywhere within or outside of this Commonwealth, or whenever it is deemed advisable to test or treat any domestic animal upon the reasonable suspicion that it has contracted or been exposed to a dangerous transmissible disease or is contaminated with a hazardous substance, or whenever the testing or treatment of a domestic animal indicates that the domestic animal has been exposed to a dangerous transmissible disease or contaminated with a hazardous substance so as to render future accurate testing for recent exposure of that domestic animal to that dangerous transmissible disease or hazardous substance impractical or impossible, the department shall have the power to establish and enforce quarantines of any such infected, exposed, contaminated, suspected or susceptible domestic animal. In addition to the aforescribed domestic animals, a quarantine may apply to any goods, products, facilities, containers, vehicles or materials that may carry dangerous transmissible disease or that may be contaminated with a hazardous substance and may be applied on or in or against any premises, area or locality as defined in this chapter.

(b) Type and duration.--Quarantines shall be of three kinds:

- (1) interstate and/or international;
- (2) general; and
- (3) special;

and shall continue in effect for such lengths of time as the department deems necessary or advisable.

(c) Interstate and international quarantines.--

(1) An interstate or international quarantine may be established and enforced by order of the department against any place or places outside this Commonwealth for any of the reasons set forth in subsection (a) or where dangerous transmissible diseases or hazardous substances are reported to exist. An interstate or international quarantine order may prohibit the bringing of any domestic animals, conveyances, containers, goods, products or materials into this Commonwealth except in accordance with the requirements set forth in the quarantine order. The order may require the quarantine, testing, treatment, killing or other disposition of any domestic animal brought into this Commonwealth in violation of the order and may require the quarantine, disinfection or destruction of goods, products, conveyances, materials or containers brought into this Commonwealth in violation of the order. The order may also require that a person importing domestic animals in violation of the order bear the expenses of postentry requirements of this chapter.

(2) An interstate or international quarantine shall be established by order of the department and shall be effective as of the date of actual or constructive notice of the order or any later date specified in that order.

(3) Notices and copies of the order establishing an interstate or international quarantine shall be advertised in the Pennsylvania Bulletin within 20 days of the date of the order, in at least one newspaper of general circulation within this Commonwealth and in at least one newspaper of general circulation in the state(s) or nation(s) against which the quarantine is directed. Publication in the Pennsylvania Bulletin shall effect constructive notice. The department shall, if practicable, mail or deliver notice and a copy of the quarantine order to the governmental agency or agencies overseeing agricultural affairs in the state(s) or nation(s) against which the quarantine is directed. The quarantine order may be enforced prior to such publication or distribution.

(d) General quarantines.--

(1) A general quarantine may be established and enforced by order of the department against any area or locality within this Commonwealth for any of the reasons set forth in subsection (a) to prevent a dangerous transmissible disease or a domestic animal contaminated by a hazardous substance from being carried into, within, from or out of the area or locality that is subject to the quarantine. A general quarantine order may include any domestic animals, conveyances, containers, goods, products or materials that may carry dangerous transmissible disease or domestic animals that are contaminated with a hazardous substance and may include any area or locality, including all buildings, structures, premises and equipment located therein.

(2) A general quarantine shall be established by order of the department and shall be effective as of the date of actual or constructive notice of the order or any later date specified in that order.

(3) Notices and copies of the order establishing a general quarantine shall be advertised in the Pennsylvania

Bulletin within 20 days of the date of the order and in at least one newspaper of general circulation within the area or locality subject to the quarantine. Publication in the Pennsylvania Bulletin shall effect constructive notice. The quarantine order may be enforced prior to such publication.

(e) Special quarantines.--

(1) A special quarantine may be established and enforced by order of the department against any premises, domestic animals, conveyances, containers, goods, products or materials situated within this Commonwealth for any of the reasons set forth in subsection (a) or whenever it is deemed necessary or advisable by the department to prevent or control the spread of a dangerous transmissible disease; control a domestic animal contaminated by a hazardous substance; control any domestic animal; examine or disinfect or regulate the use of any premises, materials, conveyances, goods, containers or products; or destroy or dispose of the carcass of any dead domestic animal.

(2) A special quarantine shall be established by the posting of a quarantine order describing the domestic animal or domestic animals and any conveyances, containers, goods, materials, products or premises covered by the special quarantine. The quarantine notice shall be conspicuously posted so as to alert any visitor to the quarantined premises of the probable presence of a dangerous transmissible disease or domestic animals contaminated by hazardous substances.

(3) If practicable, the department shall serve a copy of the special quarantine order upon the owner or caretaker of the domestic animals, premises or other property subject to the order. The department shall have authority to make available to interested persons the names and locations of premises subject to special quarantine.

(f) Violations of quarantine.--

(1) It shall be unlawful for any person to sell, offer for sale, lease, lend, exchange, give away, transfer, remove or allow to be removed any animals or animal products, goods, materials, containers, conveyances or other articles that are the subject of a general or special quarantine order under this section without first obtaining the written permission of the department to do so.

(2) It shall be unlawful for any person to allow a domestic animal that is the subject of a general or special quarantine order under this section to stray beyond the quarantined premises, area or locality.

(3) It shall be unlawful for any person to transfer ownership of any animal or animal product that is the subject of a general or special quarantine order under this section without first notifying the prospective or actual transferee of the quarantine order and the reasons for the imposition of quarantine.

(4) It shall be unlawful for any person to use or prepare as food for humans or domestic animals any domestic animal or domestic animal product that is the subject of a general or special quarantine order under this section without first obtaining the written permission of the department to do so. Such permission shall be granted in accordance with any applicable guidelines established by the department.

(5) It shall be unlawful for any person to tear, deface, destroy, remove, conceal or alter in any way any notice of quarantine posted by the department or to remove or destroy, partially or wholly, any portion of a building, tree, fence

or other object to which a notice of quarantine has been posted by the department.

(6) It shall be unlawful for any person to bring into this Commonwealth any domestic animals, containers, goods, products, conveyances or materials that are the subject of an interstate or international quarantine order under this section.

(7) It shall be unlawful for any person to impede, hinder or interfere with the department entering upon premises or elsewhere in the performance of duties imposed by this subchapter.

(8) It shall be unlawful for any person to violate any provision of a quarantine order issued under this section.

§ 2330. Condemnation.

The department shall have the authority to condemn and seize or cause to be destroyed any quarantined domestic animal, domestic animal product, conveyance or other quarantined article that has been determined by the department as having been exposed to a dangerous transmissible disease or a hazardous substance such that destruction of the domestic animal, domestic animal product, conveyance or other article is necessary to prevent the spread of such disease or contamination.

§ 2331. Indemnification.

(a) **In general.**--Whenever a condemned domestic animal, domestic animal product or other condemned property is slaughtered or destroyed by order of the department to eradicate or prevent the spread of dangerous transmissible disease or contamination by a hazardous substance, the department may compensate the owner of such domestic animal, domestic animal product or other condemned property for a portion of the appraised value of the domestic animal or property and may compensate a person for cleanup costs and disposal costs or a portion thereof, provided that such compensation is made in accordance with this section. Notwithstanding the definition of "owner" set forth in section 2303 (relating to definitions), indemnification payments and payments of cleanup costs and disposal costs made under this section shall be made only to those persons who have an actual ownership interest in the domestic animal or other property that is the subject of the indemnification payment.

(b) **Indemnification limits.**--

(1) The amount of indemnity paid by the department shall not exceed \$2,000 with respect to any individual domestic animal.

(2) The amount of indemnity paid by the department with respect to domestic animals condemned under authority of this chapter shall not exceed the sum of \$200,000 for any group of domestic animals, regardless of the number of owners having domestic animals within such group of condemned domestic animals.

(3) The maximum amount of indemnity paid by the department shall not exceed 67% of the appraised value of the condemned domestic animal, domestic animal product or other condemned property for which indemnification is sought.

(4) The amount of indemnity paid by the department to the owner of domestic animals condemned under authority of this chapter plus the salvage value and the value of indemnity payments received from any other source shall not exceed 90% of the appraised value of such domestic animals.

(5) The amount of indemnity which the department may pay under this section shall be limited by the availability of funds for this purpose.

(6) Funds for indemnification under this section may not be paid by the department to indemnify owners of condemned cats and dogs.

(b.1) Cleanup costs and disposal costs.--

(1) The department may pay cleanup costs and disposal costs incurred on or after October 1, 2001, but prior to the effective date of this subsection if the cleanup and disposal activities generating the costs are agreed upon in writing between the department and the person incurring the costs.

(2) The department may pay cleanup costs and disposal costs incurred on or after the effective date of this subsection if the cleanup and disposal activities generating the costs are agreed upon in writing between the department and the person incurring the costs in advance of the performance of the activities.

(3) The amount of cleanup costs and disposal costs which the department may pay under this section shall be limited by the availability of funds for this purpose.

(c) Forfeiture.--A person shall not be eligible for any indemnity payment, depopulation incentive payment, cleanup cost payment or disposal cost payment under this chapter for any domestic animal, group of domestic animals, domestic animal product or other article if such person has been determined by the department to have committed a violation of any provision of this chapter or order, rule or regulation adopted under authority of this chapter that has resulted in the condemnation for which indemnity would be paid. A person shall not be eligible for any indemnity payment, depopulation incentive payment, cleanup cost payment or disposal cost payment with respect to any domestic animal or group of domestic animals having a condition of disease or contamination which the department has determined to have been directly caused by the person's willful misuse of a pesticide or a hazardous substance.

(d) Appraisal.--Whenever the department condemns domestic animals, domestic animal products or other articles, the value of such animals, products and articles shall be appraised. No domestic animal that is dead shall be appraised, and no indemnity shall be payable for such domestic animal, except that a domestic animal that dies after condemnation by the department may be appraised on the basis of its condition at the time of condemnation and indemnity may be paid with respect to such a domestic animal. The department shall determine the appraised value of the condemned domestic animal, products or articles taking into consideration the current market values, age of the animal, physical condition of the animal, its condition as to disease, nature and extent of disease, breeding value, milk production value, salvage value of the animal and any other factors which may influence value. If the department and the owner of the condemned domestic animals, domestic animal products or other articles are unable to agree on the appraised value of the domestic animals, products or articles, then the department and the owner may appoint a mutually agreeable appraiser to determine the appraised value. Costs of such an appraisal shall be borne by the owner. In the absence of such a mutually agreeable appraiser, the department's determination of the appraised value shall control.

(e) Disposal of condemned domestic animal.--A domestic animal that has been condemned by the department and is eligible for indemnity under this chapter shall be disposed of by the owner, under the supervision of the department, in accordance with the laws of this Commonwealth and regulations adopted by the department. When condemned domestic animals are approved

by the department for salvage, the salvage value shall be paid directly to the owner by the buyer of the live domestic animal or the buyer of the carcass, hide, offal or other by-product. The buyer shall promptly present an itemized statement of the salvage value to the department to determine the amount, if any, due from the department to the owner.

§ 2332. Depopulation incentive.

(a) Generally.--If a domestic animal, domestic animal product or other property has not been condemned under authority of this chapter, the department shall have the discretion to pay to the owner of any domestic animal or other property a sum which shall not exceed 33% of the appraised value of that domestic animal or other property and may compensate a person for cleanup costs and disposal costs or a portion thereof in consideration of that owner or other authorized person voluntarily slaughtering or destroying that domestic animal or other property and implementing cleanup and disposal measures in accordance with this chapter and with the prior agreement of the department. This discretion may be exercised only upon the department's determination that the destruction and disposal of the domestic animal or other property serves to protect public health, the safety or quality of the food supply or the economic well-being of domestic animal industries. Payment of a depopulation incentive under this section is limited by the availability of funds for this purpose.

(b) Limits.--A depopulation incentive payment shall not exceed \$2,000 with respect to any individual domestic animal. A depopulation incentive payment plus the salvage value and any other compensation received from other sources shall not exceed 90% of the appraised value of the domestic animal or other property that is the subject of the depopulation incentive payment. Notwithstanding the definition of "owner" in section 2303 (relating to definitions), depopulation incentive payments made under this section shall be made only to those persons who have an actual ownership interest in the domestic animal or other property that is the subject of the depopulation incentive payment.

(c) Cats and dogs.--The department may not make depopulation incentive payments for cats and dogs.

§ 2333. Restriction on payment of indemnification and depopulation incentive.

(a) Generally.--Notwithstanding any other provision of law, indemnification under section 2331 (relating to indemnification) and depopulation incentive under section 2332 (relating to depopulation incentive) shall be paid only for domestic animals.

(b) Avian influenza.--Notwithstanding any other provision of law, whether a domestic animal, domestic animal product or

other property is condemned by the department and slaughtered or destroyed under section 2331 or voluntarily slaughtered or destroyed by the owner under section 2332 to eradicate or prevent the spread of avian influenza, the amount payable by the department shall in all cases be the same percentage of appraised value as determined by the department. All other provisions of sections 2331 and 2332 shall apply to any payment under this subsection.

§ 2334. Report on insurance or cost-sharing program.

On or before 12 months from the effective date of this chapter, the department shall submit to the Agriculture and Rural Affairs Committee of the Senate and the Agriculture and Rural Affairs Committee of the House of Representatives a report on the feasibility of establishing an insurance or other cost-sharing program in lieu of indemnification under section 2331 (relating to indemnification) to compensate owners of domestic animals which are condemned and destroyed by the department to prevent the spread of disease or contamination.

§ 2335. Contract growers.

On or before 12 months from the effective date of this chapter, the department shall submit to the Agriculture and Rural Affairs Committee of the Senate and the Agriculture and Rural Affairs Committee of the House of Representatives a report regarding the feasibility of paying a portion of the indemnification or depopulation incentive to a person who raises domestic animals under contract for the owner of such animals and a portion to the owner when the domestic animals are condemned and destroyed to prevent the spread of a transmissible disease or hazardous substance. In preparing the report, the department shall consider ways in which the owner and the person under contract to the owner would share the indemnification or the depopulation incentive in proportion to the loss which each incurred.

§ 2342. License of dealers and haulers.

(a) Requirement.--No person shall engage in or carry on the business of a dealer or hauler of domestic animals or of dead

domestic animals or act as an agent for a dealer or hauler, unless such person is duly licensed by the department. With respect to dealers of dogs, the requirements of this subchapter are in addition to the requirements under the act of December 7, 1982 (P.L.784, No.225), known as the Dog Law.

§ 2343. Licensure of agents.

(a) General rule.--Except as provided in subsection (b), a domestic animal or dead domestic animal dealer or hauler who applies for or holds a dealer's or hauler's license may designate any person to act as an agent on behalf of that dealer or hauler. The designation shall be made either on the domestic animal or dead domestic animal dealer's or hauler's license application form or by a written notice to the department requesting the issuance of an agent's license. The department may require such additional information as is necessary to determine the identity, competency and eligibility of an applicant for an agent's license. A dealer or hauler shall be accountable and responsible for contracts made by any of its licensed agents.

(b) Exception.--Notwithstanding subsection (a), a dealer of dogs may not designate a person to act as an agent on behalf of the dealer.

§ 2344. Verification of application.

(2) the applicant or licensee has made false or misleading statements or has fraudulently misrepresented the health or physical condition of domestic animals with regard to official tests or quantity of domestic animals or in the buying or receiving of domestic animals or in the receiving, selling, exchanging or shipping of domestic animals, including soliciting or negotiating the sale, resale, exchange or shipment of domestic animals;

(3) the applicant or licensee has engaged in a continued course of dealings of such a nature as to satisfy the department of the inability or unwillingness of the applicant or licensee to properly conduct the business of a dealer, hauler or agent in accordance with the requirements of this chapter;

§ 4112. General testing and inspections.

(a) **Schedule.**--When not otherwise provided by law, the department shall have the powers to inspect and test to ascertain if they are correct all weights and measures kept, offered or exposed for sale. It shall be the duty of the department within a 12-month period, or less frequently if in accordance with a schedule issued by it or more frequently if deemed necessary, to assure that all weights and measures commercially used:

(1) in determining the weight, measurement or count of commodities or things sold, offered or exposed for sale on the basis of weight, measure or count; or

(2) in computing the basic charge or payment for services rendered on the basis of weight, measure or count or of devices utilized to dispense services on time; are inspected and tested to ascertain if they are correct. With respect to single-service devices, that is, devices designed to be used commercially only once and to be then discarded, and with respect to devices uniformly mass produced, as by means of a mold or die and not susceptible to individual adjustment, tests may be made on representative samples of such devices and the lots of which such samples are representative shall be held to be correct or incorrect upon the basis of the results of the inspections and tests on such samples.

(b) **Inspections.**--Notwithstanding subsection (a), it shall be the duty of the department at intervals not greater than 18 months, to assure that all commercially used vehicle scales, truck-mounted fuel oil meters, truck-mounted liquid petroleum gas meters, compressed natural gas meters and retail motor fuel dispensers are inspected and tested to ascertain if they are correct. The department may accept reports of Certified Examiners of Weights and Measures as sufficient to meet the inspection and testing regulations promulgated under section

4110(a)(4) (relating to specific powers and duties of department; regulations), provided such inspection and testing is performed in accordance with all applicable standards and procedures adopted under section 4110(a)(4), provided that inspectors shall conduct inspection and testing of a sample of devices inspected and tested by Certified Examiners of Weights and Measures.

(b.1) Time.--Unless the department is responding to a consumer complaint, the department shall conduct inspections of truck-mounted fuel oil meters at a mutually agreed upon time. The mutually agreed upon time shall not unreasonably interfere with the delivery of fuel oil during winter months. Both parties shall make a good faith effort to schedule the inspections.

(b.2) Inspection of parking meters.--Notwithstanding subsections (a) and (b), if a local government unit, authority organized by a local government unit or person makes use of parking meters, it shall be the duty of the local government unit, the appropriate authority or the person at intervals not greater than 60 months to assure that all such parking meters are inspected and tested to ascertain if they are correct. The local government unit, appropriate authority or person may accept reports of certified parking meter inspectors as sufficient to meet the inspection and testing requirements of this subsection. The department shall make investigations of parking meters under section 4116 (relating to investigations).

(c) General testing and inspection of scanning devices.--Notwithstanding any other provision of this chapter to the contrary, the department shall test and inspect all commercially used Universal Product Code scanning systems and Price Look Up devices at intervals not greater than 36 months to ascertain if they are correct. A city or county may test and inspect such devices and systems if specified in its memorandum of understanding entered into with the department in accordance with section 4125 (relating to division of responsibilities). Such devices and systems shall be exempt from the triennial testing and inspection requirements of this subsection if the device or system is inspected at least annually on an unannounced basis as part of a private certification program which conforms with the examination procedures for price verification as adopted by the National Conference of Weights and Measures.

(d) Interim procedures.--In order to facilitate the speedy implementation of subsection (c), the department shall promulgate, adopt and use guidelines to provide for the certification of individuals to test and inspect all commercially used Universal Product Code scanning systems and Price Look Up devices. The guidelines shall be published in the Pennsylvania Bulletin. The guidelines shall not be subject to review pursuant to section 205 of the act of July 31, 1968 (P.L.769, No.240), referred to as the Commonwealth Documents Law, and sections 204(b) and 301(10) of the act of October 15, 1980 (P.L.950, No.164), known as the Commonwealth Attorneys Act, or the act of June 25, 1982 (P.L.633, No.181), known as the Regulatory Review Act, and shall be effective for a period of not more than two years. After the expiration of the two-year period, the guidelines shall expire and shall be replaced by regulations which shall be promulgated, adopted and published as provided by law. Nothing in this chapter shall be construed to relieve the department of the responsibility, prior to June 30, 1999, to conduct tests and inspections of all commercially used Universal Product Code scanning systems and Price Look Up

devices on a periodic basis and in response to complaints and to initiate appropriate enforcement actions.

In cities of the first class, the sealers shall be appointed by the county commissioners of the county in which the said city may be located. Nothing in this section shall be construed to prevent two or more counties, or any county and city, from combining the whole or any part of their jurisdictions, as may be agreed upon by the board of county commissioners and mayors of cities, with one set of standards and one sealer upon the written consent of the department. Each memorandum of understanding shall be reviewed and updated annually and may be revoked in whole or in part by the department in the event the department determines that the city or county sealer enforcement program does not satisfy the standards and requirements established by the department as necessary to assure uniform Statewide enforcement of this chapter. In reaching agreements to enter into memorandums of understanding with counties and cities employing sealers of weights and measures, the provisions of this chapter and its regulations shall be considered as establishing uniform requirements, regulations and standards for weights and measures and weighing and measuring devices throughout this Commonwealth.

(b) Reports.--Each city and county sealer shall annually and at such other times as the department may require submit to the department a written report of the work performed by him, of the weights, measures and weighing and measuring devices inspected or tested by him and the results of such inspection or test, of all prosecutions instituted by him for violations of the provisions of this chapter and of all other matters and things pertaining to his duties or which may be required by the department.

Liquid commodities may be sold by weight, and commodities not in liquid form may be sold by count only if

such methods give accurate information as to the quantity of commodity sold.

(b) Applicability.--The provisions of this section shall not apply to:

- (1) commodities when sold for immediate consumption on the premises where sold;
- (2) vegetables when sold by the head or bunch;
- (3) commodities in containers standardized by Federal or State law;

- (3) In the case of any package kept, offered or exposed for sale or sold any place other than on the premises where packed, the name and place of business address of the manufacturer, packer or distributor as may be prescribed by regulation issued by the department, provided that, in connection with the declaration required under paragraph (2), neither the qualifying term "when packed" or any words of similar import nor any term qualifying a unit of weight, measure or count (for example, "jumbo," "giant," "full" and the like) that tends to exaggerate the amount of commodity in a package shall be used.

(b) Reasonable variations.--Under subsection (a)(2), the department shall, by regulation, establish:

- (1) Reasonable variations to be allowed which may include variations below the declared weight or measure caused by ordinary and customary exposure only after the commodity is introduced into intrastate commerce to conditions that normally occur in good distribution practice and that unavoidably result in decreased weight or measure.
- (2) Exemptions as to small packages.
- (3) Exemptions as to commodities put up in variable weights or sizes for sale intact and either customarily not

sold as individual units or customarily weighed or measured at time of sale to the consumer.

§ 4131. Advertising packages for sale.

(a) Quantity of contents.--Whenever a commodity in package form is advertised in any manner and the retail price of the package is stated in the advertisement, there shall be closely and conspicuously associated with such statement of price a declaration of the basic quantity of contents of the package as is required by law or regulation to appear on the package.

(b) Exaggerations prohibited.--In connection with the declaration required under this section, there shall be declared neither the qualifying term "when packed" nor any other words of similar import nor any term qualifying a unit of weight, measure or count (for example, "jumbo," "giant," "full" and the like) that tends to exaggerate the amount of commodity in the package.

(c) Dual declaration.--Where the law or regulation requires a dual declaration of net quantity to appear on the package, only the smaller of the two units of weight or measure need appear in the advertisement.

§ 4132. Sale by net weight.

The word "weight" as used in this subchapter in connection with any commodity shall mean net weight. Whenever any commodity is sold on the basis of weight, the net weight of the commodity

shall be employed, and all contracts concerning commodities shall be so construed.

(a) **Pricing.**--Whenever any commodity or service is sold or is offered, exposed or advertised for sale by weight, measure or count, the price shall not be misrepresented nor shall the price be represented in any manner calculated or tending to mislead or deceive an actual or prospective purchaser.

(b) **Unit of weight.**--Whenever an advertised, posted or labeled price per unit of weight, measure or count includes a fraction of a cent, all elements of the fraction shall be prominently displayed, and the numeral or numerals expressing the fraction shall be immediately adjacent to, of the same general design and style as and at least one-half the height and width of the numerals representing the whole cents.

(a) **Requirement.**--Except as otherwise provided in this subchapter, no person shall make or issue a weighmaster's certificate unless licensed by the department. Application for a license shall be made upon a form prescribed by the department. The application shall contain the following:

- (1) The name and address of the business or businesses for which the public weighmaster will be conducting weighing.
- (2) The name and address of the residence of the applicant.
- (3) The scale locations where weighing will be conducted by the weighmaster.

(b) **Referral.**--The department may refer any application for a license as a weighmaster to any city or county inspector of weights and measures for a report as to the accuracy of the statements made on the application, the suitability of the scale or scales to be used by the applicant and such other information as the department may require.

(c) **Fee.**--The applicant shall pay to the department a license fee of \$60, which shall be remitted to the State Treasurer through the Department of Revenue. The license shall be for a period of two years from the date of issue. (f) Records.--The department shall keep a record of all applications received and of all licenses issued.

(g) Rules.--The department may adopt rules for determining the qualifications of an applicant for a license as a licensed public weighmaster.

§ 4152. Weighmasters' certificates.

The original weighmaster's certificate shall be typewritten or made out in ink or indelible pencil, and the original and each copy of the certificate shall show all of the following:

- (1) The kind and size of the commodity.
- (2) The name and address of the seller.
- (3) The name and address of the purchaser.
- (4) The license number of the vehicle and trailer or other means of permanent identification.

- (6) The date and hour when weighed.
- (7) The gross weight in avoirdupois pounds of the vehicle and the load, the tare weight and net weight of the commodity, and, where the load is divided into lots, the net weight of each lot. All the information under the paragraph must be determined by the same weighmaster in accordance with the rules and regulations of the department.
- (8) A sequential serial number.

§ 4153. Preparation of weighmaster's certificate.

A licensed public weighmaster shall not enter on a weighmaster's certificate issued by the weighmaster any weight values which the weighmaster has not personally determined, and the weighmaster shall make no entries on a weighmaster's certificate issued by another person. A weighmaster's certificate shall be so prepared as to show clearly what weight or weights were actually determined. If the certificate form provides for the entry of gross, tare and net weights in any case in which only the gross, the tare or the net weight is determined by the weighmaster, he shall strike through or otherwise cancel the printed entries for the weights not determined or computed. If gross and tare weights are shown on a weighmaster's certificate and both of these were not determined on the same scale and on the day for which the certificate is dated, the weighmaster shall identify on the certificate the scale used for determining each weight and the date of each determination.

§ 4154. Use of approved weighing device required.

When making a weight determination as provided for by this subchapter, a licensed public weighmaster shall use a weighing device approved by the bureau in accordance with Subchapter D (relating to device type approval) which is of a type suitable for the weighing of the amount and kind of material to be

weighed and which has been tested and approved for use by a weights and measures officer of this Commonwealth preceding the date of the weighing.

§ 4155. Scale requirement.

A licensed public weighmaster shall not use a scale to weigh a load which exceeds the normal or rated capacity of the scale, nor shall the public weighmaster engage in multiple-draft weighing where the vehicle exceeds the length of the scale.

§ 4156. Disposition of copies of certificates.

The original copy of a weighmaster's certificate shall be delivered to the purchaser of the commodity specified in the certificate at the time of delivery. One copy of the certificate shall be retained at the place of weighing, and one copy may be retained by the business selling or delivering the commodity. Copies of weighmasters' certificates in possession of licensed weighmasters shall be retained for a period of two years and, during business hours, shall be subject to inspection or subpoena for use as evidence by any State, county or city inspector of weights and measures.

§ 4157. License required; definition.

(a) **License required.**--No person shall assume the title "licensed public weighmaster" or any title of similar import, perform the duties or acts to be performed by a licensed public weighmaster under this subchapter, hold himself or herself out as a licensed public weighmaster, issue any weighmaster's certificate, ticket memorandum or statement or engage in the full-time or part-time business of public weighing unless he holds a valid license as a licensed public weighmaster.

(b) **Definition.**--As used in this section, the term "public weighing" means the weighing of any commodity for any commercial purpose.

§ 4158. Suspension or revocation of licenses.

(a) **Authorization.**--The department is authorized to suspend or revoke the license of any licensed public weighmaster:

(1) when it is satisfied, after a hearing, upon ten days' notice to the licensee, that the licensee has violated any provision of this subchapter or of any valid regulation of the department affecting licensed public weighmasters; or

(2) when a licensed public weighmaster has been convicted in any court of competent jurisdiction of violating any provision of this subchapter or any regulation issued under authority of this subchapter.

(b) **Petition for hearing de novo.**--Any licensee whose license is suspended or revoked may, within 30 days after notice of the suspension or revocation, file a petition in the Commonwealth Court for a hearing de novo to determine whether the action of the department is lawful and reasonable. The court shall hear the petition and may make any appropriate order or decree.

§ 4159. Prohibited acts.

(a) **General rule.**--It shall be unlawful:

(1) For a weighmaster to issue a false or incorrect weighmaster's certificate.

(2) For a person to solicit a weighmaster to issue a false or incorrect weighmaster's certificate.

(3) For a person to use or issue a weighmaster's certificate except one prepared on a form issued or approved by the department.

(4) For a person to print or distribute any forms of weighmaster's certificates unless authorized to do so by the department.

(5) For a person to use a false or incorrect weighmaster's certificate or a weighmaster's certificate not bearing the signature and license number of a licensed weighmaster and the license number of the vehicle and trailer or other means of permanent identification.

(6) For a weighmaster knowingly to permit a weighmaster's certificate to be issued or used which purports to bear the weighmaster's signature and which was not in fact signed by the weighmaster at a time of weighing or which expresses a gross, tare or net weight not ascertained by the weighmaster.

(7) For a person to deliver solid fuel without an official weighmaster's certificate.

(8) For a person to furnish a false name or address of a purchaser to the licensed weighmaster at the time of weighing.

(9) For a person to permit any diminution of a load before its delivery to the purchaser or purchasers of the load.

(10) Except as otherwise provided in this subchapter, for a person to fail, neglect or refuse to deliver a correct and lawful weighmaster's certificate to the purchaser of a commodity whose name and address appears on the weighmaster's certificate.

(11) For a person to otherwise directly or indirectly violate a provision of this subchapter.

(b) Prima facie evidence of short weight.--Whenever any commodity is sold and delivered to the purchaser named in the approved weighmaster's certificate and the seller or the seller's representative neglects, fails or refuses to deliver an approved weighmaster's certificate at the time of delivery or the net weight of the commodity is determined to be less than the net amount stated on the approved weighmaster's certificate or as otherwise represented to the purchaser, prima facie evidence of short weight shall exist, and the seller may be prosecuted under this section for short weight.

(c) Prima facie evidence of diminution of load.--Whenever the gross weight of a vehicle and load and the tare weight and net weight of a commodity have been determined in accordance with the provisions of this subchapter and the net weight of the commodity is determined to be less than that stated in a weighmaster's certificate, proof of the determination shall constitute prima facie evidence of the diminution of the load of the commodity before delivery to the purchaser.

§ 4160. Sales by weight.

Any commodity shall be duly weighed by a licensed weighmaster of this Commonwealth on accurate scales which are suitable for weighing the tare and gross weight of the vehicle or vehicle and trailer transporting the commodity and which are located in this Commonwealth and have been tested and approved by an official empowered by law to test the scales. Weighing shall be done by a licensed weighmaster at the time of sale or delivery.

§ 4161. Separation required.

When more than one type of solid fuel or other commodity is sold or delivered to a consumer, the vehicle making the delivery shall have a partition separating each type of solid fuel or other commodity, and each type shall be accompanied by a weighmaster's certificate, except as otherwise provided for in this subchapter.

§ 4162. Substitution of another purchaser in weighmaster's certificate.

If a person is, for practical reasons, unable to deliver a commodity to the purchaser originally designated in the weighmaster's certificate, the person may substitute the name and address of another purchaser, provided that a report of the substitution is made to the licensed weighmaster within 24 hours.

§ 4163. Authorization to inspect and direct to nearest scales.

Any State, county or city inspector of weights and measures who finds any commodity ready for or in process of delivery may inspect the commodity as to its weight and may direct the person in charge of the delivery of the commodity to convey the commodity to the nearest available scales operated by a weighmaster designated by the inspector. The inspector shall determine the gross weight of the commodity and the vehicle on which it is carried and shall direct the person in charge to return to the scales immediately upon unloading the commodity. Upon return of the vehicle, the inspector shall determine the weight of the vehicle without load and determine the net weight of the load delivered. The person in charge of a vehicle containing such a commodity or from which the commodity has been unloaded shall not fail to take the vehicle, upon the direction of the inspector of weights and measures, to the scales required in this section and shall not refuse to permit the commodity or vehicle to be weighed.

§ 4164. Weighmaster's certificate required.

(a) **General rule.**--No person shall sell, transport over a public highway, deliver or cause to be delivered or start out to deliver any solid fuel in a lot or lots in amounts exceeding 100 pounds without each lot in each separate compartment of the vehicle or vehicle and trailer being accompanied by a weighmaster's certificate issued by a licensed weighmaster of this Commonwealth. This subsection does not apply when weighing takes place at the point of delivery or sale.

(b) **Exception.**--This section shall not apply to a producer of solid fuel who furnishes proof, satisfactory to the department or to an inspector of weights and measures, that the solid fuel being transported comes from the producer's own mine, is the producer's own property and is being transported for a purpose other than for sale.

Cross References. Section 4164 is referred to in sections 4165, 4166 of this title.

§ 4165. Small lots.

When solid fuel is sold in lots not exceeding 100 pounds, the provisions of section 4164(a) (relating to weighmaster's certificate required) shall not apply if the solid fuel is delivered in closed containers or closed bags and the net contents of the bag or container, expressed in avoirdupois pounds, the type of solid fuel and the name, address, city, state and zip code of the seller are plainly stamped or printed on the containers or bags or upon a tag securely attached to the containers or bags.

§ 4166. Exception for boatloads or railroad carloads.

Section 4164(a) (relating to weighmaster's certificate required) shall not apply to the sale of a boatload or railroad carload of solid fuel delivered directly from the boat or car to a purchaser and accepted as to weight by the purchaser on the bill of lading or other voucher issued by the carrier.

§ 4167. Rules and regulations.

The department shall have the power to adopt and promulgate rules and regulations necessary to carry out the provisions of this subchapter. All previous rules and regulations shall remain

in full force and effect until new or amended rules and regulations are adopted by the department.

§ 4168. Sales by employer-producer to employees.

In any case where under the provisions of a contract it is provided that solid fuel be sold at cost by an employer-producer to his employees for their own use and consumption, the solid fuel may be sold by cubic contents instead of weight, but no solid fuel so sold shall be transported over the highways of this Commonwealth from the place of production to the residence of the employee unless the operator of the vehicle possesses a certificate of origin. The certificates of origin shall contain such information as may be prescribed by the department and shall be signed by the producer or the producer's agent, and a copy of each certificate shall be kept at the place of production for at least two years.

§ 4169. Existing licenses.

A person who holds a valid license issued under the act of July 19, 1935 (P.L.1356, No.427), referred to as the Solid Fuel Weight Regulation Law, or the act of April 28, 1961 (P.L.135, No.64), known as the Public Weighmaster's Act, immediately prior to the effective date of this subchapter shall, on the effective date of this subchapter, be deemed licensed by the department under this subchapter, and existing licenses shall continue to be valid until their respective expiration dates, unless sooner suspended or revoked.

SUBCHAPTER D

DEVICE TYPE APPROVAL

Sec.

- 4170. Approval of types of weights and measures and weighing and measuring devices.
- 4171. Submission of types for approval.
- 4172. Certificates of approval; notice of disapproval; appeals.
- 4173. Manufacture, sale or use of unapproved weights, measures and devices.
- 4174. Marking of approved weights and measures.
- 4175. Marking of weights and measures "not legal for trade."
- 4176. Rules and regulations.
- 4177. Sealing of approved weights and measures.
- 4178. Fees.
- 4179. Enforcement.

Cross References. Subchapter D is referred to in sections 4154, 4180, 4181, 4182 of this title.

§ 4170. Approval of types of weights and measures and weighing and measuring devices.

The bureau is authorized to pass upon each type of weight and measure and weighing and measuring device manufactured,

offered or exposed for sale or sold or given away for the use in trade or commerce or used in trade or commerce in this Commonwealth, and to approve or disapprove of each type. The bureau shall approve each type of weight and measure and weighing and measuring device submitted to it for approval by any person if such type is so designed and constructed that it conforms to or gives correct results in terms of standard weights or measures or in terms of values derived therefrom, and is reasonably permanent in its indication and adjustment, and does not facilitate the perpetration of fraud; otherwise, the bureau shall disapprove the same. Certificates of conformance issued under the National Type Evaluation Program (NTEP), as administered by the National Conference of Weights and Measures, shall be recognized by the bureau. The director of the bureau may require any weight or measure or any weighing or measuring instrument or device to be issued a certificate of conformance, as issued by the National Institute of Standards and Technology, prior to use for commercial or law enforcement purposes. Weighing and measuring devices sold within this Commonwealth and designed to calculate a service for a charge shall only be subject to provisions of this subchapter upon issuance of a rule or regulation by the department, specifically designating which services and types of devices would be subject to type approval by the bureau. When issuing such rules or regulations, the department may grandfather by exemption devices already installed and used for calculating a service.

§ 4171. Submission of types for approval.

The submission of a type may be by sample or by specifications if, in the best judgment of the bureau, such specifications are adequate or in such other manner as may be prescribed by the rules and regulations promulgated under the authority of this subchapter.

§ 4172. Certificates of approval; notice of disapproval; appeals.

When a type of weight or measure or weighing or measuring device is approved, the bureau shall issue a certificate of approval to the person submitting such type. When a type is disapproved, the bureau shall notify the person submitting the same of its decision, setting out the reasons therefor, together with such information and references as may be useful in judging of the propriety of the disapproval, and shall give the person an opportunity to be heard in support of his application for approval. The bureau shall then reconsider its decision. If the new decision is adverse to the person and he is dissatisfied with the same, he may take an appeal from this decision to the department, which shall examine the matter and decide whether the type should be approved or disapproved. If the person is dissatisfied with the decision of the department, he may appeal in accordance with the law.

§ 4173. Manufacture, sale or use of unapproved weights, measures and devices.

It shall be unlawful for any person to manufacture, offer or expose for sale or sell or give away for use in trade or commerce or to use in trade or commerce any weight or measure or weighing and measuring device of a type not approved in accordance with the provisions of this subchapter.

§ 4174. Marking of approved weights and measures.

It shall be unlawful to manufacture, offer or expose for sale or sell or give away for use in trade or commerce or to use in trade or commerce any weight or measure or weighing or measuring device unless it shall be conspicuously, clearly and permanently marked for purposes of identification with the name,

initials or trademark of the manufacturer, and with the manufacturer's designation, which positively identifies the pattern or the design of the device and in such manner as may be prescribed by rules and regulations authorized by this subchapter, provided, however, that, whenever it shall appear to the satisfaction of the bureau that any type of weight or measure or weighing or measuring device is such as to render it impracticable to mark it as required by this section, the bureau shall furnish a certificate to that effect to any manufacturer applying for the same, and such weights and measures and weighing and measuring devices need not be marked as required by the provisions of this section.

§ 4175. Marking of weights and measures "not legal for trade."

It shall be conclusively presumed that a weight or measure or weighing or measuring device is intended for use in trade or commerce if it is manufactured, offered or exposed for sale or sold for use in this Commonwealth, or is used therein, unless it shall bear a plain, legible, conspicuous and permanent statement to this effect: "Not legal for trade." It shall be unlawful to use in trade or commerce any weight or measure or weighing or measuring device which is marked as described above, provided, however, that, whenever it shall appear to the satisfaction of the bureau that any type of weight or measure or weighing or measuring device is such as to render it impracticable to mark it as required by this section or is of such design and construction that it is obviously not intended for use in trade or commerce, the bureau shall furnish a certificate to that effect to any manufacturer applying for the same, and such types of weights and measures and weighing and measuring devices need not be marked as required by the provisions of this section.

§ 4176. Rules and regulations.

Rules and regulations for the carrying out and enforcement of the provisions of this subchapter, not inconsistent with the provisions thereof, shall be adopted by the department, which rules and regulations shall include reasonable variations or tolerances which may be allowed on weights and measures and weighing and measuring devices included within the provisions of this subchapter, and also specifications for such weights and measures and weighing and measuring devices for the guidance of manufacturers in the design and construction of such weights and measures and weighing and measuring devices.

§ 4177. Sealing of approved weights and measures.

Inspectors of weights and measures of this Commonwealth and sealers of the several counties and cities of this Commonwealth may seal, for use in trade or commerce, all weights and measures and weighing and measuring devices, the type of which has been approved as required by the provisions of this subchapter or specifically exempted from the necessity of approval by the provisions of this subchapter when they find that the same are within the tolerances prescribed under the rules and regulations, provided, however, that this shall not be construed as meaning that the approval of a type shall be taken as evidence of the correctness of any individual weight or measure or weighing or measuring device of that type or prevent any such inspector or sealer of weights and measures from prohibiting the use of or confiscating any individual weight or measure or weighing or measuring device which is found to be inaccurate or otherwise defective or unlawfully used.

§ 4178. Fees.

The Department of General Services shall charge and collect fees for actual metrology laboratory calibration, type

evaluation and any other testing services which may be rendered. The department shall establish and alter these fees by regulation. Agencies of this Commonwealth shall be exempt from the fee requirements of this section. A city or county which is required to procure standards of weights and measures and any additional equipment in accordance with section 4123 (relating to city and county standards and equipment) to enforce the provisions of this chapter shall be exempt from the fee requirements of this section with respect to the calibration, evaluation or other testing of those standards and equipment.

§ 4179. Enforcement.

It shall be the duty of the bureau and the sealers of weights and measures of the several counties and cities who shall find satisfactory evidence of any violation of the provisions of this subchapter to cause appropriate proceedings to be commenced and prosecuted, without delay, for the enforcement of the penalties as provided for in this chapter.

Each meter-printed delivery ticket shall bear a printed nonrepetitive serial number. All deliveries of light fuel oil to such consumers shall be made by the use of a meter and a meter-printed delivery ticket rendered the customer at the time of delivery or with the invoice. The seller or deliverer shall maintain the receipts for two years in an orderly and retrievable manner.

(b) **Delivery tickets.**--The delivery tickets required under subsection (a) shall be of a type approved by the department and shall include the following information:

(i) Inspect the automotive fuel in storage tanks and take samples from the tanks and the dispensing system connected to the storage tanks. The retailer or distributor may request a second sample to be taken by the inspector at the same time the initial sample is drawn. All costs of the second sample shall be paid by the retailer or distributor, as the case may be, making the request. If the request for a second sample is made by the retailer in accordance with procedures established through an agreement with the distributor, producer or refiner, all costs of drawing, handling and shipping the sample shall be borne by the distributor, producer or refiner who supplied the automotive fuel to the retailer. If the request for a second sample is made by the distributor in accordance with procedures established through an agreement with the producer or refiner, all costs of drawing, handling and shipping the sample shall be borne by the producer or refiner who supplied the automotive fuel to the distributor.

(ii) Inspect automotive fuel dispensing systems and related equipment, oxygenate labels, reformulated labels and octane labels.

(1) Reject and mark as rejected the dispensing system, storage tank or other dispensing device from which the sample was obtained or on which the nonconforming label is attached.

(2) Seal and mark as sealed the storage tanks from which the sample was drawn or the nonconforming label attached.

(3) Initiate criminal proceedings under section 4187.7(d) (relating to violations and penalties).

(4) Issue a citation.

(5) Issue a stop-sale notice under subsection (d).

(6) Advise the retailer or distributor that the automotive fuel must be blended with another automotive fuel to bring it into compliance, provided that the product does not endanger public health or safety or adversely affect the emissions characteristics of the motor vehicles in which it is used.

(7) Issue a written warning directing the retailer or distributor to correct the nonconforming label.

(d) Stop-sale notice.--

(1) The department may immediately seize and seal, in order to prevent further sales, any dispensing system, storage tank or other dispensing device from which automotive fuel is sold or offered or exposed for sale in violation of the provisions of this subchapter and to issue a stop-sale notice to the retailer or distributor if the department has reason to believe the retailer or distributor willfully or intentionally violated this subchapter or the regulations promulgated in accordance with this subchapter.

(3) No automotive fuel which has been seized and sealed by the department for violation of section 4187.4 or 4187.5 may be offered or exposed for sale until the department has been fully satisfied that the automotive fuel has been blended, refined or properly labeled to meet the requirements of this subchapter and the retailer or distributor has been notified of the department's decision to permit the sale or relabeling of the fuel.

(e) Posting of stop-sale notice.--The department shall post, in a conspicuous place on the premises where a dispensing system, storage tank or other dispensing device has been sealed, a notice stating that sealing has taken place and warning that it shall be unlawful to break, mutilate or destroy the seal or to remove the contents of the dispensing system, storage tank or other dispensing device without the approval of the department.

(f) Notice required to remove seal.--

(1) A retailer, distributor or producer who owns an automotive fuel dispensing system, storage tank or other dispensing device which has been sealed by the department shall obtain the approval of the department before the fuel is removed or a proper label attached.

(2) A written notice of any corrective action taken shall be submitted to the department within three working days.

(3) The department may reinspect the automotive fuel dispensing system, storage tank or other dispensing device to determine compliance. The retailer, distributor, producer or refiner that owns the system or device which has been sealed shall provide documentation of the corrective action taken, including any applicable shipping papers or bills of lading showing the disposal or final disposition of the automotive fuel and any other information necessary to permit

the department to audit and confirm that the corrective action was as previously approved by the department.

(2) multiplied by the capacity of the storage tank from which the product in question was dispensed; if the distributor, producer, refiner or retailer violates any provisions of this subchapter with actual knowledge that the act or practice underlying the violation is unfair or deceptive.

(d) Repeat violations.--In addition to any civil penalty assessed in accordance with the provisions of this section, the department may initiate criminal proceedings for a second or subsequent violation of sections 4187.4 and 4187.5 (relating to automotive fuel rating, disclosure and labeling requirements). A second or subsequent violation shall constitute a misdemeanor of the third degree.

(e) Removal of seals.--The department may assess a civil penalty of not less than \$1,000 nor more than \$5,000 on any person, other than a person designated by the department, who:

(1) breaks, mutilates or destroys any seal placed upon a dispensing system, storage tank or other dispensing device used to deliver or store automotive fuel;

(2) removes automotive fuel from a dispensing system, storage tank or other dispensing device which has been sealed; or

(g) Innocent sellers exemption.--The department shall not impose a civil penalty for a violation of subsection (a)

regarding labeling if the retailer labeled the dispensing system, storage tank or other dispensing device in reasonable reliance on documentation provided by the distributor, producer or refiner certifying the standards for automotive fuel rating.

(h) Private action by retailer.--If a retailer unknowingly and without deception sells or offers or exposes for sale automotive fuel which does not conform with the provisions of this subchapter, the distributor, producer, oxygenate blender or refiner, as the case may be, of the nonconforming automotive fuel shall be liable in damages to the retailer for any ascertainable loss of money or property.

(i) Acts or practices constituting unfair trade.--It shall be an unfair method of competition and an unfair or deceptive act or practice in or affecting trade and commerce in this Commonwealth within the meaning of section 3 of the act of December 17, 1968 (P.L.1224, No.387), known as the Unfair Trade Practices and Consumer Protection Law, for any retailer, producer, distributor, oxygenate blender or refiner to violate the provisions of this subchapter or any regulations promulgated under this subchapter.

Ex officio members may designate a substitute for membership. Ex officio members cast votes at committee meetings.

(b) Appointments by secretary.--The remaining nine members shall be appointed by the secretary as follows:

- (1) Three appointees must be active, resident cold or cool water aquaculture producers.
- (2) One appointee must be an active, resident warm water aquaculture producer.
- (3) One appointee must be an active, resident indoor aquaculture producer.
- (4) One appointee must be an active, resident servicer or supplier to the aquaculture industry.

- (6) One appointee must be an active, resident aquarium or ornamental species aquacultural merchant.
- (7) One appointee must be a representative of recreational sport fishing.

(c) Tenure and convention.--All appointed members shall serve terms of three years. Ex officio members shall serve so long as the official continues to serve in an official position. The advisory committee shall convene at the discretion of the secretary or his designee, who shall serve as chairman of the committee.

(d) Responsibility of committee.--The advisory committee shall draft and submit an aquacultural plan to the secretary on or before December 31, 1999. The focus of the plan shall be economic development to include recommendations for regulations necessary to foster development of aquaculture. The advisory committee shall also advise the secretary on matters relating to aquacultural production and development.

§ 4217. Biennial survey of aquaculture.

The department shall cooperate with the Pennsylvania Agricultural Statistics Service to compile biennially a survey of this Commonwealth's aquacultural industry. Persons licensed under sections 4220 (relating to registration for artificial propagation) and 4222 (relating to registration for dealers of live aquatic animals) whose businesses involve the sale of fish shall submit annually at the conclusion of each calendar year a summary report of sales specifying the amount or weight of each species sold and gross receipts. The contents shall be used by the department solely for statistics. The individual summary reports are not public records and shall not be made

public without written consent of the party submitting that report.

Cross References. Section 4217 is referred to in section 4218 of this title.

§ 4218. Aquaculture Development Account.

(a) **Establishment of account.**--There is hereby established a separate account in the State Treasury to be known as the Aquaculture Development Account. Moneys in this account shall be used to stimulate the growth of the aquacultural industry in this Commonwealth.

(b) **Sources of funds.**--Except for fees generated pursuant to section 4213 (relating to requirements for discharge of water), all fees and charges generated under this chapter shall be deposited in the account.

(c) **Use of funds.**--Moneys in the account shall be used for administration of aquaculture programs in the department, including the biennial survey of aquaculture in section 4217 (relating to biennial survey of aquaculture). Up to 10% of the moneys deposited in the account on a fiscal year basis may be available for aquaculture research. After administrative costs are covered, the remainder of the account may be used to provide low-interest loans to aquacultural producers for development, expansion and modernization of facilities.

§ 4219. Permissible propagation.

(a) **Species.**--The commission shall determine which species of fish are allowed to be propagated in each watershed. On or before January 31 of each year, the commission shall supply the department a current list of species approved for propagation and the conditions under which each species may be cultured. As the commission approves a new species for propagation throughout the year, it shall notify the department of the species and watersheds. Except triploid and other nonreproducing forms, species may be propagated in the same watersheds within which they are allowed to be stocked.

(b) **Initial list of approved species.**--Except for those species of fish allowed for stocking only in a triploid or other nonreproducing form, the initial list of approved species shall include all species approved for artificial propagation or stocking by watershed as listed by the commission on January 1, 1995. Requirements for special conditions to culture certain species will be retained until modified. The initial list shall be submitted to the department within 60 days of the effective date of this chapter.

(c) **Closed systems.**--Special regulations shall be promulgated regarding the cultural methods for species of fish allowed to be propagated in systems which do not discharge water into waters of this Commonwealth. Systems whose discharge of water is rendered incapable of containing self-perpetuating living organisms may be registered for any species of fish with approval by the department.

Cross References. Section 4219 is referred to in section 4221 of this title.

§ 4220. Registration for artificial propagation.

(a) **Application.**--Application to register for artificial propagation shall be made on forms, prepared by the department, which relate to the size, character and purpose of the facility to be used for propagation. The species of fish to be propagated and each separate propagation facility as well as any other information required by the department shall also be indicated on the forms.

(b) Registration and fees.--The department may register applicants for artificial propagation upon receipt of a written application signed by the applicant after the applicant has paid a fee of \$150 to the department. Registration allows the registered operator to propagate all approved species of fish. The department shall establish a system to provide unique identification to a facility for the duration of that facility's continuous commercial existence. A registration shall expire five years after the initial date of registration. A registration may be renewed for an additional five-year period upon payment of the fee.

Cross References. Section 4220 is referred to in sections 4217, 4221, 4222, 4223 of this title.

§ 4221. Activities under registration for artificial propagation.

(a) Sale of certain species.--

(1) Only species of fish approved for propagation and stocking under section 4219 (relating to permissible propagation) taken from waters wholly within this Commonwealth or legally taken in waters outside of this Commonwealth and received in interstate commerce are permitted to be purchased, sold or offered for sale.

(2) A registrant selling species of fish shall furnish to the consumer a receipt specifying the date of sale, identification of the registered facility and the amount of species sold by count or weight. The holder of the receipt must display it upon demand to anyone authorized to enforce laws of this Commonwealth. The receipt authorizes sale or possession of the purchased species for a period of 15 days after the date on the receipt. The period of 15 days, however, is inapplicable to species stocked in regulated fishing areas as well as ornamental, aquarium and baitfish species which may be held by dealers until disposed.

(b) Water obstruction.--A person registered under section 4220 (relating to registration for artificial propagation) must obtain prior written approval from the Department of Environmental Protection to erect or place a dam, pond or other device which will prevent the free migration of finfish. This subsection permits dams, ponds and other devices erected prior to January 1, 1980, and used continuously since then to be maintained.

(c) Authorized activities by registrants.--Registration under section 4220 authorizes the registrant to:

(1) carry on the business of propagation and sale of species of fish and eggs thereof which are specified in the registration;

(2) catch and kill the specified species of fish in the specified facility or facilities in the registration by any means except explosives or poison; and

(3) sell, transport or dispose of species of fish and eggs thereof which are specified in the registration. Public transportation companies are authorized to receive and transport species and eggs.

(d) Unauthorized activities by registrants.--

(1) Registration under section 4220 does not authorize registrants to catch species of fish out of natural streams flowing over property of a registrant nor from other waters within this Commonwealth. Transportation of species of fish neither cultivated nor purchased by the registrant is not permitted.

(2) Species of fish or eggs thereof taken from waters within this Commonwealth unoccupied, unowned or uncontrolled by a registrant and uncovered by his registration shall neither be stocked nor maintained in any manner. This paragraph, however, allows the exchange of eggs or the fry of any species of fish with the department and the commission.

Cross References. Section 4221 is referred to in section 4223 of this title.

§ 4222. Registration for dealers of live aquatic animals.

(a) **Registration for dealing.**--A resident or nonresident who does not propagate live aquatic animal species but deals in those species shall register with the department. The department may register applicants upon receipt of a written application signed by the applicant and the payment of a \$50 registration fee. Registration shall expire five years after the initial date of registration and may be renewed upon payment of the fee.

(b) **Records to be kept.**--Registrants shall keep records of all transactions, buying and selling, and shall record the date, amount by count or weight of species of fish, source of species, registration identification and place of sale.

(c) **Approval.**--

(1) Distribution by dealers is limited to those species of fish approved by the department.

(2) Transportation of species of fish into this Commonwealth is limited to sources of species whose health inspection reports have already been approved by the department. Sources may be preapproved by the department for an entire calendar year. Denials shall be restricted to those sources where diseases are nonendemic to this Commonwealth and for any diseases designated by the department upon recommendation of the advisory committee.

(d) **Exemption from registration.**--Dealers who are registered under section 4220 (relating to registration for artificial propagation) are exempt from licensure under this section for those species of fish. Compliance with subsection (c) is, however, required.

Cross References. Section 4222 is referred to in section 4217 of this title.

§ 4223. Prohibited propagation and penalties.

(a) **Prohibited propagation.**--Except for hobby breeders, artificial propagation of any species of fish is limited to those who have registered under section 4220 (relating to registration for artificial propagation). Artificial propagation by anyone, whether or not registered, is limited to those species of fish approved under this chapter, approved by law or approved by regulation of the department.

(b) **Penalties.**--Any person who sells, offers to sell or purchases fish with a market value or sale price of \$50 or more in violation of section 4221(a)(1) (relating to activities under registration for artificial propagation) commits a misdemeanor of the third degree. Any other violation of this subchapter as well as a violation of section 4221(a)(1) where the market value or sale price is not shown or is less than \$50 is a summary offense of the first degree as described in 30 Pa.C.S. § 923 (relating to classification of offenses and penalties).

(b) Grounds for public hearing.--Whenever the secretary has reason to believe that the issuance of a marketing program or amendments to an existing marketing program will tend to effectuate this chapter, the secretary shall, either upon his own motion or upon application of any producer or any organization of producers, give due notice of an opportunity for a public hearing upon a proposed marketing program or amendments to an existing marketing program.

(c) Publication of notice of hearing.--Notice of any hearing called for this purpose shall be given by the secretary by publishing a notice of the hearing, for a period of not less than five consecutive publication days, in a daily newspaper of general circulation published in the capital of the Commonwealth and in any other newspaper or newspapers as the secretary may prescribe. No public hearing shall be held prior to 20 days after the last day of the period of publication.

(g) Issuance of marketing program.--After notice and hearing, the secretary may issue a marketing program if the secretary finds and sets forth in the marketing program that the program will tend to effectuate the purposes of this chapter.

§ 4504. Commodity marketing board.

(a) Establishment of commodity marketing board.--

(1) Each marketing program issued pursuant to this chapter shall provide for the establishment of a commodity marketing board, which shall have primary decision-making authority relative to marketing contracts and other projects in furtherance of the program. The number, representation, qualifications and terms of board members and the schedule of regular board meetings and procedure for calling special board meetings shall be established in the issued marketing program. No marketing program shall be issued to establish a commodity board of less than five members, one of whom shall be the secretary or the secretary's designee. The other board members shall be appointed by the secretary from among the agricultural producers whose commodities shall be subject to the marketing program. In making these appointments, the secretary shall consider nominations submitted by the producers. No decision by the board shall be effective unless, pursuant to regular or special meetings, a majority of board members were present and a majority of those present voted in support of the decision. All decisions rendered by the board shall be recorded in written minutes of the meeting, and the recorded minutes shall be made available to the secretary and to the producers whose commodities are subject to the marketing program.

(2) If the secretary requires sales agents to collect producer charges under section 4510(b) (relating to collection of fees), an additional member shall be appointed to the board by the secretary. This member shall represent these sales agents who are subject to the marketing program collection agreement. In making the appointment, the secretary shall consider nominations by the sales agents.

(b) Board members.--No member of a commodity marketing board shall receive a salary, but each shall be entitled to actual expenses incurred while engaged in performing the duties authorized by this chapter. Any marketing program established under this chapter may authorize a payment not to exceed \$100 per day and expenses for each day in which a board member or subcommittee member is performing a duty necessary to the function of the board.

(c) Powers and duties of board.--In administering the marketing program the board shall have the following powers and duties:

(1) To determine all matters pertaining to the marketing program issued by the secretary.

(2) To hire and employ personnel which the board deems necessary for the proper administration of the marketing program and to fix the compensation and terms of employment of personnel. The hiring, employment, compensation and terms of employment of personnel under this paragraph shall not be subject to the provisions of the act of April 9, 1929 (P.L.177, No.175), known as The Administrative Code of 1929.

Notwithstanding any other requirement of this subsection, the board may make sole source procurements when there is only one source for the required service and may make emergency procurements when the board determines in writing that the procedure is necessary due to the urgency of the particular situation.

(5) To receive, account for and disburse all moneys collected pursuant to the issued marketing program.

§ 4505. Provisions of marketing programs.

Subject to the legislative restrictions and limitations set forth in this chapter, any marketing program issued by the secretary pursuant to this chapter may contain any or all of the following provisions:

(1) Provisions for the establishment of plans for advertising and sales promotion to maintain present markets or to create new or larger markets for agricultural commodities grown or produced in this Commonwealth. Plans shall be directed toward increasing the sale of such commodities without reference to any particular firm's or individual's brand or trade name. No advertising or sales promotion program shall be issued by the secretary which shall make use of false or unwarranted claims on behalf of any product or disparage the quality, value, sale or use of any other agricultural commodity.

(2) Provisions for the establishment of research programs designed to benefit producers or for agriculture in general.

(3) Provisions establishing or providing authority for establishing an information and service program designed to acquaint producers and other interested persons with quality standards and quality improvements.

(4) Provisions allowing the secretary and the commodity marketing board to cooperate with any other state or Federal agency or other organization whose activities may be deemed beneficial to the purpose of this chapter.

(5) Provision may be made in the program to exempt or allow suitable adjustments or credits in connection with an agricultural commodity on which a mandatory checkoff for market development is required under the authority of any Federal law.

§ 4506. Effecting marketing programs.

(a) Referendum required.--No marketing program or amendment thereto shall become effective unless and until the secretary determines by a referendum whether or not the affected producers assent to the proposed action.

(b) Majority vote.--The secretary shall conduct the referendum among the affected producers, and the affected producers shall be deemed to have assented to the proposed program if, of those voting, a majority by number and a majority by volume assent to the proposed program.

(c) Vote of cooperative association.--In determining whether a marketing program or an amendment to the marketing program has been approved by producers, the secretary shall consider the vote of a cooperative association as the votes of its members, providing the cooperative has first notified its members in writing at least 30 days in advance of its intention to cast a representative vote. The notice shall inform the producer of the right to cast a vote individually and shall include the following wording in boldface type: **WARNING - IF YOU DO NOT EXERCISE YOUR RIGHT TO VOTE, YOUR COOPERATIVE HAS**

THE RIGHT TO VOTE FOR YOU. Each producer shall receive a ballot from the secretary. The ballot shall contain the following wording in boldface type: WARNING - IF YOU DO NOT EXERCISE YOUR RIGHT TO VOTE, YOUR COOPERATIVE HAS THE RIGHT TO VOTE FOR YOU. If the producer votes individually, the vote shall be deducted from the cooperative representative vote.

(d) Procedure.--Any referendum required under this chapter shall be conducted in accordance with reasonable rules and regulations to be established and promulgated by the secretary.

(e) Pennsylvania Dairy Products Promotion Program.--The secretary may establish without a referendum a Pennsylvania Dairy Products Promotion Program, provided that the program is financed by voluntary contributions credited against assessments payable to the National Dairy Promotion and Research Board pursuant to the Dairy and Tobacco Adjustment Act of 1983 (Public Law 98-180, 97 Stat. 1128). This program shall terminate, unless continued by referendum as provided in this section, not later than six months following the disapproval of the Federal Dairy Promotion Program by a majority of producers voting in a nationwide referendum. The establishment, termination, amendment and management of the Pennsylvania Dairy Products Promotion Program shall, except as provided in this subsection, be conducted pursuant to the provisions of this chapter.

§ 4507. Terminating marketing programs.

Subject to approval of the appropriate commodity marketing board, the secretary shall suspend or terminate any marketing program or any provisions of any marketing program whenever the secretary finds that the provisions or program does not tend to effectuate this chapter within the standards and subject to the limitations and restrictions imposed in this chapter. A suspension or termination shall not be effective until the expiration of the current marketing season. If the secretary finds that the termination of any marketing program is requested in writing by more than 33 1/3% of the affected producers who produce for market more than 50% of the volume of agricultural commodities produced within the designated production area for market, the secretary shall terminate or suspend for a specified period the marketing program or provisions thereof. The termination shall be effective only if announced on or before the date as may be specified in the program. If 10% of the producers in a commodity group of over 2,000 affected producers or 15% of the producers in a commodity group of less than 2,000 affected producers request in writing that a referendum be held on the question of terminating the program, the secretary must announce and conduct a referendum within a reasonable period of time, and, in any case, within one year of the request a marketing program shall be terminated if so voted by a majority of those voting.

§ 4508. Marketing program review and amendments.

(a) Review.--Every five years the secretary shall call a referendum of affected producers within each agricultural commodity group for which a marketing program exists to determine whether or not a majority of those voting still desire a marketing program.

(b) Referendum on amendments.--The secretary shall call for a referendum on amendments to a marketing program within a reasonable period of time, upon the request of the advisory board or with written request of 10% of the producers in a commodity group of over 2,000 affected producers or 15% of the producers in a commodity group of less than 2,000 affected producers. In voting on an amendment to the marketing program,

the vote shall be only on the amendment and shall not terminate the program.

§ 4509. Notice of issuance.

Upon the issuance of any marketing program or any suspension, amendment or termination thereof, a notice shall be published in a newspaper of general circulation published in the capital of the Commonwealth and in such other newspapers as the secretary may prescribe. No program or any suspension, amendment or termination thereof shall become effective until the termination of a period of 20 days from the date of the publication. It shall also be the duty of the secretary to mail a copy of the notice of the issuance to all producers directly affected by the terms of the program, suspension, amendment or termination whose names and addresses may be on file in the office of the secretary and to every person who files in the office of the secretary a written request for notice.

§ 4510. Collection of fees.

(a) **General rule.**--Any marketing program issued pursuant to this chapter shall provide for the collection of fees to defray the necessary expenses incurred in the formation, issuance, administration and enforcement of the marketing program and shall include the amount, time, method and condition of payment. Fees to be charged shall not be in excess of that which will generate revenues of 5% of the gross market value of production and marketing of the commodity subject to the marketing program. Each and every producer affected by any marketing program issued under this chapter shall pay to the secretary at the time and in the manner as prescribed by the program as adopted the charges provided by this subsection.

(b) **Collection by sales agents.**--For the convenience of making collections of any producer charges established pursuant to this section, the secretary shall have the authority and may, by regulation, upon the request of a commodity marketing board, require sales agents to collect producer charges upon the sale of the agricultural commodity.

(c) **Appropriation.**--Any money collected by the secretary under this chapter is hereby specifically appropriated to the department for the administration of the marketing programs for which they were collected. When a marketing program is discontinued, the surplus money shall be made available for the administration of this chapter or of future marketing programs involving the same commodity.

(d) **Auditing standards.**--Each board shall adopt and publish a set of auditing standards, consistent with generally accepted auditing standards, against which the moneys it collects pursuant to this chapter and expends in accordance with the terms of this chapter can be audited. Each board shall engage an outside auditing firm to conduct annually an audit of its collections and expenditures. An audit under Federal law or regulation may be accepted by the board as long as it meets the minimum standards established under this section.

Cross References. Section 4510 is referred to in section 4504 of this title.

§ 4511. Rules and regulations for enforcement.

The secretary shall, with the advice of the commodity marketing board, make and promulgate rules and regulations as may be necessary to effectuate this chapter and to enforce the provisions of any marketing program, all of which shall have the force and effect of law. The secretary may institute an action at law or in equity and may establish penalties as may appear necessary to enforce compliance with this chapter or any

rule or regulation or marketing program committed to the secretary's administration in addition to any other remedy under this chapter.

§ 4512. Advance deposits.

Prior to the issuance of any marketing program, the secretary may require the applicant therefor to deposit an amount as the secretary may deem necessary to defray the expense of preparing and making the marketing program effective. Funds shall be received, deposited and disbursed by the secretary in accordance with the provisions of handling funds in this chapter. The secretary may reimburse the applicant in the amount of the deposit from any funds received through the adopting of a marketing program pursuant to this chapter.

§ 4513. Severability.

The provisions of this chapter are severable. If any provision of this chapter or its application to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of this chapter which can be given effect without the invalid provision or application.

§ 5103. Licensing.

(a) **General rule.**--Every person engaged in the manufacture of commercial feed or customer-formula feed to be distributed in this Commonwealth and each guarantor of the feed shall, on January 1 of each year or prior to manufacture or distribution of the feed, obtain a license for each manufacturing facility located in this Commonwealth and for each guarantor by completing a form furnished by the department and paying a \$25 application fee. Upon approval by the department, a copy of the license shall be furnished to the applicant and, in the case of manufacturers, displayed in the facility. The department may require an applicant for a license or a current licensee to submit any labeling the applicant is using or intends to use for commercial feed.

(b) **Denial of license.**--The department may refuse the license of any person not in compliance with the provisions of this chapter or cancel the license of any person found not in compliance with any provision of this chapter. A license may not be refused or canceled until the applicant or licensee has been given an opportunity to be heard before the department.

Cross References. Section 5103 is referred to in section 4114 of this title.

§ 5104. Labeling.

(a) **Commercial feed labeling.**--Any commercial feed distributed in this Commonwealth shall be accompanied by a legible label bearing the following information:

(1) The net weight.

(2) The product name and brand name, if any, under which the commercial feed is distributed.

(3) The guaranteed analysis stated in such terms as the secretary by regulation determines is required to advise the user of the composition of the feed to support the claims made in the labeling. In all cases the substances or elements must be determinable by laboratory methods from generally

recognized sources such as the methods published by the Association of Official Analytical Chemists.

(4) The common or usual name of each ingredient used in the manufacture of the commercial feed. The department may by regulation permit the use of a collective term for a group of ingredients which perform a similar function or it may exempt such commercial feeds or any group thereof from this requirement of an ingredient statement if it finds that such statement is not required in the interest of consumers.

(5) The name and principal mailing address of the manufacturer or the person responsible for distributing the commercial feed.

(6) Adequate directions for use for all commercial feeds containing drugs and for such other feeds as the department may require by regulation as necessary for their safe and effective use.

(7) Such warning or caution statements as the department by regulation determines are necessary for the safe and effective use of the commercial feed.

(b) Customer-formula feed labeling.--Customer-formula feed shall be accompanied by a label, invoice, delivery slip or other shipping document bearing the following information:

(1) The name and address of the manufacturer.

(2) The name and address of the purchaser.

(5) Adequate directions for use of all customer-formula feeds containing drugs and for such other feeds as the department may require by regulation as necessary for their safe and effective use.

(6) Warning or caution statements as the department by regulation determines are necessary for the safe and effective use of the customer-formula feed.

Cross References. Section 5104 is referred to in section 5107 of this title.

§ 5105. Inspection fees.

(a) Imposition.--There shall be paid to the department for all commercial feeds distributed in this Commonwealth an inspection fee at the rate of 10¢ per ton annually. Customer-formula feeds and contract feeds are exempted if the inspection fee is paid on the commercial feeds which are used as ingredients therein. Commercial feeds which are distributed to manufacturers and used as ingredients in the manufacture of commercial feeds other than customer-formula feeds and contract feeds are exempted from the inspection fee, but in no case shall the inspection fee paid annually amount to less than \$25. The department, having determined after a public hearing following notice to the licensees that moneys derived from the license and inspection fees are either greater or less than that required to administer this chapter, may by regulation reduce or increase the inspection fee so as to maintain revenues sufficient to administer this chapter, but the inspection fee shall not be changed by more than 2¢ in one year, and the inspection fee shall not exceed 20¢ per ton.

(b) Annual statement and records.--Except as otherwise provided, every guarantor who distributes commercial feed in this Commonwealth shall:

(1) File not later than February 15 of each year an annual statement, under oath, setting forth the number of

net tons of commercial feeds distributed in this Commonwealth during the preceding calendar year. Upon filing the statement, the guarantor shall pay the inspection fee at the rate stated in subsection (a) or at the rate established by the department by regulation promulgated under subsection (a). When more than one guarantor is involved in the distribution of commercial feed, the guarantor who distributed the feed last is responsible for reporting the tonnage and paying the inspection fee unless the report and payment have been made by a prior guarantor of the feed or feed ingredient. Inspection fees which are due and owing and have not been remitted to the Commonwealth by the due date shall have a penalty fee of 10% or a minimum of \$25 added to the amount due when payment is finally made. The assessment of this penalty fee shall not prevent the Commonwealth from taking other actions as provided in this chapter.

(2) Keep such records as may be necessary or required by the department to indicate accurately the tonnage of commercial feeds distributed in this Commonwealth. The department may examine these records to verify statements of tonnage.

(c) Cancellation of license.--Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided in this section shall constitute sufficient cause for the cancellation of the license.

§ 5106. Adulteration.

No person shall distribute adulterated feed. A commercial feed, customer-formula feed or exempted material shall be deemed to be adulterated if it meets any of the following criteria:

(1) It bears or contains any poisonous or deleterious substance which may render it injurious to the health of humans or animals. If the substance is not an added substance, the commercial feed shall not be considered adulterated under this paragraph if the quantity of the substance in the commercial feed does not ordinarily render it injurious to health.

(2) It bears or contains any added poisonous, added deleterious or added nonnutritive substance which is unsafe within the meaning of section 406 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 21 U.S.C. § 301 et seq.) other than a pesticide chemical in or on a raw agricultural commodity or a food additive.

(3) It is, bears or contains any food additive which is unsafe within the meaning of section 409 of the Federal Food, Drug, and Cosmetic Act.

(4) It is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of section 408(a) of the Federal Food, Drug, and Cosmetic Act. Where a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or a tolerance prescribed under section 408 of the Federal Food, Drug, and Cosmetic Act and the raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating or milling, the residue of the pesticide chemical remaining in or on the processed feed shall not be deemed unsafe if the residue has been removed to the extent possible in good manufacturing practice and the concentration of the residue in the processed feed is not greater than the tolerance prescribed for the raw agricultural commodity. If the feeding of the processed feed will result or is likely to result in a

pesticide residue in the edible product of the animal which is unsafe within the meaning of section 408(a) of the Federal Food, Drug, and Cosmetic Act, it shall be deemed adulterated.

(5) It is, bears or contains any color additive which is unsafe within the meaning of section 706 of the Federal Food, Drug, and Cosmetic Act.

(6) It is, bears or contains any new animal drug which is unsafe within the meaning of section 512 of the Federal Food, Drug, and Cosmetic Act.

(7) Any valuable constituent has been, in whole or in part, omitted or abstracted therefrom or any less valuable substance substituted therefor.

(8) Its composition or quality falls below or differs from that which it is purported or represented to possess by its labeling.

(9) It contains a drug and the methods used in or the facilities or controls used for its manufacture, processing or packaging do not conform to current good manufacturing practice regulations promulgated by the department to assure that the drug meets the requirements of this chapter as to safety, identity and strength, quality and purity characteristics which the drug purports or is represented to possess. In promulgating these regulations, the department shall adopt the current good manufacturing practice regulations for Type A medicated articles and Type B and Type C medicated feeds established under authority of the Federal Food, Drug, and Cosmetic Act unless it determines that they are not appropriate to the conditions which exist in this Commonwealth.

(10) It contains viable weed seeds in amounts exceeding the limits which the department establishes by regulation.

Cross References. Section 5106 is referred to in section 5102 of this title.

§ 5107. Misbranding.

No person shall distribute misbranded feed. A commercial feed or customer-formula feed shall be deemed to be misbranded if it meets any of the following criteria:

(1) Its labeling is false or misleading in any particular.

(2) It is distributed under the name of another feed.

(3) It is not labeled as required in section 5104 (relating to labeling) and in regulations prescribed under this chapter.

(4) It purports to be or is represented as a feed ingredient or it purports to contain or is represented as containing a feed ingredient unless the feed ingredient conforms to the definition of identity, if any, prescribed by regulation of the department. In adopting such regulation, the department shall give due regard to commonly accepted definitions such as those issued by the Association of American Feed Control Officials.

(5) Any word, statement or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs or devices in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

§ 5108. Inspection, sampling and analysis.

(a) **Inspection.**--For purposes of enforcement of this chapter, the department may inspect during business hours any

facility, warehouse or establishment in which commercial feeds are manufactured, processed, packed or held for distribution. It may also enter and inspect any vehicle being used to transport or hold feeds. The inspector shall give written notice to the owner or person in charge of the facility, warehouse, establishment or vehicle prior to inspection. The inspection may include the verification of only those records and production and control procedures as may be necessary to determine compliance with this chapter. A separate notice shall be given for each inspection, but a notice shall not be required for each entry made during the period covered by the inspection. Each inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified. If the employee making the inspection of a factory, warehouse or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises the employee shall give to the owner, operators or agent in charge a receipt describing the samples obtained.

(b) Warrant.--If the owner of any factory, warehouse or establishment described in subsection (a) or his agent refuses to permit the department to inspect in accordance with subsection (a), the department may obtain from any court of competent jurisdiction a warrant directing the owner or his agent to submit the premises described in the warrant to inspection.

(c) Samples and records.--For the purpose of the enforcement of this chapter, the department may enter upon any public or private premises, including any vehicle of transport, during business hours to have access to and to obtain samples, including exempted materials and labeling for commercial feeds, and to examine and copy records relating to the manufacture and distribution of commercial feeds and exempted materials.

(d) Sampling and analysis methods.--Sampling and analysis shall be conducted in accordance with methods published by the Association of Official Analytical Chemists or in accordance with other generally recognized methods.

(e) Disposition of official samples.--In determining for administrative purposes whether a commercial feed is deficient in any component, the department shall be guided solely by the official sample obtained and analyzed as provided for in subsection (d). The result of analyses of official samples shall be forwarded by the department to the guarantor. Upon request, the department shall furnish to the guarantor a portion of the sample concerned. The request must be made within 30 days from the date of the official report.

Cross References. Section 5108 is referred to in section 5102 of this title.

§ 5109. Rules and regulations.

The department is charged with the enforcement of this chapter and after due publicity and due public hearing may promulgate and adopt such reasonable rules and regulations as may be necessary in order to secure the efficient administration of this chapter. Publicity concerning the public hearing shall be reasonably calculated to give interested parties adequate notice and adequate opportunity to be heard.

§ 5110. Detained commercial feeds.

(a) "Withdrawal from distribution" orders.--When the department has reasonable cause to believe any lot of commercial feed is being distributed in violation of any of the provisions

of this chapter or of any of the prescribed regulations under this chapter, it may issue and enforce a written or printed "withdrawal from distribution" order warning the distributor not to dispose of the lot of feed in any manner until written permission is given by the department or a court of competent jurisdiction. The department shall release the lot of commercial feed so withdrawn when the provisions and regulations have been complied with. If compliance is not obtained within 30 days, the department may begin or upon request of the distributor shall begin proceedings for condemnation.

(b) Condemnation and confiscation.--Any lot of commercial feed not in compliance with the provisions and regulations shall be subject to seizure on complaint of the department to a court of competent jurisdiction in the area in which the commercial feed is located. In the event the court finds the commercial feed to be in violation of this chapter and orders the condemnation of the commercial feed, it shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of this Commonwealth. In no instance shall the disposition of the commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of the commercial feed or for permission to process or relabel the commercial feed to bring it into compliance with this chapter.

§ 5111. Criminal penalties.

(a) Conviction.--Any person who violates any of the provisions of this chapter or the rules and regulations issued thereunder or who impedes, obstructs, hinders or otherwise prevents or attempts to prevent the department in performance of its duty in connection with the provisions of this chapter commits a summary offense and shall, upon conviction, be sentenced to pay a fine of not less than \$50 nor more than \$100 for the first violation and not less than \$500 nor more than \$1,000 for a subsequent violation in any one year. In all prosecutions under this chapter involving the composition of a lot of commercial feed, a certified copy of the official analysis signed by the secretary shall be accepted as prima facie evidence of the composition.

(b) Minor violations.--Nothing in this chapter shall be construed as requiring the department to report a violation and to institute seizure proceedings as a result of minor violations of the chapter when it believes that the public interest will be best served by a suitable notice of warning in writing.

(c) District attorney.--It is the duty of each district attorney to whom any violation is reported to cause appropriate proceedings to be instituted and prosecuted in a court of competent jurisdiction without delay. Before the department reports a violation for such prosecution, an opportunity shall be given the person to present his view to the department.

(d) Trade secrets.--Any person who uses to his own advantage or reveals to anyone other than the department or to the courts when relevant in any judicial proceeding any information acquired under the authority of this chapter concerning any method, records, formulations or processes which as a trade secret is entitled to protection commits a misdemeanor of the third degree and shall, upon conviction, be sentenced to pay a fine of not less than \$500 or to imprisonment for not less than one year, or both. This prohibition shall not be deemed as prohibiting the department from exchanging information of a regulatory nature with duly appointed officials of the Federal Government or of other states who are similarly prohibited by law from revealing this information.

§ 5112. Civil penalties.

In addition to any other remedy available at law or in equity for a violation of this chapter, the department may assess a civil penalty upon a person for a violation of this chapter. The department shall give notice to the person and shall provide an opportunity for a hearing. The hearing shall be conducted in accordance with Title 2 (relating to administrative law and procedure). The civil penalty assessed shall not exceed \$2,500. The civil penalty shall be payable to the department and shall be collectible in any manner provided by law for the collection of debt. If any person liable to pay a civil penalty neglects or refuses to pay it after demand, the amount of the civil penalty, together with interest and any other costs that may accrue, shall be a lien in favor of the Commonwealth upon the real and personal property of the person after the lien has been entered and docketed of record by the prothonotary of the county where the property is situated. It is the duty of each prothonotary, upon receipt of the certified copy of the lien, to enter and docket the lien in the records of his office and to index the lien as judgments are indexed without requiring the payment of costs as a condition precedent to entry.

§ 5113. Civil remedy.

In addition to any other remedies provided for in this chapter, the Attorney General, at the request of the secretary, may initiate in the Commonwealth Court or the court of common pleas of the county in which the defendant resides or has his place of business an action in equity for an injunction to restrain any and all violations of this chapter or the regulations promulgated under this chapter or any order issued pursuant to this chapter from which no timely appeal has been taken or which has been sustained on appeal. In any such proceeding, the court shall upon motion of the Commonwealth issue a preliminary injunction if it finds that the defendant is engaging in conduct which is causing immediate or irreparable harm to the public. The Commonwealth shall not be required to furnish bond or other security in connection with these proceedings. In addition to an injunction, the court may levy civil penalties as provided by this chapter.

§ 5114. Publications.

The department shall publish at least annually, in such form as it deems proper, information concerning the sales of commercial feeds, together with such data on their production and use as it may consider advisable, and a report of the results of the analyses of official samples of commercial feeds sold in this Commonwealth as compared with the analyses guaranteed on the label. The information concerning production and use of commercial feeds shall not disclose the operations of any person.

§ 5115. Disposition of funds.

Moneys received from license fees, inspection fees, fines and civil penalties shall be paid into the State Treasury and shall be credited to the general government operations appropriation of the Department of Agriculture for administering the provisions of this chapter.

(c) Issuance of license.--A retail food facility license shall be issued by the licensor having jurisdiction. A license shall specify the date of expiration, the period for which the license is valid, the name of the licensee and the place licensed. Licenses shall be conspicuously displayed at all times in the place thereby licensed. Licenses shall not be transferable.

(d) Application requirement.--Any person owning or operating or desiring to operate a retail food facility within this Commonwealth shall make application for a license to the licenser on forms furnished by the licenser. The forms shall, at a minimum, set forth such information as the department may require and any additional information a licenser that is not the department may require under the authority of the act of April 21, 1949 (P.L.665, No.155), known as the First Class City Home Rule Act, or the act of August 24, 1951 (P.L.1304, No.315), known as the Local Health Administration Law. Application forms shall include the name and address of the applicant, together with all the other information deemed necessary to identify the applicant, provide contact information for the applicant, identify the location of the retail food facility that is the subject to the application and facilitate the licenser's processing of the application.

This copy may be sent by electronic methods, as approved by the department. The department may, by regulation, require that inspection reports be submitted in a specific electronic format.

(g) Term of license.--

(1) Except as provided in paragraph (2), licenses shall expire on the day after the original license anniversary date at intervals of one year, or for any other license period that is established by the department through regulation and that uses risk-based factors identified in the current edition of the Food Code, published by the United States Department of Health, Food and Drug Administration, as a basis for determining the appropriate license interval. An application for renewal shall be made one month before the expiration of an existing license. A license granted under the provisions of this subchapter shall be renewed if the most recent inspection by the licenser was conducted within the preceding license period and determined that requirements specified in this chapter with respect to the retail food facility were met.

(2) A temporary license for a retail food facility that operates on no more than 14 days in one calendar year or for a retail food facility operating at a fair, festival or similar temporary event shall be granted with respect to the calendar year in which it is issued if the retail food facility meets the requirements of this subchapter.

If a retail food facility licensed by an entity other than the department is in violation of a provision of this subchapter, or of a regulation promulgated under authority of this subchapter, or of any other act related to public health and being applicable to retail food facilities, or of the regulations of the licensor pertaining to retail food facilities, the licensor may suspend or revoke the license. The suspension of a license shall be terminated when the violation for which it was imposed has been found, upon inspection by the licensor, to have been corrected. Whenever a license is suspended or revoked, no part of the fee paid therefore shall be returned to the proprietor.

(ii) A licensor may, as an alternative to suspending or revoking a license, provide a licensee a reasonable interval within which to correct conditions that constitute a violation that would result in the suspension or revocation of the license, provided that the health and safety of the employees, occupants and patrons of the retail food facility can be reasonably assured during that interval.

(j) Fees.--The fees that may be charged under this subchapter are as established by the licensor, if the licensor is an entity other than the department, and shall be paid into the city, borough, incorporated town, township or county treasury. If the licensor is the department, the fees shall be paid to the State Treasury through the department and are as follows:

(1) For licensure of a retail food facility that has not been previously licensed and that is owner operated and that has a seating capacity of less than 50: \$103.

(2) For licensure of a retail food facility that has not been previously licensed and that is not described in paragraph (1): \$241.

(3) For a renewal of a license or for issuing a license to reflect a change of ownership: \$82.

(4) For a duplicate license, for each retail food facility location: \$14.

(5) For a temporary license under subsection (g)(2): \$14.

(6) For conducting a follow-up inspection to review whether changes have been made to correct violations which resulted in noncompliant status determined by a prior inspection:

(i) For the second follow-up inspection during the licensure period: \$150.

(ii) For a third or subsequent follow-up inspection during the licensure period: \$300.

or failure of any person to pay all or any portion of the penalty as the secretary may determine, the secretary may refer the matter to the Attorney General, who shall recover the amount by action in the appropriate court.

No civil penalty shall be assessed unless the person charged has been given notice and opportunity for a hearing in accordance with law. In determining the amount of the penalty, the secretary shall consider the gravity of the violation. Whenever the secretary finds a violation which did not cause harm to human health, the secretary may issue a warning in lieu of assessing a penalty. In case of inability to collect the civil penalty or failure of any person to pay all or any portion of the penalty as the secretary may determine, the secretary may refer the matter to the Attorney

(c) Guaranty.--

(1) No prosecution shall be sustained under the provisions of this subchapter for the manufacture, delivery, consignment, bailment, holding or sale of or offering for sale, exposing for sale or having in possession with intent to sell any adulterated or misbranded article against a person from whom the article of food, sample or portion was obtained by the department if the person can establish a guaranty to the effect that the article of food is not adulterated or misbranded within the meaning of this subchapter, was adulterated or misbranded prior to coming into the possession of the person and the person did not know or have reason to know of the adulteration or misbranding or was adulterated or misbranded after it left the possession and control of the person. The guaranty must be signed by the supplier, manufacturer, wholesale dealer, jobber or distributor from whom the articles of food were purchased or procured.

(2) The guaranty to afford protection shall contain the name and address of the supplier, manufacturer, wholesale dealer, jobber or distributor making the sale of the article of food to the person holding the guaranty. A supplier, manufacturer, wholesale dealer, jobber or distributor giving a guaranty under the provisions of this subchapter may be held responsible and may be proceeded against for the adulteration or misbranding of any article of food sold under the guaranty and shall be subject to the penalties provided for violation of this subchapter. A guaranty shall not operate as a defense to prosecution for a violation of the provisions of this subchapter if the person holding the guaranty continues to sell the same food after written or printed notice from the secretary that the article is adulterated or misbranded within the meaning of this subchapter. However, if the person violated the provisions of this subchapter by having stored, transported, exposed or kept the article in a way or manner to render it diseased, contaminated or unwholesome, the person may be proceeded against for a violation.

(d) Minor violations.--Nothing in this subchapter shall be construed as requiring prosecution or institution of a proceeding under this subchapter for minor violations of this subchapter if the secretary believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning.

(2) It is unlawful to remove the food from the food establishment or to dispose of it without approval of the secretary.

(b) Determination and appeal.--The secretary shall determine whether a food detained under this subchapter may be sold, delivered, consigned, held or offered for sale as is or whether it shall be relabeled, reprocessed or destroyed within 40 days of issuance of the detention order. Any determination by the secretary that the food shall be relabeled, reprocessed or destroyed shall be subject, within 30 days of the determination, to appeal by the owner or operator of the food establishment or the manufacturer or owner of the food to the court of common pleas of the county in which the food was located. The detention order shall expire after five working days from the issuance of the order, unless the secretary confirms the order. The order shall clearly and concisely state the facts on which it is based.

(c) Relabeling.--If the secretary determines that the adulteration or misbranding can be corrected by a proper label or reprocessing and the determination is not appealed within the time permitted, the secretary may direct that the food be released to the claimant to label or process under the supervision of the secretary. The relabeled or reprocessed food shall not be released into the market until the secretary has executed an order indicating that the food is no longer in violation of this subchapter.

(d) Order for destruction.--Food detained under this subchapter shall be destroyed by the owner under the supervision of the secretary, if the secretary determines that the food is unfit for human consumption and the food cannot be reconditioned so as to be made fit for human consumption and the determination is not appealed within the time permitted. Food detained under this subchapter may be used as animal feed or for other beneficial use, provided that such use is in compliance with other applicable statutes, rules, regulations, standards and orders. The owner shall pay all costs of destruction.

The permits shall be for a period not to exceed one year, although the permit may be extended for a period of up to one additional year if a new standard of identity has been applied for under section 5733 (relating to rules and regulations). The secretary may revoke a permit after notice to the affected party if the application contains misleading statements or if the secretary determines that unfair competitive advantage is gained through the issuance of the permit or that the need no longer exists for the permit.

§ 5728. Adulteration of food.

A food shall be deemed adulterated:

(1) If it bears or contains any poisonous or deleterious substance which may render it injurious to health. However, if the substance is not an added substance, the food shall not be considered adulterated under this section if the quantity of the substance in the food does not ordinarily render it injurious to health.

(2) If it bears or contains any added poisonous or added deleterious substance which is unsafe within the meaning of section 5731 (relating to poisonous or deleterious substances and tolerances). This paragraph does not apply to a pesticide chemical in or on a raw agricultural commodity, a food additive or a color additive.

(3) If it is a raw agricultural commodity and bears or contains a pesticide chemical which is unsafe within the meaning of section 5731, except that, where a pesticide chemical has been used in or on a raw agricultural commodity with an exemption granted or tolerance prescribed under section 5731 or under any of the Federal acts and the raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating or milling, the residue of the pesticide remaining in or on the processed food shall, notwithstanding the provisions of section 5731 and this paragraph, not be deemed unsafe if the residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice and the concentration of the residue in the processed food when ready to eat is not greater than the tolerance prescribed for the raw agricultural commodity.

(4) If it bears or contains any food additive which is unsafe within the meaning of section 5731 or under any of the Federal acts.

(5) If it consists, in whole or in part, of any diseased, contaminated, filthy, putrid or decomposed substance or is otherwise unfit for food.

(6) If it has been produced, prepared, packed or held under unsanitary conditions so that it may have become contaminated with filth or may have been rendered diseased, unwholesome or injurious to health.

(7) If it is, in whole or in part, the product of a diseased animal or of an animal which has died otherwise than by slaughter.

(8) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health, unless the container is fabricated or manufactured with good manufacturing practice as that standard is defined and delineated by any of the Federal acts and their regulations.

(9) If it has been intentionally subjected to radiation, unless the use of the radiation was in conformity with a regulation or exemption in effect under section 5731 or under one of the Federal acts.

(10) If:

(i) any valuable constituent has been, in whole or in part, omitted or abstracted therefrom;

(ii) any substance has been substituted wholly or in part;

(iii) damage or inferiority has been concealed in any manner; or

(iv) any substance has been added thereto or mixed or packed so as to increase its bulk or weight or reduce its quality or strength or make it appear better or of greater value than it is.

(11) If it bears or contains any color additive which is unsafe within the meaning of section 5731 or under one of the Federal acts.

(12) If it bears or contains eggs processed by or egg products derived from a manufacturing, processing or preparing method wherein whole eggs are broken using a

centrifuge-type egg breaking machine that separates the egg's liquid interior from the shell.

Cross References. Section 5728 is referred to in section 5731 of this title.

§ 5729. Misbranding of food.

(a) **General rule.**--A food shall be misbranded:

- (1) If its labeling is false or misleading in any way.
- (2) If it is offered for sale under the name of another food.
- (3) If it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the word "imitation" and, immediately thereafter, the name of the food that is simulated.
- (4) If its container is so made, formed or filled as to be misleading.
- (5) If it is in a package that does not bear a label containing:
 - (i) The name and place of business of the manufacturer, packer or distributor.
 - (ii) An accurate statement of the quantity of the contents in terms of weight, measure or numerical count. Reasonable variations are permitted and exemptions as to small packages shall be established in regulations promulgated by the secretary.
- (6) If it is represented as a food for which a definition and standard of identity has been prescribed by regulation under this subchapter or under any of the Federal acts, unless it conforms to the definition and standard and its label bears the name of the food specified in the definition and standard and the common names of optional ingredients, other than spices, flavoring and coloring, present in the food.
- (7) Unless its label bears the following:
 - (i) The common or usual name of the food, if any.
 - (ii) If made from two or more ingredients, the common or usual name of each ingredient is listed in descending order of predominance by weight, except that spices, flavorings and colorings not required to be certified under any of the Federal acts, other than those sold as such, may be designated as spices, flavorings and colorings without naming each.
- (8) If it is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral and other dietary properties as determined by regulation to be necessary and in order to inform purchasers as to its value for such use.
- (9) If it bears or contains any artificial flavoring, artificial coloring or chemical preservative, unless it bears labeling stating that fact. Exemptions shall be established by regulations to the extent that compliance with requirements of this paragraph is impracticable. The provisions of this paragraph or paragraphs (6) and (7) with respect to artificial coloring shall not apply in the case of butter, cheese or ice cream. The provisions of this paragraph with respect to chemical preservatives shall not apply to a pesticide chemical when used in or on a raw agricultural commodity which is the produce of the soil.
- (10) If it is a raw agricultural commodity bearing or containing a pesticide chemical applied after harvest, unless the shipping container of the commodity bears labeling which declares the presence of the chemical and the common or usual

name and function of the chemical. A declaration shall not be required when the commodity is removed from the shipping container and is held or displayed for sale at retail in accordance with the custom of the trade.

(11) If it is a color additive, unless its packaging and labeling are in conformity with the packaging and labeling requirements applicable to color additives in department regulations.

(12) If, at the site of purchase of the particular food, a sign, placard or other graphic matter relating to the food is false or misleading in any particular.

(b) Exceptions.--The provisions of subsection (a)(1), (2), (3), (4), (5), (6), (7), (8), (9), (10) and (11) shall not apply to the following:

(5) Where the horse race meeting is being conducted to be used for the payment of purses at the racetrack and one-half to the horsemen's organization, or in accordance with the practice of the parties, at the racetrack within the primary market area to be used for the payment of purses at the racetrack.

Nothing in this subsection shall be construed to prevent a licensed racing entity from agreeing to distribute amounts greater than the percentages set forth in this subsection. However, if no alternative agreement has been reached, the total percentage for purses under this subsection shall be paid in accordance with the minimum percentages set forth in this subsection.

(e) Other payments.--Notwithstanding any other provision of this chapter, a nonprimary location may be established within the primary market area of a racetrack by agreement between the licensed racing entity and the horsemen's organization at the racetrack specifying the total percentage of handle wagered at the nonprimary location to be distributed to the horsemen's organization, or, in accordance with the practice of the parties, to be used for the payment of purses at that racetrack. If no agreement is reached covering the locations, the total percentage to be paid for purses shall be the same as that applied to on-track wagering at the racetrack located within the primary market area.

2005, JULY 6, P.L.112, NO.38

Preamble

The General Assembly of the Commonwealth of Pennsylvania declares that the Commonwealth has a vested and sincere interest in ensuring the long-term sustainability of agriculture and normal agricultural operations in a manner that is consistent with State policies and statutes. In furtherance of this goal, the Commonwealth has enacted statutes to protect and preserve agricultural operations for the production of food and other agricultural products.

The Commonwealth has also empowered local government units to protect the health, safety and welfare of their citizens and to ensure that normal agricultural operations do not negatively impact upon the health, safety and welfare of citizens.

It is the purpose of this act to ensure that when local government units exercise their responsibilities to protect the health, safety and welfare of their citizens in regulating normal agricultural operations, that ordinances are enacted consistent with the authority provided to local government units by the laws of this Commonwealth.

The General Assembly of the Commonwealth of Pennsylvania further declares that the intent of this act is to provide for the resolution of conflicts that may arise from the regulation of normal agricultural operations. It is further the intent of this act that this process:

(1) provides a dispassionate and unprejudiced legal review of local ordinances regulating normal agricultural operations to determine whether a local ordinance complies with the Commonwealth's existing statutes;

(2) reduces the costs associated with determining whether a local ordinance complies with the Commonwealth's existing statutes by utilizing current State resources and mechanisms; and

(3) provides for a prompt and fair resolution to the conflict.

Explanatory Note. Act 38 added Chapters 3 and 5 of Title 3.

§ 4. Continuation of prior law.
