Ch. 42 (relating to aquacultural development), provided that such fish are a species approved for propagation in Pennsylvania and are lawfully propagated or acquired by means other than fishing from the waters of this Commonwealth in accordance with the requirements of applicable laws and regulations. This section does not prohibit the sale, purchase, offer for sale, trade or barter of any fish by or from the holder of a commercial fishing license issued under Chapter 29 (relating to special licenses and permits), provided that such fish are lawfully caught or taken in accordance with the requirements of applicable laws and regulations. This section does not prohibit the sale of mounted fish.

(d) Penalty for sale of fish, reptiles or amphibians.--Any person who violates subsection (a) by purchasing, selling, bartering, trading or offering for sale any species of fish, reptiles or amphibians with a market value or sale price in excess of \$5,000 commits a misdemeanor of the second degree. § 3501. Devices in dams to permit fish migration.

(a) Erection on order of commission.--Any person now or hereafter erecting or maintaining a dam in the waters of this Commonwealth shall, immediately on a written order from the commission, erect therein such chutes, slopes, fishways, gates or other devices as the commission may deem necessary to enable the fish to ascend and descend the waters at all seasons of the year.

(b) Payments where devices not practicable.--In lieu of requiring the erection of chutes, slopes, fishways, gates or

other devices at any dam where they are not deemed by the commission to be practicable or advisable for the ascending or descending of fish, the commission may enter into an agreement with the owner, lessee or operator of the dam, to pay to the commission, annually or at other stated periods, a sum of money which shall be not less than 2 1/2% per year upon the estimated cost of the erection of chutes, slopes, fishways, gates or other devices, plus the estimated cost of reasonable depreciation and maintenance of the same, except in cases where the sum of the interest, depreciation and maintenance so calculated would be equal to or exceed the sum of \$25,000 per year, in which case the annual payment shall be \$25,000 per year.

(c) Use of moneys.--These moneys shall be expended by the commission for:

(1) The stocking with fish of the waters of the stream dammed.

(2) The propagating, rearing and distributing of fish placed in the waters and the acquisition of the necessary facilities therefor.

(3) Carrying out such other fish managing practices in the waters as are deemed proper by the commission for the improvement of public fishing opportunities therein.

(d) Receipt and appropriation of moneys.--Any money received by the commission under such an agreement shall be paid into the Fish Fund and is hereby specifically appropriated to be expended by the commission for the purposes specified in subsection (c).

(e) Surveys and experimentations by commission.--When funds are available for those purposes, the commission shall conduct and encourage such surveys and experimentations as may be necessary and feasible in order to discover and develop such chutes, slopes, fishways, gates or other devices as may successfully pass migratory fish over the dams.

Cross References. Section 3501 is referred to in sections 3502, 3504, 3505 of this title.

§ 3502. Operation and maintenance of devices.

Every chute, slope, fishway, gate or other device referred to in section 3501 (relating to devices in dams to permit fish migration) shall be operated in a manner prescribed by the commission and shall remain open and be maintained in good order and repair by the person owning or maintaining the dam in which the device is located.

Cross References. Section 3502 is referred to in sections 3504, 3505 of this title.

§ 3503. Closing of devices for repair or nonuse.

Any chute, fishway or other device may be closed for repairs or when not needed with written approval of the commission.

§ 3504. Civil penalty for noncompliance.

Any person failing to comply with section 3501 (relating to devices in dams to permit fish migration) or 3502 (relating to operation and maintenance of devices) within three calendar months of the date of notice provided in section 3501 shall forfeit and pay to the Commonwealth a civil penalty of \$100 for every day he fails to comply. The penalty shall be recovered by civil suit or process in the name of the Commonwealth.

§ 3505. Erection of devices by commission.

If the person owning, leasing or maintaining a dam fails to erect a chute, slope, fishway, gate or other device after the lapse of three calendar months from the date of notice provided by section 3501 (relating to devices in dams to permit fish

migration), or fails to maintain the chute, slope, fishway, gate or other device in accordance with section 3502 (relating to operation and maintenance of devices), the commission may enter upon the dam and erect such chute, slope, fishway, gate or other device or make any necessary repairs and the cost thereof shall be charged by the commission to the person owning or maintaining the dam and may be recovered by civil suit or process in the name of the Commonwealth.

§ 3506. Drawing off or interference with dams or devices.

(a) **Drawing off or obstructing dams.**--No person shall draw off dam waters inhabited by fish without first applying for written permission from the commission, nor shall any person obstruct the flow of water through any such dam without allowing a minimum flow of water determined by the commission to be sufficient at all times to flow in the natural stream on which the dam is located to enable the fish to live. Any person violating the provisions of this subsection commits a summary offense of the first degree.

(b) **Interference with dams or devices.**--Dams, deflectors, retards or similar devices placed across or in any waters inhabited by fish, with permission of the owner or owners of the land adjacent thereto or through which those waters flow, shall not be destroyed, removed, breached or disturbed, except by written permission first obtained from the commission. Any person violating the provisions of this subsection commits a summary offense of the first degree.

§ 3507. Protection of fish near dams.

(a) **General rule.**--Any person owning, leasing or maintaining a raceway, flume or inlet pipe leading to a water wheel, turbine pump or canal shall immediately upon receipt of a written order from the commission place and maintain a bar rack of not less than one-half inch nor more than one and one-half inch space between the bars in or near that raceway, flume or inlet pipe sufficient to prevent fish from entering it.

(b) **Erection of bar racks by commission.**--If one month after notice of violation of this section the person owning, leasing or operating such raceway, flume or inlet pipe has not placed a bar rack as directed, the commission may enter upon the raceway, flume or inlet pipe and place a bar rack of not less than one-half inch nor more than one and one-half inch space between the bars. The cost shall be charged against the owner, lessor or operator and may be recovered by civil suit or process in the name of the Commonwealth.

(c) **Civil penalty.**--Any person failing to comply with subsection (a) within one calendar month shall forfeit and pay a civil penalty of \$100 for every day of violation.

§ 3509. Obstructing migration of fish.

(a) **General rule.**--No person shall place any device or object in waters within this Commonwealth in a manner that obstructs the migration or passage of fish therein or obstructs any fishway but the commission may, as it deems necessary in

the interest of fish management, authorize the erection of such devices and prescribe such conditions for the operation and maintenance of such devices as may be necessary for a fee of \$10 or as otherwise established by the commission in accordance with section 322.1 (relating to power to set fees).

(b) Fish rodeos.--After giving written notice to the commission, an organized fishing or sportsmen's club that has been in existence for a period of one year or more may obstruct the passage of fish for a period not exceeding 48 hours for the purpose of conducting fish rodeos the primary objective of which is to encourage fishing by children. Such obstructions shall not be erected more than twice in one year within a distance of one mile from any similar obstruction on the same stream or body of water. The obstructions shall be at least one-half mile from other such obstructions and shall be erected and designed in such a manner that fish will not normally be injured.

(c) Penalty.--Any person violating any provision of this section commits a summary offense of the first degree. (July 10, 2020, P.L.604, No.56, eff. imd.)

The permittee of a new run-of-the-river dam shall mark the areas above and below the dam and on the banks immediately adjacent to the dam with signs and buoys of a design and content determined by the commission to warn the swimming, fishing and boating public of the hazards posed by the dam.

(b) Existing dams.--

(1) The department shall compile and maintain a current list of existing dams on the waters of this Commonwealth that the department determines to be run-of-the-river type dams. Within three months of the effective date of this section, the department shall notify the permittees and owners of those run-of-the-river dams of the requirements of this section by certified letter. Within six months of receiving notification of the requirements of this section from the department, the permittees and owners of run-of-the-river dams shall comply with the requirements of this section to mark the areas above and below their dams and on the banks immediately adjacent to their dams during the time periods of the year required by the commission with signs and buoys of a design and content determined by the commission to warn the swimming, fishing and boating public of the hazards posed by the dam.

(2) If the permittee or owner of a run-of-the-river dam disagrees with the determination of the department, the permittee or owner shall file written notice with the Environmental Hearing Board within 30 days of receiving the determination. The Environmental Hearing Board shall reach a decision as soon as practicable. If the decision of the board upholds the determination of the department, the permittee or owner filing such notice shall have six months to comply with this section following the decision.

(c) Maintenance of signs and buoys.--

(1) It shall be the responsibility of the permittees and owners of run-of-the-river dams to maintain in proper

(2) When a permittee or owner learns that signs or buoys installed under this section have been removed or defaced by an act of God or the acts or omissions of third parties other than the permittee or owner or his agent, he shall repair or replace the signs or buoys within 30 days unless river conditions during that time make such repair or replacement dangerous to undertake or impracticable to effect, in which case the permittee or owner shall repair or replace the signs or buoys as soon as is reasonably practicable. If a permittee or owner or his agent removes any signs or buoys, he shall have five days thereafter to repair or replace the signs or buoys.

(d) Size, content and location of signs and buoys marking run-of-the-river dams.--The commission, after consultation with the department, shall establish requirements for the content and location of signs and buoys to be installed under the authority of this section and the time periods of the year when the signs and buoys shall be required to be in place. The commission shall describe the requirements by notice published in the Pennsylvania Bulletin and may from time to time revise the requirements as circumstances require.

(e) Preemption of Federal law.--Any warning sign or buoy installed and maintained in the areas above or below a run-of-the-river dam or on the banks immediately adjacent to such a dam by a dam permittee or owner in compliance with the requirements of the United States Coast Guard, the Federal Energy Regulatory Commission or any Federal agency having jurisdiction over a run-of-the-river dam shall be deemed to meet the requirements established or imposed by or under this section regarding the placement of warning signs or buoys in said areas.

(f) Standard of care.--A dam permittee or owner who complies with the provisions of this section to mark a dam and who maintains signs and buoys as required by this section shall be deemed to have met the standard of care for warning the public of the hazards posed by the dam.

(g) Regulations.--The commission may promulgate regulations to implement the provisions of this section.

(h) Penalties.--

(1) Any person who fails to comply with subsection (a) or (b) commits a summary offense of the first degree for the first offense and a misdemeanor of the third degree for a subsequent offense. Each month of noncompliance shall constitute a separate violation.

(2) Any person who fails to comply with subsection (c) commits a summary offense of the second degree for the first offense and a summary offense of the first degree for a subsequent offense. Each month of noncompliance shall constitute a separate violation.

(3) Any person who enters an exclusion zone marked under the provisions of this section commits a summary offense of the third degree provided that it shall not be a violation of this section for the permittee or owner and his agents and officers of the Commonwealth and local government to enter the exclusion zone for purposes of maintaining the dams and signs and buoys or for enforcement and rescue purposes.

(4) All fines received under this subsection shall be paid into the State Treasury for the use of the Fish Fund or Boat Fund, as appropriate.

(5) The provisions of 18 Pa.C.S. (relating to crimes and offenses) and section 923 (relating to classification of offenses and penalties), insofar as they relate to imprisonment for convictions of summary and misdemeanor offenses, are not applicable to this section.

No physician, nurse or technician or hospital employing the physician, nurse or technician may administratively refuse to perform the tests and provide the results to the officer authorized to enforce this title except as may be reasonably expected from unusual circumstances that pertain at the time the request is made.

(k) Prearrest breath test authorized.--A waterways conservation officer, having reasonable suspicion to believe a person is operating or in actual physical control of the movement of a watercraft while under the influence of alcohol, may require that person, prior to arrest, to submit to a preliminary breath test on a device approved by the Department of Health for this purpose. The sole purpose of this preliminary breath test is to assist the waterways conservation officer in determining whether or not the person should be placed under arrest. The preliminary breath test shall be in addition to any other requirements of this title. No person has any right to expect or demand a preliminary breath test. This section shall be applicable to all injured occupants who were capable of watercraft operation if the operator or person in actual physical control of the movement of the watercraft cannot be determined. § 7101. Execution and form of compact.

The Governor of this Commonwealth is authorized and directed to execute a compact on behalf of the Commonwealth of Pennsylvania with any one or more of the States of Maine, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia and Florida, and with such other states as may enter into the compact legally joining therein in the form substantially as follows:

ATLANTIC STATES MARINE FISHERIES COMPACT

The contracting states solemnly agree:

Article I

The purpose of this compact is to promote the better utilization of the fisheries, marine, shell and anadromous of the Atlantic seaboard by the development of a joint program for the promotion and protection of such fisheries and by the prevention of the physical waste of the fisheries from any cause. It is not the purpose of this compact to authorize the states joining herein to limit the production of fish or fish products for the purpose of establishing or fixing the price thereof, or creating and perpetuating monopoly.

Article II

This agreement shall become operative immediately as to those states executing it, whenever any two or more of the States of Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia and Florida, have executed it in the form that is in accordance with the laws of the executing state, and the Congress has given its consent. Any state contiguous with any of the aforementioned states and riparian upon waters frequented by anadromous fish flowing into waters under the jurisdiction of any of the aforementioned states, may become a party hereto as hereinafter provided.

Article III

Each state joining herein shall appoint three representatives to a commission hereby constituted and designated as the Atlantic States Marine Fisheries Commission. One shall be the executive officer of the administrative agency of such state, charged with the conservation of the fisheries resources to which this compact pertains, or if there be more than one officer or agency, the official of that state named by the governor thereof. The second shall be a member of the legislature of such state, designated by the commission or committee on interstate cooperation of such state, or if there be none, or if said commission on interstate cooperation cannot constitutionally designate the said member, such legislator shall be designated by the governor thereof: Provided, That if it is constitutionally impossible to appoint a legislator as a commissioner from such state, the second member shall be appointed by the governor of said state in his discretion. The third shall be a citizen who shall have a knowledge of and interest in the marine fisheries problem, to be appointed by the governor. This commission shall be a body corporate with the powers and duties set forth herein.

Article IV

The duties of the said commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances and conditions as may be disclosed for bringing about the conservation and the prevention of the depletion and physical waste of the fisheries, marine, shell and anadromous of the Atlantic seaboard. The commission shall have power to recommend the coordination of the exercise of the police powers of the several states within their respective jurisdictions, to promote the preservation of those fisheries and their protection against overfishing, waste, depletion or any abuse whatsoever, and to assure a continuing yield from the fisheries resources of the aforementioned states.

To that end, the commission shall draft, and after consultation with the advisory committee hereinafter authorized, recommend, to the governors and legislatures of the various signatory states, legislation dealing with the conservation of the marine, shell and anadromous fisheries of the Atlantic seaboard. The commission shall, more than one month prior to any regular meeting of the legislature in any signatory state, present to the governor of the state its recommendations relating to enactments to be made by the legislature of that state in furthering the intents and purposes of this compact.

The commission shall consult with and advise the pertinent administrative agencies in the states, party hereto, with regard to problems connected with the fisheries, and recommend the adoption of such regulations as it deems advisable.

The commission shall have power to recommend to the states, party hereto, the stocking of the waters of such states with fish and fish eggs, or joint stocking by some or all of the states, party hereto, and when two or more of the states shall jointly stock waters, the commission shall act as the coordinating agency for such stocking.

Article V

The commission shall elect from its number a chairman and a vice chairman and shall appoint and, at its pleasure, remove or discharge such officers and employes as may be required to carry the provisions of this compact into effect, and shall fix and determine their duties, qualifications and compensation. Said commission shall adopt rules and regulations for the conduct of its business. It may establish and maintain one or more offices for the transaction of its business, and may meet at any time or place, but must meet at least once a year.

No recommendation shall be made by the commission in regard to any species of fish, except by the affirmative vote of a majority of the compacting states which have an interest in such species. The commission shall define what shall be an interest.

Article VII

The Fish and Wildlife Service of the Department of the Interior of the Government of the United States shall act as the primary research agency of the Atlantic States Marine Fisheries Commission, cooperating with the research agencies in each state for that purpose. Representatives of the said Fish and Wildlife Service shall attend the meetings of the commission.

An advisory committee to be representative of the commercial fishermen and the salt water anglers and such other interests of each state as the commission deems advisable shall be established by the commission, as soon as practicable, for the purpose of advising the commission upon such recommendations as it may desire to make.

Article VIII

When any state, other than those named specifically in Article II of this compact, shall become a party thereto for the purpose of conserving its anadromous fish, in accordance with the provisions of Article II, the participation of such state in the action of the commission shall be limited to such species of anadromous fish.

Article IX

Nothing in this compact shall be construed to limit the powers of any signatory state, or to repeal or prevent the enactment of any legislation or the enforcement of any requirement by any signatory state, imposing additional conditions and restrictions to conserve its fisheries.

Article X

Continued absence of representation or of any representative on the commission from any state, party hereto, shall be brought to the attention of the governor thereof.

Article XI

The states, party hereto, agree to make annual appropriations to the support of the commission, in proportion to the primary market value of the products of their fisheries, exclusive of cod and haddock, as recorded in the most recent published reports of the Fish and Wildlife Service of the United States, Department of the Interior, provided no state shall contribute less than \$200 per annum, and the annual contribution of each state above the minimum shall be figured to the nearest hundred dollars.

The compacting states agree to appropriate initially the annual amounts scheduled below, which amounts are calculated in the manner set forth herein on the basis of the catch record of 1938. Subsequent budgets shall be recommended by a majority of the commission, and the cost thereof allocated equitably among the states, in accordance with their respective interests, and submitted to the compacting states.

The second commissioner shall be a legislator and member of the Pennsylvania Commission on Interstate Cooperation, ex officio, designated by the Pennsylvania Commission on Interstate Cooperation, and the term of this commissioner shall terminate at the time he ceases to hold legislative office or office as a member of the Pennsylvania Commission on Interstate Cooperation and his successor as commissioner shall be named in like manner. The Governor (by and with the advice and consent of the Senate) shall appoint a citizen as a third commissioner who shall have a knowledge of and interest in the marine fisheries problem. The term of this commissioner shall be three years and he shall hold office until his successor is appointed and qualified. All officers of the Commonwealth are directed to do all things falling within their respective provinces and jurisdiction necessary or incidental to the carrying out of the compact in every particular, it being hereby declared to be the policy of this Commonwealth to perform and carry out the compact and to accomplish the purposes thereof. All officers, bureaus, departments and persons of and in the State Government or Administration of the Commonwealth are hereby authorized and directed, at convenient times and upon request of the commission, to furnish the commission with information and data possessed by them or any of them and to aid the commission by

loan of personnel or other means lying within their legal rights, respectively.

§ 7104. Powers granted commission supplemental to other powers.

Any powers granted to the commission shall be regarded as in aid of and supplemental to, and in no case a limitation upon, any of the powers vested in the commission by other laws of this Commonwealth, or by the laws of the States of Maine, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia and Florida, or by the Congress of the United States or the terms of said compact.

(b) **Examination by Auditor General.**--The Auditor General of the Commonwealth may, from time to time, examine the accounts and books of the commission, including its receipts, disbursements and other items referring to its financial standing as the Auditor General deems proper, and report the results of the examination to the Governor.

§ 7106. Amendment to compact.

(a) **Execution and form of amendment.**--The Governor is authorized and directed to enter into an amendment of the Atlantic States Marine Fisheries Compact with any one or more of the States of Maine, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia and Florida, and such other states as may become party to that compact, for the purpose of permitting the states that ratify this amendment to establish joint regulation of specific fisheries common to those states through the Atlantic States Marine Fisheries Commission and their representatives on that body, such amendment to be in substantially the following form:

Amendment No. 1 of the
Atlantic States Marine Fisheries Compact

The states consenting to this amendment agree that any two or more of them may designate the Atlantic States Marine Fisheries Commission as a joint regulatory agency with such powers as they may jointly confer from time to time for the regulation of the fishing operations of the citizens and vessels of such designating states with respect to specific fisheries in which such states have a common interest. The representatives of such states on the Atlantic States Marine Fisheries Commission shall constitute a separate section of the commission for the exercise of the additional powers so granted: Provided, That the states so acting shall appropriate additional funds for this purpose. The creation of such section as a joint regulatory agency shall not deprive the states participating therein of any of their privileges or powers or responsibilities in the Atlantic States Marine Fisheries Commission under the general compact.

(b) **Effectiveness of amendment.**--This amendment shall take effect as to this Commonwealth with respect to such other of the aforesaid states as take similar action.

(c) **Withdrawal from amendment.**--Notice of intention to withdraw from this amendment shall be executed and transmitted by the Governor and shall be in accordance with Article XII of the Atlantic States Marine Fisheries Compact and shall be effective as to this Commonwealth with those states which similarly ratify this amendment.

Enactment. Chapter 73 was added October 16, 1980, P.L.996, No.175, effective in 90 days.

§ 7301. Legislative findings and declarations.

The General Assembly finds and declares as follows:

(1) Since fish at large in the waters of this Commonwealth are a natural resource, protection and conservation of this resource in the public interest is the obligation of the Commonwealth.

(2) The shad which inhabit the waters of the Delaware River system constitute a potentially valuable source of food and raw materials and, under proper management, are capable of producing a constant and abundant harvest without depletion of the species and consequent shortages of supply. The important shad fishery of the Delaware River has been depleted so that the actual harvest is far below the potential yield of this resource which at one time yielded as much as 16,000,000 fish yearly but in recent years has yielded only a few hundred thousand pounds. This depletion has caused a denial to the consuming public of a constant and adequate supply of these vitamin rich foods within a reasonable price range that consistent and abundant supply would make possible, and has caused decline and instability in the fishing industry in this river system. The restoration of this species in the Delaware River has become an enterprise of vast economic importance to this Commonwealth.

(3) It is a matter of public interest and for the public welfare and health for the Commonwealth to take such measures as are necessary to control the intensity of fishing pressure in order that the restoration of this valuable species may be accomplished and that the species may attain the maximum sustained yield consistent with the preservation of an adequate brood stock. Legislative limitation of the size of

the mesh of nets, size limits and other like measures are not effective in conserving this species.

(4) In accordance with the purposes of the Atlantic States Marine Fisheries Compact to which this Commonwealth is a party and in order to carry out the policy of the Commonwealth as it relates to the shad inhabiting the waters of the Delaware River and in order to restore this depleted fishery, it is necessary, proper and expedient to establish a system of licensing designed to control increases in the intensity of fishing pressure so that increases in fishing pressure will be brought into balance with the population of shad in the Delaware, to the end that the shad fisheries of the waters of the Delaware River and its tributaries will be restored and will produce the maximum sustained yield consistent with the conservation of that species. Since the stabilization of fishing operations is an activity promoting the public interest, the payment of license fees and the imposing and controlling of the restrictive provisions of this chapter upon the general public is an equitable contribution on its part arising from the privileges of harvesting this natural resource.

§ 7302. Delaware River and Bay defined.

For the purpose of regulating the shad fishery of the Delaware River and Bay and their tributaries:

(1) The Delaware River includes all that part of the river and its tributaries above a line drawn from the monument on the Delaware shore at or near Listons Point and the corresponding monument at or near the mouth of New Hope Creek on the New Jersey shore, as established by the Commissioners of the States of New Jersey and Delaware under the Compact of 1905 and subsequent enabling legislation of the two states.

(2) The Delaware Bay includes all the waters of the Delaware Bay south of such line and the tributaries emptying therein down to a line connecting the Harbor of Refuge Light at Cape Henlopen, Delaware, with the lighthouse at Cape May, New Jersey.

§ 7303. Interstate cooperation.

The commission shall meet and confer with the pertinent officials of the states of New York, New Jersey, Pennsylvania and Delaware, constituting the Middle Atlantic Section of the Atlantic States Marine Fisheries Commission, and may enter into such agreements with respect to the coordination of research, enforcement or any other operations or facilities as may be necessary to secure joint management of the shad fishery of the Delaware River and Bay and their tributaries.

§ 7304. Permitted nets and devices.

(a) Unauthorized nets or devices prohibited.--The use of any net or device other than those set forth in subsection (b) for the catching of shad in the Delaware River and Bay and their tributaries is prohibited.

(b) Nets and devices which may be used.--The following nets and devices may be used in the Delaware River and Bay and their tributaries:

(1) Haul seines not less than five and one-fourth inches stretched mesh while being fished and not to exceed 420 feet in length, whether singly or attached.

(2) Fyke or hoop nets with leaders not exceeding 180 feet in length with no part of the net or leaders to be less than two and one-half inches stretched mesh while being fished.

(3) Stake gill nets, either staked or anchored, the smallest stretched mesh of which shall be three inches while being fished and shall not exceed 180 feet in length. A shad net with minimum stretched mesh of five and one-fourth inches while being fished may exceed 180 feet but may not be greater than 300 feet in length.

(4) Drift gill nets (run around or stab nets) the smallest mesh of which shall be two and three-fourths inches stretched while being fished and the length of which shall not exceed 1200 feet.

(5) Hand line, including rod and reel.

Cross References. Section 7304 is referred to in section 7306 of this title.

§ 7305. Season and lift period.

(a) **Season.**--The taking of shad in the Delaware River and Bay and their tributaries is prohibited except between March 1 and June 10.

(b) **Lift period.**--During the season when shad may be caught under subsection (a) it is unlawful for any nets to be in operation between 2 p.m. on Saturday and 12 midnight Sunday.

§ 7306. License required for catching shad with nets.

(a) **General rule.**--The commission shall, by a special shad license, permit the use in the waters of the Delaware River and Bay and their tributaries within this Commonwealth of the nets specified in section 7304 (relating to permitted nets and devices) for the taking of shad. No person shall use any net to take shad in these waters without first procuring a shad license from the commission.

(b) **Duration and renewal.**--All shad licenses shall be issued annually for the duration of a fishing season beginning on March 1 and expiring on June 10 and shall be renewable annually for the same period except as otherwise provided in this chapter.

(c) **License to list gear and location.**--All shad licenses shall list specifically the number and type of units of gear or the length of gear authorized and the area in which they are licensed to operate if the operations authorized are limited as to area.

§ 7307. Limitations on issuance of license.

(a) **General rule.**--Except as otherwise provided in this chapter, no license shall be issued:

(1) To a person not engaged in such operations during the season immediately preceding that for which application for the shad license is made.

(2) To extend operations of the applicant beyond those of the last year in which those operations were carried on either by increasing the fishing capacity or the size or number of units of gear employed at that time.

(3) To operate a fixed net on a location already occupied by another licensee or within 1500 feet thereof, measured at right angles to the line of stakes, unless the other licensee has failed to apply for renewal of his license on or before January 1 of the year for which the license is to be issued.

(b) **Renewal of license.**--A licensee who does not engage in any or some of the fishing operations licensed may renew his license for those operations in the following season, but if he fails to engage in some or all of the operations licensed for two successive seasons he shall lose his right to renew and must apply for any further license as a new applicant with respect to those operations licensed but not engaged in.

§ 7308. Issuance of additional licenses.

(a) When authorized.--When the United States Fish and Wildlife Service or its successor certifies that the catch of shad in the Delaware River and Bay and their tributaries for the preceding year totals 500,000 fish, the executive director shall consult with the pertinent administrative and other officials of the states of New York, New Jersey and Delaware, constituting the Middle Atlantic Section of the Atlantic States Marine Fisheries Commission, and with the technical advisers of the United States Fish and Wildlife Service or its successor and, after such consultation and on the basis of all the scientific evidence available to the commission through these and other sources, if the commission finds that a limited number of additional operators or increased units of gear may be licensed for the following season without impairing the annual yield of the fishery it may authorize additional licenses.

(b) Determining number of licenses.--In determining the number of additional licenses, the commission shall give due consideration to the findings of the United States Fish and Wildlife Service or its successor. The commission may enter into such administrative agreements with the pertinent administrative officials of any of the other states enumerated in subsection (a) as may be necessary to establish a joint limitation of licenses and such cooperative programs as may be deemed necessary for the re-establishment of the shad fishery of the Delaware River and Bay and their tributaries in such manner as to promote the maximum sustained annual yield therefrom.

(c) Notice of proposed additional licenses.--When additional units of gear are to be licensed, the executive director shall give public notice, by advertisement once a week for two successive weeks in at least two daily newspapers of the counties of the state bordering on the Delaware River, of the additional units of gear to be licensed and the areas where they may be operated, and shall state that applications may be received up to January 1 next succeeding the publication of the notice.

(d) Grounds for refusing license.--The executive director may decline to receive any application for an additional license when, after due notice and opportunity for hearing, he finds that the applicant is not qualified by character, experience, financial responsibility and equipment to conduct properly the fishing operation applied for, or when, after due notice and opportunity for hearing, he finds that it is necessary, in order to maintain the stability of the industry or prevent conditions leading to monopoly, to prefer the applications of new operators over the extension of the operations of previous licenses, or, in the licensing of extended operations, to prefer small over large operators.

(e) Time and method of issuance.--On January 1 of each year, the commission shall issue such additional licenses as may be authorized for that year under the provisions of this section, the recipients of such licenses and the locations of fixed nets to be chosen by lot from among the applications received whenever there are more applicants than available licenses or more than one applicant for any location.

Cross References. Section 7308 is referred to in section 7312 of this title.

§ 7309. License fees.

The commission may issue the following shad fishing licenses which shall be valid only during the shad fishing season for which issued, as provided in this chapter, upon written

application therefor, signed by the applicant, and upon payment to said commission of the following fees:

(1) Commercial shad fishing license, \$10.

(2) Noncommercial shad fishing license under which applicant is not permitted to catch more than ten shad in any one day, \$1.

§ 7310. Records and reports by licensees.

Each shad licensee shall keep a daily record of his catch on forms provided by the commission and shall provide a copy of his record for the commission at weekly intervals during the fishing season.

§ 7311. Transfer of license.

(a) **When authorized.**--A shad license to operate any nets permitted under this chapter may be transferred whenever the owner of the nets, boats, gear and other equipment sells or conveys them by bill of sale for a bona fide consideration to any person who is eligible under the provisions of this chapter.

(b) **Application, fee and issuance.**--The transfer shall be made only upon surrender of the outstanding shad license and the execution of an application by the new owner or owners as in the case of an original application and the payment of the sum of \$2.50 as a transfer fee, whereupon the commission shall issue a new shad license for the remainder of the license season.

§ 7312. Withdrawal of licenses issued in prior year.

(a) **General rule.**--When the United States Fish and Wildlife Service or its successor certifies, on the basis of scientific evidence, that the catch of shad in the Delaware River and Bay and their tributaries has declined 100,000 fish or more under the previous year's catch in such waters and that there is evidence of prospective depletion, or when the commission, after investigation and on the basis of scientific evidence, finds that the fishery is threatened by depletion or that the fishing rate is too high to permit the continuance of a constant annual yield or that present exploitation threatens the future maximum yield of that fishery, it shall provide for the withdrawal in the following season of some or all of the licenses previously issued. In this connection, it may enter into administrative agreements with the pertinent administrative officials of the other states mentioned in section 7308 (relating to issuance of additional licenses) for the purpose of arranging a joint reduction of units of gear.

(b) **Notice of intention.**--When units of gear are to be reduced, the commission shall give public notice, in the manner set forth in section 7308, of intention to do so and of the number and character of units of gear to be withdrawn and from which areas.

(c) **Method of withdrawal.**--In effecting a reduction of fishing effort under the provisions of this section the commission shall withdraw shad licenses to be affected in the inverse order in which the shad licenses were issued except that if reduction of fishing intensity is sought with respect to a particular area or a particular operation license, withdrawals shall be in the inverse order in which the licenses were issued for that area or operation. In all instances where this procedure cannot be followed, resort shall be had to lots.

§ 7313. Suspension or revocation of license.

(a) **Suspension.**--The commission, after due notice and hearing, may suspend for a suitable period the shad license of any person who is found by them to have done any of the following:

(1) Made a false statement in the application for a license.

(2) Violated any shad regulation contained in this chapter.

(3) Failed to make required shad reports.

(b) Revocation.--For a second infraction, the commission may, after due notice and hearing, revoke the shad license of the offender.

(c) Judicial review.--Any applicant or licensee aggrieved by an adjudication of the commission may appeal in accordance with Title 2 (relating to administrative law and procedure). Whether or not a supersedeas is granted, the licensee may continue to fish for shad up to the date of the final decision of the court without being held to have violated the provisions of this chapter.

§ 7314. Penalty.

Any person violating the provisions of this chapter commits a summary offense of the second degree.

1992, MARCH 19, P.L.18, NO.7

Preamble

The General Assembly of the Commonwealth of Pennsylvania finds that the fishing license fees for nonresidents of this Commonwealth should be increased for the purpose of providing the Fish Fund with additional revenues to be used to enhance and improve fishing on or in the waters of this Commonwealth, including the commission's catchable trout and salmon propagation and stocking programs.

1994, OCTOBER 5, P.L.534, NO.79

Preamble

The General Assembly of the Commonwealth of Pennsylvania finds:

(1) The power of the Commonwealth to protect and manage fish in Commonwealth waters is inherent in the sovereignty of the Commonwealth.

(2) Persons who are granted commercial fishing licenses to fish with gill nets have no property interest in these licenses or fundamental right to continue fishing with such gear.

(3) The Commonwealth in the exercise of its sovereign power to protect and manage fishes in the waters of the Commonwealth has the power and duty to discontinue issuance of licenses for use of gill nets for commercial fishing in boundary lakes.

(4) Elimination of commercial fishing with gill nets on boundary lakes will provide for the better protection and management of the fisheries of boundary lakes.

(5) Although holders of commercial fishing licenses to use gill nets in boundary lakes have no property interest in these licenses and no expectation that these licenses will continue to be issued, the Commonwealth may provide compensation to licensees to ease the transition from fishing with gill nets.

(6) It is appropriate for those engaged in sport fishing in Lake Erie and Presque Isle Bay to pay the cost of providing recompense to holders of commercial fishing licenses to use gill nets in boundary lakes by means of a limited duration special permit.

The General Assembly of the Commonwealth of Pennsylvania declares that the purpose of this act is to provide for the orderly discontinuance of use of gill nets for commercial fishing on Lake Erie and other boundary lakes of this Commonwealth and provide compensation for holders of gill net licenses issued under 30 Pa.C.S. § 2903.

Explanatory Note. Act 79 amended or added sections 2903 and 2907.2 of Title 30.

(a) Financial feasibility study.--The Pennsylvania Fish and Boat Commission shall assign staff to study the financial feasibility of providing a free resident fishing license to permanently disabled residents of this Commonwealth.

(b) Report.--The commission shall issue a report of its findings to the Game and Fisheries Committee of the Senate and the Game and Fisheries Committee of the House of Representatives within one year of the effective date of this act.

Explanatory Note. Act 115 amended sections 303, 304, 305, 742, 923, 2709 and 5304 of Title 30.
