SESSION OF 2001 185TH OF THE GENERAL ASSEMBLY

No. 26

SENATE

MONDAY, April 30, 2001

The Senate met at 2 p.m., Eastern Daylight Saving Time.

The PRESIDING OFFICER (Robert J. Thompson) in the Chair.

PRAYER

The Chaplain, Reverend NANCY McCLURE, of Perry Valley Presbyterian Church, Millerstown, offered the following prayer:

Let us pray.

Blessed are You, O God, creator of all that is and ever will be. We bow before You this day at the beginning of this gathering to remember that we are not alone in this life and in this world. Even when we cannot or do not sense Your presence, You are always with us. We know that if we would but open our hearts, our ears, and our eyes, we would see You everywhere. In the smiles of our children, in the hugs of our grandchildren, in the blossoming flowers of spring, You make yourself known.

O God, we ask that You would give these legislators a knowledge of Your will for our State. Let them remember that they are to serve the public trust beyond personal gain or glory. May they do their work in a spirit of wisdom, kindness, and justice. Help them struggle with the tension between what practically can be done and all the needs that the people of our State have. Give them the courage to make difficult choices in a spirit of collegiality and cooperation. Help them, O God, to use the authority they have been given to serve faithfully, always guided by Your principles of love and justice.

We commend to Your care, O God, the Commonwealth of Pennsylvania. May we live in peace and be guided by Your will. Amen.

The PRESIDING OFFICER. The Chair thanks Reverend McClure, who is the guest today of Senator Corman.

Section 1. The act of February 13, 1970 (P.L.19, No.10), entitled "An act enabling certain minors to consent to medical, dental and health services, declaring consent unnecessary under certain circumstances," is amended by adding sections to read:

Section 1.1. Definitions.—When used in this act, unless the context clearly indicates otherwise:

"Facility" shall mean any mental health establishment, hospital, clinic, institution, center, day-care center, base-service unit, community mental health center, or part thereof, that provides for the diagnosis, treatment, care or rehabilitation of mentally ill persons.

"Inpatient treatment" shall mean all treatment that requires full-time or part-time residence in a facility that provides mental health treatment.

"Mental health treatment" shall mean a course of treatment, including evaluation, diagnosis, therapy and rehabilitation, designed and administered to alleviate an individual's pain and distress and to maximize the probability of recovery from mental illness. The term shall also include care and other services which supplement treatment and aid or promote recovery.

Section 1.2. Mental Health Services.—(a) This section applies to a minor thirteen years of age or older and under eighteen years of age. This section supersedes any contrary provision of the act of July 9, 1976 (P.L.817, No.143), known as the "Mental Health Procedures Act," or any other statute.

(b) A minor may submit himself or herself to mental health treatment and a parent's consent shall not be necessary if the minor:

(1) believes that the minor is in need of mental health treatment; and

(2) understands the nature of mental health treatment.

(c) A parent or guardian or an individual standing in loco parentis to the minor may consent on behalf of the minor and, by that consent, subject the minor to mental health treatment if the parent, guardian or individual believes that the minor is in need of mental health treatment. Action under this subsection shall be deemed action on behalf of the minor, and the minor's consent shall not be necessary.

(d) Consent under subsection (b) may be withdrawn only by the minor. Consent under subsection (c) may be withdrawn only by the individual who subjected the minor to mental health treatment.

- (e) Before a person is accepted for mental health treatment, an explanation shall be made to him of such treatment, including the types of treatment in which he may be involved, and any restraints or restrictions to which he may be subject, together with a statement of his rights, including the right to object to treatment by filing a petition with the court.
- (f) Nothing in this section shall be construed as restricting or altering a minor's existing rights to consent to treatment on the minor's own behalf.
- (g) Nothing in this section shall be construed as restricting or altering a parent's or legal guardian's existing rights to object to a minor's voluntary treatment provided pursuant to the minor's consent on the minor's own behalf.
- (h) The parent, guardian or individual retains responsibility for mental health services provided to the minor as would be the case for any other health service under law or contract.
- Section 1.3. Outpatient Mental Health Treatment.—(a) This section applies to treatment for a minor thirteen years of age or older and under eighteen years of age. This section supersedes any contrary provision of the act of July 9, 1976 (P.L.817, No.143), known as the "Mental Health Procedures Act," or any other statute.
- (1) If a minor consents to outpatient mental health treatment and the parent, guardian or person standing in loco parentis to the minor objects, the parent, guardian or person standing in loco parentis to the minor may petition the court of common pleas of the judicial district where the minor is domiciled for a determination of the minor's need for mental health treatment.

(2) If a parent, guardian or person standing in loco parentis to the minor has consented to outpatient mental health treatment on behalf of the minor and the minor objects, the minor may petition the court of common pleas of the judicial district where the minor is domiciled for a determination of the minor's need for mental health treatment.

(3) The petition shall be heard by the division or a judge of the court assigned to conduct proceedings under the "Mental Health Procedures Act" and may be heard by a mental health review officer or other master, as appointed by the president judge. A minor with mental retardation or drug or alcohol dependency shall receive mental health treatment only if the minor is also diagnosed as mentally ill; but mental retardation and alcohol or drug dependency, of themselves, shall not be deemed to constitute mental illness.

(b) Upon the filing of a petition under subsection (a):

(1) The court shall appoint counsel for the minor.

(2) The court may, upon the request of the petitioner, order the minor who is alleged to exhibit behavior showing a need for mental health treatment to undergo a mental health assessment performed by a psychiatrist or a licensed clinical psychologist. Such assessment shall include a recommended level of care and length of treatment. The court shall hear the testimony of the persons performing the assessment under this paragraph at the hearing on the petition for commitment.

(c) The following shall apply:

(1) Based on the assessment under subsection (a)(2), the court may order the termination, modification or continuation of the minor's mental health treatment. A continuation may not exceed forty-five days.

(2) To make an order under paragraph (1), the court must find all of the following by clear and convincing evidence:

(i) The minor has a diagnosed mental disorder.

(ii) The minor would benefit from mental health treatment.

(iii) The treatment represents the least restrictive alternative that is medically appropriate.

(3) If the court decision is inconsistent with the level of care and length of treatment recommended by the assessment under subsection (a)(2), the court shall set forth in its order a statement of facts and the reason for its disposition.

(4) A minor ordered to undergo treatment due to a determination under subsection (a) shall remain under the treatment designated by the court for a period of forty-five days unless sooner discharged. Prior to the end of the time period of the order, the court shall conduct a review hearing in accordance with this subsection to determine whether to:

(i) release the minor; or

(ii) make a subsequent order for outpatient mental health treatment for a period not to exceed ninety days unless sooner discharged in accordance with paragraphs (1), (2) and (3).

(5) The procedure under paragraph (4) shall be repeated until the court determines to release the minor.

Section 1.4. Inpatient Mental Health Treatment.—(a) This section applies to mental health treatment for a minor thirteen years of age or older and under eighteen years of age. This section supersedes any contrary provision of the act of July 9, 1976 (P.L.817, No.143), known as the "Mental Health Procedures Act," or any other statute.

(b) The following shall apply:

(1) A parent, guardian or person standing in loco parentis may consent to voluntary inpatient treatment, pursuant to Article II of the "Mental Health Procedures Act," on behalf of the minor on the recommendation of a physician who has examined the minor. The minor's consent shall not be necessary.

- (2) A minor who has been confined for inpatient treatment on the consent of a parent or guardian and who objects to continued inpatient treatment may file a petition in the court of common pleas in the judicial district in which the minor is confined requesting a withdrawal from or modification of treatment. The court shall promptly appoint an attorney for the minor and schedule a hearing to be held within seventy-two hours, unless continued upon the request of the attorney for the child, by a judge or mental health review officer, who shall determine whether or not the voluntary treatment is in the best interest of the minor. For inpatient treatment to continue against the minor's wishes, the court must find all of the following by clear and convincing evidence:
 - (i) The minor has a diagnosed mental disorder.

(ii) The minor would benefit from mental health treatment.

(iii) The disorder can be treated in the particular facility where the treatment is taking place.

(iv) The treatment represents the least restrictive alternative that is medically appropriate.

(3) A minor ordered to undergo treatment due to a determination under paragraph (2) shall remain under the treatment designated by the court for a period of twenty days unless sooner discharged. Prior to the end of the time period of the order, the court shall conduct a review hearing in accordance with this subsection to determine whether to:

(i) release the minor; or

(ii) make a subsequent order for inpatient mental health treatment for a period not to exceed sixty days unless sooner discharged in accordance with paragraphs (1) and (2).

(4) The procedure under paragraph (3) shall be repeated until the court determines to release the minor.

Section 1.5. Release of Medical Records.—The individual consenting to treatment of the minor shall also have the authority to consent to the release of the minor's medical records.

Section 1.6. Court Reporting.—Court reporting shall be as follows:

SENATE RESOLUTION ADOPTED

Senators KITCHEN, MELLOW, CONTI, TARTAGLIONE, STACK, HUGHES, KUKOVICH, FUMO and WILLIAMS, by unanimous consent, offered Senate Resolution No. 69, entitled:

A Resolution honoring the memory of Leon Howard Sullivan, pastor, community activist, humanitarian and international leader.

On the question, Will the Senate adopt the resolution?

The PRESIDING OFFICER. The Chair recognizes the gentlewoman from Philadelphia, Senator Kitchen.

Senator KITCHEN. Mr. President, my remarks and our Senate resolution honor a great man who left us on April 24. Reverend Sullivan was 78 and was a champion of the people for more than five decades. A retired minister from Zion Baptist Church in Philadelphia, Pennsylvania, Reverend Sullivan's dynamic style and ability to move mountains and corporations earned him the nickname of "The Lion from Zion."

Reverend Sullivan was the first African-American on the board of directors of the General Motors Corporation and is the author of "Moving Mountains: The Principles and Purposes of Leon Sullivan." He was born in Charleston, West Virginia, in 1922 and married Grace Banks in 1944.

In 1964, he founded the Opportunities Industrialization Centers of America and OIC International, a skills training program devised to train people of all races, ages, and gender. Since its beginning, OIC has provided skills training to over 3 million people toward the goals of gainful employment and business creation with billions of dollars added to the economies of the world. To date, there are more than 75 training facilities in America and 17 countries in Africa, and OIC is one of the world's largest nonprofit training organizations. Of all of Reverend Sullivan's accomplishments, OIC remained the closest to his heart.

In 1977, Reverend Sullivan formulated what has become known as his legacy, the "Sullivan Principles," a set of ethical directives that called for equitable treatment and promoted South African workers. These guidelines were instrumental in the abolishment of apartheid in South Africa. At the fifth African-African Summit in Accra, Ghana, Reverend Sullivan announced

the expansion of the original Sullivan Principles to the Global Sullivan Principles for corporate social responsibility. These guidelines enforce fair employment practices around the world, and hundreds of corporations and city governments worldwide have signed on to date.

In 1983, Reverend Sullivan founded the International Foundation for Education and Self-Help. The foundation is a nonprofit organization set up to train 100,000 skilled workers, 100,000 newly developed farmers, and 5 million people in literacy. The foundation operates programs such as Teachers for Africa, SOS, which is school supplies for the children of Africa, the African-African American Summit, the Self-Help Investment Program, the Angola Training Center, and other activities.

In 1991, Reverend Sullivan created the African-African American Summit, which brings American corporations, business leaders, and heads of state together with African leaders to discuss political, economical, educational, and social development of the African continent. At the 1999 summit in Accra, Ghana, Reverend Sullivan announced the Peoples Investment Fund for Africa, the goal of which is to address the critical need for grassroots economic development by supporting self-help, micro-finance initiatives to provide additional capital base for African small business clients, thereby helping to create job opportunities and alleviate poverty in Africa.

In 1963, Life Magazine cited Reverend Sullivan as one of the 100 Outstanding Young Adults in the United States. In 1992, he was awarded the Presidential Medal of Freedom by President Bush. In 1999, he received the Notre Dame Award, awarded to people who have achieved international recognition for the contribution of the welfare of humanity, and in December 1999, he received the Eleanor Roosevelt Award from President Bill Clinton.

Thank you, Mr. President.

The PRESIDING OFFICER. The Chair recognizes the gentleman from Bucks, Senator Conti.

Senator CONTI. Mr. President, I am honored to follow my colleague from Philadelphia in recognizing and saying a few words about a man whom I did not know personally but I certainly admired for much of my life, Reverend Leon Sullivan. He was known by Presidents, he was known by world leaders. He was certainly known by the heads of international corporations. But more importantly, he was known by common everyday people across the Commonwealth and certainly in the city of Philadelphia. Ask the folks in Philadelphia who Leon Sullivan was, and they will know. Ask the people in Washington, D.C., who Leon Sullivan was, and they will know. And certainly ask the folks in South Africa who Leon Sullivan was, and they also will know.

He may have started his life poor, Mr. President, but he was filled with a spiritual wealth that we could only hope for. He was an advocate for the poor, a defender for the politically disenfranchised, and when it came to race relations, he was a true visionary, not just in the United States but all across the world. He was in fact the very definition of grassroots action. Whether he was tending to his congregation, Zion Baptist in Philadelphia, or taking on multinational corporations, he got involved and got others involved also.

It is fitting that the prior speaker reflected on the Sullivan Principles, which really helped put an end to apartheid. They were conceived in 1977, and apartheid ended in 1993. And from the news article that was written over the weekend in the Philadelphia Inquirer, it reminded us that Reverend Sullivan was actually chastised for the nature of his principles initially, but boy, he certainly turned out to be a visionary when it was he who recognized the economic principles involved in helping to end apartheid by bringing to all the corporations that did business in South Africa the same principles of equality and benefits for all who worked there. I think he was so important to putting an end to apartheid in 1993. Certainly his job training programs were way ahead of their time, and something we could all emulate also.

In the end, Leon Sullivan was a preacher first and foremost, and like all good preachers, he was interested in building people up rather than tearing them down. When it came to helping others, when it came to organizing the best individuals, but most importantly when it came to overcoming difficult circumstances and finding the good in things when there was not much good to find, he was relentless, and he could not be stopped.

Now that he is gone, his successes are really too many to mention today, he will stand forever as a testament to the greatness as the man who was referred to as the "Lion from Zion." He was a giant of a man, tall in stature and tall in spirit. He was an inspiration to countless individuals, myself included, and affected the lives of many more who never knew him. But as I said, Mr. President, we knew him and respected him.

Thank you, Mr. President.

And the question recurring, Will the Senate adopt the resolution?

A voice vote having been taken, the question was determined in the affirmative.

ANNOUNCEMENT BY THE PRESIDING OFFICER

The PRESIDING OFFICER. There will be an immediate meeting of the Committee on Rules and Executive Nominations in the Rules room. All members of the Committee on Rules and Executive Nominations will please report to the Rules room.

PETITIONS AND REMONSTRANCES

The PRESIDING OFFICER. The Chair recognizes the gentleman from Allegheny, Senator Wagner.

Senator WAGNER. Mr. President, last week I supported Senate Resolution No. 35, which was sponsored by Senator Conti, myself, and many other Members of the Senate. That resolution passed unanimously in this body, very quickly without discussion, and I thought it was important, Mr. President, to stand today and speak in regard to that resolution because it is a very, very important item.

That resolution, Mr. President, asks the Pennsylvania Department of Environmental Protection to submit a formal request to the U.S. Department of Environmental Protection Agency, EPA, to exempt Pennsylvania from the liquid fuels oxygen content requirement in gasoline that we use in our automobiles. Mr. President, this is a mandate placed on Pennsylvania as part of the United States Clean Air Act passed a number of years ago. This requirement of using MTBE, methyl tertiary butyl ether, as an additive to gasoline is causing serious problems with our water in Pennsylvania and in many other States across this country. In attempting to clean our air, we are finding out that we are polluting our water, especially our groundwater, in southeastern Pennsylvania and also in western Pennsylvania and in the central portion of Pennsylvania.

Two weeks ago, Mr. President, on April 19, the Senate Committee on Intergovernmental Affairs held a public hearing in Doylestown, Pennsylvania. This committee, chaired by Senator Conti and Minority chair Senator Stack, had an excellent hearing held in Senator Conti's senatorial district. Citizens, gas station owners, municipal officials, affected homeowners, the oil industry itself, and the Department of Environmental Protection all testified at the hearing in regard to this growing problem in our environment related to water. Ironically enough, the United States Environmental Protection Agency was invited but was absent from that hearing. I personally want to thank Senator Conti for inviting me to that hearing, even though I am not part of that committee, due to my concern in regard to offering a similar resolution in the previous legislative Session, which also passed the Senate unanimously, asking the Federal government to do something about this problem.

Mr. President, MTBE, again, an additive to gasoline, is in groundwater and is making drinking water supplies undrinkable due to its undesirable taste and odor of the water. Unlike other compounds in gasoline, MTBE dissolves and spreads quickly in groundwater. MTBE does not degrade easily, and it is difficult and costly to remove it from groundwater. At higher levels it poses a risk to the health of human beings. The health effects of ingesting or inhaling MTBE range from headaches to dizziness to asthma, kidney disease, central nervous system disorders, and even cancer at higher doses. Residents of several Bucks County communities where MTBE has been found contaminating drinking water have reported the disappearance of even wildlife in certain areas. One family wonders whether MTBE might be related to their daughter's learning disability, and another to stomach problems of a child less than 5 years old.

Other States, in addition to Pennsylvania, such as New Jersey and New York, have already begun phasing out and banning MTBE in gasoline to prevent it from getting into the water systems. The Environmental Protection Agency announced last year that it would ask Congress to end the oxygenated gas requirement that resulted in increased levels of MTBE in our gasoline. There is evidence, Mr. President, that the Federal government knew of this problem long ago, back in 1987, that MTBE was seeping into water supplies in at least four States in our country. So this problem is not a new problem, Mr. President. It has been going on for quite some time, and is the reason why we are here today talking about it.

But, Mr. President, we need to act now in regard to MTBE. We need the Department of Environmental Protection here in Pennsylvania, our own department, to put MTBE at a higher level on their radar screen. We need to urge Congress and the Federal government to ban the use of MTBE, a known carcinogen in lab animals. The government created this problem

when it required an oxygenated additive to gasoline. We, meaning State government, and especially the Federal government, have to solve the problem by taking it out of gasoline. As one at the public hearing so aptly testified that day, next to the air we breathe, the most important thing in our lives is the water that we consume.

Mr. President, I am not convinced that our department at the State level is as committed as some of us in the General Assembly to addressing this problem, and that is the reason why I stand up here today, to put it on the public record that I would like to see an aggressive approach taken by the Commonwealth of Pennsylvania in a lobbying effort at the Federal level in Washington with EPA and with Congress to correct this problem. At the public hearing we had Congressman Greenwood testify, and he indicated that he was trying to address the problem, but there was a strong lobbying effort in Washington for MTBE to be used as an additive. Therefore, we need a strong counter-lobbying effort from State governments to get this additive out of gasoline.

Mr. President, I stand to talk about this problem because I believe it is becoming a crisis in our Commonwealth, a crisis that we have to address. And it is very, very important that we all put it at a higher level, because we know as more gasoline is used in our automobiles, there is a greater potential of it leaking into water systems, which is precisely what is happening, and as that happens we are actually polluting our water systems in Pennsylvania - groundwater, water in lakes and reservoirs, water that we use for cooking our food and drinking and even washing our clothes. So, Mr. President, I stand to urge the Commonwealth, the administration, and Members of the General Assembly to do whatever we can to address this problem.

I thank you, Mr. President, for the opportunity and Senator Conti for having a public hearing in regard to this issue. Thank you.

The PRESIDING OFFICER (Noah W. Wenger) in the Chair.

The PRESIDING OFFICER. The Chair recognizes the gentleman from Bucks, Senator Conti.

Senator CONTI. Mr. President, thank you to my colleague from Allegheny County for those very kind remarks on the hearing we had on this very important issue. It has been my pleasure to work with the Senator from Allegheny County on this issue. He has really taken the lead on this in prior Sessions, so we stand side by side in a bipartisan fashion. I also wish to re-emphasize his thoughts about the EPA not testifying. We were all very disappointed in that, but I will join with my colleague from Allegheny County and all the Senators in the Chamber in working with our Department of Environmental Protection as we take this fight to Washington to try to make a difference on the oxygenate mandate, as he articulated.

So I rise to thank the gentleman and also to say that our work now moves from Harrisburg to Washington, and we will not rest until we work on this very important issue to ensure that we all have safe drinking water here in the Commonwealth of Pennsylvania.

Thank you, Mr. President.

The PRESIDING OFFICER. The Chair recognizes the gentleman from Lackawanna, Senator Mellow.

Senator MELLOW. Mr. President, I have petitions of a speech that I would like to give, but perhaps Senator Brightbill would like to conclude activities on the floor and then I would be only too happy to make the speech afterwards.

PETITIONS AND REMONSTRANCES (Continued)

The PRESIDING OFFICER. The Chair recognizes the gentleman from Lackawanna, Senator Mellow.

Senator MELLOW. Mr. President, there is no doubt in my mind that the people of Pennsylvania are truly concerned about the economic prosperity and the potential downturn which could affect the economy and their livelihoods. Their anxieties, Mr. President, are further compounded by incidents such as the massive layoffs in the district that I represent at the Corning Plant in Benton Township, Lackawanna County, during these past 3 months. Executive and company officials, Mr. President, came in like gangbusters last year. They made lofty projections and boasted of their ability to provide life-sustaining jobs and wages for nearly 2,000 residents of northeastern Pennsylvania.

They stood at a news conference in September of the year 2000, some 7 months ago, with ear-to-ear broad smiles, excited about the future of northeastern Pennsylvania and what they could do for our people. They stood, Mr. President, along with the Governor and my Congressman, Don Sherwood, who has expressed his surprise and dismay and disappointment about the news that followed. These are the same people, Mr. President, who brought in experts who researched and determined that they could pay workers in my district less than they could pay the same workers in other parts of the Commonwealth.

Mr. President, Corning also received over \$9.5 million in loans, grants, and tax credits from the State, all at the expense of the Pennsylvania taxpayers. But what do we, the Commonwealth of Pennsylvania, have to show for it? Very little, Mr. President, or perhaps nothing at all, unless you count the 400 people being sent home without a job to 400 families in northeastern Pennsylvania who looked forward to a steady paycheck and benefits. That is 400 more people today, Mr. President, who are looking for a job. What is even more insulting about the incident is that some people left previous employment to be part of something bigger, something more promising for their future and for the future of their families.

Corning, Mr. President, came to Benton Township in Lackawanna County last year, with the promise of providing 2,500 jobs by the year 2003 to the people of northeastern Pennsylvania, but when you looked at the long faces of those walking out of the plant last week holding a pink slip, you must wonder how many more jobs and how many more people who work for Corning might be let go. Mr. President, nearly 150 people were let go last Thursday from this new Corning announcement of the plant back in September. That is in addition to the 250 people who were released by Corning in early March of this year, for a total of 400 people who have been let go from this facility.

One New York analyst predicts a recovery next year, but is uncertain as to when exactly that recovery will take place. That same analyst, Mr. President, was quoted in the Scranton Times, and I quote, "A lot of people missed the boat on this one," meaning a lot of people were not accurate on the Corning announcement. But we cannot afford, Mr. President, to keep missing the boat in Pennsylvania. This is especially true, and we continue to provide millions upon millions of tax dollars on tax breaks and incentives to companies that cannot properly forecast their own future.

This incident at Corning is devastating, not just for the 400 families, but to a community and to an area which already has had its share of economic challenges. Supporting large tax cuts for the wealthy and big corporations, Mr. President, is no guarantee that working people in Pennsylvania will be treated properly. We need to do our homework. We can no longer count on rosy predictions and figures put out by company executives or company public relations wizards to tell us how things will be in a year or 2 years right here in Pennsylvania, and how they are going to make our life better by taking our tax dollars and expanding in Pennsylvania when in fact, Mr. President, they do not and have not held up to their part of the bargain.

Our biggest concern should always be with the workers. Job security is a significant worry for the people of Pennsylvania.

Even the most optimistic workers in our Commonwealth are worried about their jobs, a part of our work force. We should shift our emphasis in this Commonwealth, Mr. President, from creating large tax cuts to providing a sound, long-term investment approach for economic development for all.

The fallout from the Corning layoffs should remind us of our priority. And, Mr. President, that priority should always be that we place the economic security of the workers of Pennsylvania and the families of the people of Pennsylvania as the most important thing that we ever deal with in dealing with companies that want to tell us that they are going to do such a great job for Pennsylvania and take our money and then not live up to their obligation. In this particular case, Mr. President, an announcement that was made in September, some 7 months ago, where \$9.5 million of Pennsylvania tax dollars was given to a company with a promise that they would employ 2,500 people by the year 2003, has gone awry. Four hundred people have been laid off from the 600 that had been employed initially. God only knows when those other 200 jobs will be done away with.

And, Mr. President, we should always be mindful that the most important security of our economy that we have is to guarantee the proper security to our workers and to Pennsylvania families.

Thank you very much.

The PRESIDING OFFICER. The Chair recognizes the gentlewoman from Northampton, Senator Boscola.

Senator BOSCOLA. Mr. President, I rise to echo the remarks of our Democratic Leader. You know, the nightly news, if you watch it, is filled with uncertainty about our economy and what it all means to investors on Wall Street. But what about the working families who live on our streets? Who cares about those 400 workers in Senator Mellow's district who lost their jobs? We do, Mr. President. I am a member of the Democratic Party, and I am proud to be a Democrat. Democrats care about those 400 men and women who have lost their jobs.

These are 400 families who are already feeling the pinch. They are paying mortgages and car loans. They are feeling the pinch from the high cost of prescription drugs, rising property taxes, while all along trying to save for their child's education, which they believe is beyond their reach, too. These working families do not want to hear about corporate tax cuts and making Pennsylvania's business climate right.

Over the last 7 years that I have been in this legislature, we have cut business taxes every single year, and still we are at the bottom rung of job creation in this State. These families, they want to work hard. They want to work hard at a job that will provide for their families. We as Democrats understand that. We understand the needs of working families, and I think most people would agree with us that it is just not right to give \$9 million in State funds to one large corporation and then allow that company to give 400 pink slips to working men and women. That is just not right, Mr. President.

Thank you.

The PRESIDING OFFICER. The Chair recognizes the gentleman from Dauphin, Senator Piccola.

Senator PICCOLA. Mr. President, I would like to just briefly respond to the gentleman and the lady concerning the issues that were raised with the layoffs at the Corning plant in northeastern Pennsylvania. I certainly share the concern and the sense of tragedy that is associated any time when that number of men and women are laid off from jobs. It certainly is not something we want to see here in Pennsylvania, and I think that it is certainly appropriate to express our concern and our dedication to improve the situation if we can with regard to those kinds of events.

I do not want it to be said, however, that such a concern is only a concern of the Democratic Party. It certainly is also a concern of the Republican Party, and I think that one of the best ways to address those kinds of concerns across the board is to make sure that this Commonwealth is a friendly place in which to do business, a place where the taxes for businesses are as low as possible, a place where regulatory oversight is kept at an absolute minimum, a place where employers feel that the Commonwealth is a friendly place, a partner in the enterprise as opposed to an adversary.

I do not know anything in particular about these layoffs in northeastern Pennsylvania. I do share the concern of the lady and the gentleman that we should take note of them and to make sure that the same kinds of circumstances certainly do not repeat themselves. But, Mr. President, I do not want it to be believed from the remarks on the floor that this is a concern that is only shared by one party.

Thank you, Mr. President.

The PRESIDING OFFICER. The Chair recognizes the gentleman from Allegheny, Senator Wagner.

Senator WAGNER. Mr. President, I rise to talk about the same issue, an issue that we discussed and our Democratic Leader brought up in our caucus today and we discussed for quite a bit of time. I also want to add my comments and my concerns about those 400 people in Lackawanna County who lost their jobs at a company that received millions of dollars from State government, and it is my understanding that they were State loans, State grants, and tax cuts. And I think it is important to talk about it.

Those 400 working men and women, Mr. President, are not in an economic slowdown. Those 400 men and women are in an unemployment line, and they are in that unemployment line because the company made a false promise. It took \$9 million in State funding that was supposed to be used to create jobs. Instead, a false hope was presented, and 400 people do not have those jobs. That does not seem like, sound like, or is sound economic policy. Mr. President, we should at least ask for our \$9 million back and maybe take the building that was built and supposed to be utilized for those 400 workers and apply it to another company that could put those 400 workers to work. We should take that money and retrain those 400 laid-off workers for new jobs, and possibly still return some dollars to the State Treasury. In my rough math, Mr. President, that \$9 million with 400 workers, we could have about \$20,000 per worker for retraining, if we were to get the \$9 million back.

It is obvious, Mr. President, that we need to be more proactive in really addressing the economic concerns of those 400 people -400 lives, 400 families. For years we have heard the Majority party criticize this party for just throwing money at some problems. Well, maybe it works in the opposite way this time, that we are standing up and saying that something needs to be done to make sure that those 400 families have some hope. There

needs to be a focus to either retrain the workers, get back the money, get back the plant, but obviously to address the problem, and that is basically all we are talking about.

Thank you, Mr. President.

The PRESIDING OFFICER. The Chair recognizes the gentleman from Lackawanna, Senator Mellow.

Senator MELLOW. Mr. President, I appreciate the comments that were made by especially Senator Boscola and Senator Wagner, and also by Senator Piccola. But I must tell you that it is very disheartening, extremely disheartening to look at a company the size of Corning, which is not an abc.com that just came alive based on Internet stock over the past several years to make projections that unfortunately were not valid projections.

Mr. President, there was so much hope back in September, and I do not know whether it was just coincidental, but it was just several months before the general election, and there was so much hope back at that particular date that northeastern Pennsylvania would benefit from a major corporation, establishing a new product line that would locate in Lackawanna County in Benton Township, and they would employ 2,500 people by the year 2003, which means in 2 years we would have 2,500 people in northeastern Pennsylvania who are not working in this particular industry who would be working in a 2-year period of time. We were further promised, Mr. President, that these would be family-sustaining positions, where they would pay enough money where the wage earner in a family could go to work, the spouse could stay home and take care of the family, and that person could provide the proper type of living that that family so badly needs and so badly deserves.

It is hard for me to understand, Mr. President, how 150 layoffs took place last Thursday and 250 layoffs took place just in the previous month of March, and that was only 6 months after the announcement had been made that this company was going to locate this operation in northeastern Pennsylvania and hire 2,500 people. It is not hard for me to understand how this company benefitted to the tune of \$9.5 million, and as Senator Wagner mentioned, various grants and loans and various types of training programs. I believe that it is incumbent on their part immediately to return that money to the Commonwealth of Pennsylvania and to the taxpayers.

Mr. President, just recently I took a ride near the facility that is under construction, and if you drive by the facility, it is the former plant of a company that existed a few years ago that is no longer in existence. Corning took over the operation of that facility, and they have converted this into a major construction development in the building of a facility, but why are they going to build a facility for 2,500 people, when there is a good chance that nobody is going to be working there, not even the current 200 people who are employed at Corning today? It is highly unfortunate what took place, because people in the district that I represent who for entirely too long, Mr. President, have been riding in the back of the bus, that they have been trying for many, many years to shed, basically shed the image of being a coal cracker, because many people down here have referred to me, oh, you come from the region where there are coal crackers and slate pickers. I am sure, Mr. President, in some point that might have been said in jest, but sometimes there is a lot of truth said in jest, and there is a lot of hurt when people have such great promise for the future and such great vision for what can take place so that they can keep their educated children right there at home where they can marry and raise a family and continue to grow and prosper.

A lot of people, Mr. President, have been misled and I want to say deceived by the action of what took place with Corning, and it is unfortunate that it has taken place. It is not something that I enjoy doing on the floor of this Senate here this afternoon or this evening, because I would never want anything that I am saying here to be interpreted by some executives from Corning to say that if they have an opportunity of doing something in northeastern Pennsylvania that they will not now do it because their hand was called on what has taken place in Benton. But there must be voices in this General Assembly who are going to speak out for those people who cannot speak out for themselves. They have elected us to come here to Harrisburg to do the right thing by them, Mr. President, and to try to give them a better tomorrow.

The point that must be made is this: That just because we give billions and billions and billions of dollars of tax cuts to the largest of large corporations and to the wealthiest of the wealthy people in Pennsylvania, that does not mean that they are in turn coming back to Pennsylvania and to provide for the proper type of employment of our 12.3 or 12.4 million people who live here. And I, for one, who have served in this body for a number of years, am extremely upset about what is taking place here, and I think it is reprehensible that that \$9.5 million is not in a check back to the State coffers today. It should be given from Corning back to the Commonwealth of Pennsylvania with the understanding that when it comes to the day and time when they are going to live up to their promise of September of the year 2000, of 2,500 jobs in place by the year 2003, then we will cooperate with them and we will give them the grants and give them the loans, and we will provide for the proper type of job training for the people who must be trained to handle this new operation. And until then, I honestly believe that the executives of Corning in New York State owe the people of Pennsylvania an apology and an explanation, and I am not sure what should come first.

Thank you.
