

1 To whom it may concern,

2 As a business owner in Villavieja I feel obligated to
3 write this letter. My business is a gasoline station / mini
4 market located on routes 320 + 30. On or about Sept of 94
5 road construction began on routes 30 + 320. From Sept of 94
6 to October of 95 it was a living hell as far as business was
7 concerned. Primo Construction Co. was the assigned contractor
8 (what a mistake that was)

9 The owner of Primo was not the least bit
10 concerned about the business community. I have been on
11 this corner of property since I was a child (family business)
12 and I have seen construction all over the area. Never
13 have I seen a more unorganized, unprofessional, rude, +
14 deceitful contractor.

15 Drive ways were left unfinished for days, promises
16 were broken, work was done to my property that had
17 nothing to do with the road work. (My aprons + fetters,
18 pads were saw-cut ~~with~~ which were only 2 years old
19

20 For weeks on end you would see no activity going on.
21 You could ask his super what the work plan for any
22 given day was, - he had no idea. From July 6 or 7
23 to almost the middle of August it looked like a
24 ghost town, no construction going on at all. The day
25 Villavieja University was opening the doors for the
26 students to move into, Primo decides to work.
27 He ruined the whole day, all roads were
28 bottle necked, cars were overheating, business

1 was out in 1/2. I could go on + on, but
2 I think you get the idea. John was a very
3 non professional, very obnoxious & uncaring person.
4 He has a long reputation throughout the
5 industry, John should not be permitted to do any
6 road work were peoples livelihood is involved
7

8
9 Thank You
10 Pete Damici
