Vehicle Services: Special License Plate Requests

Special plates are those plates with a special logo or a title, which are representative of special interest or group. To set up a plate design:

In State College/University:

To initiate process college/university send written request for plates to be developed.

- College/university must be accredited
- Sponsor must be designated by college/university
- DMV requires written authorization for use of the college/university logo
- Sponsor must provide camera ready art work for plate design.
- Plate fee is \$25 annually, revenue sharing of \$15 per set applies after first 1,000 sets of plates are issued.

Requests should be mailed to:

Special Plates Group
 P.O. BOX 26668
 Richmond, VA 23261

Out-of-State College/University:

To initiate process college/university send written request for plates to be developed:

- College/university must be accredited
- Sponsor must be designated by college/university
- DMV requires written authorization for use of the college/university logo
- Sponsor must provide camera ready art work for plate design.
- Before license plates will be issued sponsor must provide 350 prepaid applications as required by statute.
- Plate fee is \$25 annually, revenue sharing does not apply to out-of-state colleges/universities per statute.

Requests should be mailed to:

Special Plates Group
 P.O. BOX 26668
 Richmond, VA 23261

Organizational Requests:

- Legislation approved by the Virginia General Assembly is necessary to authorize the issuance of special license plates. Contacting a state delegate or senator to offer the legislation is the first step towards authorizing the license plate. DMV will be happy to assist the representative of your choice in drafting legislation consistent with the existing special license plates statutes.
- It is our policy to designate one group or individual to sponsor newly-authorized special license plates in order to coordinate the design approval

process and to facilitate the collection of the applications and the associated fees.

- By law, most newly-authorized special license plates are not issued until DMV has received at least 350 prepaid applications. We have found that it is best to first obtain the 350 applications prior to collecting the associated fees. Otherwise, the monies for the initial applications remain in limbo while the rest of the 350 applications are solicited. Once the applications are obtained, the associated fees are collected and submitted to DMV in total.
- After authorization by the General Assembly, we ask the sponsor to provide camera-ready art work of the preferred license plate design for our review and approval. Once the design is approved and DMV receives the 350 prepaid applications, a prototype is made for your final approval. If you are satisfied with the prototype, the license plates are ordered, produced and issued per the applications.
- The cost for most special license plates for organizations is \$10.00 per year in addition to the prescribed registration fee and any other fees, where applicable. For most revenue sharing license plates, the issuance fee is \$25.00 per year instead of \$10.00.
- Also keep in mind that authorized license plates have a three-year window for submitting the 350 prepaid applications. If a minimum of 350 prepaid applications has not been submitted within three years, the license plate series must be reauthorized by the General Assembly. The 350 prepaid application threshold still must be submitted before the plates can be issued.
