BARBARA HAFER  
TREASURER

The Honorable Richard A. Geist  
Chairman, House Transportation Committee  
144 Main Capitol Building  
Harrisburg, Pennsylvania 17120

Dear Chairman Geist:

Thank you for contacting me regarding the creation and maintenance of special funds in the State Treasury for specialized motor vehicle registration license plates.

Please be advised that from the perspective of the Treasury Department, creation of such additional funds does not pose any administrative or financial difficulty. I have been informed by the Governor's Office that the "burden on the Commonwealth" referenced in the veto message on House Bill 1470 relates to agencies under the Governor's jurisdiction. The legislation would not have created any undue burden on the Treasury Department.

I hope that my input is helpful to your deliberations on these issues.

Sincerely,

A handwritten signature in cursive script that reads "Barbara Hafer".
