

Mr. Chairman, Senator Greenleaf, Representative Taylor, members of the Horsham Council and the Horsham community:

My name is Edward R. Dudlik, Jr. and I am here representing the Delaware Valley Historical Aircraft Association, which has been on the base in this community for sixty-five years.

We have asked our legislators to include language in the Senate and House bills so that we may remain here in the community.

Senator Greenleaf with his staff has put together a proposed amendment that would include DVHAA in Senate Bill 48. The proposed amendment has been reviewed and concurred in by the Legislative Reference Bureau

We would like to offer into the record a copy of the proposed amendment to Senate Bill 48. We would ask that House Bill 111 be amended in a similar fashion, and we would offer into the record a copy of that bill showing where the same amending language would be inserted.

We thank you for giving us this opportunity and we thank the Horsham community for all the support it has given us these many years.
