

House Education Committee
Subcommittee of Higher Education
May 28, 2014 Public Hearing

Barry J. Balaski
Principal
Moon Area High School

- **STEAM** – the push for schools to have more focus on Science, Technology, Engineering, Arts and Mathematics.
- **GRIT** – This is the idea that students need to struggle to learn. Schools need to value risk taking as much as we value the correct answer.
- **Shifting Economy** – Because of technology and a quick changing economy, school districts prepare students for jobs that don't even exist.
- **Business Partnerships** – Schools need the help of businesses in order to help educate our students. With the ever changing economy it is difficult for schools to stay up with trends. We would like to have students go out of our buildings and into yours in order to be educated.
