To whom it may concern,

The Monroe Career & Technical Institute of Bartonsville, PA completely supports the implementation of a financial literacy program at the high school level. We are an institution designed to prepare students for life after high school and we recognize the importance of teaching the whole child.

This program will be a component of our Career Exploration program for the ninth grade students who attend MCTI. We believe that the integration of financial literacy into the curricula will help our students in their transition from high school to the world of work.

Like anything, it is hard to show success in a program's infancy but if there is anything that we can do to share what MCTI is doing with financial literacy we would be more than happy to provide you with feedback or support for the growth of this initiative.

Feel free to contact me directly either at 570-629-2001 x. 1105 or at alazarchak@monroecti.org with questions in regard to our program.

Sincerely,

A handwritten signature in black ink, appearing to read "Adam S. Lazarchak", is written over a light blue horizontal line.
