Dear Chairwoman Gingrich and Chairman Galloway:

Thank you for taking the time to conduct a hearing on House Bill 1800 and your continued interest in making the workers' compensation system in Pennsylvania more efficient, effective and fair to workers.

One Call Care Management is a leading provider of critical services in the workers' compensation industry. Our mission is to ensure that injured workers in Pennsylvania and throughout the country have access to timely and cost-effective care. In 2015, we treated a total of 46,176 injured workers through our network of 4,364 highly credentialed providers across the Commonwealth. In addition, we employ over 200 employees throughout the state.

The services we provide include:

- *Physical Therapy*
- *Diagnostics*
- *Home Health*
- *Transportation & Translation*
- *Dental*
- *Durable Medical Equipment*

One Call Care Management offers the following comment regarding House Bill 1800, which requires a panel of medical providers for the purpose of proposing modifications to the treatment guidelines.

Recommendation – The proposed treatment guidelines panel of medical providers should also include a licensed radiologist. Having a licensed radiologist to serve on the

panel will add value as they are often overlooked, yet they provide a vital service to the injured workers.

Thank you for the opportunity to provide these comments on the proposed legislation. We look forward to continue to provide critical services to injured workers throughout Pennsylvania. Should you have any questions, do not hesitate to contact us.

Sincerely,

Kimberly Rowland
