

My name is Zella Gibson and I'm an advocate for my horrifically murder daughter Natasha Gibson in Dela. County. She was brutally murdered by a Byron Allen aka The Sportskiller, ^{a newly released offender} who also left murdered & assaulted victims in Phila. She was beaten with a bat, throat slit from ear 2 ear severing her vocal cords & trachea and viciously stabbed over 20x. She leaves behind an 11yr old daughter Laniah, who is just heartbroken and devastated, This is evil in the zillionth degree. My daughter was born on my Grandmom's day and that ~~sto~~ special & precious 2 me & my family, She was smart, loving, funny, full of life & spirit. I can't come to terms on how this could have happened. The demon was released from prison after serving 13 of 19 yrs for trying to kill a police officer, he tried 2 kill his own mother. He has ^{an} extensive ^{record} violent history. The demon was a predator in prison what did they think he was going to do in the community. But he was released. He was violating his parole right from prison and no one did anything. My daughter was a good daughter, good person, & good mom.

The sent him to a Kintock Group with no security and was breaking all rules there. His own parole officer was trying to get him back in prison with all the testing positive for PCP, ^{cocaine} not reporting, missed drug/alcohol programs & therapy for his rage & sexual compulsions that he didn't comply with. His P.D. said his SUPERVISOR just wouldn't do it. By the time of my daughters murder he already had 5 victims. He was on PCP when he tried to kill police officer. Parole staff witnessed his erratic behavior yet nothing was done. The agency did nothing. In the Bible it speaks of the Watchmen.

No Drug program no ankle monitor no nothing
In the BIBLE it speaks of the watchmen

You have many roles and duties, well they didn't enforce policies and just say well its a tragic situation, All this bloodshed is on their hands and we need a policy change on the release of violent offenders and the Kintock group is an inadequate facility that needs to be re evaluated or shut down. There are 2 many awful & negligence things going on there.
