Subject: HOUSE BILL 349

Representatives of the Commonwealth of Pennsylvania:

I am asking you to oppose House Bill 349. Local government should be allowed to make these types of decisions for themselves. There are already in place many ways to give the residents other options. This is a professional service which we can appoint just like our Solicitor and Engineers. Please let local government, which is the closest government to the people, to make these decisions for themselves. The administration costs involved in this bill can be huge. If a decision by the Code or Zoning departments is believed to be incorrect by the resident, the resident has the option to appeal that decision. Another un-funded mandate by the State which will be funded by local government.

I implore you to vote against House Bill 349.

Deborah P. Scull
Republican, Resident, and Supervisor of Lower Heidelberg Township , Berks County
