Dear Representative Galloway and Representative Mackenzie,

Iron Workers Local 404 applauds your efforts to advance legislation in order to expand E-Verify and prevent address misclassification. We appreciate your consideration of these pressing issues, as well as the relationship between the two.

At Iron Workers Local 404, we support both proposed bills and look forward to working with you to deter illegal activities and ensure the enforcement of respective penalties. We stand together against fraudulent employment, tax evasion, and unsafe construction practices.

We are looking forward to the upcoming House Labor & Industry Committee hearing. In the future, if we can be of any help, please do not hesitate to reach out.

Sincerely,

Tom Calpin
