Subject: Polk and white haven Closure

I am writing to say I do not agree with the closure of the Pennsylvania state Centers! Polk and White Haven Centers are an important part of our communities and are a vital necessity for our most vulnerable people. The process needs to stop and we need to use the Centers and help as many individuals and offer them the choice of where they would like to live. Also the Centers can be and are already a tool to help people in crisis who need the help and stability and skills to return to the community group homes if they choose. Please support the bill to stop these closures. Our most vulnerable Pennsylvanians are counting on us.

sincerely, Katie McVay
