

TESTIMONY OF XAVIER CARTHEN

I will explain my eviction and how it has impacted my life and health at 61 years of age on permanent disability and what my current living situation is and how I will probably never be able to ever rent again while that eviction is on my record! I was just recently rejected from just trying to rent a room for \$650 that I can afford and my income is 3 times that amount!

I was rejected because my NTN SCORE WAS 34 and I still wouldn't qualify without the eviction that deducted 15 points...my score would be 49, still too low to be approved to rent!

Thank you!
