 - (iv) All others, 30 years.

(b) Term of debt.--The maximum term of the debt authorized to be incurred under this act is 30 years.

Section 16. Appropriations.

(a) Public improvements.--The net proceeds of the sale of the obligations authorized in this act are hereby appropriated from the Capital Facilities Fund to the Department of General Services in the maximum amount of \$1,345,046,000 to be used by it exclusively to defray the financial cost of the public improvement projects specifically itemized in a capital budget. After reserving or paying the expenses of the sale of the obligation, the State Treasurer shall pay to the Department of General Services the moneys as required and certified by it to be legally due and payable.

(b) Furniture and equipment.--The net proceeds of the sale of the obligations authorized in this act are hereby

appropriated from the Capital Facilities Fund to the Department of General Services in the maximum amount of \$34,282,000 to be used by it exclusively to defray the financial cost of the public improvement projects consisting of the acquisition of original movable furniture and equipment specifically itemized in a capital budget. After reserving or paying the expenses of the sale of the obligation, the State Treasurer shall pay to the Department of General Services the moneys as required and certified by it to be legally due and payable.

(c) Transportation assistance.--The net proceeds of the sale of the obligations authorized in this act are hereby appropriated from the Capital Facilities Fund to the Department of Transportation in the maximum amount of \$244,829,000 to be used by it exclusively to defray the financial cost of the transportation assistance projects specifically itemized in a capital budget. After reserving or paying the expense of the sale of the obligation, the State Treasurer shall pay to the Department of Transportation the moneys as required and certified by it to be legally due and payable.

(d) Redevelopment assistance.--The net proceeds of the sale of the obligations authorized in this act are hereby appropriated from the Capital Facilities Fund to the Department of Community Affairs in the maximum amount of \$573,322,000 to be used by it exclusively to defray the financial cost of the redevelopment assistance and redevelopment capital assistance projects specifically itemized in a capital budget. After reserving or paying the expenses of the sale of the obligation, the State Treasurer shall pay to the Department of Community Affairs the moneys as required and certified by it to be legally due and payable.

(e) Flood control.--The net proceeds of the sale of the obligations authorized in this act are hereby appropriated from the Capital Facilities Fund to the Department of Environmental Resources in the maximum amount of \$28,032,000 to be used by it exclusively to defray the financial cost of the flood control projects specifically itemized in a capital budget. After reserving or paying the expense of the sale of the obligation, the State Treasurer shall pay to the Department of Environmental Resources the moneys as required and certified by it to be legally due and payable.

Section 17. Federal funds.

In addition to those funds appropriated in section 16, all moneys received from the Federal Government for the projects specifically itemized in this act are also hereby appropriated for those projects.

Section 18. Maglev contractor requirements.

Any contractor selected for the development, testing and precision manufacturing and fabricating of Maglev guideway and structures under section 6(1)(vi)(A) shall have extensive knowledge of magnetic levitation technology and have been incorporated in this Commonwealth for at least three years for the express purpose of developing magnetic levitation technology. The contractor must also have demonstrated an ability to attract private sector investment involving labor and manufacturers within this Commonwealth and at least one major United States commercial airline, as well as the participation of at least one university within this Commonwealth. In addition, the contractor must also have demonstrated the ability to attract State and local funding for magnetic levitation development.

Section 19. Repeals.

The following acts and parts of acts are repealed:

Section 3(5)(cxlvi) (A) and (E) (I) of the act of October 21, 1988 (P.L.851, No.113), known as the Capital Budget Project Itemization Act for 1987-1988.

Section 42(a)(3) of the act of December 14, 1992 (P.L.894, No.143), known as the Highway-Railroad and Highway Bridge Capital Budget Supplemental Act for 1991-1992.

Section 3(4)(iii) (A) and (12)(iii) of the act of December 28, 1992 (P.L.1694, No.188), known as the Capital Budget Project Itemization Act of 1991-1992.

Section 7(19)(i) (A) and (22) of the act of July 2, 1993 (P.L.804, No.47), known as the Capital Budget Project Itemization Act for 1993-1994.

Section 20. Editorial changes.

In editing and preparing this act for printing following the final enactment, the Legislative Reference Bureau shall insert or revise letters or numbers for projects where the letters or numbers are missing or require revision. The bureau shall also revise the total monetary amounts for the total authorization, debt authorization, appropriations and departmental totals as necessary to agree with the total monetary amounts of the projects.

Section 21. Effective date.

This act shall take effect immediately.

Section 16. Appropriations.

(a) Public improvements.--The net proceeds of the sale of the obligations authorized in this act are hereby appropriated from the Capital Facilities Fund to the Department of General Services in the maximum amount of \$1,345,046,000 to be used by it exclusively to defray the financial cost of the public improvement projects specifically itemized in a capital budget. This item is approved in the sum of \$394,345,000.

(e) Flood control.--The net proceeds of the sale of the obligations authorized in this act are hereby appropriated from the Capital Facilities Fund to the Department of Environmental Resources in the maximum amount of \$28,032,000 to be used by it exclusively to defray the financial cost of the flood control projects specifically itemized in a capital budget. After reserving or paying the expense of the sale of the obligation, the State Treasurer shall pay to the Department of Environmental Resources the moneys as required and certified by it to be legally due and payable.

This item is approved in the sum of \$27,032,000.

This bill contains potential capital spending which exceeds the amount which I requested in my budget message by more than ten times. The aggregate capital debt authorized in previous legislation, but not issued now stands at \$14.7 billion for all categories of projects. This additional spending, if not reduced, could threaten our credibility with the financial community and cause future tax increases. It is unnecessary and beyond the capability of the Commonwealth to undertake in the near future. This level of potential debt and expenditure would be an unacceptable burden on current and future taxpayers of Pennsylvania. I have, therefore, exercised my constitutional responsibility to veto \$1,187,123,000 in project authorizations from this bill.

I have consistently maintained the Commonwealth's financial integrity through exercising restraint in the amount of new construction and other capital projects undertaken. I will continue this policy in my action on this bill (Senate Bill 690). Over the past seven years, and through the worst recession in the last 50 years, Pennsylvania was one of the few major states whose bond rating was maintained and was not downgraded. Approving the substantial increase in Senate Bill 690 without reductions could have a negative impact on our bond rating which would in turn result in higher costs to issue those bonds needed to insure the continued operation of the Commonwealth and its programs, including the capital program. I will not permit this to happen.

As in previous capital project itemization bills I have received, parts of the above appropriations have been deleted because some of the projects included in this bill are not eligible capital projects under law or are duplicates of projects approved in previous capital project authorization

acts. In addition, significant reductions have been made for projects which were not included in an agency five-year capital plan. Had those projects been included in the five-year capital plan which is required of each of our agencies, they would have been analyzed for program purpose, need, legality and cost-effectiveness. Without this critical review, I am unwilling to sign those projects into law.

This is the third year in a row that substantial capital project itemization acts have been passed. It is beyond reasonable expectation that all projects approved in those acts could be started without harming our financial integrity.

As I have mentioned previously when signing capital project bills, some recurring problems with recent capital project itemization acts should be noted here. A major concern continues to be the number of projects included in this bill which cannot realistically be undertaken by the Commonwealth. Some of these projects are in the wrong category or are non-Commonwealth-owned facilities included in the public improvement category which is reserved exclusively for Commonwealth-owned facilities. Other projects contained in the bill do not meet additional legal requirements of the category where they are listed, such as sewer, water and housing projects included in the redevelopment assistance category. Projects are also included which are below the minimum required for a specific category or for bond funding.

A large number of projects which were vetoed from previous acts because they were not included in an agency five-year plan are again appearing in this bill and must again be vetoed for the same reason. This is once again especially true for the higher education institutions whose voluminous projects must again be vetoed for lack of such review. My staff has worked very closely with our higher education institutions to expedite, within our financial constraints, those projects which the institutions felt were needed most. The unilateral inclusion of so many additional and unreviewed projects after these joint efforts, without prior consultation or even notice, is not only ungracious but fiscally irresponsible, since all these projects are considered by the bond rating agencies as possible subjects for the issuance of additional Commonwealth debt.

Another area of concern is the redevelopment assistance program. Prior to Senate Bill 690, the General Assembly had authorized over \$1.4 billion in projects in this category. In addition to the amount of projects approved, over \$1.1 billion in projects has been vetoed from prior legislation. Senate Bill 690, without reduction, would have added over \$573 million to the total to compete for the \$700 million in bond funding which is authorized to be spent in this category. Including the projects approved in Senate Bill 690, the almost \$1.8 billion in authorizations far exceed our ability to pay under a spending cap which was just raised \$400 million in Act 1993-39, which was approved on June 28, 1993.

In addition to these problems, once again funding for certain projects in the transportation assistance category have been authorized with a waiver of the match requirements of 74 Pa.C.S. § 1302(4). While I have not removed the funding for these projects, I will direct the Department of Transportation not

to approve or authorize the release of these projects unless they comply with the match requirements of 74 Pa.C.S. § 1302(4).

As in previous item vetoes of capital project authorization acts, those projects which will not be undertaken are listed below.
