2301. Scope of chapter.

2302. Policy.

2303. Definitions.

§ 2301. Scope of chapter.

This chapter provides for DNA detection of sexual offenders and other offenders.

§ 2302. Policy.

The General Assembly finds and declares that:

(1) DNA data banks are an important tool in criminal investigations, in the exclusion of individuals who are the subject of criminal investigations or prosecutions and in deterring and detecting recidivist acts.

(2) Several states have enacted laws requiring persons convicted of certain crimes, especially sex offenses, to provide genetic samples for DNA profiling.

(3) Moreover, it is the policy of the Commonwealth to assist Federal, State and local criminal justice and law enforcement agencies in the identification and detection of individuals in criminal investigations.

(4) It is therefore in the best interest of the Commonwealth to establish a DNA data base and a DNA data bank containing DNA samples submitted by individuals convicted of, adjudicated delinquent for or accepted into ARD for felony sex offenses and other specified offenses.

§ 2303. Definitions.

The following words and phrases when used in this chapter shall have the meanings given to them in this section unless the context clearly indicates otherwise:

"ARD." Accelerated Rehabilitative Disposition.

"CODIS." The term is derived from Combined DNA Index System, the Federal Bureau of Investigation's national DNA identification index system that allows the storage and exchange of DNA records submitted by state and local forensic DNA laboratories.

"Commissioner." The Commissioner of the Pennsylvania State Police.

"Criminal justice agency." A criminal justice agency as defined in 18 Pa.C.S. § 9102 (relating to definitions).

"DNA." Deoxyribonucleic acid. DNA is located in the cells and provides an individual's personal genetic blueprint. DNA encodes genetic information that is the basis of human heredity and forensic identification.

"DNA record." DNA identification information stored in the State DNA Data Base or the Combined DNA Index System for the purpose of generating investigative leads or supporting statistical interpretation of DNA test results. The term includes nuclear and mitochondrial typing. The DNA record is the result obtained from the DNA typing tests. The DNA record is comprised of the characteristics of a DNA sample which are of value in establishing the identity of individuals. The results of all DNA identification tests on an individual's DNA sample

are also collectively referred to as the DNA profile of an individual.

"DNA sample." A blood or tissue sample provided by any person with respect to offenses covered by this chapter or submitted to the Pennsylvania State Police laboratory pursuant to the former act of May 28, 1995 (1st Sp.Sess., P.L.1009, No.14), known as the DNA Detection of Sexual and Violent Offenders Act, to the former 42 Pa.C.S. Ch. 47 (relating to DNA data and testing) or to this chapter for analysis or storage, or both.

"FBI." The Federal Bureau of Investigation.

"Felony sex offense." A felony offense or an attempt, conspiracy or solicitation to commit a felony offense under any of the following:

18 Pa.C.S. Ch. 31 (relating to sexual offenses).

18 Pa.C.S. § 4302 (relating to incest).

18 Pa.C.S. § 5902(c)(1)(iii) and (iv) (relating to prostitution and related offenses).

18 Pa.C.S. § 5903(a) (relating to obscene and other sexual materials and performances) where the offense constitutes a felony.

18 Pa.C.S. § 6312 (relating to sexual abuse of children).

18 Pa.C.S. § 6318 (relating to unlawful contact with minor) where the most serious underlying offense for which the defendant contacted the minor is graded as a felony.

18 Pa.C.S. § 6320 (relating to sexual exploitation of children).

"Former DNA Act." The former act of May 28, 1995 (1st Sp.Sess., P.L.1009, No.14), known as the DNA Detection of Sexual and Violent Offenders Act.

"Fund." The DNA Detection Fund reestablished in section 2335 (relating to DNA Detection Fund).

"Other specified offense." A felony offense or an offense under 18 Pa.C.S. § 2910 (relating to luring a child into a motor vehicle) or 3126 (relating to indecent assault) or an attempt to commit such an offense.

"State Police." The Pennsylvania State Police.

(a) General rule.--A person who is convicted or adjudicated delinquent for a felony sex offense or other specified offense or who is or remains incarcerated for a felony sex offense or other specified offense on or after the effective date of this chapter shall have a DNA sample drawn as follows:

(1) A person who is sentenced or receives a delinquency disposition to a term of confinement for an offense covered by this subsection shall have a DNA sample drawn upon intake to a prison, jail or juvenile detention facility or any other

detention facility or institution. If the person is already confined at the time of sentencing or adjudication, the person shall have a DNA sample drawn immediately after the sentencing or adjudication. If a DNA sample is not timely drawn in accordance with this section, the DNA sample may be drawn any time thereafter by the prison, jail, juvenile detention facility, detention facility or institution.

(2) A person who is convicted or adjudicated delinquent for an offense covered by this subsection shall have a DNA sample drawn as a condition for any sentence or adjudication which disposition will not involve an intake into a prison, jail, juvenile detention facility or any other detention facility or institution.

(3) Under no circumstances shall a person who is convicted or adjudicated delinquent for an offense covered by this subsection be released in any manner after such disposition unless and until a DNA sample has been withdrawn.

(b) Condition of release, probation or parole.--

(1) A person who has been convicted or adjudicated delinquent for a felony sex offense or other specified offense and who serves a term of confinement in connection therewith after June 18, 2002, shall not be released in any manner unless and until a DNA sample has been withdrawn.

(2) This chapter shall apply to incarcerated persons convicted or adjudicated delinquent for a felony sex offense prior to June 19, 2002.

(3) This chapter shall apply to incarcerated persons and persons on probation or parole who were convicted or adjudicated delinquent for other specified offenses prior to the effective date of this paragraph.

(c) Certain ARD cases.--Acceptance into ARD as a result of a criminal charge for a felony sex offense or other specified offense filed after June 18, 2002, may be conditioned upon the giving of a DNA sample.

(d) Supervision of DNA samples.--All DNA samples taken pursuant to this section shall be taken in accordance with regulations promulgated by the State Police in consultation with the Department of Corrections.

(d.1) Mandatory submission.--The requirements of this chapter are mandatory and apply regardless of whether a court advises a person that a DNA sample must be provided to the State DNA Data Base and the State DNA Data Bank as a result of a conviction or adjudication of delinquency. A person who has been sentenced to death or life imprisonment without the possibility of parole or to any term of incarceration is not exempt from the requirements of this chapter. Any person subject to this chapter who has not provided a DNA sample for any reason, including because of an oversight or error, shall provide a DNA sample for inclusion in the State DNA Data Base and the State DNA Data Bank after being notified by authorized law enforcement or corrections personnel. If a person provides a DNA sample which is not adequate for any reason, the person shall provide another DNA sample for inclusion in the State DNA Data Base and the State DNA Data Bank after being notified by authorized law enforcement or corrections personnel.

(e) Definition.--As used in this section, the term "released" means any release, parole, furlough, work release, prerelease or release in any other manner from a prison, jail, juvenile detention facility or any other place of confinement.

§ 2317. Procedures for withdrawal, collection and transmission of DNA samples.

(a) Drawing of DNA samples.--

(1) Each DNA sample required to be drawn pursuant to section 2316 (relating to DNA sample required upon conviction, delinquency adjudication and certain ARD cases) from persons who are incarcerated or confined shall be drawn at the place of incarceration or confinement as provided for in section 2316. DNA samples from persons who are not ordered or sentenced to a term of confinement shall be drawn at a prison, jail unit, juvenile facility or other facility to be specified by the court. Only those individuals qualified to draw DNA samples in a medically approved manner shall draw a DNA sample to be submitted for DNA analysis. Such sample and the set of fingerprints provided for in paragraph (2) shall be delivered to the State Police within 48 hours of drawing the sample.

(2) In addition to the DNA sample, a full set of fingerprints shall be taken from the person from whom the DNA sample is being drawn for the exclusive purpose of verifying the identity of such person.

(b) Limitation on liability.--Persons authorized to draw DNA samples under this section shall not be criminally liable for withdrawing a DNA sample and transmitting test results pursuant to this chapter if they perform these activities in good faith and shall not be civilly liable for such activities when the person acted in a reasonable manner according to generally accepted medical and other professional practices.

(c) Reasonable use of force.--Duly authorized law enforcement and corrections personnel may employ reasonable force in cases where an individual refuses to submit to DNA testing authorized under this chapter, and no such employee shall be criminally or civilly liable for the use of reasonable force.

§ 2318. Procedures for conduct, disposition and use of DNA analysis.

(a) Procedures.--The State Police shall prescribe procedures to be used in the collection, submission, identification, analysis, storage and disposition of DNA samples and typing results of DNA samples submitted under the former DNA Act, former 42 Pa.C.S. Ch. 47 (relating to DNA data and testing) or this chapter. The DNA sample typing results shall be securely stored in the State DNA Data Base, and records of testing shall be retained on file with the State Police consistent with the procedures established by the FBI. These procedures shall also include quality assurance guidelines to ensure that DNA identification records meet standards for laboratories which submit DNA records to the State DNA Data Base.

(b) Contracting.--The State Police are authorized to contract with third parties for purposes of this chapter .

(c) Use of tests.--Except as otherwise provided in section

2319(c) (relating to DNA data base exchange), the tests to be performed on each DNA sample shall be used only for law enforcement identification purposes or to assist in the recovery or identification of human remains from disasters or for other humanitarian identification purposes, including identification of missing persons.

(d) Restrictions and requirements on contracting party.--Any other party contracting to carry out the functions of this chapter shall be subject to the same restrictions and requirements of this chapter, insofar as applicable, as the State Police as well as any additional restrictions imposed by the State Police.

§ 2319. DNA data base exchange.

(a) Receipt of DNA samples by State Police.--It shall be the duty of the State Police to receive DNA samples, to store, to perform analysis or to contract for DNA typing analysis with a qualified DNA laboratory that meets the guidelines as established by the State Police, to classify and to file the DNA record of identification characteristic profiles of DNA samples submitted under the former DNA Act, former 42 Pa.C.S. Ch. 47 (relating to DNA data and testing) or this chapter and to make such information available as provided in this section. The State Police may contract out the storage of DNA typing analysis and may contract out DNA typing analysis to a qualified DNA laboratory that meets guidelines as established by the State Police. The results of the DNA profile of individuals in the State DNA Data Base shall be made available:

(1) to criminal justice agencies or approved crime laboratories which serve these agencies; or

(2) upon written or electronic request and in furtherance of an official investigation of a criminal offense or offender or suspected offender.

(b) Methods of obtaining information.--The State Police shall adopt guidelines governing the methods of obtaining information from the State DNA Data Base and CODIS and procedures for verification of the identity and authority of the requester.

(c) Population data base.--The State Police may establish a separate population data base comprised of DNA samples obtained under this chapter after all personal identification is removed. The State Police may share or disseminate the population data base with other criminal justice agencies or crime laboratories that serve to assist the State Police with statistical data bases. The population data base may be made available to and searched by other agencies participating in the CODIS system.

§ 2320. Cancellation of authority to access or exchange DNA records.

The State Police shall be authorized, for good cause shown, to revoke or suspend the right of a forensic DNA laboratory within this Commonwealth to access or exchange DNA identification records with criminal justice agencies.

§ 2321. Expungement.

(a) General rule.--A person whose DNA sample, record or profile has been included in the State DNA Data Bank or the State DNA Data Base pursuant to the former DNA Act, former 42

Pa.C.S. Ch. 47 (relating to DNA data and testing) or this chapter may request expungement on the grounds that the conviction or delinquency adjudication on which the authority for including that person's DNA sample, record or profile was based has been reversed and the case dismissed or that the DNA sample, record or profile was included in the State DNA Data Bank or the State DNA Data Base by mistake.

(b) Duty of State Police.--The State Police shall purge all records and identifiable information in the State DNA Data Bank or State DNA Data Base pertaining to the person and destroy each sample, record and profile from the person upon:

(1) receipt of a written request for expungement pursuant to this section and a certified copy of the final court order reversing and dismissing the conviction; or

(2) clear and convincing proof that the sample record or profile was included by mistake.

(c) Limitations.--

(1) An incarcerated or previously incarcerated person may not seek expungement of a DNA sample, record or profile on the ground that that person was convicted or adjudicated delinquent for a felony sex offense prior to July 27, 1995.

(2) A person may not seek expungement of a DNA sample, record or profile on the ground that that person was convicted or adjudicated delinquent for one of the other specified offenses prior to the effective date of the former DNA Act or this chapter.

(d) Effect of expungement.--The expungement of a DNA sample, record or profile pursuant to this section shall have no effect on any data bank or data base match occurring prior to the expungement of the sample, record or profile.

§ 2322. Mandatory cost.

Unless the court finds that undue hardship would result, a mandatory cost of \$250, which shall be in addition to any other costs imposed pursuant to statutory authority, shall automatically be assessed on any person convicted, adjudicated delinquent or granted ARD for a felony sex offense or other specified offense, and all proceeds derived from this section shall be transmitted to the fund.

§ 2323. Good faith.

A DNA sample obtained in good faith under this subchapter shall be deemed to have been obtained in accordance with the requirements of this subchapter, and its use in accordance with this chapter is authorized until an expungement is obtained pursuant to section 2321 (relating to expungement).
