§ 1173. Return to and redispensing by vendor pharmacy.

A drug that is issued to a correctional facility and has left the control of a pharmacist at a vendor pharmacy may be returned to its vendor pharmacy for the purpose of redispensing that drug to fill other prescriptions for other correctional facilities only if the following requirements are met:

(1) The drug is not a Schedule I, II, III, IV or V controlled substance as specified in the act of April 14, 1972 (P.L.233, No.64), known as The Controlled Substance, Drug, Device and Cosmetic Act.

(2) The drug is returned to its vendor pharmacy in accordance with the vendor pharmacy's written policies and procedures that comply with section 1174 (relating to vendor pharmacy redispensing) and the State Board of Pharmacy's rules and regulations in regard to delivery, storage, labeling and reissuing of the drug.

(3) The drug is returned to the vendor pharmacy unopened and still sealed in the unit dose package, unit of issue package, bottle or manufacturer's package.

(4) Each returned unit dose package, unit of issue package, bottle or manufacturer's package retains the drug name, strength, manufacturer identifier, lot and expiration date as originally labeled by the pharmacy or manufacturer.

(5) The drug issued to the facility was at no time in the possession or control of a patient.

(6) The drug remained in a controlled environment of a secured drug room or secured drug cart under the supervision of designated personnel who are responsible for the drugs in that correctional facility.

(7) The drug has no fewer than 90 days before its expiration date.

(8) A pharmacist at the vendor pharmacy determines by visual inspection that the returned products are not adulterated or misbranded.

(9) A pharmacist at the vendor pharmacy using the pharmacist's professional judgment determines that:

(i) The conditions under which the drug has been delivered, stored and handled before and during its return to the pharmacy have preserved proper integrity, stability and labeling of the drug.

(ii) The drug labeling or packaging has not been altered or defaced.

(iii) The drug name, strength, manufacturer identifier, lot and expiration date are retrievable.

§ 1174. Vendor pharmacy redispensing.

The vendor pharmacy to which drug products are returned may redispense a drug properly returned under section 1173 (relating to return to and redispensing by vendor pharmacy), provided that:

(1) The drugs are returned directly from the correctional facility to the vendor pharmacy.

(2) The drugs returned to the vendor pharmacy are stored separately from the rest of the pharmacy's stock.

(3) The redispensing is in compliance with the United States Pharmacopeia and the vendor pharmacy's policies and procedures.

(4) The vendor pharmacy records receipt of the drug, including:

(i) The date the drug was received.

- (ii) The quantity of the drug.
- (iii) The lot number of the drug.
- (iv) The expiration date of the drug.

(5) Information recorded under this section is maintained for at least two years from the date the drug is redispensed.

(6) The unit dose package, unit of issue or originally sealed container stays intact with drug name, strength, manufacturer identifier, lot and expiration date and is not emptied from the returned unit dose, unit of issue or original container for repacking.

(7) The name of any patient for whom the drug was previously prescribed is removed prior to redispensing.

(8) The drug remains in the original container or package and before redispensing the vendor pharmacy ensures that the label meets the requirements of the State Board of Pharmacy's rules and regulations.

§ 1175. Credit for redispensing.

The vendor pharmacy to which drug products are returned shall credit the correctional facility for the unused drugs that are permitted to be restocked for redispensing at a rate determined by the vendor pharmacy and the correctional facility.

§ 1176. Disposal of unacceptable returned drugs.

Returned drugs that do not meet all the requirements of section 1173 (relating to return to and redispensing by vendor pharmacy) shall be deemed unacceptable for redispensing and processed for disposal. Drugs deemed unacceptable for redispensing shall be sent to a destruction agency, reverse distributor, manufacturer, original wholesaler or other approved entity.

§ 1177. Unprofessional conduct.

(1) A pharmacist who is authorized under this subchapter to redispense a drug and who properly relabels and repackages the drug shall not be deemed to have engaged in unprofessional conduct under section 5 of the act of September 27, 1961 (P.L.1700, No.699), known as the Pharmacy Act.

(2) A pharmacist who fails to comply with the provisions of this subchapter may be subject to discipline under the Pharmacy Act.
