7 § 2316.2. Collection of DNA in investigations of high-risk
8 missing persons and missing children.

9 (a) Collection of DNA samples.--In an investigation of a
10 high-risk missing person or missing child, the law enforcement
11 agency shall immediately collect a DNA sample from available
12 personal articles belonging to the missing person or missing
13 child for law enforcement identification purposes.

14 (b) Submission of DNA samples.--Within 48 hours of the
15 collection under subsection (a), the DNA sample shall be
16 delivered to the Pennsylvania State Police for forensic DNA
17 analysis as provided in section 2318 (relating to procedures for
18 conduct, disposition and use of DNA analysis) and submission to
19 the National Missing and Unidentified Persons System as provided
20 in section 2319 (relating to DNA data base exchange), along with
21 the following information, if known to the investigating law
22 enforcement agency:

23 (1) The name of the high-risk missing person or missing
24 child.

25 (2) The age of the high-risk missing person or missing
26 child.

27 (3) The sex of the high-risk missing person or missing
28 child.

29 (4) The height and weight of the high-risk missing
30 person or missing child.

31 (5) The race of the high-risk missing person or missing
32 child.

33 (6) The last known location of the high-risk missing
34 person or missing child.

35 (7) The date of last known contact with the high-risk
36 missing person or missing child.

37 (8) The circumstances of the disappearance of the high-
38 risk missing person or missing child.

39 (c) Definition.--As used in this section, the term "child"
40 means an individual under 18 years of age.
