Section 631.1. Coverage for Oral Anticancer Medications.--

(a) Whenever a health insurance policy provides coverage that includes coverage for cancer chemotherapy or anticancer medications which have been approved by the United States Food
and Drug Administration for general use in the treatment of cancer, the policy shall not provide coverage or impose cost sharing for a prescribed, orally administered anticancer medication on a less favorable basis than the coverage it provides or cost sharing it imposes for intravenously administered or injected cancer medications.

(b) A health insurance policy shall not comply with this section by imposing an increase in cost sharing solely for orally administered, intravenously administered or injected cancer medications.

(c) The prohibitions in subsections (a) and (b) do not preclude a health insurance policy from requiring an enrollee to obtain prior authorization before orally administered anticancer medication is dispensed to the enrollee.

(e) As used in this section:

The term does not include accident only, fixed indemnity, limited benefit, credit, dental, vision, specified disease, Medicare supplement, Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) supplement, long-term care or disability income, workers' compensation or automobile medical payment insurance.

Section 2. The addition of section 631.1 of the act applies as follows:
