1 The following are declared as the legislative policies  
2 underlying this chapter:

3 (1) Veterans and their beneficiaries should have access  
4 to the full range of support services and programs, including  
5 equal access to all support services and awareness programs  
6 providing information to veterans and health care providers

11 instructional guides, but not be limited to signs, symptoms,  
12 risk factors and benefits of early detection through  
13 appropriate diagnostic testing and treatment options.

14 (2) Veterans and their beneficiaries have traditionally  
15 been underserved. They have often been denied access to  
16 individualized and specialized services available to them  
17 because of misdiagnosis or symptoms that manifest later in a  
18 veteran's life, such as services necessary to their health,  
19 well-being, independence and advancement.

20 (3) Support services and awareness programs provided by  
21 the Commonwealth to veterans and their families should be  
22 provided in a manner that promotes independent living,  
23 continued care with partnered health care providers and  
24 assists in maintaining employment and support services for  
25 people in their homes and communities.

26 (4) A department office is needed to advise and assist  
27 the department and health care providers in developing  
28 support services and programs for veterans and their families

27 and future service needs.

28 (7) Serve as a clearinghouse for information regarding  
29 veterans' mental health data, strategies and programs that
