A RESOLUTION

1 Directing the Joint State Government Commission to establish an
2 advisory committee to conduct an ongoing study on the
3 legalization or decriminalization of marijuana and to report
4 its findings and recommendations to the House of
5 Representatives.

6 WHEREAS, The use of marijuana for medicinal and recreational
7 purposes has been part of our society for many decades; and

8 WHEREAS, For many seriously ill patients, medical marijuana
9 has proven to be beneficial to relieve pain and suffering and
10 treat symptoms of their medical conditions; and

11 WHEREAS, Approximately half the states and Washington, DC,
12 have legalized marijuana for medical purposes; and

13 WHEREAS, In 2012, Colorado and Washington became the first
14 states to legally regulate marijuana; and

15 WHEREAS, As of 2017, Alaska, Colorado, Oregon, Washington and
16 Washington, DC, have legalized marijuana, while 16 other states
17 have decriminalized marijuana to some degree; and

18 WHEREAS, In 2014, Colorado collected more than \$76 million in
19 marijuana taxes and fees, while Washington has been projected to

1 collect approximately \$190 million in that state's first four
2 years as a result of its legalization of marijuana; and

3 WHEREAS, According to a recent Gallup poll, approximately 58%
4 of Americans support the legalization of marijuana, while only
5 approximately 40% are in opposition; and

6 WHEREAS, The legalization or decriminalization of marijuana
7 may achieve certain societal benefits, such as:

8 (1) saving public expenditures involving the
9 investigation, prosecution and incarceration of individuals
10 who use, possess or sell marijuana and marijuana products;
11 and

12 (2) enabling law enforcement officials and the criminal
13 justice system to devote greater resources to more serious
14 criminal activities;

15 and

16 WHEREAS, The legalization or decriminalization of marijuana
17 does not necessarily increase substance abuse or dependency
18 rates and may in fact destigmatize an individual from seeking
19 treatment because the social and criminal consequences are less
20 of a concern; and

21 WHEREAS, More information and statistics are necessary for
22 the General Assembly and the Commonwealth to better evaluate the
23 impact of the legalization or decriminalization of marijuana on
